ACCREDITATION

Southern Association of Colleges and Schools
Florida State Department of Education
The seal of Pasco-Hernando Community College is a conquistador’s helmet crested by the name of the college. The helmet represents the rich heritage of the district which dates back to the explorer, Hernando DeSoto. The two county area was called Hernando until 1887 when Pasco County was formed. The district map is superimposed on the dome of the helmet, emphasizing the commitment of the college to serve the entire district. The learning lamp provides light for education and opportunity throughout the district.

PASCO-HERNANDO COMMUNITY COLLEGE

Published annually by Pasco-Hernando Community College 2401 State Road 41 North Dade City, Florida 33525

Pasco-Hernando Community College subscribes to and endorses the non-discrimination clause in Section 202, Executive Order 11246, as amended by Executive order 11375, relative to Equal Employment Opportunity for all persons without regard to race, color, religion, sex or national origin, and the implementing rules and regulations prescribed by the Secretary of Labor, are incorporated herein. This statement includes compliance with 41 FCR Chapter 60, Part I (Job and Recruitment Policies Related to Sex.)

The college reserves the right to make changes in regulations, calendar and offerings as circumstance may require.

RESOLVED, that the District Board of Trustees, Pasco-Hernando Community College, is committed to serving the entire district with a comprehensive educational program of high quality, emphasizing college parallel programs, vocational-technical opportunities and community-service courses.

FURTHER RESOLVED, that we visualize a district-wide campus with every corner of the district being served as courses are taken wherever they are needed.

THE COLLEGE

Pasco-Hernando Community College is the newest of the Florida State-wide system of 28 community colleges. The college was established in 1967 by State Legislature Section 230.0101 of the Florida Statutes. Four years passed in discussions on the location of the campus, various site surveys, and studies by the District School Boards of Pasco and Hernando Counties. In the fall of 1971, a State Survey Team was sent to evaluate a number of sites that had been promised by the District School Board of Pasco County. This survey Team recommended a 100-acre site north of Dade City. This site was approved by the District School Boards of Pasco and Hernando Counties and the State Board of Education.

The District Board of Trustees for the College was formally commissioned in early January of 1972. The Board, composed of five members from Pasco County and four members from Hernando County, immediately set out to select a college president. On March 3, 1972, Dr. Milton O. Jones was selected as the Founding President and began his duties in April with classes offered for the first time in August, 1972.

In June, 1973, the District Board of Trustees and the college broke ground for the first phase of construction on the site in Dade City. The first phase included approximately 45,000 square feet of space for administrative and service functions, adequate faculty offices, and classroom space for 500 full-time student equivalents.

During 1973-74, the college acquired two additional sites within the district, 140 acres in West Pasco and 100 acres north of Brooksville, which were designated for future facilities of the college. Until permanent facilities are erected on these sites, classes are being held in temporary buildings and leased classrooms.

On August 16, 1973 the District Board of Trustees received and reviewed a district-wide educational master plan done by Education Consultants, Inc. of Athens, Georgia. The district-wide plan indicates the potential of the college to grow into a three-campus district within ten years, with an approximate enrollment of 5,000 full-time student equivalents.

The first phase of the East Campus building program was completed and occupied in August of 1974 and dedication ceremonies were held in October. Delivering the Dedicatory Address was the Honorable Reubin Askew, Governor. That same month, the master plan and the preliminary drawings for the West Pasco Campus were unveiled.

On December 11, 1974, the Southern Association of Colleges and Schools announced that Pasco-Hernando Community College had met all the requirements of that organization and had been accepted into membership, P–HCC
thus became a fully accredited institution in less than two years after application for membership.

The first quarter of 1975 saw a continuation of rapid growth for the college. Enrollments increased to 945 FTE and groundbreaking ceremonies were held for the West Pasco Campus in New Port Richey.

STATEMENT OF PHILOSOPHY

Pasco-Hernando Community College is a comprehensive community college established to provide for the educational needs and interests of youth and adults. Accordingly, the college provides opportunities for academic, personal and cultural enrichment, for the advancement of skills, for the better understanding of mankind and the natural world, and for the development of the individual to become a more responsible citizen in our ever-changing society.

OBJECTIVES

Specifically, Pasco-Hernando Community College shall provide the following:

1. A college transfer program to prepare individuals to continue their education beyond the community college level.

2. A vocational-technical program to prepare individuals for employment.

3. A developmental program to provide individuals with opportunities to improve basic skills.

4. A continuing education opportunity for individuals to further their general education.

5. A community service program to provide individuals with opportunities for cultural enrichment and personal development and for vocational training.

6. A counseling and guidance program to assist individuals to make realistic decisions about themselves, and also academic and career goals.

7. A cultural focal point for the community.
COLLEGE CATALOG

The college catalog is the official document which outlines the requirements and regulations that relate to students. It is the responsibility of each student to be aware of and understand these requirements and regulations. The student has the option of remaining under the catalog provisions in effect at the time of the initial enrollment or electing to graduate under the provisions of a newer catalog should they be more advantageous. A student may remain under the provisions of any one catalog for no more than five years.

ADMISSION ELIGIBILITY

There are several ways prospective students can meet the admission eligibility requirements of Pasco-Hernando Community College.

A. Students who have never attended college may be admitted as follows:

1. Graduates of schools accredited by the State of Florida or a regional accreditation agency are accepted in good standing.

2. Graduates from non-accredited high schools will be accepted on academic probation.

3. Students who have completed the General Education Development test will be admitted in good standing.

4. Students who are at least 19 years of age and have not graduated from high school, but who satisfy all other requirements, are eligible for admission in good standing.

5. Students may be admitted by early admission. A high school senior who has completed most of the requirements for graduation may enroll with the permission of the college registrar and high school principal. Credits earned are for high school graduation.

6. Students may be admitted to the credit bank program. Students may remain in high school but take college credit with special permission from the principal or his designate. Credits will be held in escrow until the student completes all admission requirements. When all admission requirements are met, he may enter P—HCC or have credits transferred to another college.

B. Transfer students may be accepted under the following procedures.

1. Students will be accepted in good standing from fully accredited colleges or universities. Students who are on academic probation or suspension from another college may not enter P—HCC until that probation or suspension has been satisfied.
2. Students will be accepted on a provisional basis from non-accredited colleges and universities. Transfer credit may be granted upon completion of 15 semester hours of credit with a "C" average at P–HCC.

3. In accordance with Florida Statutes, no student who has previously been expelled from a Florida community college or university for unlawful possession, sale, or use of narcotic drugs will be admitted to P–HCC for a period of one year from date of that expulsion. No student who has been found guilty of campus disruption will be admitted to P–HCC for a period of two years from date of such finding.

C. A student may be enrolled as a transient student from another institution with special permission from the registrar of that institution without fulfilling other admission requirements. P–HCC students who wish to become transient students must secure approval in advance from the P–HCC Assistant or Associate Dean in order to arrange acceptance of credit.

D. A student may be enrolled at P–HCC without fulfilling admission requirements if he has been accepted at another institution and has the permission of the registrar from that institution. P–HCC students who wish to become dual enrollment students must secure approval in advance from the P–HCC Assistant or Associate Dean in order to arrange acceptance of credit.

E. The following may be admitted as special students.

1. A student who is at least 19 years of age may be admitted as a Special Student without proof of high school graduation or proof of attendance at another college. The student may earn credit for his own edification. If a student should decide to work toward a degree, other than the Associate of General Studies degree, or have a transcript issued, he must satisfy all admission requirements. A Special Student is not classified as either a freshman or a sophomore.

2. Degree holding teachers holding Florida Teaching Certificates may have a transcript issued as a Special Student by providing a copy of the valid Florida Teaching Certificate to the Records Office. Non-degree holding teachers should apply as transfer students.

3. In order to maintain the college ideals of scholarship and deportment, the right is reserved to deny admission to applicants for any reason which is deemed to be in the best interest of the college. Appeals or discussions relating to admission will be addressed to the Admission Committee through the Dean of the respective campus or center.
ADMISSION PROCEDURE

A prospective student may obtain an application from a local high school guidance counselor, or any P-HCC office or by contacting the P-HCC Records Office at the Dade City Campus.

1. The applicant should mail the application with a non-refundable $5 application fee to the Records Office or present it in person at any P-HCC office. Florida residents seeking the reduced course fee must complete a residency affidavit. (See page 6 for residency information.)

2. All applicants who expect to earn a degree must have a high school transcript, GED test score, or a college transcript from each college attended sent directly to the Records Office.

3. Test scores are not required for admission, but all students entering P-HCC for the first time are encouraged to submit scores on the Florida Twelfth Grade Placement Test or any nationally normed test such as ACT or CEEB. If test scores are not submitted, the student may be given a School and College Ability Test by the college.

4. The student will be notified of tentative acceptance or rejection as soon as possible after his application is received.

5. Applications that remain incomplete for an extended period will be classified as Special Students. (See page 8 for definition of a Special Student.)

6. All fees are due and payable at time of registration.

The following schedule of fees are applicable to all students.

<table>
<thead>
<tr>
<th>Fee Description</th>

<tr>
<td>Graduation Fee</td>
<td>10.00 (Non-refundable)</td>
</tr>
<tr>
<td>Credit by Examination</td>
<td>10.00 per course (non-refundable)</td>
</tr>
</tbody>
</table>

Special laboratory fees may be charged for such courses as music, art, science business, or physical education. See fee schedule at time of registration.

Small fees are charged for Community Service courses. The amount of the fee will vary with the length of a course.
Refund Policies for Credit Courses

1. A refund of one hundred percent (100%) may be granted if withdrawal occurs prior to the first day of the session in the fall, spring and summer sessions. For courses that start outside the normal registration period, a one-hundred percent (100%) refund may be granted if withdrawal occurs before the day of the first class meeting.

2. For credit courses, fifty percent (50%) of the fees will be refunded to a student who withdraws from classes during the refund period as specified in the college calendar. For credit courses such date shall not exceed the end of the day on which ten percent (10%) of the prescribed instruction hours in a given course occurs. For courses that start outside the normal registration period, the refund date shall be the same as the last day to register for such a course.

3. State Scholarship Fund fees and laboratory fees will be fully refunded up to the last day for 50% refunds.

Refund Policies for Community Service Courses

A full refund will be made to a student who withdraws from any community service class prior to the second class meeting so long as the second class meeting does not exceed twenty-five percent (25%) of the instruction hours in the course. No refund will be made for conferences, institutes, workshops, seminars, or special training programs after the published starting date.

RESIDENCY INFORMATION

State Board of Education regulations 130–8.33 give the following definition of a bona fide Florida resident for public community college purposes:

"Bona fide residents shall mean that the student, or if the student be less than 18 years of age, his parents or guardian, shall have resided in Florida for at least one year prior to the time of admission to a community college."

If the applicant qualifies as a bona fide Florida resident, proof in the form of a notarized residency affidavit must be submitted as part of the admission requirements. Proof of guardianship is required when applicable.

Changes in out-of-state residency status for purpose of assessment of fees must be applied for through the Records Office. Any changes of residency status cannot become effective until the beginning of the next session.

A new affidavit is required every two years, and with each registration if attendance has not been continuous. An application renewal form is used for this purpose. It should be completed in all details. No fee is required for application renewals.
ACADEMIC POLICIES

Academic Average and Repeated Courses

A student’s academic average will include grades on all work attempted except that only the last attempt of a repeated course will be used in computing the grade point average. When a course is repeated or when two courses are taken in which credit cannot be granted in both, credit will be allowed only in the most recent course taken, even if the latest grade is lower than a previous grade. A student may not repeat a course in which he has earned a grade of “A” or “B” except on an audit basis.

Academic Probation and Suspension

A student’s academic progress will be evaluated at the end of each session. When a cumulative grade point average falls below 1.5 after at least 15 hours are attempted, the student will be placed on academic probation. In this event the student will be required to see a counselor. After the counseling interview and consultation with other faculty members, the counselor may require the student to take one or more of the following actions:

1. Attend additional counseling sessions.

2. Limit the student’s registration to a reduced course load.

3. Limit the type of courses or programs for which the student may be registered.

In unusual situations the counselor may also recommend that the student be suspended from registration at the college for a period of one term. A student suspended under this provision may return after one term, but must have a planning session with a counselor before being readmitted.

Teacher Certification and Recency of Credit

Most courses at the college can apply toward certification or recency of credit for Florida teachers. It is the responsibility of the teacher to insure that the course meets requirements. Teachers holding Florida teaching certificates are classified as special students and are not required to furnish transcripts for admission, but are required to submit copies of their teacher’s certificates, along with their applications for admission.
Class Attendance

Students are expected to attend all classes unless illness or other emergencies arise. The effect of absence upon an individual's grade is determined by his instructor. When absences are such that a student cannot make normal progress, a warning letter will be mailed to the student. If absences are not corrected or if no response to the letter is received, the student will be administratively withdrawn with a grade of "W".

Attendance At More Than One Campus or Center

Students may attend classes at more than one campus or center. However, for purposes of record keeping a student must select one campus or center as a home base. All registration, withdrawal, or change of status must be done at that home base. Students may change their home base at the end of any session.

Classification of Students

Students will be classified according to the following criteria:

Regular A student enrolled in college credit courses who has provided the Office of Records with all the required admission credentials and is officially working toward a degree. This student is classified as follows:
Freshman — A student regularly enrolled in college credit courses who has completed less than twenty-four (24) semester hours of college work at the time of registration.
Sophomore — A student regularly enrolled in college credit courses who has completed twenty-four (24) semester hours but not more than sixty-two (62) semester hours of college work at the time of registration.

Special A student enrolled in college credit courses who does not have on file in the Office of Records all the necessary requirements for admission as a regular student, or one who does not wish to qualify as a regular student. The special student is not classified as either freshman or sophomore.

Audit A student enrolled in a college credit course but not seeking college credit.

Full Time A student enrolled for twelve (12) or more semester hours in Session I, II and III and six (6) or more semester hours in Sessions IIIA or IIIB.
Part Time  A student enrolled for less than twelve (12) semester hours in Sessions I, II or III and less than (6) semester hours in Sessions IIIA or IIIB.

Credit by Examination

Students may earn a maximum of 30 semester hours of college credit by submitting scores at the 50th percentile or above on the College Level Examination Program (CLEP). A maximum of 6 semester hours of credit may be granted in each of the following areas: English, Humanities, Math, Natural Science, and Social Science.

This credit will appear on the student’s permanent record as earned credit without indication of grades. Evaluation of CLEP credit is made after the application fee is paid and the student is admitted to the college.

Credit may be earned in other courses by making a satisfactory score on departmental tests prepared by P-HCC instructors. A charge of $10, non-refundable, will be made for each examination.

Military Service Credit

Pasco-Hernando Community College does not grant credit for military service, military service schools, or military extension courses completed in service. If a student feels sufficiently confident of knowledge obtained elsewhere, the student may seek credit by examination.
Maximum Student Load

The normal maximum student load for Session I or Session II is 18 semester hours and 14 semester hours for Session III. Any student desiring to take more hours must obtain the permission of a counselor.

Grading System

Pasco-Hernando Community College uses the standard grading system adopted statewide.

Grade Point Average

The grade point average is determined by dividing total grade points earned by the total credits attempted. Only the last attempt of a repeated course is used in computing the grade point average.

<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>

Grade Point Average = \( \frac{\text{Total Grade Points}}{\text{Total Hours Attempted}} = \frac{28}{14} = 2.0 \)

A student must have at least a 2.0 grade point average to complete the degree requirements for any program at P-HCC.
Grade Dissemination

A progress report will be distributed at the end of eight weeks of Session I and Session II. Students are urged to be aware of their progress by having conferences with their instructors during the session. Final grades are mailed immediately after the end of a session.

Incomplete Grades

Instructors may assign "I", incomplete grade, when the student has not completed requirements for a course during a given session. Incomplete grades must be made up during the next session and a grade assigned. Incomplete grades not made up during next session will be changed to "W".

Graduation Check

When a student has completed thirty (30) or more hours toward a planned program, the student is required to apply for a graduation check. This graduation check will show the remaining requirements for completion of a program.

Graduation Policy

Graduation must be applied for during the session in which the student plans to complete the requirements for an approved course program. Application for graduation shall include a $10 non-refundable graduation fee. This fee will be used to pay for the diploma and for use of a cap and gown.

Graduation Ceremony

A graduation ceremony will be held each year at the end of Session II. All students who have completed requirements for degrees and certificates during the academic year are encouraged to participate in the graduation ceremony. Students who complete programs at the end of Session II are required to attend.

Library and Instructional Media Services

Library and/or instructional media are located at each campus or center. These include periodicals, pamphlets, maps, filmstrips, records, slides, tapes, cassettes, reference works, and books.

Directed Individual Study

On arrangement with the Dean of the campus or center, a student requiring a course during an academic year in order to graduate that year, and who has not had an opportunity to enroll in that course previously, may take the
course under Directed Individual Study. Directed Individual Study is
defined as a class of one to five students that is not required to meet on an es-
tablished sixteen week, three hour per week, schedule and where there are
provisions for:

A. Meeting with the instructor at least one and one-half hours a week for
sixteen weeks, or a proportionate minimum time for courses of shorter
duration.

B. Instructor option of more frequent meetings and of meetings of longer
duration for those students needing additional attention and/or inter-
action.

C. Option for the student to complete the course earlier than the pre-
scribed length, upon mutual agreement between student and instruc-
tor.

D. Standards and content, in the opinion of the instructor and the respec-
tive Dean, comparable to a regularly scheduled class in the subject.
STUDENT AFFAIRS

Counseling

Counselors are available to assist students and prospective students with personal, academic, or vocational matters. These services are available at the East Campus, West Pasco Center and Hernando Center each weekday by appointment and at other locations throughout the district upon arrangement.

Career Selection and Placement

Each regular student who enrolls in the college must select a program from the Associate in Arts, Associate in Science, Associate in General Studies, or other programs offered. Counselors and Program Planners are available to help with these selections. Program changes may be made at the end of any session, but must be approved by a counselor.

Test scores are not required for enrollment. However, some test scores, such as senior placement, ACT, SAT, or GED, may be used in class placement. If test scores are not available, a School and College Ability Test may be given to the student. These test scores, previous grades, experiences, recommendations, outside activities, and time away from formal education are considered in program selection and class placement.

Testing Services

Counselors frequently make use of tests to help students assess their abilities needs, values, interests, or aptitudes. Testing services are available to any member of the community at no cost to the individual.

Identification Cards

Each student is issued an identification card that must be presented for registration, schedule changes, library use and other college functions. A student must present his ID card at the request of any college official. Loss of this card should be reported to the counselor immediately.
Student Financial Aid

Financial aid at P-HCC is based upon financial need and academic potential. Any student admitted to the college may apply for financial aid. P-HCC makes use of the College Scholarship Service to assess need for financial aid. Each student desiring financial aid should mail a Parent's Confidential Statement or a Student Confidential Statement to College Scholarship Service, Princeton, N.J. Forms may be obtained at any P-HCC office, any local high school guidance office, or from College Scholarship Service.

Application should be made for general financial aid. The aid is generally offered as a package; part scholarship, part grant, part loan, part work. The student then may accept or reject the package or ask to have a different package arranged.

Kinds of Aid Available:

1. Scholarships may be provided by the college, organizations, or the community. No repayment or work is required.

2. The Board of Trustees may waive fees for students who demonstrate exceptional financial need.

3. Supplemental Educational Opportunity Grants are outright grants to students who demonstrate exceptional financial need. The amount of the grant may vary from $200 to $1400 depending upon student need. The grant must be matched by an equal amount of part-time work, loan or scholarship.

4. The Basic Education Opportunity Grant is an entitlement program. Students may obtain application at any high school, college, post office, and at many other locations. Applications are mailed directly to BEOG, Washington, D.C. If the student is eligible, the award may be used at P-HCC.

5. Student Assistants are students who are assigned to work for the college. The amount of work depends upon the need and qualifications of the student. Special skills of students are utilized in this program.

6. In the College Work Study Program, students are assigned to work for the college. Federal funds are being used to pay 80% of this cost. The amount of work is based upon need and student qualifications.

7. Florida State Student Loans utilize state funds to make long term loans to students. No interest or repayment is made as long as the student remains in college. Repayments with low interest are begun six months after termination from college. In order to qualify, students must have been a resident of Florida for the past twelve months and demonstrate a financial need.
8. Federally Insured Loans are loans made by banks, credit unions, other lending institutions, and by the State of Florida. The loans are insured by the federal government. The interest and repayment schedule depend upon the student's family income. Applications may be obtained at lending institutions or P–HCC.

9. Revolving Loans are short term, non-interest bearing emergency loans. Repayment must be made within the same session the loan is made. If it is not repaid within this time limit, 7% interest per annum will be charged.

10. Florida Student Assistance Grants are awarded by the State Department of Education based on financial need. Applications may be sent between January and March directly to the State Department of Education, Tallahassee. The student must also send a Parent's Confidential Statement or Student's Confidential Statement to the State.

11. The Sixty-Two Plus Waiver Program at Pasco-Hernando Community College offers tuition waivers to all residents of Pasco and Hernando Counties who are 62 years of age or over. These senior citizens will be allowed to enter classes on a space available basis only.

Job Placement

The college has established a Job Placement Program to assist students in obtaining part-time or full-time jobs. These services are provided through the counseling staff. All students must complete a job placement résumé before final clearance for graduation.

Veterans Benefits

All degree programs at the college are approved for education and training under the various Veterans Administration programs. It is the responsibility of the student to obtain the original certificate of eligibility from the V.A. This certificate will be presented to a counselor.

The V.A. pays the entitlement directly to the student. In turn, the student must pay fees and obtain the necessary books. Counselors can furnish additional information on V.A. programs and procedures.

Veterans may defer their tuition payments at P–HCC for a maximum of 60 days after the last day to register for classes in the session enrolled. However, the deferred payment may not exceed the number of days in that session.

Tutorial assistance is also available for veterans having a deficiency in one or more subjects and this assistance will be paid for by the V.A.
Withdrawal Policy

A student who wishes to withdraw from the college is required to have an exit interview with the counselor at the campus or center where first registered. When possible, a conference with each instructor is also recommended before withdrawal. Improper withdrawal from any course may result in the award of a failing grade. A student administratively withdrawn from a class for excessive absences will be assigned a grade of "W".

Emergencies

Fire and evacuation exits are identified in all buildings and will be used in emergencies. Also a first aid station has been established at each campus or center. However, the college provides no health services as such and cannot be responsible in event of medical emergency.

In case of disaster, the College President or Dean of the campus or center may cancel classes. Local radio stations will be asked to carry announcements regarding cancellation and reopening in emergency situations.

Any emergency situation observed by a student should be reported immediately to available officials at the campus or center.

In case of personal emergency, the college will try to contact the student. However, the college assumes no responsibility for making such contacts.

Student Conduct

In accordance with Florida Statutes, no college employee or student attending Pasco-Hernando Community College may participate in any activities that are disruptive of the normal, peaceful, and orderly operation of state institutions of higher learning.

The following actions are prohibited at or on any campus or center of the college, or at any college-sponsored or college-affiliated activity or event. Violation of any of these regulations may result in disciplinary action. In addition, disciplinary action may be imposed in special circumstances where prescribed by law.

1. Possession or consumption of alcoholic beverages.
2. Use, possession, sale, barter, exchange, gift, distribution, or other transaction of any narcotic drugs, as defined in Chapter 398 of the Florida Statutes; this includes cannabis sativa (marijuana).
3. Cheating in any form.
4. Stealing.
5. The use of indecent or abusive language.
8. Vandalism or destruction of property.
10. Unauthorized use of the college name
11. Lewd or indecent conduct.
12. Behavior or actions which are disruptive of the normal, peaceable, and orderly operation of the college.
13. Violation of a federal or state law, a county or city ordinance.
14. Repeated offenses of a less serious nature.
15. Assault or physical abuse.
16. Possession or use of explosives (including fireworks), chemical agents, or deadly weapons. This policy does not apply to law enforcement officers either on or off duty.
17. Unauthorized entry and/or occupancy of college facilities.
18. Conspiracy or solicitation to commit an unlawful act or to violate any college regulations or policies.

Disciplinary Procedures

Alleged violations of student regulations or other student misconduct shall be referred to the campus or center dean. Reprimands or unrecorded disciplinary probations are actions which may be administered by the campus or center dean.

Disciplinary probation which is to be recorded on the student's permanent record must be approved by the Vice President upon the recommendation of the campus or center dean.

In all cases in which the penalty could be disciplinary suspension (not to exceed one session) or dismissal from college, the case will be referred by the campus or center dean to a disciplinary board. The board shall be composed of the Vice President as chairman, the assistant or associate center dean, a counselor, a student, and a faculty member — all from the campus or center of the accused.

In all cases in which disciplinary suspension or dismissal could result, the student will be notified by certified mail of the nature of the charges and grounds against him, and the time and date of the hearing. The notice shall also inform the student of his right to appear at the hearing, to face his accuser, and to present any applicable evidence in his behalf.

The disciplinary board, following a careful and thorough hearing on the case, shall make a final determination by a majority vote of the membership, in accordance with one of the following actions:

1. Dismissal from college
2. Disciplinary suspension, for a specified period of time
3. Disciplinary probation, which may or may not be recorded on the student's permanent record.
4. Administrative reprimand
5. Removal of the charges against the student

Decisions of the disciplinary board may be appealed to the President. In all cases in which disciplinary suspension or dismissal from college have been determined, a copy of the proceedings of the hearing shall be sent to the President. Nothing in this procedure shall be so construed as to prevent the President or any appropriate official of the college from taking such immediate action as he may deem necessary, except that final action shall be in accordance with the procedure as prescribed.

**Student Records**

The college shall maintain such information in its files for each student as is considered essential and appropriate to college operation and student welfare. These records are considered confidential and strict security procedures shall be followed by the college regarding the release of student information. A student's file is available for inspection by the student upon request.

**Student Use of College Facilities**

Students are not permitted to remain in any college building after college hours without faculty supervision. Loitering on college property or at teaching locations is not permitted.

**Bookstore Services**

Bookstore services are generally limited to the sale of textbooks for college courses. Books needed for courses at each campus or center will be available for purchase at that location.

**Student Activities**

Participation in student activities is encouraged as an enrichment experience. Students with a common interest may form clubs, groups or organizations with the permission of the respective campus or center Student Government Association and the College Administration. Various activities related to scholastic courses, athletics, service to college and community, publications, religion, and social life may be available including dances, musical and drama organizations, forensics, speeches, and films.
Athletics

College athletics are currently intramural and extramural. College teams also participate in local recreation leagues. As suitable facilities and personnel become available, the college intends to participate in selected intercollegiate sports.

Student Publications

The Student Government Association of each campus or center may sponsor a student newsletter utilizing resources available for student activities. This newsletter will serve as a means of distributing information of interest to students and the public. A professional employee of the college will be assigned by each campus or center dean as advisor to assist the newsletter staff.

Student Government Association

Each campus or center of Pasco-Hernando Community College has its own Student Government Association. Membership is composed of all full-time students attending a particular campus or center. The purpose of each association is to promote active, responsible and cooperative citizenship through participation and self-government and to establish rules for effective procedure and conduct for extra-curricular activities in harmony with student interests.

Student Handbook

The Student Handbook is provided for students as an additional source of information as well as a condensed version of the major policies concerning the student. Each student is required to have a copy of the handbook and to adhere to its contents.
CURRICULUM AND INSTRUCTION

Pasco-Hernando Community College is authorized to award Associate Degrees for satisfactory completion of a planned program of post high school studies consisting of not less than 60 semester hours and to award certificates as are appropriate upon completion of other courses and programs.

Acceleration of Program

Pasco-Hernando Community College has established several ways for a student to earn a degree at an accelerated pace. These are as follows:

Credit Bank: A student may earn credit at P–HCC while still enrolled in high school with the permission of the high school principal or his designate.

Early Admission: A student may be admitted prior to graduation from high school with the permission of the principal. P–HCC credit may be transferred to the high school for completion of high school requirements.

College Level Examination Placement: Up to 30 hours of credit may be awarded upon satisfactorily completing the general CLEP tests at the 50th percentile or above.

Credit by Examination: A student who has acquired competencies may apply to receive credit for those competencies by satisfactorily passing a comprehensive course examination for most courses taught at P–HCC.

Dual Enrollment: A student may be enrolled at P–HCC and another institution simultaneously with permission.

A student must earn at least 15 semester hours in residency at P–HCC in order to obtain a degree. The additional 45 semester hours may be earned by regular class attendance or by any of the methods described above.

COLLEGE TRANSFER PROGRAM

The Associate in Arts degree is the normal college transfer program. Satisfactory completion of this program will allow a student to enter a state university at the junior level.

Great flexibility is allowed in the A.A. degree to permit a student to prepare for almost any bachelor's degree program. College catalogs and counseling manuals from all state universities and other senior colleges are available at the counseling office at any P–HCC campus or center. Counselors will help students adjust their programs to satisfy transfer requirements.
ASSOCIATE IN ARTS DEGREE

The Associate in Arts Degree will be awarded upon completion of 60 credit hours. Thirty-six (36) semester hours must be in General Education courses as provided in the state-wide articulation agreement. The remaining 24 hours shall be taken from the specific course curriculum which the student is following. A minimum of 15 hours credit must be earned in residence at Pasco-Hernando Community College. A cumulative grade-point average of not less than 2.0 or "C" must be maintained.

The 36 semester hours in general education are:

AREA I  Communication  6 Hours
         ENG 121 and ENG 122

AREA II  Mathematics  3 Hours
         MAT 101 or above

AREA III  Science  9 Hours
          Physical Science  3 Hours
          (Any course with a prefix of CHE, PHS, or PHY)
          Biological Science  3 Hours
          (Any course with a prefix of ANA, BIO, BOT, ECY, or ZOO)
          Science Elective  3 Hours
          (Any course with a prefix of ANA, BIO, BOT, CHE, ECY,
           PHS, PHY, or ZOO)

AREA IV  Humanities  6 Hours
          HUM 201 and 202
          or
          HUM 282

AREA V  Social Science  9 Hours
         POS 204  3 Hours
         Electives  6 Hours
         (Any courses with the prefix of:
         ANT, GEO, IDS, HIS, POS, SOC, PSY)

AREA VI  Behavioral Science  3 Hours
         PSY 111

36 Hours

The remaining 24 hours will be completed by courses found in the section of this catalog headed "Course Descriptions."

The college counselors are available and can assist students in planning transfer programs in architecture, business administration, education, engineering, journalism, pre-medicine, pharmacy, and any other area of student interest. For specific details of requirements of programs at senior colleges, consult that college's catalog and a P-HCC counselor.
ASSOCIATE IN SCIENCE DEGREE

An Associate in Science Degree will be awarded upon completion of 60 credit hours earned in a career or technical program. The individual must complete the 15-hour core program for the Associate Science Degree and the Remaining 45 hours from an approved program curriculum. Fifteen hours of credit must be earned in residence at Pasco-Hernando Community College. A cumulative grade point average of not less than 2.0 or “C” must be maintained.

The 15 hour core program for the Associate in Science Degree is:

6 Hours 3 Hours 3 Hours

The following are Associate in Science Degree programs offered at Pasco-Hernando Community College:

Associate in Science in Business with options in:
- Agri-Business Technology
- Banking
- General Business
- Real Estate
- Secretarial Science

Associate in Science in Building Construction Technology
Associate in Science in Environmental Pollution Control Technology
Associate in Science in Food Service
Associate in Science in Law Enforcement

The Associate in Science Degree is designed as a two-year preparation to enter into the world of work. However, some programs may transfer to a senior college which offers a Bachelor's Degree in that area. If the senior college does not offer a Bachelor's Degree in that specific program, many of the courses in an Associate in Science program may not be accepted for transfer. For specific details see your Pasco-Hernando Community College counselor.
AGRI—BUSINESS TECHNOLOGY

This program is designed to prepare students for employment in the business field of agriculture. The graduate should acquire a basic understanding of agriculture fundamentals.

ASSOCIATE IN GENERAL STUDIES

An Associate in General Studies will be awarded for completion of any sixty credit hours (including American Federal Government) with fifteen credit hours earned in residence at Pasco-Hernando Community College. Individual needs and desires will be met through counseling and scheduling. A cumulative grade-point average of not less than 2.0 or "C" must be maintained. The Associate in General Studies Degree is designed to meet an individual's particular interests and is, therefore, not designed to meet requirements for transfer nor any specific program.

Recent discussions with officials of The University of South Florida indicate that the Associate in General Studies may be accepted toward the Bachelor of Independent Study Degree at that institution.

CERTIFICATE PROGRAMS
BUILDING CONSTRUCTION

The Certificate Program in Building Construction requires one year or two sessions for completion. At the conclusion of the first semester or upon completion of the Certificate Program, the participant may transfer into the two-year Building Construction Program.

COOPERATIVE EDUCATION PROGRAM

Cooperative Education balances occupational experience with formal classroom instruction. The program blends theory and practice. The ultimate objectives are to provide relevance in the educational process and direction in career planning while bringing business, the community, the college, and the student closer together for the benefit of all concerned.

These objectives are obtained by coordinating full or part-time work that is relevant to career goals with full or part-time class loads for Cooperative Education students. Though most of Pasco-Hernando Community College’s Cooperative Education students will choose to work and attend school at the same time (the Parallel Plan), the College also allows alternating periods of full-time work and full-time study (the Alternating Plan).

A student must have a minimum of 12 semester hours of academic work completed with a grade point average of 2.0 or better before being assigned to an employer. Students may apply for admission to the Cooperative Education Program at any time. An individual interested in the Cooperative Education Program should follow the procedures outlined below:

1. Obtain an “Application for Cooperative Education Program” form from a counselor or from a Cooperative Education Office.

2. Complete this form with the required references and make an appointment with the cooperative education instructor for an interview.

3. The instructor will interview the student with regard to career interests and possible cooperative assignment.

4. If the student is accepted into the program, the cooperative education instructor will assign an appropriate training position.

COURSE DESCRIPTIONS

The following are descriptions of courses of instruction offered at Pasco-Hernando Community College. Any courses may be withdrawn from the schedule if insufficient enrollment or other factors warrant such action. Courses with no designation are college transfer and are accepted by most colleges. Courses designated with “+” are designated as vocational or occupational and may transfer only to a senior college which offers a Bachelor’s Degree in that area. Courses designated with “**” are considered both vocational and academic. See the catalog of a particular institution to determine if such courses are transferable.
Students may register for any course for which they have the necessary background. A student who feels that he has sufficient training or experience to warrant an exception of the prerequisite should consult a P-HCC counselor.

Students should not expect that all of these courses will be offered at each campus or center in any given session. To determine when and where courses are to be offered, see a Pasco-Hernando Community College counselor.
COURSE DESCRIPTIONS

AGRICULTURE-BUSINESS TECHNOLOGY

+ AGP 260 Forage, Cover and Grain Crops 3 Credits
Scientific and practical considerations in the production of hay, cover and grain crops, and their importance to livestock. Three class hours.

+ AGP 261 Soil Science and Fertilizers 3 Credits
The properties, classification and commercial utilization of soils, basic geology, principles of soil fertility, soil management, cover crops, pH control and soil amendments. Basic fertilization principles, mixing practices, and the laws governing the use of fertilizers. Three class hours.

+ AGP 270 Agriculture Employment Practicum 3 Credits
Students will be assigned to an agricultural business for practical work experience in his or her major field. Three class hours.

+ AME 260 Agriculture Equipment 3 Credits
Farm tractors and field equipment in Florida agriculture, including power unit, tilling, cultivating, spraying, and harvesting machines. Emphasis on the function, operation, preventive maintenance, and management of equipment. Three class hours.

* APR 101 Agri-Business Technology 3 Credits
Introduction to the field of agri-business. Principles of business as applied to agriculture, economics of the agricultural industry and the individual farmer or citrus grower. Three class hours.

+ APR 161 Agricultural Economics and Accounting 3 Credits
Production, distribution, and consumption of agricultural products with emphasis on farm bookkeeping, and the study of governmental controls and regulations regarding agricultural production and marketing. Three class hours.

+ APR 216 Citrus Processing 3 Credits
Fundamental principles involved in processing citrus into various products and by-products. Three class hours.

+ APR 262 Citrus Culture 3 Credits
The origin and growth of the citrus production industry including citrus varieties, nursery practices and establishment, development, and maintenance of groves. Three class hours.

+ ASC Animal Science 3 Credits
An understanding of the importance of livestock to agriculture and to people. Basic nutrition, breeding, selection, and management in livestock production are emphasized. Three class hours.
A review of plant structure, heredity, and environment in relation to growth, adaptation, and management of ornamental plants. The identification and landscape use of ornamental plants most commonly used in Florida. Includes a specific study of turf, soils and soil fertility, plant propagation, insect and disease control, and landscape maintenance of lawn, shrubs and trees. Three class hours.

**Anthropology**

**ANT 220 — Introduction to Cultural Anthropology**  
3 Credits

A study of the nature of culture, personality, and social organization of man. Emphasis is placed on the customs of pre-literate people. Three class hours.

**ANT 230 Introduction to Physical Anthropology**  
3 Credits

The study of man as a biological unit in the animal kingdom. The human fossil record, living primates, the criteria of race and races of man, principles of biological evolution and human genetics are topics of emphasis. Three class hours.

**Art**

**APD 131 Ceramics I**  
3 Credits

An introduction to the methods of building with clay. Six class and studio hours.

**ART 101 Drawing I**  
2 Credits

Introduction to the basic disciplines of drawing through the use of still life, landscape, and the figure. Four class and studio hours.

**ART 102 Drawing II**  
2 Credits

Prerequisite: Art 101 or consent of instructor. A continuation of Art 101. Four class and studio hours.

**ART 110 Art Appreciation**  
3 Credits

A course designed to supply the non-art major with a foundation for understanding the visual arts through introduction to different media or art expression. Three class hours.

**ART 231 Painting I**  
2 Credits

Prerequisites: ART 101 or demonstrate proficiency to instructor. Studio problems in painting involving contemporary styles, techniques and materials of painting. Four class and studio hours.

**ART 232 Painting II**  
2 Credits

A continuation of Painting I on an advanced level of proficiency. Emphasis placed on individual experimentation. Four class and studio hours.

+ Vocational oriented, consult receiving institution for transfer information
* Vocational and academic transfer.
Banking

Courses with FCR prefix are approved by the American Institute of Banking.

+FCR 163 Analyzing Financial Statements 3 Credits
This course is organized into two main sections: Characteristics of Financial Statements and Financial Statement Analysis. The first section serves as a useful review of basic accounting principles for those students who have studied accounting. For those who have not, this section provides the minimum accounting background necessary for profitable study of financial statement analysis. Three class hours.

+FCR 181 Principles of Bank Operations 3 Credits
This course presents the fundamentals of bank functions in a descriptive fashion so that the beginning banker may view his chosen profession in a broad (and operational) perspective. The descriptive orientation is intentional. Banking is increasingly dependent upon personnel who have the broad perspective so necessary for career advancement. Three class hours.

+FCR 182 Loan and Discount 3 Credits
This course teaches bank employees the essential facts about promissory notes, including calculating interest and discounting commercial paper; guaranties; general collateral agreements; examining and processing documents accompanying notes secured by stocks, bonds, and savings account passbooks; and the concepts of attachment, perfection, priority, default, and foreclosure. Three class hours.

+FCR 183 Home Mortgage Lending 3 Credits
This course approaches the subject from the viewpoint of the mortgage loan officer who seeks to develop a sound mortgage portfolio. A picture of the mortgage market is presented first, then the acquisition of a mortgage portfolio, mortgage plans and procedures, mortgage loan processing and servicing, and finally the obligations of the mortgage loan officer in overall portfolio management. Three class hours.

+FCR 184 Bank Letters and Reports 3 Credits
This course is designed for those bank officers, supervisors, and employees who dictate or review correspondence. Since bank letters are actually public relations documents, all persons should be familiar not only with the mechanical forms of bank letters but also with the psychological principles that help the letter writer achieve best results. The course reviews letter forms, emphasizes fundamental principles underlying modern correspondence and examines different kinds of bank letters. Three class hours.

+FCR 261 Credit Administration 3 Credits
This course, directed toward the executive level, concerns itself partly with a statement and a discussion of factors influencing and determining loan policy. Methods of credit investigation and analysis, credit techniques, specific credit problems and regular as well as unusual types of loans are discussed. Three class hours.

+FCR 263 Bank Public Relations and Marketing 3 Credits
This course discusses the basis of public relations, both internal and external, and seeks simply to explain the why, the what, and some of the how of public relations and marketing. It is intended as an overview for all bankers in terms of what everyone in banking should know about the essentials of bank public relations and marketing. Three class hours.
In this course, the techniques of installment lending are presented concisely. Emphasis is placed on establishing the credit, obtaining and checking information, servicing the loan, and collecting the amounts due. Each phase of a bank’s installment credit operation should be carefully scrutinized to be certain that the most efficient methods are employed, for only through an efficient operation can a bank maximize its profits on this particular kind of credit. Other topics discussed are inventory financing, special loan programs, business development and advertising, and the public relations aspect of installment lending. Three class hours.

+ FCR 268 Savings and Time Deposit Banking

This course reflects a knowledge of the historical development of savings institutions and an awareness of the basic economic function of the savings process in order to clarify important differences between financial savings by individuals or organizations and real savings that appear as capital formation. Different types of financial savings are reviewed in order to describe the system of financial flows of income to capital investment. Three class hours.

+ FCR 269 Trust Functions and Services

This course presents a complete picture of the services rendered by institutions engaged in trust business. It endeavors to keep clear the distinction between business and legal aspects of trust functions. Three class hours.

+ FCR 281 Money and Banking

This course stresses the practical aspects of money and banking and emphasizes the basic monetary theory needed by the banking student to apply his knowledge to his particular job. Historical treatment has been kept to a minimum. Emphasis is also placed on such problems as economic stabilization, types of spending, the role of gold, limitations of central bank control, government fiscal policy, balance of payments, and foreign exchange, showing their repercussions on the banking industry in affecting yield curves and the structuring of portfolios. Three class hours.

+ FCR 282 Law and Banking

An introduction to basic American law, presenting the rules of law which underlie banking. Topics include jurisprudence, the court system and civil procedure, contracts, quasi-contracts, property, torts and crimes, agencies, partnerships, corporations, sales of personal property, commercial paper, bank deposits and collection, documents of title, and secured transaction. Emphasis is on the Uniform Commercial Code. Three class hours.

+ FCR 283 Bank Management

This course presents new trends which have emerged in the philosophy and practice of management. The study and application of the principles outlined provide new and experienced bankers with a working knowledge of bank management. Since case study is becoming well established as an effective management learning technique, the text introduces the use of cases as a new element. Three class hours.

+ Vocational orientation, consult receiving institution for transfer information.
+ Vocational and academic transfer.
Biological Science

ANA 115 Anatomy and Physiology 4 Credits

This course is designed for students interested in allied health fields. It includes study of ten human systems. Anatomical and physiological mechanisms will be considered. Laboratory techniques, demonstration, and appropriate anatomical specimens will be studied. Three lecture hours and three lab hours.

BIO 101 Life in Its Biological Environment I 3 Credits

A general, non-laboratory course designed to fulfill general education requirements for students who do not plan to major in science. The course will deal with basic biological principles such as genetics, reproduction, cytology and taxonomy with particular reference to the ecological picture. Three class hours.

BIO 102 Life in Its Biological Environment II 3 Credits

A general, non-laboratory course designed to fulfill general education requirements for students who do not plan to major in science. The course will deal principally with ecology and man's effect on his environment. Basic biological principles which relate to the total ecological picture will be stressed. Three class hours.

BIO 103 Fundamentals of Biology 4 Credits

An introduction to basic biological principles emphasizing the common attributes of all living organisms. These unifying concepts of biology include the chemical structure of living matter, the structure and function of the cell, specialized cells, major functions, control systems, reproduction, genetics, evolution, and ecology. This course is intended for those not planning to major in biology. Three lecture hours and three lab hours.

BIO 241 Microbiology 4 Credits

Prerequisite: BIO 103. Pre- or co- requisite: CHE 101, or 110 A survey of microbial forms with emphasis on the bacteria, their morphology, physiology, genetic mechanisms, and their effect upon organisms. Three lecture hours and three lab hours.

BOT 101 Botany 4 Credits

A survey of the plant kingdom. The lecture, laboratory course is designed to acquaint the biology or science major with basic biological principles as they apply to the various aspects of the plant kingdom. Particular emphasis will be placed on plant evolution. Three lecture hours and three lab hours.

ECY 101 Man and Environment I 3 Credits

A general education course designed to provide students and the public with an understanding of man's interdependence with his environment and his responsibility for it. Many aspects of our environmental crisis such as pollution, urbanization, population trends and changes in life styles will be investigated along with present and projected solutions to our problems. Three class hours.

ECY 102 Man and Environment II 3 Credits

An interdisciplinary education course designed to provide an understanding of the inter-
relationship of man with the varying aspects of his natural and artificial environment from a resource management viewpoint. Many aspects of the environmental crisis such as the impact of political, economic, and social institutions, differing beliefs and myths, and individual and group maladjustments will be investigated along with possible solutions. (Credit can be earned for only one course designated: ECY 102 or IDS 140).

ZOO 101 Zoology 4 Credits

A survey of the animal kingdom with emphasis on taxonomy, life cycles, evolution, organ systems, and phylogenetic relationships. A representative of each of the major groups will be discussed and investigated. Three lecture hours and three lab hours.

Building Construction Technology

+ AIC 280 Mechanical Systems 3 Credits

An introductory course to the environmental control of houses and building with emphasis on equipment design, performance, and maintenance of air-conditioning, heating and steam systems. Three class hours.

* BCN 120 Structures I 3 Credits

The principles and practices of residential building construction with emphasis on regional construction. Three class hours.

* BCN 121 Structures II 3 Credits

The principles and practices of commercial and industrial building construction using structural timber, steel, and concrete. Three class hours.

* DTG 170 Engineering Drawing 3 Credits

The study of orthogonal projection, cross sections, revolutions, intersections and development. Two hours lecture. Three hours lab.

* BCN 170 Architectural Drawing 3 Credits

Prerequisite: Engineering Drawing. The fundamentals of architectural drawing and design including both residential and commercial buildings. Two hours lecture. Three hours lab.

+ BCN 271 Structural Design 3 Credits

Prerequisite: MAT 121–122. This course will cover the strength of materials and their reaction when loads are applied. Students will be required to calculate the strength of materials such as wood, concrete and steel. Three class hours.

+ BCN 280 Construction Estimating 3 Credits

This is a basic course dealing with the computation of building costs for typical construction projects and calculating costs of labor and materials from take-off to final estimate. Three class hours.

+ Vocationally oriented, consult receiving institution for transfer information.

* Vocational and academic transfer.
+ BCN 281 Codes, Contracts, and Specifications 3 Credits
A review of the various statutes, codes, contracts and specifications which are related to
the building industry. Three class hours.

+ CIT 270 Surveying I 3 Credits
Prerequisites: MAT 121–122. An introduction to the basic methods of site surveying,
use of instruments, and note recording. Site plan development for use in building con-
struction projects is emphasized. Three class hours.

+ CIT 271 Surveying II 3 Credits
An introduction to road surveying with an emphasis on cross sections, vertical and hori-
zontal curves. Three class hours.

+ ELC 120 Electrical Systems 3 Credits
A study of residential and commercial electrical practices based on the current National
Electrical Code. Three class hours.

+ PPF 120 Plumbing Systems 3 Credits
The study of the residential and commercial plumbing practices based on the current
Southern Plumbing Code. Three class hours.

* MTY 260 Engineering Mechanics 3 Credits
Prerequisite: MAT 121–122.
The study of force systems including measurements of inertia, vector analysis, trusses
and friction. Three class hours.

* STT 280 Strength of Materials 3 Credits
Prerequisites: MAT 121–122. Investigation of various building materials as to their
stresses, strains, elasticity, and deflection. Three class hours.
Business

+ AAC 240  Federal Income Tax Principles  3 Credits

This course is designed to familiarize students with the federal income tax structure and to provide training in the application of the tax principles to specific tax problems.

* ACC 200  Principles of Accounting  3 Credits

An introductory study of the underlying principles of double entry records; basic types of records and reports; accounting procedure and technique; inventories, valuation and depreciation methods; the form and content of the balance sheet and the income statement. Three class hours.

* ACC 201  Principles of Accounting II  3 Credits

Prerequisite: ACC 200. An introduction to the formation, liquidation, and dissolution of partnerships and corporations. Accounting for stocks and bonds. And introduction to job-order costing and standard costing; and financial statement analysis as an aid to management decision making. Three class hours.

+ APM 120  Business Mathematics  3 Credits

A mathematical treatment of financial problems arising in modern living. The principal purpose of this course is to develop skill in the handling of business transactions. It covers such topics as: percentage, inventories and turnover, simple interest and present value, depreciation, and payroll. Three class hours.

* BAN 205  Principles of Finance  3 Credits

This is a survey of public and private finance. Emphasis is placed on current problems of finance and the development of basic principles. The major topics of study include: the monetary and credit systems of the United States, funds for capital markets, the supply of funds, and credit policies and problems. Three class hours.

+ BDP 160  Introduction to Data Processing  3 Credits

This course is a general survey of what a computer system is, how it works and uses to which it is applied. Both hardware and software will be covered, but actual programming will not be included. The student will be required to investigate the application of computers to his particular field of interest. Three class hours.

 + BUN 270  Business Correspondence  3 Credits

Prerequisite: TYG 170 or consent of instructor. Writing clear, forceful and effective business letters. Construction of letters dealing with orders, inquiries, adjustments, credits, collections, sales and applications for employment. Three class hours.

* BUW 260  Business Law I  3 Credits

Business law which considers the nature and source of our laws, law courts and courtroom procedures. Legal principles covering crimes and torts with emphasis on contracts, agency, employment, and partnerships with relevant provisions of the Uniform Commercial Code. Three class hours.

+ Vocationally oriented, consult receiving institution for transfer information.

* Vocational vs academic transfer.
* BUW 261 Business Law II 3 Credits

Prerequisite: BUW 260. Business law with emphasis on the laws affecting corporations, real property, personal property, secured transactions, sales, commercial paper, insurance, and bankruptcy. Three class hours.

* CPR 120 - RPG Programming 3 Credits

A study of the organization and concepts of Report Program Generator and its application as a programming tool in business and industry. It includes the writing and computer testing of RPG programs. Three class hours.

* CPR 220 FORTRAN Programming I 3 Credits

A study of the organization, components, and concepts of FORTRAN computer language and its application as a programming tool in business and industry. Three class hours.

* ECO 210 Principles of Economics I 3 Credits

An introductory course in economic principles and analysis. Areas covered include: economic features of society; utility and consumption; production and business organization; national income accounting, national income theory—the twin problems of recession and inflation; money, credit, and the banking system; public finance; the principles and problems of full employment without inflation; and microeconomics. Three class hours.

* ECO 211 Principles of Economics II 3 Credits

A course dealing with markets and prices; supply and demand; competition and market structures; distribution of income among factors of production; economic growth and development; other economic systems; and microeconomics. Three class hours.

+ FMC 230 Office Machines 3 Credits

This course will acquaint the student with the machines that are found in the modern office, such as adding machines and electronic calculators. Skills developed are those of a beginning worker. Three class hours.

+ MAG 161 Principles of Marketing 3 Credits

The study of matching products to markets. Discussion of basic marketing functions. Emphasis will be placed on those interacting determinates of demand which make up the marketing environment—the economic, psychological, sociological, and political factors. The legal restraints that make up the forces beyond management control, but are needed in the marketing decision-making process are introduced. Three class hours.

+ MAG 240 Salesmanship 3 Credits

A study of principles underlying all selling activities. This course presents principles and problems in personal selling relating to prospecting, pre-approach, approach, demonstration, meeting objections, and closing the sale. Three class hours.

+ SAM 126 Personal Finance 3 Credits

This course is a survey of the problems and techniques of family financial planning. Major topics include consumer credit, insurance, home ownership, and personal investing. Three class hours.
* SAM 160 Introduction to Business

Fundamentals of business organization, operation, finance, principles of taxation, insurance, marketing, and factors of production. Three class hours.

* SAM 240 Principles of Management

The basic fundamentals of management underlying the solution of problems in organization and operation of business enterprises. An opportunity to relate the material to actual situations is provided by the use of case studies. Three class hours.

+ SAM 260 Personnel Management

Prerequisite: SAM 160. A systematic analysis of personnel problems in organization with emphasis placed upon employee procurement, development, compensation, motivation, communication and the relationship between employer-employee representative. Three class hours.

+ STS 170 Shorthand I

A beginning course in the principles of Gregg shorthand, Diamond Jubilee Series, with some dictation and transcription practice. Open only to students who have had no previous shorthand or less than one year of high school shorthand. Three class hours.

+ STS 171 Shorthand II

Prerequisite: One year of high school shorthand (Gregg) or credit in STS 170. A continuation of Shorthand I with increased practice in dictation and transcription. Spelling, punctuation, and arrangement are stressed. Three class hours.

+ STS 260 Office Procedures I

Prerequisite: STS 170 and TYG 170 or consent of instructor. This course provides for the development of secretarial concepts and instruction and practice in various office duties such as typewriting, copying and duplicating techniques, processing mail, dictating and transcribing responsibilities, mailing and shipping services, and telephoning and telegraphing services. Three class hours.

+ STS 261 Office Procedures II

Prerequisite: STS 170 and TYG 170 or consent of instructor. This course provides for instruction and practice in the following office duties: filing, writing travel itineraries, fulfilling responsibilities for meetings, using data processing and communications techniques, handling banking services, investment and insurance records, payroll records and the legal facets of secretarial work. Three class hours.

+ STS 270 Shorthand III

Prerequisite: STS 171 or two years of high school shorthand. This course reviews the theory of Gregg Shorthand, Diamond Jubilee Series, and develops the ability to take dictation and transcribe rapidly and accurately. Emphasis is given to arrangement, punctuation, and correct English usage. Three class hours.

+ Vocationally oriented, consult receiving institution for transfer information.

* Vocational and academic transfer.
+ STS 271  Shorthand IV  3 Credits

Prerequisite: STS 270. A continuation of STS 270. Three class hours.

* TYG 170  Beginning Typewriting  2 Credits

A study of the touch system of typewriting and the application of the basic skills to business letters, reports, and tabulated problems. Three class hours.

* TYG 171  Intermediate Typewriting  2 Credits

Prerequisite: TYG 170 or one year of high school typewriting. A continuation of TYG 170. Three class hours.

* TYG 270  Advanced Typewriting  2 Credits

Prerequisite: TYG 171 or two years of high school typewriting. Continuation of basic and production skill-building with further application of these skills to advanced office problems. Three class hours.
Chemistry

CHE 101 Chemistry 4 Credits
Chemical symbols, formulas, and equations; states of matter; electronic structure and bonding; thermodynamics; solutions; acids and bases; equilibrium and rules of chemical reactions. Three lecture hours.

CHE 110 General Chemistry and Qualitative Analysis I 4 Credits
Prerequisite: CHE 101 or one year of high school chemistry. This course covers the concepts of periodicity, atomic and molecular orbitals, bonding, properties related to structure, chemical calculations and their solutions relative to state, energy and equilibrium changes of chemical reactions. Three lecture hours and three lab hours.

CHE 111 General Chemistry and Qualitative Analysis II 4 Credits
Prerequisite: CHE 110. This course extends the study of chemical principles in: Solutions, thermodynamics, kinetics, coordination complexes, acid-base reactions, oxidation-reduction, electrochemistry, selected metals, nuclear and organic chemistry. Three lecture hours and three lab hours.

CHE 220 Organic Chemistry I 4 Credits
Prerequisite: CHE 110 and 111. A study of carbon compounds with emphasis on reaction mechanisms, single and multiple bonding resonance, nucleophilic reagents, functional groups, condensations, organometallic compounds. Three class hours.

CHE 221 Organic Chemistry II 4 Credits
Prerequisite: CHE 220. A continuation of CHE 220 giving consideration to carbohydrates, aromatic structure, electrophilic substitution, directive effects, nucleophilic substitution, aromatic derivatives, rearrangements. Three lecture hours and three lab hours.

Cooperative Education

*CWS 101 Cooperative Education I 1 Credit
A seminar which must be taken by every Cooperative Education student in conjunction with the first work assignment. This course is designed to prepare the student for entry into the Cooperative Education Program, and to acquaint the student with the responsibilities to the College and the employer, and to assist the student in relating interests and abilities to a career goal. One class hour.

*CWS 102 Cooperative Education II 3 Credits
Supervised work experience pertinent to the student’s career plans. The work experience must be in an approved setting with a cooperating employer.

*CWS 201 Cooperative Education III 3 Credits
Continuation of CWS 102. The opportunity to move into more rewarding and demanding work experiences that are equalled by the students’ increasing skills.

+ Vocationally oriented, consult receiving institution for transfer information
* Vocational and academic transfer.
Education

EDU 101 Introduction to Education 3 Credits
A general introductory course in education intended to assist the student in understanding the American educational system in terms of its development and present organization. The student is introduced to the problems of the profession, and the field of education is surveyed in general. Directed observations are required. Recommended for those considering teaching as a career. Three class hours.

EDU 181 Individual Study in Education 3 Credits
The focus of this course is the implementation of individualized instruction in the kindergarten through secondary school classroom. Three class hours.

* EPE 111 Early Childhood Development and Education 3 Credits
This course is a study of the mental, emotional, social, and physical needs and growth patterns of children from birth to age six. By emphasizing the mental health aspects of teaching, this course helps students to understand the dynamics of behavior in the preschool child. The importance of teacher-pupil and teacher-parent relationships are stressed. Included is an examination of materials and equipment that are appropriate for use in the preschool program and also are essential for achieving the experiences and the attitudes that characterize an enriched school program. Observation of children in school situations is required. Three class hours.

* EPE 205 Preschool Activities 3 Credits
This course is directed toward planning activities for the preschool child in early childhood education. Emphasis is placed on the selection and use of appropriate equipment and materials for developing readiness in the subject areas. The importance of play, art, drama, music and scientific discoveries are stressed. Laboratory participation in class is a requirement of this course. Recommended for nursery and kindergarten teachers and aides. Three class hours.

* ERE 204 Current Approaches in Teaching Reading 3 Credits
A course designed to investigate and evaluate methods of teaching reading at the elementary level. Three class hours.

+ OCC 010 Orientation to the World of Education and Work 3 Credits
A view of the role of education and work in the community and the expectations placed upon individuals and families by the mores, laws, and traditions of society. Three class hours.

English

+ ENG 111 Communication Skills I 3 Credits
This course, designed primarily for students in occupational programs, improves the listening, speaking, reading, and writing skills of students. It includes reading for comprehension; necessary review and study of functional grammar, usage, punctuation, capitalization, spelling and vocabulary; and practice in writing clear sentences, unified and adequately developed paragraphs, and effective letters. Conferences provide individual instruction. Not intended for transfer, this course may or may not be transferable to another college or university depending upon the policy of the receiving institution. Three class hours.
ENG 112 Communication Skills II  3 Credits

Prerequisite: ENG 111. A continuation of Eng. 111. In addition, the course includes the reading of essays, fiction, and poetry; the writing of short essays, summaries, synopses, and reports; the making of oral reports; additional work in functional usage, punctuation, spelling and vocabulary. Not intended for transfer, this course may or may not be transferable to another college or university, depending upon the policy of the receiving institution. Three class hours.

* ENG 121 English Composition I  3 Credits

Designed to develop composition skills through purposeful reading, logical thinking and the application of principles of rhetoric. It includes practice in the selection, restriction, organization, and development of topics and reinforces the student's facility with sentence structure, diction, and mechanics. Selected writing samples are examined as models of form and as sources of ideas for student's own writing. Conferences provide individual instruction. Three class hours.

* ENG 122 English Composition II  3 Credits

Prerequisite: ENG 121. A continuation of ENG 121. It provides further instruction in the planning, organization, and writing of essays. It stresses methods of library research and effectiveness and appropriateness of style. The readings include selections from literature to stimulate writing. Three class hours.

ENG 160 College Reading Techniques  3 Credits

A developmental reading course designed to develop and improve college reading skills, stressing proficiency in comprehension, flexibility of rate, study skills in subject areas, test-taking competence, and vocabulary improvement. Practice with specialized equipment and materials is provided. Recommended for the average student who wishes to improve his reading potential. Three class hours.

* ENG 901 Fundamentals in English  3 Credits

Involves individualized instruction in the areas of reading, writing, speaking, and listening skills. Through a variety of diagnostic measures the student's entrance level of performance in each of these areas will be determined and a program of studies to meet the individual needs will be pursued. Four class hours.

LIT 210 British Literature I  3 Credits

Prerequisite: ENG 121 or consent of instructor. An introduction to the main literary traditions from Beowulf through Restoration and Eighteenth Century. Study of the best and most characteristic writing of these periods. Three class hours.

LIT 211 British Literature II  3 Credits

Prerequisite: English 121 or consent of instructor. A continuation of the study of British literature, covering the nineteenth and twentieth centuries in the context of the history and society of the times. Three class hours.

LIT 220 American Literature I  3 Credits

Prerequisite: ENG 121 or consent of instructor. A critical study of selections from American literature: Colonial period to the late 19th century. Three class hours.

+ Vocationally oriented, consult receiving institution for transfer information.

* Vocational and academic transfer.
Environmental Pollution Control

EVT 161 Fundamentals of Environmental Science 3 Credits
An introductory view of the principles and concepts that govern the state of the environment. A broad approach will be used to the study of the scientific and technical aspects of topics such as: population, energy, agricultural systems, air and water pollution, waste disposal, and space monitoring. Field trips will be included. Three class hours.

EVT 162 Waste Disposal: Solid, Liquid, Radioactive 3 Credits
The methods of waste treatment and disposal along with their associated environmental effects will be viewed. Recycling procedures and alternatives are to be presented with the intent of using wastes as a natural resource in industry. Field trips will be included. Three class hours.

Food Service

* FSM 160 Introduction to Food Service 3 Credits
A general course intended to familiarize the student with all aspects of the food service industry. A survey of functions of different types of food service. Field trips and guest lecturers representative of local food service establishments. Three class hours.

+ FSM 161 Nutrition 3 Credits
A course emphasizing normal nutrition and the relation between good nutrition and general well-being. Objective of the course is to impress the student with necessity of relating knowledge gained here to his life style. Three class hours.

+ FSM 163 Food Accounting and Cost Control 3 Credits
The study of the policies and procedures involved in accounting in the food service industry and the methods used for controlling food and other costs. Three class hours.

+ FSM 164 Food Service Equipment 3 Credits
A study is made of all types of institutional food service equipment as well as functional layout and design of institutional kitchens and service areas. Field trips to a variety of local institutions included. Three class hours.

+ FSM 170 Basic Food Preparation 3 Credits
A lecture, demonstration and laboratory course in principles of food preparation. All general categories of foods are included with standards of quality preparation and service being emphasized. Three class hours.

+ FSM 280 Food Service Sanitation and Safety 3 Credits
A study of the general principles of sanitary food handling and necessity of maintaining safe and sanitary facilities for the well being of the consumer as well as safe working conditions of the employees. Three class hours.
+ FSM 281 Food Service Supervision and Management 3 Credits

A study of the principles of management particularly as they apply to the food service industry. Students will be taught the role of the supervisor or manager in organizing and directing the work of his employees and his responsibility for planning and coordinating their activities. Three class hours.

+ FSM 282 Food Purchasing and Storage 3 Credits

A study of food purchasing procedures and policies in quantity food service operations. Students will also be taught the proper procedures for receiving, storing and controlling food and other supplies. Three class hours.

+ FSM 283 Food Merchandising 3 Credits

A study of proper food merchandising methods, food display techniques, effective menu presentations, promotional programs, public relations, and effective atmosphere. Three class hours.

+ FSM 290 Quantity Food Preparation 3 Credits

Study and laboratory experience in the preparation of food in quantity. Quality standards in preparation and service, use of standardized recipes and portion control will be included. Three class hours.

+ FSM 292 Areas of Food Service Specialization 3 Credits

A course designed to permit the student to acquire experience in the actual operation of the area of food service in which he desires to specialize. The class time is spent reviewing principles learned in prerequisite courses as they pertain to the area of specialization as well as discussion of the problems as they occur in the actual operation. Three class hours.
Geography

GEO 210 World Regional Geography 3 Credits
A regional study of the relationship of the activities of man and his natural environment, related to the economic development of the countries of the world. This study includes climate, land forms, soils, and vegetation as they affect man's economic state. Three class hours.

GEO 218 Geography of North America 3 Credits
A regional study of the physical and natural environment of North America with particular emphasis on human activities from an ecological perspective. Three class hours.

Health

EME 130 Fundamentals of Emergency Medical Care 4 Credits
Prerequisite: Hold an advanced first aid certificate issued by Red Cross or equivalent. Introduction to the knowledge, skills, and attitudes required in emergency medical care situations. Included is information concerning basic structure and function of the body systems. Emergency procedures for life-threatening problems will be demonstrated with return practice in the college laboratory. There will be clinical laboratory practice in selected emergency rooms in hospitals. This course meets the requirements as recommended by the American College of Orthopedic Surgeons of the AMA. Three class hours and three lab hours.

HEN 107 Personal and Community Health 3 Credits
A study of health problems which are of major importance to our society. Emphasis is placed on the general principles involved in our present understanding of health related areas. Three class hours.

HEN 110 Standard First Aid and Personal Safety 1 Credit
A course dealing with first aid skills to be used in the treatment of injuries in an emergency. Students successfully meeting the requirements of this course with a grade of "C" or better will be issued the American Red Cross Standard Certificate. One class hour.

HEN 112 Advanced First Aid and Emergency Care 3 Credits
Designed to meet the needs of individuals and groups who are in a position to provide first aid and emergency care frequently. It provides the essential knowledge and skills needed to develop functional first aid capabilities. Three class hours.

MRT 270 Medical Terminology 3 Credits
Emphasis is on the handling of medical forms; filling; records; medical terminology and transcription; and medical office procedures. Three class hours.
History

HIS 101 Western Civilization I  3 Credits
Origins and development of western civilization beginning with the classical civilization of the ancient world and dealing with the contributions of each major historical group until the emergence of modern Europe in the commercial revolution of the Sixteenth Century. The emphases are upon social, economic, and cultural trends of each period. Three class hours.

HIS 102 Western Civilization II  3 Credits
The evolution of modern western civilization since the commercial revolution of the Sixteenth Century. This course covers the period of colonization, the industrial revolution, and the emergence of modern national states extending to the present. The emphases are upon social, economic, and cultural developments. Three class hours.

HIS 204 History of The United States I  3 Credits
United States history to 1865 emphasizing the European background, Revolution, Articles of Confederation, the Constitution, problems of the new republic, selectionism, manifest destiny, slavery and the War Between the States. Three class hours.

HIS 205 History of The United States II  3 Credits
A history of the United States from 1865 to the present. Includes the Reconstruction, growth of big business, the agrarian revolt, Latin American affairs, the Progressive Movement, the First World War, and political, economic and world affairs since World War II. Three class hours.

HIS 253 History of Florida  3 Credits
This course begins with the influence of geography on early Indian cultures of the region. The economic, social and political background of Florida is chronologically developed from discovery, settlement and colonization to United States acquisition and the Territorial Experience concluding with statehood. Three class hours.

Humanities

HUM 201 Humanities I  3 Credits
A study of the ideas and ideals which characterize the moral, intellectual and aesthetic activities of early civilizations through the Medieval period. Emphasis is placed upon man's speculative and creative nature as it is reflected in his literature, his art, his music, his philosophy, and his religions. Three class hours.

HUM 202 Humanities II  3 Credits
A continuation of HUM 201. A study of the culture of Western Man from the Renaissance to the present. Three class hours.

+ Vocationaly oriented, consult receiving institution for transfer information.
* Vocational and academic transfer.
A humanities course offering students a study/travel program centered around the cities and countries of the tour. The course will include field experiences, lectures, discussions, humanities area. The student will gain an understanding and appreciation of great and vital ideas through on-site study of great works of art, music, architecture, drama, religion and philosophy in the cultural heritage of Western civilization. Will fulfill requirements in the humanities.

**Interdisciplinary**

**IDS 140 Man and Environment II** 3 Credits

An interdisciplinary education course designed to provide an understanding of the inter-relationship of man with the varying aspects of his natural and artificial environment from a resource management viewpoint. Many aspects of the environmental crisis such as the impact of political, economic, and social institutions, differing beliefs and myths, and individual and group maladjustment will be investigated along with possible solutions. (Credit can be earned for only one course designation: ECY 102 or IDS 140).

**IDS 141 Ascent of Man** 3 Credits

An interdisciplinary course which focuses on the historical development of scientific achievements, and the impact of these on man's progress throughout the ages. It relates to the advancement of human ideas in relationship to the natural forces of the universe and the continuing emergence of civilization.

**IDS 150 Individual Discovery** 3 Credits

This course is designed to help the student learn more about himself and his relationship with other people. Through the use of testing materials, tape recordings and actual experience in interpersonal relationships the student is made aware of how he is affected by others and how they in turn affect him. Three class hours.

**Law Enforcement**

* **LAE 101 Introduction to Law Enforcement** 3 Credits

Introduction to the philosophical and historical backgrounds of law enforcement. Organization, purpose, and functions of law enforcement and other agencies involved in the administration of criminal justice in the United States. Career orientation. Three class hours.

+ **LAE 160 Introduction of Criminalistics** 3 Credits

General course in the scientific aspects of criminal investigation with emphasis upon recording the crime scene, collection and preservation of evidence, and the examination of evidence employing techniques available to the criminal investigator or crime technician. Advanced criminalistics discussed to the extent necessary to familiarize the student with the capabilities and limitations of the advanced police science laboratory. Three class hours.
+ LAE 161 Criminal Investigation 3 Credits
Introduction to criminal investigation procedure including theory of an investigation, case preparation, specific techniques for selected offenses, questioning of witnesses and suspects, and problems in criminal investigation. Three class hours.

+ LAE 162 Police Organization and Administration 3 Credits
Principles of organization and administration in law enforcement: functions and activities; planning and research; public relations; personnel and training; inspection and control; policy formulation. Three class hours.

+ LAE 163 Police Operations 3 Credits
Principles of organization and administration as applied to operational services. Patrol; criminal investigation: intelligence and vice units; juvenile units; traffic administration. Three class hours.

+ LAE 260 Criminal Law 3 Credits
The nature, sources and types of criminal law. The classification and analysis of crimes and criminal acts in general and the examination of selected specific criminal offenses. Three class hours.

+ LAE 261 Police Role in Crime and Delinquency 3 Credits
A general orientation to the field of criminology. Considers the following topics: development of delinquent and criminal behavior; initial handling and proper referrals; preventive police techniques. Specific police problems studied, such as addicts, the mentally ill, compulsive and habitual offenders. Special attention given to the police handling of juveniles and youths. Three class hours.

+ LAE 262 Constitutional Law for Police 3 Credits
A comprehensive survey of areas of constitutional law important to operational levels of law enforcement; includes a study of cases interpreting applicable provisions of the Bill of Rights; includes study of laws of arrest, search and seizure, right to counsel, self incrimination, interviews, and interrogation, due process of law and the right to a fair trial. Three class hours.

+ LAE 263 Rules of Evidence in Criminal Cases 3 Credits
Study and evaluation of evidence and proof; kinds, degrees, admissibility, competence and weight; specifically deals with rules of evidence and procedure of particular importance to the operational level in law enforcement. Three class hours.

+ LAE 280 Seminar in Police Problems 3 Credits
Prerequisite: Satisfactory completion of 9 hours of LAE courses. Research, writing, and discussion of selected subject areas including foreign police agencies, industrial and retail security, and duties of various government regulatory agencies. Analysis of contemporary police problems. Three class hours.

* Vocationally oriented, consult receiving institution for transfer information.
LIS 101 Introduction to the Use of Books and Libraries 3 Credits

Brief overview of development of books, printing and kinds of libraries; and an introduction to the use of those basic reference materials available in a community college learning resources center. Three class hours.

LLR 165 Learning Resource Equipment and Materials 3 Credits

A study of the day-to-day uses, operation and general maintenance of school learning resource center equipment and materials. Sources, scheduling of equipment, print and non-print plus cataloging is covered in the course. Production time includes development of basic materials, bulletin boards, dry mounting, transparencies and tapes. Three class hours.

Mathematics

MAT 101 College Mathematics I 3 Credits

Prerequisite: Two years of high school mathematics including one full year of algebra or equivalent. Designed to meet the general education mathematics requirements. Emphasis on concepts. The topics include mathematical logic, set symbolism and terminology number basis, finite mathematical systems, introductory algebra and geometry and introduction to the real number system. Three class hours.

MAT 102 College Mathematics II 3 Credits

Prerequisite: MAT 101. This is an extension of MAT 101. Among the topics included are: elements of modern geometry, a treatment of rational and irrational numbers, polynomials, inequalities, exponents and radicals, linear and quadratic functions, and complex numbers. Three class hours.

MAT 120 Intermediate Algebra 3 Credits

Prerequisite: One year of high school algebra. This course is designed to prepare students wishing to enter MAT 121 but who have an inadequate or antiquated background in high school algebra. Topics include an introduction to the mathematics of sets; the complex number system; linear, fractional, radical and quadratic equations and inequalities, relations and functions and their graphical representations. Three class hours.

MAT 121 College Algebra I 3 Credits

Prerequisite: Two years of high school algebra and one year of high school geometry. A study of the techniques of algebra. An analysis of the real number system is introduced. Topics include: factoring, exponents and radicals, linear and quadratic equations, systems of equations, introduction to matrices, graphs, mathematical induction, theory of equations. Three class hours.

MAT 122 Trigonometry 3 Credits

Prerequisite: Mat 121, 2½ years of high school algebra, or two years of high school algebra and one year of plane geometry. This course treats trigonometric functions as functions of real numbers with trigonometric functions of angles as a subordinate topic. It includes identities, solutions of triangles, complex numbers, and the theory and use of logarithms. Three class hours.
MAT 231 Calculus and Analytic Geometry I  
**Prerequisite:** MAT 121 and MAT 122 or equivalent. This course emphasized the line, inequalities, limits and continuity, derivatives, the differential, and conic sections. Five class hours.

MAT 232 Calculus and Analytic Geometry II  
**Prerequisite:** MAT 231. Emphasized are: the definite integral, applications, differentiation and integration of trigonometric and exponential functions, parametric equations, polar coordinates, and formal methods of integration. Five class hours.

MAT 233 Calculus and Analytic Geometry III  
**Prerequisite:** MAT 232. Topics include: application of integrals, indeterminate forms, infinite series, vectors, three dimensional analytic geometry, and an introduction to partial differentiation and multiple integration. Five class hours.

MAT 251 Elementary Statistics  
**Prerequisite:** MAT 101 or three years of high school mathematics. This course includes the study of descriptive statistics covering measures of central tendency and dispersion, frequency distributions, normal distributions, linear regression, correlation, sampling, probability and the normal distribution, hypothesis testing, students’ “t” distribution, the Chi-square test, the “F” distribution, analysis of variance, and non-parametric tests. Three class hours.

+ MAT 910 Fundamentals in Mathematics  
A study of the operations of arithmetic. Many fundamental skills and concepts are included. Basic algebraic skills and concepts are stressed. The course is designed to meet the individual needs of the students. Four class periods per week.
Music

MUS 101 Music Appreciation 3 Credits

A general survey of music and its composers, with extensive listening in order to develop intelligent understanding and appreciation of the world's great music. This course is open to all students. Three class hours.

MUS 112 Music Theory I 3 Credits

Basic course for prospective music majors in the fundamentals of music: chord construction and progression; rhythmic and melodic ear training, dictation, sight singing; elements of form analysis, and harmony; simple composition. Three class hours.

MUS 113 Music Theory II 3 Credits

Prerequisite: MUS 112. Continuation of the basic course with emphasis on further development of musical skills. Application of principles at the keyboard. Three class hours.

MUS 150, 151, 250, 251 Applied Music 1 Credit

Private instruction in voice, piano, organ, woodwind, brass and percussion instruments. Area of specialization required of all music majors. Special fee. Two one-half hour lessons per week.

MUS 163 Stage Band 1 Credit

Designed to give the student a musical experience performing the popular music of the past 30 years. Three lab hours.

MUS 164 College Chorus 1 Credit

This course will offer a wide variety of types and periods of choral literature. It is open to all students of the College and the members of the community. No auditions are given. This group will represent the college in school and Community functions. Three class hours. (Can be taken for credit up to 4 times.)

MUS 180 Music for the Classroom Teacher 3 Credits

Contemporary methods and materials in music for the classroom teacher or supportive personnel will be emphasized. Basic skills and activities which can be utilized in the classroom by the teacher are to be presented. Three class hours.

MUS 212 Music Theory III 3 Credits

Prerequisites: MUS 112 and MUS 113. The second year in musical theory with emphasis on advanced harmony and chord structure. Examination and analysis of form and varying styles from the past to the contemporary. More advanced problems in composition for various media, and a continued development of aural skills. Three class hours.

MUS 213 Music Theory IV 3 Credits

Prerequisites: MUS 112, MUS 113, MUS 212. The final sequence of music theory. Continued development of harmonic materials; aural and visual analysis; problems in composition involving form and instrumentation. Three class hours.
Philosophy

PHI 110 Logic 3 Credits
The application of reason to develop logical skills and understanding. The study of deductive and inductive methods used to distinguish correct from incorrect reasoning. Three class hours.

Photography

PTY 101 Basic Creative Photography I 3 Credits
This course is designed to give the student an introduction to the camera, its mechanics and use. Initial instruction will be given on the photographic process, lighting scenes, exposure, development, and printing of photographs. Three class hours.

PTY 102 Basic Creative Photography II 3 Credits
A continuation of PTY 101. Emphasis will be placed on in-depth study of cameras, film, paper, lenses, photographic accessories, and darkroom techniques. Three class hours.

Physical Education

A. A. and A. S. Degree Candidates must consider Physical Education courses as courses outside of the 60 hour requirement.

PED 104 Basketball 1 Credit
Instruction in basketball skills, history and rules. Emphasis will be placed on offensive and defensive skills. Team strategy will be developed in the offensive and defensive areas. Two class hours.

PED 106 Bowling 1 Credit
This is a coeducational course for beginners and is primarily designed to provide the student with the proper knowledge and to develop the skills necessary to enjoy recreational bowling. Two class hours.

PED 112 Golf 1 Credit
Instruction in skill techniques, history, rules, social and physical values of golf with emphasis on skills at beginning and intermediate levels. Two class hours.

PED 212 Advanced Golf 1 Credit
Prerequisite: PED 112 or consent of instructor. Instruction in skill techniques, rules, social and physical values of golf with emphasis on skills at intermediate and advanced levels. Two class hours.

PED 115 Karate 1 Credit
The study of the art of Karate. A culturally oriented course designed to increase one's knowledge of this oriental art. Emphasis is on the history, styles and development of the physical and mental unity which makes karate an art. Two class hours.

* Vocationally oriented, consult receiving institution for transfer information.
* Vocational and academic transfer
PED 117 Softball

Instruction in the history, rules and skills of softball. Emphasis will be placed on the slow pitch game. Opportunity to participate in intra-class league play will be presented. Two class hours.

PED 118 Tennis

This is a coeducational course for beginners and is primarily designed to provide the student with the proper knowledge and to develop the skills necessary to enjoy recreational tennis. Two class hours.

PED 218 Advanced Tennis

Prerequisite: PED 118 or consent of instructor. An advanced course in tennis with emphasis on mastery of actual game and match situations. A thorough review of all tactics, strokes, and strategies of the sport will be stressed. Two class hours.

PED 131 Beginning Swimming

This is a coeducational course for non-swimmers or for those who are able to swim but a few yards and are not secure in deep water. Two class hours.

PED 220 Volleyball

Instruction in volleyball history, rules and skills. Treatment of offensive and defensive patterns will be stressed. League play will be provided on an intra-class basis. Two class hours.

PED 235 Senior Life Saving

Teaching water safety, self-rescue and accepted methods of assisting others in danger of drowning. Successful completion of this course qualifies the student for the American Red Cross Senior Life Saving Certificate. Two class hours.
Physical Science

PHS 101 Life in Its Physical Environment I 3 Credits
To acquaint the student with the history and development of the physical sciences with integration principles and theories in the physical sciences, and with the practice of the scientific method. Three class hours.

PHS 102 Life in Its Physical Environment II 3 Credits
Designed to acquaint the student with the development of science, with the integrating principles and theories in the earth sciences, with the practice of the scientific method, and with a useful knowledge of selected areas of the earth sciences; solar astronomy, geology, and meteorology. Three class hours.

PHS 103 Energy Systems and Natural Resources 3 Credits
A study of our energy fuels and other natural resources, their use, economics and supply. The methods of resource recovery and processing, along with their associated environmental effects will be included. Field trips. Three class hours.

Physics

PHY 101 General Physics I 4 Credits
Prerequisite or Corequisite: MAT 122. Subject matter includes mechanics, heat, and sound. This course is designed for students not majoring in the physical sciences. Three class hours and three lab hours.

PHY 102 General Physics II 4 Credits
Prerequisite: PHY 101. Subject matter includes electricity, magnetism, light, and some modern physics. This course is designed for students not majoring in the physical sciences. Three class hours and three lab hours.

Political Science

POS 204 American Federal Government 3 Credits
A study of the theory, organization, principles, and functioning of the Federal Government, emphasizing relationship of the individual to the government and study of US Constitution. Three class hours.

POS 205 State and Local Government 3 Credits
Study of state, county, and municipal government with emphasis on the newer tendencies in local government. Three class hours.

† Vocationally oriented, consult receiving institution for transfer information.
* Vocational and academic transfer.
Psychology

SOP 110 Human Relations 3 Credits

Drawing from several areas of behavioral science, the course is designed for students in business and technical fields. Also suitable for general education and personal enrichment. Includes group dynamics, leadership, ethics, motivation and morale, social systems, formal and informal organizations, and other selected topics. Three class hours.

PSY 111 Introduction to Psychology 3 Credits

An introduction to the field of psychology wherein the student becomes better acquainted with the human being as a bio-social organism. Topics include: scientific method in psychology, interaction of heredity and environment, receptor mechanisms, perception, basic statistical concept, intelligence, motivation, emotion, learning, normal and abnormal reaction to frustration psycho-therapy, and personality structure. Three class hours.

PSY 115 Creative Thinking and Imagination 3 Credits

Ideational sources of creativity; nature and utilization of imagination; theories and application of creative thought and problem solving. Emphasis is on the importance of imagination in all walks of life and work. "Brainstorming" and case method approaches are stressed. Methods of screening and implementing ideas are studied. The objectives of the course include instilling an awareness of the vital importance of creative effort and stimulating the student's ability to utilize the creative approach to his life and work. Three class hours.

PSY 242 Child Psychology 3 Credits

A developmental study is made of the normal child from birth to the adolescent years. Practical applications are stressed, with their implications for the parent and teacher as well as for the evolving individual. Written reports on observations of several age levels of infancy and childhood are a part of the course. Three class hours.

PSY 243 Adolescent Psychology 3 Credits

A study of the normal development, characteristics, and problems of the adolescent period with emphasis on the evolution of desirable adulthood. Three class hours.

Real Estate

* RES 160 Principles and Practices of Real Estate 3 Credits

A study of the legal and economic aspects of real estate. This involves ownership and transfer of real property, the real estate market, titles, deeds, mortgages, liens, taxation, and property management. This course meets the requirement of the Florida Real Estate Commission for the Salesman's License Examination. Three class hours.

+ RES 161 Florida Real Estate License Law 3 Credits

Prerequisite: RES 160 or consent of instructor. To familiarize the student with the Real Estate License Law and its provisions under which he will operate as a registrant. The material will aid in preparing the participant for the state salesman's examination. Three class hours.
This course is an exploration of investment opportunities available today, and the impact of taxation and financing upon the goals and objectives of the investor. Three class hours.

RES 163 Real Estate Appraisal

This is an intensive course that has been developed to impart a broad understanding of real property appraisal concepts and to teach technical skills employed in their applications to residential properties. It is designed to give the experienced real estate man a basic knowledge of appraisal fundamentals. Three class hours.

RES 281 Real Estate Finance

Typical topics considered include the problems involved in obtaining mortgage money; money sources, mortgage liability, foreclosure proceedings, debts and pledges, titles and liabilities of mortgagor and mortgagee.

RES 282 Mortgage Broker in Mortgage Lending

This course offers an exposure to the principles and techniques of mortgage financing and brokerage operations and a background study of the Florida Mortgage Brokerage Act.

Religion

REL 101 World Religions

The religious inclinations of man have found expression in varied types of worship and many forms of belief and have produced such religions as the mysteries of Greece and Rome, Zoroastrianism, Hinduism, Buddhism, Confucianism, Shintoism, Judaism, Mohammedanism, and Christianity. Each of these religions is studied to discover its teaching and its contribution to the world of thought and moral uplift. Three class hours.

REL 210 Old Testament

A study of religious thought and instructions in the Old Testament. Attention is given to the problems of authorship, date, historical setting, and textual criticism. Three class hours.

REL 212 New Testament

A study of the life and teaching of Jesus, and of the beginnings of church life and thought as reflected in the New Testament. Three class hours.

+ Vocationally oriented, consult receiving institution for transfer information.
* Vocational and academic transfer.
Sociology

SOC 201 Introduction to Sociology  3 Credits

The study of human behavior as a product of group membership and social interaction. Basic concepts include: culture, social organization, social change, social control, social control, social power, social movement, role and status, crowd behavior, race and ethnic relations, community, population, social class, and social mobility. Three class hours.

SOC 210 Social Problems  3 Credits

American society is reviewed as a social system whose ideology and values produce conditions defined by its members as social problems. Emphasis is given to the nature and cause of, and solutions to, these problems. Three class hours.

SOC 220 Marriage and the Family  3 Credits

A sociological analysis of preparation for marriage and adjustment to family life. Topics include: dating, mate selection, inter-personal relations, sexual adjustment, finance management, child rearing, and family problems. Three class hours.

SOC 232 Introduction to Crime and Delinquency  3 Credits

Crime and delinquency will be viewed as aspects of socially defined deviant behavior. To be investigated are cultural nature, etiology, causal theories, problems of penology, and programs for treatment and prevention. Three class hours.

Spanish

SPA 101 Beginning Spanish  3 Credits

A beginning course covering the fundamentals of Spanish grammar. The communication skills of hearing, speaking, reading, and writing are developed simultaneously. Course material is supplemented with simple prose texts and audio-visual aids. Three class hours.

SPA 102 Intermediate Spanish  3 Credits

Prerequisite: SPA 101. A thorough review of the principles of grammar. Composition and conversation planned to develop a basic active vocabulary and facility in understanding written and spoken Spanish. Three class hours.

Speech and Communications

COM 102 Introduction to Broadcasting  3 Credits

Introduction to the principles, tools, and skills involved in radio and television broadcasting. Three class hours.

COM 207 Creative Writing  3 Credits

A course for students desiring experience in writing short stories, poems, novels, personal essays, and magazine articles. Discussion of outstanding contemporary writers' work, group reading, and an analysis of student writing. Three class hours.

SPE 110 Fundamentals of Speech  3 Credits

This course is designed to help the student improve in oral communication skills. Speech assignments are designed to acquaint the student with the importance of organization, the principle of clarity, interest and persuasion. Three class hours.
SPE 150 Introduction to Oral Interpretation 3 Credits

The art and technique of interpreting literature. Aesthetics, evaluation and performance in reading aloud prose, poetry, and dialogue are demonstrated and practiced. Three class hours.

SPE 220 Public Speaking 3 Credits

This course provides practice in the preparation and delivery of various professional public address forms: impromptu, memory, and manuscript reading. It includes analysis of selected public addresses in terms of audience effectiveness and public policy formulation. Three class hours.

COMMUNITY SERVICE COURSES

Pasco-Hernando Community College will provide such community service programs in adult and continuing education as are needed to serve the youth and adults of the college district.

Community Service courses are divided into three distinct categories, education, citizenship, and vocational because of state funding requirements.

Avocational community service courses are intended primarily for the enjoyment of the participant; to enhance and develop leisure time interests and activities.

Citizenship courses are designed to meet the special interests of the people within the district. Education is offered to groups with a particular need in a specialized area. Courses of this type may also be taken for personal satisfaction.

Community service courses designated as vocational are the only courses in the three categories which qualify for the expenditure of state funds. The vocational courses have been organized to develop or enhance the occupational skills of the individual.

Further information concerning community service courses can be obtained by contacting a Community Service Specialist at any center or campus of the college.
FACULTY

ALLEN, Carol Ann .................................................. Instructor, Language Arts
B.A., West Virginia Wesleyan College 1967
M.A., Wayne State University 1971

ALLEN, Willie Carolyn ........................................... Instructor, Secretarial Science
B.S., Florida State University 1963
M.S., University of Tennessee 1966

BREUDEL, Robert L. ............................................. Dean, West Pasco Center
B.A., State University of New York
M.S., State University of New York
Ph.D., Florida State University

BURNS, Nicholas P. ............................................... Adult Supervisory Trainer
B.S., Florida State University 1974

CHANDLER, Neely ............................................... Adult Training Program Specialist
B.S., University of Tampa 1971
M.A., University of South Florida 1972

CHARTERS, Arlen E. ............................................... Coordinator, Data Processing
B.A., Pacific Union College 1959

CULLIGAN, James Arthur ........................................ Assistant Dean, Vocational-Technical Programs
B.S., University of Florida 1960
M.S., University of Florida 1969
Ed.D., University of Tennessee 1973

CUNNINGHAM, Mac H., Jr. ..................................... Director, Business Affairs
B.S., Florida Southern College 1957

DE MEZA, David A. ............................................... Instructor, Language Arts
B.A., State University College, N.Y. 1963
M.Ed., State University of New York 1967
DUNCAN, L. Wendell ........................................ Associate Dean,
East Campus
B.S., Georgia Southern College 1953
M.Ed., University of Florida 1958
Ed.D., University of Florida 1968

ERICKSON, Dwain T. (Skip) .............................. Community Relations
Specialist
B.S., University of Tampa 1965
M.S., University of Tennessee 1970

ESTEY, Wellington E. ........................................ Assistant Dean
Library Resources & Developmental Programs
B.A., University of South Florida 1968
M.A., University of South Florida 1970

FISHER, Herbert A ........................................ Instructor,
Mathematics
B.S., Allen University 1964
M.Ed., Florida A and M University 1970

FLANSBURG, Curtis Wayne .............................. Personnel Specialist
B.A., University of South Florida 1975

FLOYD, Thomas D. ........................................ Instructor,
Natural Sciences
B.S., Florida A and M University 1966
M.N.S., University of South Dakota 1972

GUDE, Frank C. ........................................ Supervisor,
Buildings & Grounds

HAZELL, Brenda S. ........................................ Instructor,
Secretarial Science
B.S., Western Kentucky University 1970
M.A., Western Kentucky University 1971

HELFRICII, David C. ........................................ Instructor,
Humanities
B.M., University of Rochester 1955
M.Ed., University of Florida 1964
Ph.D., University of Georgia 1973
HERNDON, Janet E. ............................................. Counselor, East Campus
B.A., University of West Florida 1970
M.A., University of South Florida 1973

HOGLUND, Daniel G. ............................................. Follow-Up and Placement Specialist
B.S., Morris Harvey College 1965
M.Ed., Texas A and M University 1971

HOLLINGSWORTH, James Lewis ..................................... Instructor, Social Sciences
B.A., University of Texas 1953
M.A., Texas Christian University 1968
Ph.D., Texas Christian University 1971

HOLT, William W. ............................................. Coordinator, Cooperative Education Programs
B.S., Carson Newman College 1959
M.A.C.T., University of Tennessee 1970

JONES, Milton O. ............................................. President
B.M., Stetson University 1955
M.R.E., New Orleans Baptist Theological Seminary 1960
M.S.M., New Orleans Baptist Theological Seminary 1960
Ph.D., Florida State University 1964
Post-Doctoral Fellow, American Council on Education 1968

JUDSON, Robert W., Jr. ............................................. Coordinator, Financial Aid and Veterans Affairs
B.S., Florida A and M University 1969
M.Ed., Florida A and M University 1972

KINNEY, Richard J. ............................................. Admission Specialist/ Program Planner, Hernando Center
B.A., University of West Florida 1972
M.A., University of West Florida 1974.

MAGOULIS, Bill ............................................. Instructor, Business Administration
B.S., Fairleigh Dickinson University 1968
M.B.A., Fairleigh Dickinson University 1974

MC GINNIS, Richard A. ............................................. Community Services Specialist, East Campus
B.S., University of Florida 1972
M.S., University of Florida 1974
MOORE, James R. ......................................................... Community Services
                     Specialist, West Pasco Center

       B. S., Indiana University 1950

MORANT, Charles ..................................................... Dean, East Campus
       B. Ed., University of Miami 1957
       M. Ed., University of Miami 1958
       Ph. D., Florida State University 1970

NOVAK, Leroy F. ...................................................... Counselor, West Pasco Center
       B. S., Mankato State College 1959
       M. S., Mankato State College 1965

OLSON, Harriet M. ...................................................... Executive Assistant
to the President

PACE, Carol B. ......................................................... Adult Supervisory
               Trainer
       B. S., University of Florida 1974

PARKER, Diane M. ...................................................... Librarian/Media
               Specialist, West Pasco Center
       B. A., State College at Boston 1967
       M. A., University of South Florida 1971

PROCTOR, William B. .................................................. Counselor, Hernando
               Center
       B. S., Florida State University 1969
       M. S., Florida State University 1970

RITCH, Stephen W. .................................................... Admission Specialist/
               Program Planner,
               West Pasco Center
       B.A., University of South Florida 1971
       M.A., University of South Florida 1974

RODGERS, Charles R. .................................................. Librarian/Media
               Specialist, East Campus
       B.A., University of South Florida 1969
       M.A., University of South Florida 1972

ROYALL, Hardin J., Jr. ............................................... Instructor, Building
               Construction Technology
       B.S., Appalachian State University 1964
       M.A., Appalachian State University 1965
SISTRUNK, Albert W. ........................................... Assistant Dean,
West Pasco Center
B.A., University of Florida 1967
M. Ed., University of Florida 1972
Ed., D., University of Florida 1974

STANABACK, Richard J. ......................................... Instructor Social
Sciences
B.A., Rutgers University 1960
M.A., University of Texas 1968

STREETER, William W. ........................................... Assistant Director,
Business Affairs
B.B.A., University of Notre Dame 1972
M. Ed., University of Florida 1974

SUGG, Marjorie A. ............................................... Instructor, Social
Sciences
A.B., Bryn Mawr College 1944
M.A. Rutgers 1966

TULLIS, Sharon A. .............................................. Librarian,
Hernando Center
B.A., University of South Florida 1970
M.A. Ed., Western Carolina University 1974

TURNER, Hugh J., Jr. .......................................... Vice-President
B.S., U. S. Military Academy 1940
M.A., Boston University 1959
Ed. S., University of Florida 1971
Ed. D., University of Florida 1972

VARN, H. Fred .................................................. Admission Specialist/
Program Planner,
East Campus
B.A., University of South Florida 1967
M.A., University of South Florida 1972

WALKER, Millard C. ........................................... Instructor, Humanities
B.A., Bard College 1942
M.A., Teachers College, Columbia University 1946

WALTON, Hugo W. ............................................. Community Services
Specialist, Hernando
Center
B.S., University of Southern Mississippi 1970
WEBSTER, Melvin L. ........................................ Instructor, Environmental Control Technology
   B.A., University of Florida 1954
   M.A., California State College 1968

WESTRICK, Robert W. ........................................ Dean, Hernando Center
   B.A., Bellarmine College 1961
   M. Ed., Xavier University 1963
   Ed. D., University of Alabama 1971

WILLIAMS, Gaylord T. ........................................ Instructor, Science
   B.S., Eastern Michigan University 1963
   M.A., Eastern Michigan University 1964

WILSON, William F. ........................................ Coordinator, Records and Registrar
   A.B., Hillsdale College 1953
   M.A., Michigan State University 1959
