INFORMATION FOR NEW APPLICANTS

Your interest in Pasco-Hernando Community College is appreciated! Our staff are here to assist in your educational and career planning.

COLLEGE & TECHNICAL CREDIT STUDENTS

STEP 1 - APPLICATION FOR ADMISSION

Students must submit the application with a $20.00 non-refundable fee to their nearest PHCC campus.

STEP 2 - NEW STUDENT ORIENTATION (MANDATORY)

All new degree/certificate-seeking students at PHCC must schedule an orientation time and an advisement appointment by contacting the Office of Student Services in person or by phone at the numbers listed below. At orientation, students will learn about PHCC programs and policies and will have an opportunity to take their Florida College Entry Level Placement Test (FCELPT), if required.

STEP 3 - TESTING

Students who wish to enroll in degree programs and/or college-level English and math courses must submit placement test scores no more than two (2) years old on any of the following exams: ACT, ASSET, CPT, FCELPT, MAPS, or SAT. Students who wish to enroll in most of the technical certificate programs should submit the appropriate TABE scores. Students who need to take or have any questions about these exams should contact the Student Services office on their nearest campus. The FCELPT will be given in conjunction with orientation sessions.

STEP 4 - ADVISEMENT & REGISTRATION

At the advisement appointment, the advisor will review a student’s test scores (if applicable) and provide program and course information. Students should check the PHCC Catalog for appropriate registration dates. Separate checks are required for course fees and books; VISA/MasterCard are accepted at the New Port Richey, Dade City and Brooksville campuses.

SUBMISSIONS OF TRANSCRIPTS

All degree-seeking students, associated certificate-seeking students, and limited access technical certificate applicants must submit either an official standard high school transcript confirming graduation or official GED scores from the Florida Department of Education (DOE) or the appropriate out-of-state agency and official transcripts from each college or university attended in order to finalize admission to PHCC. Transcripts should be sent to the Records Office at the student’s home campus. Official transcripts must arrive in a sealed envelope from each issuing agency or institution.

FINANCIAL AID/VETERANS BENEFITS

Any application for financial aid should be completed well in advance. Applicants for Title IV Federal Financial Aid (e.g., Pell Grant) must submit one of the following documents to their campus Records Office: official high school transcripts confirming graduation or GED scores indicating successful completion for an equivalency diploma. Students in eligible technical credit programs must submit passing TABE scores. Contact one of the PHCC Financial Aid Offices or Veteran’s Administration advisors with any questions.

Pasco-Hernando Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, 1866 Southern Lane, Decatur, Georgia, telephone number (404) 679-4501, to award the Associate Degree.
The seal of Pasco-Hernando Community College (as shown on the previous page) is a conquistador's helmet crested by the name of the college. The helmet represents the rich heritage of the district which dates back to the explorer, Hernando DeSoto. The two-county area was called Hernando until 1887 when Pasco County was formed. The district map is superimposed on the dome of the helmet, emphasizing the commitment of the college to serve the entire district. The learning lamp provides light for education and opportunity throughout the district.

PASCO-HERNANDO COMMUNITY COLLEGE

PASCO-HERNANDO COMMUNITY COLLEGE FOUNDATION, INC.

The Pasco-Hernando Community College Foundation, Inc. was established in 1975 to seek private support to enhance the college’s academic programs. It is governed by a 30-member Board from Pasco and Hernando counties.

The Foundation has grown quickly, with endowed assets over $10 million, and become a leading community college foundation.

The Foundation supports scholarships, health programs, the three campus libraries, faculty and staff development, and academic equipment for the college. For the cultural and social enrichment of the community, the Foundation also sponsors a Performing Arts Center program and the Suncoast Sampler each year. The Foundation’s Activities Boosters Committee focuses on student activities, including athletics.

The Foundation has a flourishing endowed scholarship program. Today, over 100 named, endowed funds provide 175 scholarships each year to Pasco and Hernando county students.

This includes the offer of scholarship support to the top 10% of graduating seniors from the district’s public high schools.

The Foundation has also addressed critical shortages of trained health care professionals in the local community. It established partnerships with local hospitals to create nursing sponsorships and committed significant financial resources to expand the Associate Degree Nursing Program. It also orchestrated the effort, with the West Pasco Dental Association, to raise a quarter of a million dollars to create a Dental Hygiene Program which ranks among the best in the nation.

The Foundation underwrites sabbaticals and supports faculty development through endowed faculty chairs. To date, the Withlacoochee River Electric Cooperative, the St. Petersburg Times, and NationsBank have funded endowed faculty chairs.

For more information, contact the Executive Director of the Foundation.
Endowed scholarships established through the Foundation are matched by the Florida Academic Improvement Trust Fund. Endowed scholarships exist in perpetuity—the principal remains intact. The interest income that is generated and any possible capital appreciation are used to fund the scholarships. We applaud the generosity of the individuals and organizations who created the endowed scholarships listed alphabetically by fund name below.

Pasco-Hernando Community College

HISTORY

Pasco-Hernando Community College (PHCC) was established in 1967 by the State Legislature. In the fall of 1971, following surveys and studies by the school boards of Pasco and Hernando counties, a 100-acre tract of land northwest of Dade City was approved for the East Campus.

The District Board of Trustees, composed of five members from Pasco County and four members from Hernando County, was commissioned in January 1972. Shortly thereafter, Dr. Melvin O. Jones was chosen as the first President, and classes began in August 1972. Dr. Jones served as PHCC's President until June 30, 1994. Dr. Robert W. Judson, Jr., became the College's second President on July 1, 1994.

The first phase of construction of the East Campus began in 1973 and, upon completion, was dedicated by Governor Reubin Askew in August 1975. Since that time, the Charles E. Conger Library and physical education facilities have become operational. The District Administration Office is scheduled to relocate from the East Campus to the West (New Port Richey) Campus during 1998.

In 1977 a 140-acre site was chosen near New Port Richey for the West Campus. Initial construction began in July 1977 and was finished one year later. Subsequent campus additions include the Alice C. T. Puttig Library, the Teaching Auditorium, increased classroom space, and the Physical Education Center. The new Melvin O. Jones Hall, a new Student Services Center, was completed in 1996. A Health Programs Building was completed in 1997. New computer labs are scheduled to open in 1998.

One hundred acres north of Brooksville were selected in 1974 for the North Campus location. First phase construction was completed in the summer of 1977. The Alfred A. McKeehan Library, the Occupational Laboratory Building, and physical education facilities have been added. In addition, a small center was located in the growing Spring Hill area of Hernando County in 1979. This facility was remodelled and expanded in 1988.

There is one center and one office located in Pasco County. In February of 1985, a center was opened at Gowers Corner. This facility is primarily for the PHCC public service programs. In August of 1993, the College opened an office in Land O' Lakes to serve the citizens in this area of the district.

ACCREDITATION STATUS

PHCC is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS). 1866 Southern Lane, Decatur, Georgia, telephone number (404) 679-4501, to award the associate degree.

COLLEGE MISSION STATEMENT

Statement of Purpose

Pasco-Hernando Community College strives to serve the educational needs and interests of its community. As a comprehensive community college, PHCC provides opportunities to students for academic and cultural growth, for building and expanding their skills, and for them to develop personally and as citizens of our local community and our larger world.

Objectives

PHCC shall:

A. Provide the first two years of postsecondary instruction that lead to the baccalaureate degree;
B. Provide a variety of career and technical education programs that prepare students for employment in business, industry, and service occupations;
C. Provide college preparatory instruction and continuing education that enhance and update the skills of individuals;
D. Provide services for students that enhance their opportunities for success;
E. Provide education and training that promote and support economic development within the college district; and
F. Provide opportunities for cultural enrichment and personal development within the community.

College Catalog/Student Handbook

The college catalog/student handbook is the official document which outlines the requirements and regulations that relate to students, subject to changes and additions approved by the District Board of Trustees. It is the responsibility of each student to be aware of and understand these requirements and regulations.

For graduation purposes, a student has the option of remaining under the catalog provisions in effect at the time of initial enrollment at the College or in any subsequent catalog, provided that the catalog is no more than three academic years old in the term that the student meets all graduation requirements. A catalog year ends on the last day of classes in Term IV.

Applying to PHCC

The first step in becoming a PHCC student is to apply to the college. A request for information form is supplied in the back of this catalog or can be obtained from your high school guidance counselor. A PHCC Application for Admission can be obtained from the Admissions Office on any PHCC campus. All applicants for credit courses (except those applying for admission as high school dual enrollment or credit bank students—see "Admission to the College for High School Students") should submit this form and the non-refundable $20 application fee in any one of the addresses listed below. Florida residents who seek to qualify for in-state course fees must complete the residency affidavit that is part of the application form.

All application materials (see requirements in "Admission to Programs") may be submitted in person or mailed to one of these addresses:

For East Campus, Dade City
Office of Admissions & Student Records
Pasco-Hernando Community College
15727 Blalock Road
Dade City, FL 33445-7599
Phone: (352) 567-6701, ext. 1011

For North Campus, Brooksville
Office of Admissions & Student Records
Pasco-Hernando Community College
14145 Ponce de Leon Boulevard
Brooksville, FL 34601-8698
Phone: (352) 996-6746, ext. 1011

For West Campus, New Port Richey
Office of Admissions & Student Records
Pasco-Hernando Community College
10210 Ridge Road
New Port Richey, FL 34654-5199
Phone: (813) 847-7272, ext. 1011

We encourage anyone who has a question about the application process to contact the Admissions Office in person, by phone, or through the mail. Because students must be admitted prior to registration for courses, we urge applicants to apply as early as possible. All applicants will receive written notification of their admission status after the application and fee are received.

Admission to Programs of Study

As part of the application process, each student is asked to declare an educational goal. Students can apply for admission to a program of study or can indicate their intent to be non-degree seeking on their PHCC Application for Admission form, or they can complete a Change of Program Declaration form through our Student Services Office of Advisement and Registration. (Applicants to Limited Access programs must complete additional steps—see "Admissions to Limited Access Programs.") PHCC offers the following programs, which have differing requirements for admission: the Associate in Arts Degree program, Associate in Science Degree programs, Associate Certificate programs, and Technical Certificate programs.

It is the responsibility of the applicant to ensure that the documents required to finalize admission have been received by the Records Office at the college campus the student has designated. Home study graduates will be required to submit documents in the same manner as any other high school graduate. No subsequent registration will be allowed until all documents have been received. All transcripts and test scores should be sent directly from the issuing institution; official GED scores (test taken in English) must come from the Florida Department of Education or from an approved out-of-state testing agency. Documents submitted in anything other than a sealed envelope from the issuing institution will not be accepted. Request forms for documents from other institutions can be obtained in the Records Office.

Admission to the Associate in Arts (AA) or Associate in Science (AS) Degree Programs

To be admitted to the AA or AS degree programs, students must fulfill the following documents have been received by the Records Office on their home campus:

1. A PHCC Application for Admission form indicating the intent to pursue an AA/AS degree program or, if no program is indicated on the PHCC Application, a Change of Program Declaration form signed by the appropriate advisor, and
2. An official high school transcript indicating graduation and receipt of a Standard High School diploma or an official report of GED Scores indicating receipt of a high school equivalency diploma.

Students graduating from home study programs should consult the Dean of Admissions and Student Records regarding requirements for admission to degree programs. Students who have received special diplomas are not eligible for admission to degree programs.

More information on our AA degree program can be found in the Academic Policies and Programs sections of this catalog.

Admission to Associated Certificate Programs

PHCC offers the following college credit certificate programs which are associated with AA degree programs: Business Data Processing, Emergency Medical Technician, Office Systems Specialties, Paramedic (a limited access health program), and Small Business Management. Admission to an associated certificate program does not require admission to a degree program; however, students enrolled in these programs may take one to apply to a degree program since many of the required courses are the same.

To be admitted to an Associated Certificate program, students must ensure that the following documents have been received by the Records Office on their home campus:

1. A PHCC Application for Admission form indicating the intent to pursue an Associated Certificate program or, if no program is indicated on the PHCC Application, a Change of Program Declaration form signed by the appropriate advisor, and
2. An official transcript indicating graduation and receipt of a Standard High School diploma or an official report of GED Scores indicating receipt of a high school equivalency diploma.
3. An official transcript from each college or university attended.

Applicants to the Certificate in Paramedic program must meet the additional requirements noted in the section "Admission to Specialized Limited Access Health Programs." Students who have received special diplomas are not eligible for admission to Associated Certificate programs.
Admission to Technical Credit Certificate Programs

Technical Credit Certificate programs are designed to prepare the student for an entry-level job or to supplement education and training in a chosen occupational field. Students must indicate their intent to enter the specified certificate program on their PHCC Application for Admission form or on a Change of Program Declaration form signed by the appropriate advisement staff and submitted to the Records Office on their home campus. PHCC offers these Technical Credit Certificate programs:

- Applied Welding Technologies
- Child Care Supervision
- Coast Guard Specialist
- Correctional Officer
- Cosmetology
- Dental Assisting
- Fire Fighting
- Health Unit Coordinator
- Landscape Operations
- Law Enforcement/Auxiliary Officer
- Law Enforcement/Basic Recruit
- Medical Records Transcribing
- Medical Secretary/Examining Room Assistant
- Patient Care Assistant/Home Health Aide
- Practical Nursing

Dental Assisting and Practical Nursing are limited access health programs; admission requirements for these programs are listed in the section "Admission to Specialized Limited Access Health Programs." Fire Fighting and Law Enforcement are also limited access programs; contact these program offices directly for further admission information. Students who have received special diplomas are not eligible for admission to limited access certificate programs.

Admission to the College as a Non-Degree Seeking Student

Applicants who do not wish to follow a program of study, or those students who are at least 19 years of age but do not meet the requirements for entry into a degree or specific certificate programs, may be admitted to the College as non-degree seeking students upon submission of the PHCC application form and fee. If needed, PHCC encourages these students to obtain a GED high school equivalency diploma.

U.S. citizens or permanent residents who are 19 years of age or older and have not previously attended college are eligible for admission as non-degree seeking students upon submission of the PHCC application form and fee. U.S. citizens or permanent residents who are under the age of 19 must also submit an official high school transcript indicating graduation or official GED scores indicating receipt of a high school equivalency diploma.

Non-degree seeking students are permitted to earn 15 credit hours, at which time they must declare an approved program of study if they wish to enroll further at PHCC. Additional admission requirements may then need to be satisfied. (See "Admission to Programs of Study"). Students who are enrolling for purposes of teacher recertification, students over 60 years of age, and students who have earned a baccalaureate degree are exempt from this requirement.

Dual Enrollment/College (or University)

A PHCC student may be enrolled at another institution concurrent with his/her PHCC enrollment by securing written permission in advance from the Associate Dean/Dean (West Campus) or Provost (East or North Campus), and the Vice President of Instructional Services. This procedure is necessary to assure the acceptance of credit involved.

Students who are enrolled at another postsecondary institution may be admitted as non-degree students only upon submission of the PHCC application form and fee together with an approved transfer student form or written permission from the registrar at that institution. Permission is required prior to each PHCC registration.

Admission to the College for Dually Enrolled/Early Admission High School Students

High school students have the opportunity to earn college credit at PHCC by applying for admission as either dual enrollment or credit bank students. Students from Pasco or Hernando County public schools, plus students from non-public schools (including home schools that have certified that their curriculum meets State of Florida standards) may become eligible for dual enrollment if their school has a formal articulation agreement with PHCC. High school dual enrollment means that the student is enrolled in high school and at the same time enrolls for college or specific technical credit courses, taught by PHCC, which also can be counted toward high school graduation. Eligible students must first gain admission to PHCC by submitting a completed Application for Admission: Dual Enrollment/High School Student form. Additionally, before courses begin each semester, dually enrolled students must also submit a Dual Enrollment permission form (signed by the high school principal).

Early Admission

Public and certain non-public high school students, not currently taking classes in high school, may enroll at PHCC upon submission of a completed Dual Enrollment Application from and with the permission of the appropriate high school administrator. This permission must be obtained by completion of an "Early Admission Form," signed by the high school principal, with each PHCC registration. Credit earned applies toward high school graduation as well as toward college credit.

Credit Bank

Upon submission of a completed Credit Bank application form and fee, high school students may be admitted to the credit bank program. This program allows students to remain in high school and receive college credit with permission from the principal. This permission must be obtained by completion of a "Credit Bank Form" with each PHCC registration. The student may gain admission to PHCC after high school graduation by submitting a renewal Application for Admission, or may elect to have the credits transferred to another college. This method of acceleration extends to students younger than 19 years of age who are actively seeking GED status, with the appropriate approval from the school authority.

Admission of Transfer Students

Upon submission of the PHCC Application for Admission form and fee, applicants transferring from other colleges or universities will be accepted to the College in accordance with all Standards of Academic Progress. Applicants who are on academic probation from another college may not enter a degree program at PHCC until they have had an interview with an advisor. Applicants who are on academic suspension or who have been dismissed for academic reasons from another institution may not enter a degree program at PHCC without permission of the Vice President of Instructional Services.

In accordance with Florida statute, a student who has previously been expelled from a Florida community college or university for
to cover any expenses which may be incurred. Certification of available funds to cover all expenses must be received by the District Records Office before an I-20 form will be released.

International students on an "F" (student) visa are required by U.S. Immigration regulations to be enrolled full-time (at least 12 semester hours) for fall and winter semesters; they must meet the standards of progress applicable to all students.

These international students holding a valid visa type other than "F" who wish to enroll for a limited number of courses must secure the approval of the Director of Admissions and Student Records prior to enrollment.

### Admission to Specialized Limited Access Health Programs

Admission to the Nursing, Paramedic, and Dental Hygiene programs is restricted to students selected by the Admissions Committee for Special Programs.

All minimum requirements must be fulfilled, including receipt of documents by the District Records Office, West Campus, by the following established program deadlines for an applicant to be considered for that program:

<table>
<thead>
<tr>
<th>Program</th>

The Physical Therapy Assistant program is a joint program with St. Petersburg Junior College. Students who meet all the application and admission requirements may submit an “Application to Limited Enrollment Health Programs, SPCC/PHCC” (with the $10 fee) at any time May 19, 1997 or thereafter, to St. Petersburg Junior College. Applications will be admitted on a first-qualified, first-admitted basis. Eligible applicants will be placed on a waiting list for the next available class.

Admission to the college does not imply acceptance into any of the preceding programs. Most programs begin in Term I of each year. The ADN/LPN Track starts in Term IV, the Practical Nursing Program on the West Campus starts in Term II, and ADN/Paramedic starts in Term II. The Physical Therapy Assistant Program begins in Term II of each year.

The ADN/Paramedic program is tentatively planned to be offered every other year, with the next offering planned for January 2000. Information about applications can be obtained from the Admissions Office on any PHCC campus or from the Health Programs Office on the West Campus. Admission packets are available on all campuses beginning each October.

### Nursing Programs

**Application and Admission Requirements**

Minimum requirements which must be met by the deadline date for consideration of an applicant are as follows:

1. Receipt of the documents listed below by the District Records Office, West Campus:
   a. Completed PHCC application form and fee;
   b. Completed Nursing Program application. (Applicants who wish to apply to more than one program must submit a separate form for each program.)
c. An official high school transcript indicating graduation with a standard diploma or official GED scores from the Florida Department of Education or appropriate out-of-state agency indicating the award of a high school equivalency diploma. A partial transcript of all completed courses will be accepted if the applicant is currently enrolled as a high school senior. A complete official transcript must be submitted prior to graduation and prior to enrollment in the program.

d. Official transcript from each college and university attended other than PHCC (or ADN Program); and

e. Report of scores from the National League of Nursing (NLN) Pre-Entry Examination indicating a minimum composite score at the 50th percentile as follows:

**Generic and ADN Paramedic Tracks: Pre-Admission RN Exam**

**ADN/LPN Track: Mobility Profile I.**

**Practical Nursing: Pre-Admission PN Exam**

Additional documents are required for the following programs:

**ADN/LPN Track:** A copy of current Florida LPN license.

**ADN/Paramedic Track:** A copy of current Florida Paramedic license.

Certificate in Practical Nursing: a report of scores on the Test of Adult Basic Education (TABE, Level A) with minimum grade level of 10th grade in Language, Reading, and Mathematics.

1. All applicants to ADN Program tracks must have completed each prerequisite course with a grade of ‘C’ or higher and have a cumulative all-college grade point average of 2.0 or above.

2. It is the responsibility of the applicant to ensure that all transcripts and test scores, as well as any address change, have been received by the District Records Office, West Campus, by the established application deadline dates.

**Selection Procedure**

Residents of Pasco and Hernando counties will have preference over out-of-district residents. Graduates of the PHCC Practical Nursing and Paramedic programs will have preference over other applicants (ADN/LPN and ADN/Paramedic Tracks).

**ADN Program Tracks**

1. Applicants who meet minimum requirements as of the deadline date will be ranked ordered, highest to lowest, on a product score devised by multiplying the GPA in the prerequisite course(s) by the NLN composite percentile score.

2. Up to 72 candidates may be selected for admission to the ADN/Generic Track. As many as 30 other applicants who meet minimum requirements by the deadline date may be selected as alternates with admission on a space-available basis.

3. Up to 48 candidates may be selected for admission to the ADN/LPN Track. Additional candidates will be selected on a space-available basis.

4. Up to 24 candidates may be selected for admission to the ADN/Paramedic Track. Additional candidates who meet minimum requirements by the deadline date will be selected on a space-available basis. The next planned admission is January 2000.

**Certificate in Practical Nursing**

1. Applicants who meet minimum requirements as of the deadline date will be ranked ordered, highest to lowest, on a product score devised by multiplying the sum of the TABE sub-test scores by the NLN composite percentile score.

2. Up to 72 candidates may be selected for admission (24 per campus).

3. As many as 30 applicants who meet minimum requirements by the deadline date may be selected as alternates with admission on a space-available basis.

---

**Certificate in Paramedics**

**Application and Admission Requirements**

Minimum requirements which must be met by the deadline date for consideration of an applicant are as follows:

1. Receipt of the documents listed below by the District Records Office, West Campus:

2. Completed PHCC application form and fee;

3. Completed Paramedic Program application;

4. An official high school transcript indicating graduation with a standard diploma or official GED scores from the Florida Department of Education or the appropriate out-of-state agency indicating the award of a high school equivalency diploma;

5. Official transcript from each college and university attended other than PHCC;

6. Copy of current Florida EMT license;

7. Report of scores on the Test of Adult Basic Education (TABE, Level A) with minimum grade level of 10th grade in Language and Reading and 9th grade in Mathematics; and

8. Report of score of 70% or above on the 1998 Paramedic Pre-Admission Examination administered at PHCC, West Campus.

2. Completion of prerequisite course(s) with a grade of ‘C’ or higher and a cumulative all-college grade point average of 2.0 or above.

3. It is the responsibility of the applicant to ensure that all transcripts and test scores, as well as any address change, have been received by the District Records Office, West Campus, by the established application deadline dates.

**Selection Procedure**

Applicants who meet minimum requirements by the deadline date will be ranked ordered, highest to lowest, on a product score devised by multiplying the sum of the TABE sub-test scores by the pre-admission examination score. Preference to applicants will be given in sequence, as follows:

1. Those employed as EMTs in Pasco and Hernando counties;

2. Residents of Pasco and Hernando counties;

3. Those employed by other EMS/911 services;

4. Degree-seeking students who have completed all requirements for the A.S. Degree in Emergency Medical Services, except completion of the Paramedic Certificate Program.

5. Up to 30 candidates may be selected for admission to the program.

6. All other applicants who meet the minimum requirements may be selected as alternates with admission on a space-available basis.

---

**Certificate in Dental Assisting**

**Application and Admission Requirements**

Minimum requirements which must be met for consideration of an applicant are as follows:

1. Receipt of the documents listed below by the District Records Office, West Campus:

2. Completed PHCC application form and fee;

3. Completed Dental Assisting Program application;

4. An official high school transcript indicating graduation with a standard diploma or official GED scores from the Florida Department of Education or the appropriate out-of-state agency indicating the award of a high school equivalency diploma;

5. Report of scores on the Test of Adult Basic Education (TABE, Level A) with a minimum grade level of 10th grade in Reading, Language, and Mathematics.
Selection Procedure
Residents of Pasco and Hernando counties will have preference over out-of-district residents.
Applicants who meet minimum requirements will be admitted on a first-qualified, first-admitted basis for the next available class.

Associate in Science in Dental Hygiene
Application and Admission Requirements
Minimum requirements which must be met by the deadline date for consideration of an applicant are as follows:
1. Receipt of the documents listed below by the District Records Office, West Campus:
   a. Completed PHCC application form and fee.
   b. Completed Dental Hygiene Program application.
   c. An official high school transcript indicating graduation with a standard diploma or official GED scores from the Florida Department of Education or the appropriate out-of-state agency indicating the award of a high school equivalency diploma.
   (A partial transcript of all completed courses will be accepted if the applicant is currently enrolled as a high school senior.
   A complete official transcript must be submitted after graduation and prior to enrollment in the program.)
   d. Official transcripts from each college or university attended other than PHCC.
2. Applicants must have completed an approved manual dexterity test with a minimum score of 50%.
3. Applicants must have completed each prerequisite course with a grade of "C" or higher and have a cumulative all-college grade point average of 2.0 or above.
   It is the responsibility of the applicant to ensure that all transcripts and test scores, as well as any address change, have been received by the District Records Office, West Campus, by the established application deadline dates.

Selection Procedure
Residents of Pasco and Hernando counties will have preference over out-of-district residents. Applicants with at least 480 hours of documented chair-side assisting experience will have preference over other applicants. Applicants who meet minimum requirements by the deadline date will be ranked ordered, highest to lowest, based on the GPA of their prerequisite course.
1. Applicants who meet minimum requirements by the deadline date will be ranked ordered, highest to lowest, based on the GPA of their prerequisite course.
2. Up to 12 candidates may be selected for admission to the program.
3. All other applicants who meet the minimum requirements by the deadline date will be selected as alternates with admission on a space-available basis.

Pasco-Hernando Community College and St. Petersburg Junior College Physical Therapist Assistant Joint Program
David Erickson, Program Director, Tel. 813/341-3611
St. Petersburg Junior College
Molly Miller, Coordinator, PHCC Campus, Tel. 813/847-2721
The physical therapist assistant is a skilled technical health care worker who carries out patient treatment programs under the direction of the physical therapist. The assistant works to relieve pain and/or increase function in patients via therapeutic application of heat, cold, light, water, electricity, sound, massage, exercise, gain and functional activity. Physical therapist assistants work in a variety of settings including hospitals, rehabilitation agencies, schools, outpatient clinics and nursing homes.

Persons interested in pursuing this program should be comfortable working with people of all age groups in close one-on-one relationships. They should enjoy physical activity and be patient and empathetic when working with others.

Upon completion of the program, the student is awarded an Associate in Science in Physical Therapist Assistant degree. A state licensing examination is given by the Florida Board of Physical Therapy Practice.

Accreditation
The St. Petersburg Junior College Therapist Assistant Program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association, 1111 N. Fairfax Street, Alexandria, Virginia 22314, 1-800-999-2782.

Minimum Admission Requirements
1. Admission to St. Petersburg Junior College (SPJC) and Pasco-Hernando Community College.
2. Submission of an SPJC "Application to Limited Enrollment Health Programs" (with $10 fee) and all required documents.
3. All transcripts from high schools (or GED) and college(s) currently or previously attended must be received. Students who have completed an A.A. or B.A. degree are not required to submit high school transcripts.
4. Completion of the placement test and remedial work if required.
5. A minimum 3.0 GPA on a 4.00 scale or a minimum of 12 credit hours in Physical Therapist Assistant general education and support courses (see 7 below). OR
   A 3.50 GPA on a 4.00 scale in high school college preparatory courses (see 7 below).
6. Completion of a minimum of 8 hours of observation, volunteer service, or work experience in a Physical Therapy Department (Physical Therapy experience/observation must be verified by a signed statement from a Physical Therapist or Physical Therapy Assistant).
7. Completion of one of the following:
   a. A high school biology course and one other science course with grades of "B" or higher, OR
   b. A high school course in anatomy and physiology with a grade of "B" or higher, OR
   c. BSC 1085 Human Anatomy and Physiology I and Lab with grades of "C" or higher, OR
   d. A college biology course and one other college science course with grades of "C" or higher.

Admission Procedures
Applicants who meet the application and admission requirements may submit an application at any time. Applicants will be admitted on a first-qualified, first-admitted basis. Eligible applicants will be placed on a waiting list for the next available class. Applicants will be notified of their status.

At the time of application, minimum requirements must be completed. Students must continue to meet the admission requirements at the point of matriculation (enrollment).
Additional Requirements

1. Students admitted to the Physical Therapist Assistant program must carry health or accident insurance. A certificate of coverage must be submitted to the program director prior to the beginning of classes on an annual basis.

2. Students admitted to the program must have a physical examination by a licensed physician and an oral examination by a dentist that verifies satisfactory health status. Immunizations, tests, and health certification must be included.

3. Program requirements are subject to change, therefore, students should check with a counselor, advisor, or program director in the future for possible changes.

4. Students transferring from another Physical Therapist Assistant or other health-related program must be in good standing in such program.

Special Progress Requirements

1. Prior to the beginning of Session III of the freshman year, students in this program must have successfully completed the requirements for a basic C.P.R. Certificate and a basic First Aid Certificate.

2. In order to enroll in any course within the major with prerequisites, a grade of "C" or higher must have been earned in all prerequisite PFT courses. All special application requirements for related programs (6613-23-4.53, SPIC, DOBT) apply to the Physical Therapist Assistant program.

Special Graduation Requirements

1. A grade of "C" or higher in all courses within the major in the program.

2. Student must satisfactorily complete an end-of-program competency assessment examination.

3. Student must achieve a cumulative 2.0 GPA for all course work.

4. Student must complete the last year of course work within the major at SPIC/PHCC.

Associate in Science in Radiography

Application and Admission Requirements

1. Completed PHCC application form and fee

2. Completed Radiography Program application

3. An official high school transcript indicating graduation with a standard diploma or official GED scores from the Florida Department of Education or appropriate out of state agency indicating the award of a high school equivalency diploma. A partial transcript of all completed courses will be accepted if the applicant is currently enrolled as a high school senior. A complete official transcript must be submitted after graduation and prior to enrollment in the program.

4. Official transcripts from each college and university attended other than PHCC.

5. Completion of Florida College Entry Level (FCELPT) Placement Test and completion of any college preparatory work, if indicated by placement scores.

6. Completion of 8 hours of observation, volunteer service or work experience in a Radiography Department, verified by a signed statement from a Registered Radiographer (A.R.R.T.)

7. Have a cumulative all-college grade-point average of 2.0 or above and completed each of the following courses with a grade of "C" or higher

Selection Procedure

Students who meet the application and admission requirements may submit an application at any time. Applicants will be selected on a first-qualified, first-admitted basis. Accepted applicants will be placed on a waiting list for the next available class. Applicants who fail to meet the terms for which admission is granted must reapply for a future date.

At the time of application, minimum requirements must be completed. Students must continue to meet the admission requirements at the point of matriculation (enrollment).

Acceptance Procedures for Specialized Limited Access Health Programs

The Admissions Committee meets approximately one week after the deadline date for applications. Applicants who meet minimum requirements will be notified in writing of their selection as candidates or alternates. Candidate and alternate offers are conditional and are dependent upon the following:

1. Receipt of the written statement of acceptance or rejection of the offer in the Health Programs Office, West Campus, by the date specified in the letter of notification.

2. Certification of good health by submission of results of a physical examination conducted by a physician or a registered nurse practitioner by the date specified in the letter of notification.

3. Successful completion of the American Heart Association's Basic Life Support for Health Care Providers Course (8 hours) or the American Red Cross Professional Rescuer-CPR Course, required by the date specified in the letter of notification (for the Nursing, Paramedic, and Dental Hygiene programs).

4. Registration and payment of fees at the time and place specified by the Health Programs Office.

Failure to comply with any of the above procedures may result in the allocation of the space to an alternate.

Admission to Linkage Programs

Linkage programs allow a limited number of PHCC students to enroll in specialized programs at other public community colleges in the Tampa Bay area. Currently, 17 different quota-based linkage programs are available. These programs and their home institutions include:

- Hillsborough Community College (UCC)
- Diagnostic Medical Sonography Technology*
- Medical Clinical Laboratory Science*
- Nuclear Medicine Technology*
- Radiation Therapy Technology*
- Varina Community College (MCC)
- Dental Hygiene Technology
- Anna Maria Community College (PCC)
- Multimedia Technology
- St. Petersburg Junior College (SPJC)
- Dental Hygiene Technology
- Saint Petersburg College (SPC)
- Medical Laboratory Technology
Residency for Tuition Purposes

For the purpose of assessing tuition, the following provisions of Florida Statute 240.1201 will govern actions by the College.

Students shall be classified as either residents or nonresidents for the purpose of assessing tuition fees in public community colleges and universities. Determination of residency is made based on information the applicant provides on the residency affidavit, which is part of the admission application.

1. To qualify as a resident for tuition purposes:
   1. A person or, if that person is a dependent child, his/her parents or parents must have established legal residence in Florida and must have maintained legal residence in Florida for at least 12 months immediately prior to his/her qualification.
   2. Every applicant for admission to an institution of higher education shall be required to make a statement as to his/her length of residence in the state and, further, shall establish that his/her presence or, if he/she is a dependent child, the presence of his/her parent or parents in the state currently is, and during the requisite 12-month qualification period was, for the purpose of maintaining a bona fide domicile, in accordance with the provisions of Section 240.1201(2)(b), Florida Statutes.

(b) However, with respect to a dependent child living with an adult relative of the child, the child may qualify as a resident for tuition purposes if that relative has maintained legal residence in Florida for at least 12 months immediately prior to the child's qualification, provided the child has resided continuously with such relative for the five (5) years immediately prior to the child's qualification, during which time the adult relative has exercised day-to-day care, supervision, and control of the child.

(c) The legal residence of a dependent child whose parents are divorced, separated, or otherwise living apart will be deemed to be this state if either parent is a legal resident of this state, regardless of which parent is entitled to claim, and does in fact claim, the minor as a dependent pursuant to federal individual income tax provisions.

2. An individual shall not be classified as a resident for tuition purposes and, thus, shall not be eligible to receive the in-state tuition rate until he/she has provided such evidence related to his/her legal residence and duration as may be required by officials of the institution of higher education from which he/she seeks the in-state tuition rate.

3. With respect to a dependent child, the legal residence of such individual's parent or parents is prima facie evidence of the individual's legal residence, which evidence may be reinforced or rebutted, relative to the age and general circumstances of the individual, by the other evidence of legal residence required of or presented by the individual. However, the legal residence of an individual whose parent or parents are domiciled outside this state is not prima facie evidence of the individual's legal residence if that individual has lived in this state for five (5) consecutive years prior to enrolling or registering at the institution of higher education at which residency status for tuition purposes is sought.

4. In making a domiciliary determination related to the classification of a person as a resident or nonresident for tuition purposes, the domicile of a married person, irrespective of sex, shall be determined, as in the case of an unmarried person, by reference to all relevant evidence of domiciliary intent. For the purposes of this section:
   a. A person shall not be precluded from establishing or maintaining legal residence in this state and subsequently qualifying or continuing to qualify as a resident for tuition purposes solely by reason of marriage to a person domiciled outside this state, even when the person's spouse continues to be domiciled outside of this state, provided such person maintains further legal residence in this state.
   b. A person shall not be deemed to have established or maintained a legal residence in this state and subsequently to have qualified or continued to qualify as a resident for tuition purposes solely by reason of marriage to a person domiciled in this state.
   c. In determining the domicile of a married person, irrespective of sex, the fact of the marriage and the place of domicile of such person's spouse shall be deemed relevant evidence to be considered in ascertaining domiciliary intent.

5. Any nonresident person, irrespective of sex, who marries a legal resident of this state or marries a person who later becomes a legal resident of this state, accords to the benefit of the spouse's immediately preceding duration as a legal resident for purposes of satisfying the 12-month durational requirement of this section.

6. A person shall not lose his/her resident status for tuition purposes solely by reason of serving, or if such person is a dependent child, by reason of his/her parent's or parents' serving, in the Armed Forces outside this state.

7. A person who has been properly classified as a resident for tuition purposes but who, while enrolled in an institution of higher education, loses his/her resident status because he/she is or, if he/she is a dependent child, his/her parent or parents, establish domicile or legal residence elsewhere shall continue to enjoy the in-state tuition rate for a statutory grace period, which period shall be measured from the date on which the circumstances arose that culminated in the loss of resident tuition status and shall continue for 12 months. However, if the 12-month grace period ends during a semester or academic term for which such former resident is enrolled, such grace period shall be extended to the end of that semester or academic term.

8. Any person who ceases to be enrolled at or who graduates from an institution of higher education while classified as a resident for tuition purposes and who subsequently abandons his/her domicile in this state shall be permitted to remarry as an institution of higher education in this state as a resident for tuition purposes without the necessity of meeting the 12-month durational requirement of this section if that person has reestablished his/her domicile in this state within 12 months of such abandonment and continuously maintains the reestablished domicile during the period of enrollment. The benefit of this subsection shall not be accorded more than once to any one person.

9. The following persons shall be classified as residents for tuition purposes:

10. Any other person who qualifies as a resident for tuition purposes.
(a) Active duty members of the Armed Services of the United States residing or stationed in this state, their spouses and dependents' children

(b) Active duty members of the Armed Services of the United States and their spouses attending a public community college or university within 50 miles of the military establishment where they are stationed, if such military establishment is within a county contiguous to Florida

(c) United States citizens living on the Islands of Panama who have completed 12 years of high school and 12 consecutive months of college work at the Florida State University, Panama Canal Branch, and their spouses and dependent children

(d) Full-time instructional and administrative personnel employed by state public schools, community colleges, and state institutions of higher education, as defined in Florida Statute 226.041, and their spouses and dependent children

(e) Students from Latin America and the Caribbean who receive scholarships from the federal or state government. Any student classified pursuant to this paragraph shall attend, on a full-time basis, a Florida institution of higher education

(f) Southern Regional Education Board's Academic Common Market graduate students attending Florida's state universities

(g) Full-time employees of state agencies or political subdivisions of the state who have teaching at a Department of Defense Dependent School or in an American International School and who enroll in a Board of Regents-approved graduate-level education program which leads to a Florida teaching certificate.

If an applicant qualifies as a Florida resident, the residency affidavit must be submitted as part of the admission requirements. Proof of guardianship is required when applicable.

Application for changing Florida resident status must be made to the Records Office on any campus. If application, including all supporting materials, is made after the last day of drop/add registration in a full term, it will not become effective until the following term. A new affidavit must be filed with any renewal application.

TECH PREP SCHOOL-TO-WORK CONSORTIUM

PHCC, the District School Board of Pasco County, and the School Board of Hernando County are consortium partners in Tech Prep, a national movement to prepare students for careers in emerging technologies. High school students enrolled in Tech Prep programs of study in Agriculture, Business, Allied Health and Nursing, or Industrial Technology can benefit from the partnership through dual enrollment, credit bank, and articulation agreements between the College and the school district. Generally, Tech Prep students at PHCC will have completed a high school program of study leading to an Associate in Arts degree or an Agriculture emphasis or one of the following Associate in Science degrees: Business Administration and Management, Computer Programming and Applications, Dental Hygiene, Emergency Medical Services, Human Services, Nursing, or Office Systems Technology.

PHCC Tech Prep students may be eligible for the annually renewable Florida Vocational Child Care Scholarship or scholarships awarded by the consortium's Business and Industry Advisory Council. Tech Prep students may enter employment immediately after graduation or complete the General Education requirements for the Associate in Arts Degree and transfer to a university. For more information on opportunities at PHCC, see the Dean of Career and Technical Programs or a PHCC academic advisor.

REFUND POLICIES

College and Technical Credit Courses

A 100% refund of fees, not including the application fee, will be granted for a course a student drops before the end of the drop/add period for a reason as specified in the College Calendar. Refunds after the end of the drop/add period may be authorized, with sufficient documentation, as follows:

1. Death of a student, or the death of an immediate family member of student (spouse or children), as documented by the student or his/her estate, which prohibits the student's ability to complete current semester classes

2. Illness, sickness, or accident of the student of such severity or of such duration, as documented by a licensed physician, that it would preclude a student from being able to complete current semester classes

3. Mandatory military service, such as necessitated by a declared national emergency, or authorized military call to action, which would preclude the student from being able to complete the current semester classes

4. Course/class cancellation by the College

5. Cases of administrative or College error

6. Other circumstances as may be approved by the President or designee

Exceptions to the 100% refund provision are subject to federal regulations for pre-paid refunds. The fee for late registration shall not be refunded, except in instances in which the only course(s) in which the student is enrolled is/are cancelled by the College.

For courses that start on a date other than the beginning of a regular term and for which the drop/add dates as specified in the College calendar, the final refund date shall be the end of the day on which 10% of the prescribed number of instructional hours in the course occur. The application fee will NOT be refunded except when the only course(s) for which a student is registered is/are cancelled by the college.

Continuing Education/Non-Credit Courses

A full refund will be given to a student who drops from any Non-Credit class prior to the starting time of the first class meeting. No refund will be provided for conferences, institutes, workshops, seminars, or special training programs after the published starting date.

A claim for refund due to death must be in writing and signed by a person legally authorized to act for the deceased.

Textbook Refunds

The College Bookstore will accept textbook returns for refunds during registration, drop/add, and the weeks immediately following the end of the drop/add periods. Bookstore personnel cannot issue a refund if the textbook has been written in or is damaged in any way; the textbook is wrapped in plastic, and the plastic has been removed, and without the original cash register receipt.
**FEES AND EXPENSES**

All fees are subject to change based on implementation of FS 240.035.

### Course Fees

**Fees for Advance Registration** are due on the 'Last Day to Pay Advance Registration Fees' each semester. Fees for Regular Registration are payable upon registration. Fees may be paid by cash, check, Visa or MasterCard.

The following schedule of fees is applicable to all students, including those in an audio course.

#### College Credit* and College Preparatory Credit

**Florida Resident**
- **$42.20 per credit hour**

**Non-Florida Resident**
- **$137.29 per credit hour**

#### Technical Credit***

**Florida Resident**
- **$18.35 per credit hour**

**Non-Florida Resident**
- **$73.42 per credit hour**

---

*Includes advanced, professional, and post-secondary vocational (PSV) courses.

**Includes a financial aid fee, a student activity and services fee, and a capital improvement fee.

***Includes post-secondary adult vocational (PSAV) courses.

****Includes a financial aid fee and a capital improvement fee.

---

### Continuing Education Fees

**Non-Credit Technical Supplemental**
- **Florida Resident**
  - **$1.15 per contact hour**
- **Non-Florida Resident**
  - **$4.35 per contact hour**

**Lifelong Learning (CEL)**
- **$4.00 per day**

---

**Workshops**
- **$3.00 per day**

---

### Repeated Courses (Legislative changes effective Fall Term 1997):

**College Preparatory and College Credit Courses**

Beginning Fall Term 1997, students enrolling in a college preparatory course after the first attempt and college credit students enrolling in the same college credit course after the second attempt will be charged the full cost of instruction. The full cost of instruction has been determined to be equivalent to the out-of-state fee. For fee purposes only, previous enrollment in courses prior to Fall Term 1997 will not apply in calculating student fees.

### Special Additional Fees

All special additional fees are non-refundable and non-transferable once paid by the student.

- **Application**
  - **$50**
- **CLAST for Teachers**
  - **$25**
- **CLAST for Students from Private Institutions**

---
FINANCIAL AID AND SCHOLARSHIPS

What is Financial Aid?

The purpose of financial aid is to help fill the gap between what it costs to attend college and what the student can afford to pay. The student and his/her family have the primary responsibility for financing his/her education. However, the Financial Aid Office at PHCC can assist by showing where the student may be able to obtain grants, loans, scholarships, and part-time employment and by showing the student how to apply for this assistance.

Where Can A Student Get Help?

Students may also wish to contact any Financial Aid Office to obtain a copy of the latest “Student Financial Aid Guide,” a free PHCC publication which explains programs and procedures in greater detail for students applying for and receiving financial assistance.

When Should A Student Apply?

If a student thinks he/she may attend college this year, then the time to apply is NOW. It often takes several months to complete the application process. Keep the following application dates in mind:

- January 1, 1998 – Application period begins
- May 1, 1998 – Initial deadline to apply for Florida Student Assistance Grant (FSAG) and most scholarships
- May 1, 1998 – Priority awarding begins for completed Financial Aid Files. Files completed after May 1 will be considered in order of receipt; funds are available.
- July 6, 1998 – Advance Registration begins
- August 24, 1998 – Classified begin
- November 6, 1998 – Deadline to apply for Stafford Loan for Fall Term
- March 6, 1999 – Deadline to apply for Stafford Loan for Spring Term
- June 1, 1999 – Final deadline to apply for Federal Pell Grant for 1998-99 school year

NOTE: A STUDENT MUST SUBMIT THE FIRST STUDENT AID REPORT (FAR) WITH THE CALCULATED EXPECTED FAMILY CONTRIBUTION (EFC) BY JUNE 30, 1999 OR THE STUDENT’S LAST DAY OF ATTENDANCE, WHICHEVER COMES FIRST.

What Are The Application Procedures?

The first thing a student must do is to gather the following financial records for him/herself and his/her family:

- 1997 U.S. Income Tax Record
- W-2 Forms and other records of money earned in 1997
- Records of non-taxable income such as veterans, social security, and welfare benefits
- Business and farm records

The student will need this information to complete the Free Application for Federal Student Aid (FAFSA). When completing the application, information should not be estimated. Verification of the information on the application may be requested at a later date. Upon completion of the FAFSA application, the student should mail it to the appropriate agency for processing.

The College Title IV Code number is 016652.

To order to apply for financial aid at PHCC, students must also complete the following steps:

- Complete an Application for Admission.

How Much Will It Cost To Attend PHCC?

Cost of Attendance

The cost of attendance usually includes direct or indirect expenses as permitted by federal regulations such as:

- Average tuition and fee charges for a full-time student based on the educational objective (A.A., A.S. or approved Technical Certificate).
- Average books and supply expenses.
- Average room and board allowance (living expenses) based on whether or not the student lives with parent(s).
- Reasonable miscellaneous expenses such as transportation and personal expenses related to education.

To determine need as in the example above:

Example: $9,119 minus $2,000(EFC) = $7,119

The following figures are estimated expenses based on the average costs of most credit programs at 15 credit hours per term for 2 semesters (9 months) using 1997-98 data.

*Non-Florida Residents – add $1,433.00 or Out-of-State Fees

**Includes allowances for Federal Family Education Loan Fees.

All fees are subject to change based on implementation of FS 248.035.

Allowances for costs exceeding tuition and fees for specialized PHCC Program, disability-related expenses (not provided by other agencies), and additional adjustments will be considered as the request of the student on a case-by-case basis.

How Is Need For Financial Aid Determined?

A student’s financial need is determined according to statutory formulas from the federal government. It is a systematic way of measuring a family’s ability to pay for educational costs and determining how much a student and his/her family can contribute. The formula takes into account family income, assets, student income, family size, number in college, and various other factors.

The end result of the need analysis is the expected family contribution. The expected family contribution (EFC) is the amount that a student can reasonably be expected to pay toward the cost of education. It measures the ability, not the willingness, of the
family to finance the student’s education.

The amount of financial need is determined by subtracting the expected family contribution from the cost of attendance.

**How Does A Student Know Whether He/She Qualifies?**

Approximately 4–6 weeks after sending the Free Application for Federal Student Aid (FAFSA) to the processor, the student will receive a Student Aid Report (SAR). The student should submit the SAR to the campus Financial Aid Office, even if the SAR says he/she is not eligible to receive a Federal Pell Grant. Since the College may be able to offer the student other aid based on the information contained on the SAR. If any of the information is incorrect, the student should contact the Financial Aid Office for instructions about correcting the information.

If the student qualifies for financial aid, an award letter describing the types and amounts of aid is sent to the student provided that:

- All required forms and documents have formally been submitted.
- The student has been formally accepted for admission to the college with a degree/certificate seeking student.
- The student enrolls in an eligible program leading to a degree or certificate.
- Except as otherwise noted, the student enrolls for at least 6 hours per session.
- The student is neither in default on a student loan nor owes a refund on a grant.
- The student makes satisfactory academic progress.
- The student meets the U.S. citizenship and the draft registration requirements.
- The student needs to submit to the Admissions Office a copy of his/her high school diploma for the AA or AS degree programs or received a passing score on all sections of the TABE Test for Technical Credit Program.
- The student must have a valid Social Security number.

A student receiving a Federal Student Loan(s) must participate in or receive Loan Entrance Counseling before receiving a Federal Stafford Loan. Students must participate in or receive Loan Exit Counseling prior to graduation or due to a change in enrollment (i.e., less than half-time).

**How Will I Receive My Financial Aid?**

Students will be awarded financial aid for one term (i.e., fall and winter of each year) unless otherwise noted. Therefore, students will receive half of their awards to be disbursed (distributed to students) as soon after each term’s drop/add deadline as possible. Specific dates for disbursement (the date funds are released to students) of grants and scholarships are listed in the College Calendar section of this publication.

**When Is Financial Aid Received?**

A student may utilize financial aid and scholarship awards to register and purchase books and supplies for the term. If the amount of the award is applicable to such costs. At the end of registration, any funds owed to the college for such costs will be deducted from the student award(s) for the term. Once these deductions have been made by the Business Office, the balance of the grant award(s) will be paid to the student as soon as possible after drop/add.

A student receiving a Federal loan will be mailed his/her check after the student has registered, paid fees, and has attended classes for the session. Delays in distributing checks may occur due to the large number being processed. However, PHCC personnel will process the checks as rapidly as possible. A student in the first year of his/her program of study cannot receive the initial disbursement of his/her first loan until 30 days after the first day of classes in the term to which the initial disbursement applies (federally mandated delay).

**Work-Study funds will be paid bi-weekly (based upon hours worked) at the federal minimum wage rate.**

**Entrance And Exit Interviews**

Students must participate in loan entrance and exit counseling sessions before receiving a Federal Stafford loan. Checks cannot be disbursed to first-time borrowers who have not completed the initial 30 days of their program.

**What Are The College's Standards of Academic Progress?**

Students should understand how the college determines whether satisfactory academic progress is being made and the consequences of unsatisfactory progress. See Standards of Academic Progress.

**What If A Student Reduces His/Her Course Load?**

A reduction in course load occurs when a student either withdraws from a class(es) or changes to audit after the drop/add period in a given semester. There are three categories of withdrawals/audits:

- **Category 1** occurs when a student withdraws from or audits all classes and never attends any classes. Awards in this category will be cancelled to reflect nonattendance and zero funding. The student will be in repayment of funds received.
- **Category 2** occurs when a student withdraws from or audits a class or classes and attends at least one class meeting in each class. Awards in this category will not be reduced except when a student withdraws from or audits all classes prior to receiving the cash disbursement. The balance of the student’s award for the semester will be cancelled after deducting any authorized funds owed to PHCC.
- **Category 3** occurs when a student withdraws from all classes prior to completing 60% of the semester and this is the first term of attendance at PHCC. A proportional amount of the Federal Title IV funds received may require repayment. This procedure is referred to as “Pro-Rata Refund” which is a federal U.S. Department of Education Regulation (34 CFR 668.22).

A late applicant who submits the necessary documents, e.g., the Student Aid Report for the Federal Pell Grant, after the first class day of the semester will be processed based on the enrollment status at the time these documents are received by the College.

**What Is The College’s Refund Policy?**

It is the responsibility of the student to review the college’s refund policies and be aware of the steps necessary to receive a refund (See Refund Policy).
FINANCIAL ASSISTANCE PROGRAMS/AWARDS

Grants and scholarships are considered gift-aid. Financial aid awarded in the form of grants and scholarships does not have to be repaid. Grants are generally awarded to students with financial need. Scholarships are usually awarded to students based on skills and academic attainment.

FEDERAL PELL GRANT.

This is the largest of the government's student aid programs and is the starting point for most students seeking financial aid. Awards for the 1998–99 academic year will depend on the level of program funding.

How To Apply:

Forms are available in each campus Financial Aid Office.

Students should:

1. Complete the Free Application for Federal Student Aid and mail to the processor.
2. Complete the PHCC Institutional Application for Financial Aid.
3. Request Financial Aid Transcripts from all colleges attended during the current (1998/99) academic year, whether or not any financial aid was received.
4. Return the Student Aid Report (SAR), which is sent from the federal processor, to the campus Financial Aid Office.

NOTE: Priority deadline is May 1, 1998.

Eligibility:

1. A student is eligible if he/she is admitted to the college as a regular student.
2. Enrolls in an eligible degree or certificate program.
3. Is a U.S. citizen, national or permanent resident, and has met registration requirements.
4. Is making satisfactory academic progress.
5. Has neither in default nor overpayment on student loans or other aid.
6. Has financial need based on the federal need analysis.

Selection of Recipients:

Selection is based upon student's eligibility as determined on the information provided on the SAR.

Determination of Awards:

Awards are based upon the following criteria:

1. The Expected Family Contribution on the SAR.
2. The Student's Cost of Attendance.
3. The Student's Enrollment for the session.
4. Criteria for Continued Eligibility:

1. Continued satisfaction of eligibility criteria.
2. Reaplication each year.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG)

The Federal Supplemental Educational Opportunity Grant (FSEOG) Program is a campus-based program because it is administered directly by the Financial Aid Office at the College. Unlike the Federal Pell Grant Program, which provides funds to every eligible student, the College receives a certain amount of funds for the program each year. Priority is given to early applicants with exceptional financial need, with the lowest expected Family Contributions (EFCs), and to students who receive Federal Pell Grants. There is no guarantee every eligible student will be able to receive the grant since fund availability is limited.

Students Must:

1. Complete the Free Application for Federal Student Aid and mail to the processor.
2. Complete an institutional application.
3. Request Financial Aid Transcripts from all colleges attended during the current (1998/99) academic year, whether or not any financial aid was received.

Selection of Recipients:

Selection is based on expected family contribution (EFC) and Federal Pell eligibility. Priority is given on a first-come, first-served basis to students who apply before May 1 of each year. Applications received after that date will be awarded as funds permit.

FLORIDA STUDENT ASSISTANCE GRANT (FSAG)

FSAG awards are available to eligible Florida residents who demonstrate financial need and who wish to attend a Florida college.

How To Apply:

1. Complete the Free Application for Federal Student Aid.
2. Insure that college name and code number are correct.
3. Apply during the application period: January 1 to about May 1 of each year. (The state establishes the deadline each year)

Eligibility:

A student is eligible if he/she:

1. Is a U.S. citizen or permanent resident.
2. Enrolls for a minimum of 12 semester hours per semester in an eligible degree program.
3. Has been a resident of Florida for at least 12 consecutive months.
4. Demonstrates financial need as defined by the state.

Selection of Recipients:

Recipients are selected according to guidelines issued by the Office of Student Financial Assistance, State of Florida.

Determination of Awards:

1. Financial need is determined by an approved need analysis.
2. Award amounts are approximately equal to the average full-time tuition for two semesters at PHCC.
BURÉAU OF INDIAN AFFAIRS (BIA)
The BIA provides benefits for people who are at least one quarter American Indian, Eskimo, or Aleutian, and who are in tribes served by the Bureau of Indian Affairs, and who have financial need. Contact the appropriate tribal council for details and application forms.

FEDERAL COLLEGE WORK STUDY PROGRAM (FCWSP)
Part-time employment may be awarded to a student with financial need as part of his/her financial aid award. This type of aid is classified as "self-help." The student must earn the funds he/she receives through these programs.

How To Apply? Application procedures are the same as those for Supplemental Grant.

Eligibility:
A student is eligible if he/she:
1. Is admitted to the college as a regular student.
2. Enrolls in an eligible degree or certificate program for at least 6 credit hours.
3. Is a U.S. citizen, national or permanent resident and has met registration requirements.
4. Has financial need.
5. Is maintaining satisfactory academic progress.
6. Is neither in default nor overpayment on previous aid received.
7. Renewal placements are contingent upon reapplying for Federal Assistance.

Selection Of Recipients:
Selection is based upon financial need as determined by the federal government. Priority is given to continuing students who had FCWSP awards in the previous year/term and to students with the greatest financial need as determined by the federal need analysis system.

Determination Of Awards:
Financial need is determined by the federal government according to financial need as determined by the need analysis report received from the processor. In general, the awards do not exceed 20 work hours per week in a given semester. Most awards are for 15 hours per week.

Conditions And Terms
1. If a student is awarded work-study, he/she should contact the Financial Aid Office on his/her home campus for job information.
2. The student will be paid bi-weekly at the federal minimum wage rate.
3. The student and the supervisor will establish a schedule which is satisfactory to both parties.
4. The student is expected to work scheduled hours.
5. To reduce the work load, the student must notify the supervisor and the campus financial aid advisor.
6. A student may not work more than 15 hours per week without prior approval from the financial aid director.
7. A student must maintain a satisfactory standard of academic performance.
8. A student must maintain satisfactory academic progress.
9. A student must remain enrolled during the session for which he/she receives a work study award.

STUDENT ASSISTANT WORK PROGRAM (SAWP)
This is an institutional work program that enables a limited number of students to work part-time on-campus. Special skills are usually required.

How To Apply:
Information is available in the Financial Aid Office on each campus.

Eligibility:
A student is eligible if he/she enrolls for at least 6 credit hours per session. Students must reapply each year for a position.

Selection Of Recipients:
Students are selected based upon their qualifications for job openings. Priority may be given to applicants with financial need. Hours worked per week are established by the Vice President of Educational Support Services and the assigned department.

DEFERMENT OF FEES
Eligible students may request a deferment of registration fees (excluding application and late registration fees) and deferment of necessary books if they have received a preliminary determination from the College indicating that they are eligible for state and/or federal grant aid. Deferrals will be granted for up to 60 days from the first day of classes, but not beyond 10 days before the end of the term for which the fees apply.

Deferrals are only available to students whose financial aid is delayed due to circumstances beyond their control. Deferrals cannot be granted because a student applied late for financial assistance.

Students must be enrolled at least half-time (6 credit hours for Term 1 and 12). The DEADLINE for obtaining a deferment is the last business day prior to the beginning of regular registration for the fall and spring terms. Deferrals are not automatic; students must reapply each year in the Financial Aid Office to determine their eligibility.

FEDERAL FAMILY EDUCATION LOANS
Financial aid awards in the form of loans must be repaid. For this reason, loans are considered to be "self-help" forms of assistance.

FEDERAL STAFFORD LOANS
The Federal Subsidized and Unsubsidized Stafford Loans are low-interest loans made by participating lenders to help pay for a college education.

Independent students who apply for the maximum Federal Subsidized Stafford Loan may be eligible for an additional $4,000 loan per grade level at PCC, under the Federal Unsubsidized Stafford Loan Program. The interest rate is the same as the unsubsidized loan; however, interest will accrue while the student is in school, with repayment of the principal and interest beginning six months after the student ceases to be at least a half-time student.
How To Apply:

Forms are available at each campus financial aid office.

1. Complete the Free Application for Federal Student Aid and mail to the federal processor.
2. Complete a PHCC Institutional Application for Aid.
3. Complete a Loan Request Statement (LRS) and Loan Entrance Interview.
4. Currently, PHCC participates in Electronic Funds Transfer (EFT) with several lenders (banks). Student Loan funds are received from each lender on an ongoing basis, once the loans have been guaranteed. While this may expedite the loan process, students should not “rely” on these funds until the monies are actually received at the college. This procedure is subject to change.
5. Students may apply (if eligible) for the Loan Program for subsequent terms as long as they have not received the maximum loan amount allowable at PHCC.

NOTE: Deadline for applications for Fall Term, Nov. 6, 1998. Deadline to apply for Winter Term, March 6, 1999.

Eligibility:

A student is eligible if he/she:

1. Enrolls for at least 6 semester hours per session.
2. Enrolls in an eligible degree or certificate program of study.
3. Is a U.S. citizen, national or permanent resident.
4. Is neither in default nor overpayment of other aid received.
5. Must have a minimum of 2.0 GPA and completion ratio of 67% and not exceeded 150% of the credit hours in the program of study.
6. Meets eligibility requirements of the lender.
7. Has a high school diploma or a GED.
8. Is not financial need as determined by the federal need analysis system.

As authorized by section 682.603(3)(A) C.F.R., the College reserves the right to deny or reduce a requested loan to a student.

</table>

Additional borrowing may be extended, based on appeal to the Director of Financial Aid, which supports an extenuating personal or educational situation wherein additional borrowing is justified.

Selection Of Recipients:

Recipients are approved by the lending institution based on eligibility criteria submitted by the school.

Terms Of The Loan:

1. Repayments of the Stafford Loan begin six months after student withdraws, graduates, or drops below half-time status.
2. The minimum repayment is $50 per month.
3. Interest is charged at the rate of 7% to 9 percent, depending upon the date the student began borrowing. The current rate for new borrowers is 7%. Specific interest rate information will be provided by the lender.
4. Maximum repayment time is 10 years from the start of the repayment period.

FEDERAL PLUS LOANS:

The term “PLUS” refers to the Federal Parent Loans for Undergraduate Students. These loans are available for parents of dependent students.

How To Apply:

Forms are available from advisors and participating lending institutions.

1. Parents are required to complete the need analysis application, but they are encouraged to do so.
3. Complete the appropriate loan application and submit it to the Financial Aid Office.
4. Parents must apply each year.

Eligibility:

A student's parent is eligible if the student,

1. Enrolls for at least 6 credit hours per session.
2. Enrolls in an eligible degree or certificate program of study.
3. Is a U.S. citizen, national or permanent resident.
4. Is neither in default nor overpayment of other aid received.
5. Is in good academic standing.
6. Meets eligibility requirements of the lender.
7. Has a high school diploma or a GED.

Determination Of Awards:

A dependent student's parent may borrow an amount not to exceed the total cost of education less other aid received, including the Federal Stafford Loan.
Selection Of Recipients:
Recipients are selected by the lending institution based on credit history and information provided by the school.

Terms Of The Loan:
1. Repayment of the parent loan begins 60 days after the disbursement date.
2. The current interest rate is variable, not to exceed 10%, and begins to accrue at the time of disbursement.

SCHOLARSHIPS
Scholarships are institutional and private gift money. Scholarships and grants are available annually for many students who require additional assistance above that received from federal and state sources or for those who do not qualify for need-based financial aid. Scholarship information can be found under numerous headings in libraries, usually in the reference section, in the campus Financial Aid Office, and through electronic internet services.

OTHER SCHOLARSHIPS
Private scholarships are forms of financial assistance provided by businesses, clubs, organizations, agencies, private donors, and others. Funds are usually limited and applications are available at the campus Financial Aid Office from Jan. 1 to May 1 each year.

PHCC SCHOLARSHIPS
The College awards scholarships to students who have demonstrated scholarship achievement or athletic ability in different areas. Awards are made to Pasco and Hernando county public high school students finishing in the top 10% of their graduating class each year who plan to attend PHCC. PHCC offers other forms of financial assistance in the areas of special artistic achievement, academic endeavors, athletic ability, and participation in college-related activities. The College also offers scholarships based on determined financial need on a limited basis. For more information, contact the Financial Aid Office on any campus.

VETERAN’S BENEFITS
All degree programs and many certificate programs at the college are approved for education and training under the various U.S. Department of Veterans Affairs (VA) programs. Even though these programs are approved, it is the responsibility of the veteran and/or the VA to apply for benefits. Veterans must file with the campus Veterans' Advisor for assistance with your initial application and any changes in your program.

The VA pays most entitlements directly to the student. In turn, the student must pay for tuition, fees, books, and supplies. A veteran who is eligible to receive benefits under Chapter 30, 31, 32, 33, 34, 35, or 36 U.S.C., or Chapter 107, 108 U.S.C., is entitled to one of the following: Chapter 30, February 28; Chapter 31, March 1; Chapter 32, March 1; Chapter 33, June 1; Chapter 34, July 1; Chapter 35, August 1; Chapter 36, September 1; Chapter 107, October 1; and Chapter 108, November 1. Each veteran who receives a deferment shall first complete the Veteran’s Deferred Payment Agreement (VPA-2) which is processed by the campus Veteran’s Advisor.

Deferments start with the first day of classes and is good for 60 days (in some cases it may be extended for 30 more days). If the session is for less than 60 days, the deferment shall be limited to 10 days prior to the last day of the term. An exception will be made for students who enroll in Term III and Term IV. In this case, students may receive advanced or preparatory benefits on the basis of all courses completed.

Veterans who fail to meet their financial obligations will have a hold placed on their records and will not be allowed to re-register or receive transcripts until such time as any deficiency is paid. (Refer to PHCC Board of Trustees Rule 60E10-6.00.)

Tuition assistance is available for veterans who have a deficiency in one or more subjects and can be paid for by the VA. The Campus Veterans’ Advisor is the student’s link to VA. He/she can furnish additional information about VA programs and procedures. Veteran students should consult with the Campus Veterans’ Advisor prior to selecting, dropping/adding, withdrawing, or auditing any class. All of these actions affect benefits.

FINANCIAL AID APPEALS/GRIEVANCE PROCESS

Financial Aid Appeals Procedures

Students who are denied financial aid by the Financial Aid Advisor and Director of Financial Aid due to unsatisfactory academic progress or an inadequate completion rate may submit a written appeal to the Financial Aid Office on their campus. Documentation, such as a physician’s statement, may be attached to provide evidence of mitigating circumstances beyond the control of the student which kept the student from maintaining satisfactory progress. The Financial Aid Advisor will review the appeal and determine whether the student will be allowed to receive financial aid for an additional term. Appeals relating to unsatisfactory academic progress will be processed according to the procedures outlined in Board Rule 60E10-6.09. Appeals relating to the 150% Time Frame limitations will be processed according to the general authority of Federal Regulation limitation 34 C.F.R. Part 668 18(c)(1)(B).

Appeals To The State Of Florida

In the event an appeal involves financial aid offered by the State of Florida, the student will be advised of the appeal procedures and the appropriate department at the Office of Student Financial Aid (OSFA) to contact. The appeal to the State of Florida is an additional requirement, not in lieu of, the institutional appeal requirements.

Financial Aid Grievance Process

Students who are denied financial aid may file a written appeal to the campus Financial Aid Committee. Documentation, such as a physician’s statement, may be required. The campus Financial Aid
Committee will review the appeal and determine whether the student will be allowed to receive financial aid for an additional term. Appeals relating to insufficient academic progress are processed according to the procedures contained in Financial Aid SFA-20-09.

The procedures for the financial aid grievance process, other than those that pertain to insufficient academic progress, are listed below.

1. Students should first attempt to resolve a financial aid grievance locally through discussion with a campus Financial Aid advisor. If the grievance cannot be settled at the campus level, the student may appeal, in writing, to the Director of Financial Aid.

2. The student will be required to submit a written statement regarding the nature of the appeal to the Director of Financial Aid. The Director of Financial Aid shall sign a copy of the appeal within ten working days of its receipt in the Financial Aid Office.

3. In the event the student is dissatisfied with the decision of the Director of Financial Aid, the student may submit a written request for a review to the Dean of Student Services.

4. Upon the receipt of the request for review by the Dean of Student Services, the Dean shall review the matter as soon as possible, and shall receive testimony and/or evidence from the student, witnesses, and/or any other source of relevant information.

5. The Dean of Student Services shall carefully and thoroughly consider all of the relevant information and evidence available to him/her and then shall issue findings on the matter. The findings shall be placed in writing and shall be forwarded to the student and to the President. The President, or his/her designee, shall make final action on the matter based upon the findings of the Dean of Student Services.

STUDENT CONSUMER RIGHTS AND RESPONSIBILITIES

Students – You Have The Right To Ask A School:

- What financial assistance is available, including information on all federal, state, and institutional financial aid programs.
- What the deadlines are for submitting applications for each of the financial aid programs available.
- What is the cost of attendance, and what are the policies regarding refunds for students who drop out.
- What criteria are used to select financial aid recipients.
- How financial need is determined. This process includes how expenses (i.e., tuition and fees, room and board, travel, books and supplies, personal and miscellaneous costs) impact your budget.
- What resources (e.g., parental contribution, other financial aid, your assets) are considered in the calculation of your need.
- To explain how much of your financial need, as determined by the institution, has been met.
- To explain the various programs in your student aid package. If you believe you have been treated unfairly, you may request reconsideration of the award which was made to you.
- What portion of the financial aid you receive must be repaid and what portion is grant aid. If the aid is a loan, you have the right to know the interest rate, the total amount that must be repaid, the repayment procedures, the length of time allowed to repay the loan, and when repayment is to begin.
- How the school determines whether you are making satisfactory progress, and what happens if you are not.
- To make available for review a copy of the documents describing the institution's accreditation, approval, or licensing.

Students – You Have A Responsibility To:

- Review and consider all information about a school's program before you enroll.
- Pay special attention to your application for student financial aid, complete it accurately, and submit it on time so the right place. Errors can delay your receiving financial aid. Intentional misreporting of information on application forms for federal financial aid is a violation of law and is considered a criminal offense subject to penalties under the U.S. Criminal Code.
- Return all additional documentation, verification, correspondence, and/or new information requested by either the financial aid office or the agency to which you submitted your application.
- Read and understand all forms that you are asked to sign, and keep copies of them.
- Accept responsibility for all agreements you sign.
- If you have a loan, notify the lender immediately of changes in your name, address, or school status.
- Perform in a satisfactory manner the work that is agreed upon in accepting a College Work-Study award.
- Know and comply with the deadlines for application or reapplication for aid. (You must reapply each year.)
- Know and comply with your school’s refund procedures.
- Request Financial Aid Transcripts from each college attended during the current academic year (598699).
- Notify the Financial Aid Office of all financial aid you receive from sources other than the college as soon as you receive it.
- Know the schedule for the disbursements of your award(s), and process aid checks within a reasonable period of time.
- Notify the Financial Aid Office immediately of changes in name, address, or enrollment.
STUDENT SERVICES/ADVISING

Advising (Including Computer-Assisted Advising)

Advisors are available to assist students and prospective students with academic, vocational, or personal matters on a walk-in or appointment basis. These services are available on campus each weekday, and evenings by appointment at all other district locations upon arrangement. Students with disabilities may also schedule an appointment with the Disabilities Services Specialist.

The Computer Assisted Advising Program (CAAP) is a program that matches an advisor’s academic history against a specific major program for a specific catalog year to determine which requirements have been met and which are still unmet. Advisors also request that they receive a copy of the CAAP to better track progress toward their degree or certificates. CAAP is available through an advisor on each campus for the degree, certificate, and associate degree offered by PHCC. At this catalog year, the process of implementing a similar system for all degrees and majors within the Florida postsecondary education system. Students are encouraged to see their advisor before registration begins each term to obtain the maximum benefit of their advising opportunities.

Orientation

All students who are seeking either a degree or a vocational certificate who register to take courses at PHCC for the first time must schedule an appointment in the Student Services Office for orientation and placement testing. Appointments are available during both day and evening hours. Advising appointments are made following these activities. Early advisement and registration help ensure the best selection of courses.

Registration Process

Before a student can register for credit courses, he/she must be admitted to the College. Additionally, students who are pursuing a degree or certificate must have declared a major either on their application form or through a program declaration form so that they may register for the appropriate courses for their specific program of study. These forms are available in the Student Services Office.

After submitting a PHCC application, students should schedule an orientation appointment for any necessary testing. Test scores are required for admission to all degree programs and for all students wishing to enroll in Mathematics, English, or Reading courses or other courses requiring these skills as prerequisites. New students should also make an appointment to meet with an advisor in the Student Services Office to plan the courses they will take. Students are encouraged to be advised as early as possible, adhering to the dates published in the College Calendar. Early advisement and registration lead to the best selection of courses and the most preferable class schedule. These students, except first-time students, who can select classes appropriate for their program of study at the College and who do not have advisor questions may self-advising and participate in express registration. Students may register and pay for courses at the East (Okeechobee), West (Lake Wales), or North (Brooksville) campuses. Payment of course fees may be deferred until the published purge deadline for each semester. This deadline can be found in the Schedule of Classes.

The beginning and ending dates for registration are published in the College Calendar. Registration priority is given to currently enrolled degree- or certificate-seeking students based on the number of credit hours earned. Students who register for television courses should check their course syllabus for the deadline dates or drop/add and audit/withdrawal dates.

Services for Students with Disabilities

Pasco-Hernando Community College, in compliance with Title II of the Americans with Disabilities Act (ADA), makes every reasonable effort to accommodate persons with disabilities. If a student requires any special services or accommodation because of a disability, he/she should contact the Assistant Dean of Student Services at the chosen campus of the Disabilities Services Specialist, Ms. Nicole Bilodeau-McKay. Pasco-Hernando Community College is an equal access college and does not discriminate against persons with disabilities. The College requires documentation of a student's disability before providing accommodations for such disability.

Students with documented disabilities may make written requests for waivers or course substitutions to established graduation requirements to the Disabilities Services Specialist. Disabilities can include, but are not limited to, such conditions as hearing impairments, visual impairments, physical impairments, speech impairments, specific learning disabilities, and other health impairments. All waivers and course substitution requests will then be forwarded to the Vice President of Instructional Services.

Unmet Financial Obligations

Transcripts will be released until student financial obligations are met. Diplomas and certificates are withheld until these obligations are met. Such financial obligations include, but are not limited to, library accounts and deferred payments. A student who has a financial obligation outstanding will not be allowed to register until the obligation is paid.

Job Placement

State, county, and local employment opportunities are posted in each campus’ Student Activity Center.

Career Center

PHCC advisors can provide career counseling and information at each campus. Various career assessment tests are available upon appointment. The Jobs in Education Partnership (JEP), available on each campus site, also provides options for evaluation of career opportunities. In addition, each campus library contains career information materials in the reference section.

Emergencies

Fire and evacuation exits are identified in all buildings and are to be used in emergencies. In case of disaster, the President or the senior college official present may cancel classes. Local radio stations will be asked to carry announcements regarding cancellation and re-opening in emergency situations.

Any emergency situation observed by a student should be reported immediately to the Office of the Provost or the Center Director. In case of a personal emergency, college staff will try to contact a student. However, the college assumes no responsibility for making such contacts.

Health Information

PHCC does not provide health services but does provide information for students who may want to obtain health insurance. Furthermore, the college assumes no responsibility for medical treatment of its students. College personnel shall provide assistance to
students in obtaining emergency medical attention from independent medical providers. As required by Florida Statute, some health information, including that pertaining to acquired immune deficiency syndrome (AIDS), can be obtained from the Assistant Dean of Student Services on each campus.

Sexual Misconduct

PHCC is committed to the prevention of acts of sexual assault involving the college community, including students, employees, volunteers, and visitors while at college campuses and centers. Acts of sexual assault on college property or carried out by members of the college community shall not be condoned or tolerated as outlined in Board Rule 6Ha19.3.3, "Sexual Assault Prevention and Response Measures." Any student or employee found in violation of this policy shall be subject to appropriate disciplinary action, which may include dismissal from the college. Every victim of a sexual assault will be treated with care and compassion and will be encouraged to seek medical treatment and counseling. Every victim will be encouraged to cooperate also with local law enforcement authorities in the apprehension and prosecution of the perpetrators of these serious offenses. A Student Services employee at each campus has been appointed to serve as a Victim's Advocate to provide assistance. The Victim's Advocate shall assist with the coordination of the services to be provided to the victim. In all cases, the College shall treat all of the information received from the victim as strictly confidential. However, the information may be made available as required by law or rule.

The appropriate local law enforcement authority shall be immediately notified of the allegations made in every report of a sexual assault that meets any one or more of the following criteria items:

1. Any sexual assault that is alleged to have occurred on college-owned or -controlled property, or immediately adjacent to such property, including any assault that originated with an abduction from such property.
2. Any sexual assault that is alleged to have occurred at or during a college-sponsored activity and which involves any student, employee, volunteer, or visitor of the college as alleged victim or perpetrator.
3. Any sexual assault that is alleged to involve an employee or volunteer of the college in perpetrator.
4. Any sexual assault that is alleged to have, or appear to have, a connection to the college operations, activities, facilities, employees, students, volunteers, or visitors such that the incident may pose a continuing danger to the college community.
5. Any sexual assault in which the alleged or apparent victim has specifically requested that a college official notify the local law enforcement agency.

Harassment

In conformance with State Board Rule Chapter 6A-19 and PHCC Board Rule 6Dx19.2-56, "Educational and Work Environment," harassment within the educational and work environment in any form will not be condoned or tolerated by the college, whether directed toward employees, employees, or students. Harassment includes sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or educational career. A complaint of alleged harassment should be lodged with the Provost or a Vice President.

Crime Statistics

As required by Florida Statutes, Chapter 90-302, data regarding campus crime must be compiled annually. Information for the past three years is available from the Assistant Dean of Student Services on each campus.

Federal Security Report

In accordance with the Federal Student Right-to-Know and Campus security Act (Public Law 101-547, as amended), PHCC has prepared this report addressing the security policies of the college. Any questions about these policies should be directed to the Assistant Dean of Student Services at each college location.

I. Reporting Policies

Students are encouraged to report any emergency or any known or suspected criminal activity occurring on campus or in connection with any college function to the office of the Provost or the Center Director. In the event that the Provost or Center Director is not immediately available, a report may be made to any college official or employee. It is the policy of the college to report all known or suspected criminal activity occurring on campus or in connection with any college function to local law enforcement authorities for investigation and prosecution as appropriate.

II. Access to Campus Facilities

The campuses and centers of PHCC are open to the public during the hours of 6:00 A.M. until 11:00 P.M., Monday through Friday, and at other times upon special notice. The public is invited to the college to pursue educational opportunities and to attend college functions and activities. The pursuit of educational opportunities may include attendance classes, registering for classes, visiting with instructors or advisors, obtaining information about college programs, or simply becoming familiar with the college facilities and its amenities.

During the hours of 11:00 P.M. to 6:00 A.M., or on weekends when the college is officially closed, any person found on college property without authorization shall be considered a trespasser and may be reported to local law enforcement authorities. Loitering and soliciting on college property are strictly prohibited and any person found loitering or soliciting will be asked to leave, or upon refusal will be reported to local law enforcement authorities.

III. Campus Law Enforcement

PHCC does not maintain a campus police department or college law enforcement authority. The college facilities fall within the jurisdiction of local law enforcement officers and any criminal activity occurring at a college facility is referred to local police for investigation and prosecution as appropriate.

IV. Crime Awareness and Prevention Programs

All new students at PHCC are strongly encouraged to attend student orientation programs presented at each campus at the start of each session. As part of these orientation programs, students are given information about crime prevention and specific tips on personal safety and protection from crime. Students also receive in-
sanction about how and where to report suspected criminal activity.

In addition to the orientation programs described above, PHCC schedules two programs each year for students and employees which address various aspects of crime awareness and prevention, personal safety, and information pertaining to crime and alcohol use. These programs vary in length and content; however, crime awareness and prevention topics are always included.

V. Off-Campus Criminal Activity

PHCC does not maintain student housing facilities, either on or off campus. Students are responsible for making their own housing arrangements. In the event that a crime occurs or is suspected at the private housing facility of a student, the student is encouraged to notify local law enforcement authorities immediately and directly. If the student requires the services of the college victim advocate, such services will be made available. However, the college has no direct responsibility or jurisdiction over the private housing facilities of its students.

VI. Policy Concerning Alcohol and Illegal Drugs

PHCC complies with and embraces the policies contained in the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989 (including Section 22, Drug-Free Schools and Campuses). Use or possession of alcohol or illegal drugs while on college premises or while engaged in college-sponsored activities off campus is prohibited.

No student shall report to classes or college-sponsored activities while intoxicated, impaired, or under the influence of illegal drugs or alcohol. The college will impose disciplinary sanctions on students for violation of these policies, which may include suspension or expulsion from the college. The college may also report alleged violations to local law enforcement authorities for investigation and prosecution as appropriate.

The college provides drug and alcohol abuse educational programs in conformity with Section 1213 of the Higher Education Act of 1965, as amended. These programs are present on both campuses each year and students and employees of the college are encouraged to attend. These programs vary in length and content, however, prevention of alcohol and drug abuse is always a general theme.

VII. Criminal Activity Occurrence Statistics

PHCC has experienced very little criminal activity on its campuses and at its centers since its inception in 1972. The following statistics reflect this nearly crime-free environment for the calendar years 1994, 1995, and 1996.

Drug-Free College Program

PHCC is committed to the development and implementation of a comprehensive plan to establish and maintain a drug-free environment. Therefore, the District Board of Trustees has adopted a "Drug-Free College Program" in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989 (including Section 22, Drug-Free Schools and Campuses).

Use or possession of alcohol and illegal drugs is prohibited by students while on college premises or while engaged in college-sponsored activities off campus. The college will impose disciplinary sanctions on students consistent with local, state, and federal law, up to and including suspension, expulsion, and reporting to local law enforcement agencies for offenses of drugs and alcohol.

Students, by registering at PHCC, assume the responsibility of becoming familiar with and abiding by the regulations and rules of conduct of the college.

Student Conduct

In accordance with Florida Statutes, no student attending PHCC may participate in any activities that are disruptive to the normal, peaceful, and orderly operation of state institutions of higher learning.

The following actions are prohibited at or on any campus or at any college-sponsored or college-affiliated activity or event. Violation of any of these regulations may result in disciplinary action. Disciplinary action may also be imposed for special circumstances as prescribed by State or Federal Law. Incidents may be reported to the appropriate law enforcement agency.

1. Possession or consumption of alcoholic beverages.
2. Use, possession, sale, barter, exchange, gift, distribution, or other transaction of any narcotic drug as defined in Chapter 893 of the Florida Statutes, this includes cannabis sativa (marijuana).
3. Academic dishonesty, to include cheating and/or plagiarism.
4. Stealing.
5. The use of indecent or abusive language.
8. Vandalism or destruction of property.
9. Falsehood or falsification of college records.
10. Unauthorized use of the college name.
11. Arrogance or indescent conduct.
12. Behavior or actions which are disruptive to the normal, peaceful, and orderly operation of the college.
13. Violation of a federal or state law, a county or city ordinance.
14. Repeated offenses of a less serious nature.
15. Assault or physical abuse.
16. Possession or use of explosives (including fireworks), chemical agents, or deadly weapons. This policy does not apply to training law enforcement officers.
17. Unauthorized entry or occupancy of college facilities.
18. Conspiracy or solicitation to commit an unlawful act or to violate any college regulations or policies.
19. Repeated violations of college traffic rules while on campus.
20. Trespass on college grounds in violation of college rules.
Academic Dishonesty: Cheating and Plagiarism

In an attempt to clarify possible misunderstandings, PHCC faculty and staff have developed some definitions and examples of two types of academic dishonesty: cheating and plagiarism. Cheating is defined as the giving or taking of information or material with the purpose of wrongfully aiding oneself or another person in academic work that is to be considered in determining a grade. Plagiarism, or literary theft, is defined as appropriating the literary composition of another person, including parts, passages, or language of that writing, and passing off the appropriated material as one's own. Plagiarism is the failure to give proper credit or citation to one's source(s) of information. It includes the failure to use conventional methods of documentation for material quoted or paraphrased. Additionally, plagiarism includes allowing someone else to compose or rewrite an assignment for a student.

Some examples of cheating and/or plagiarism include, but are not limited to, the following items:

1. Asking for or giving another student information during a test;
2. Copying answers from another student's paper or intentionally allowing someone to copy from one's own paper during a test;
3. Using materials prohibited by the instructor during a test;
4. Either impersonating another student during a test or having another person assume one's identity during a test;
5. Changing answers on a previously graded test in order to have a grade revised;
6. Stealing examination materials;
7. Copying material, either exactly or in essence, and not providing appropriate documentation;
8. Copying or falsifying a laboratory or clinical project/assignment, including computer programs, in either disk or hard copy form;
9. Allowing someone else to compose or rewrite a student's assignment;
10. Stealing, buying, selling, or otherwise providing research papers.

As with other violations of student conduct (see "Student Conduct" section), cheating and/or plagiarism may result in disciplinary action. Refer to the section, "Disciplinary Procedures."

Hazing

The college shall not tolerate hazing, as defined below, at or on any college property or at any college-sponsored or college-affiliated event, either on or off any campus or center.

1. Hazing means any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of the college, hereafter referred to as "college organization." Hazing shall include, but not be limited to, any brutality of a physical nature, such as whipping, branding, forcing participation in any act which is harmful to the person's health or safety of the individual. Hazing shall include any activity which could subject the individual to extreme mental stress, such as sleep deprivation, forced initiation, forced initiation from social contact, forced initiation which could result in extreme embarrassment, or any other forced activity which could adversely affect the mental health or dignity of the individual. For purposes of this rule, any activity as described above upon which the initiation or admission into or affiliation with a college organization is directly or indirectly conditioned shall be presumed to be a "forced" activity, the willingness of an individual to participate in such activity notwithstanding.

2. This rule shall apply to students and to college organizations, including acting through other persons associated with a college organization who are not students.

3. Violations of this rule by individual students shall be enforced in accordance with the college's Disciplinary Rule, 6Hx.19-6.17.

4. Violations of this rule may subject an individual student to the following penalties:
   a. Minor violations: probation; and
   b. Major or repeated minor violations: suspension or dismissal.

5. Any college organization, as an organization or through any person associated with a college organization, which authorizes or participates in hazing in blatant disregard of this rule shall be penalized as follows:
   a. Minor violations: probation from operating as a college organization; and
   b. Major or repeated violations: suspension in accordance with District Board of Trustees Rule 6Hx.19-6.32, or rescission of the authority for such organization to operate on college property or operate under the sanction of the college.

   Organizational violations shall be handled by the Dean of Student Services or center administrator. In addition, hazing may subject an individual or organization to criminal penalties under Florida law.

6. In determining whether a hazing violation is "minor" or "major," the primary consideration will be the presence of or potential for serious physical or emotional harm to the victim of the hazing.

7. All college organizations are required to include the above anti-hazing rule in the bylaws of such organization.

College Operating Hours/Campus Security

The official operating hours of the college are from 6:30 a.m. to 11:30 p.m. The college is officially closed from 11:30 p.m. to 6:30 a.m. Any person not duly authorized, licensed, or invited by an official of the college to be on the premises or within any structure between 11:30 p.m. and 6:30 a.m. will be committing the offense of trespass, and local law enforcement officials will be notified. Each campus Student Services office is open weekdays, Monday through Thursday, 8 a.m. to 7:30 p.m. and on Fridays from 8 a.m. to 4:30 p.m.

Termination from the Health Programs

Students may be dismissed from the Nursing Degree Programs, the Practical Nursing Certificate Program, the Emergency Medical Services Degree Program, Emergency Medical Technician Certificate Program, Paramedics Certificate Program, Dental Programs, Radiography Program, Medical Secretarial, Coder Specialist, Medical Records Transcribing, Health Unit Coordinator, Patient Care Assistant, Examining Room Assistant/Home Health Aide, Human Services Program, or any College-related health program for any of the following reasons:

Faculty shall refer the student to the Health Program's Coordinator/Director and/or Associate Dean of Health, Mathematics, Science on the first documented incident related to any of the following reasons:

1. Any action outlined in Board Rule 6Hx.19-6.13, and as repeated
above under the section entitled "Student Conduct."

2. Endangering a patient's/Client's life by:
   a. violating standard safety practices in the care of patients;
   b. delaying care that is within the student's realm of ability
      and/or knowledge;
   c. performing skills or procedures that are beyond the realm
      of the student's ability and/or knowledge;
   d. failing to comply with the requirements for repeat physical
      examinations, inclusive of drug screening, at the discretion
      of the division director and resulting from observed behavioral
      changes.

3. Being found in any restricted or unauthorized area.

4. Violation of confidential information related to patients/
   clients.

5. As a result of due process proceedings based upon a request
   in writing from the hospital or participating agency that the
   student be withdrawn from said agency.

6. Aggressive or dishonest behavior to any college staff member,
   hospital staff member, Medical Director, physician, patient, or
   student, defined as follows:
   a. Aggressive behavior is defined as a forceful, self-assertive
      action or attitude that is expressed physically, verbally, or
      symbolically and is manifested by abusive or destructive acts
      towards oneself or others.
   b. Dishonest behavior is defined as an untruthful, unworthy,
      or unreliable action.

AND, for Paramedic Program students, Emergency Medical
Technician and EMS students.

7. Refusing to follow an order from any physician, hospital staff
   member, or college instructor.

Recommendations regarding termination shall be forwarded by
the Associate Dean for Health, Mathematics, and Science within 5
working days to the Assistant Dean for Student Services for
subsequent action according to Board Rule 04.0.19-6.17, "Student
Disciplinary Procedures."

Disciplinary Procedures

Alleged violations of student regulations or other student miscon-
ductor shall be referred to the Assistant Dean of Student Ser-
vice/Counselor, and then to the Campus Provost as needed. Repr.
' imands or unrecorded disciplinary probation may be
administered by these officials. Disciplinary probation will be
recorded on the student's permanent record and must be approved
by the Dean of Student Services. In situations in which the
penalty could be disciplinary suspension (not to exceed one ses-
sion) or dismissal from the college, the problem will be referred
by the Campus Provost to a campus disciplinary board. The board
will be composed of the Dean of Student Services as chair, the
Campus Provost, the Equity Officer/Minority Recruiter, a coun-
selor, a student, and a faculty member. Except for the Dean of
Student Services and the Equity Officer/Minority Recruiter, all
members of the board will be from the accuser student's campus.

In all cases in which disciplinary suspension or dismissal could re-
sult, the student will be notified by certified mail of the nature of
the charges and evidence against him or her and the time and date
of the hearing. The notice shall also inform the student of his or
her right to appear at the hearing, to face the accuser, and to pre-
sent any applicable evidence on his/her own behalf. After a care-
ful and thorough hearing on the case, the disciplinary board shall
make a final determination by majority vote in accordance with
one of the following actions:

1. Dismissal of the student from the college.
2. Disciplinary suspension for a specified period of time.
3. Disciplinary probation recorded on the student's permanent
   record.

4. Administrative reprimand.

5. Report of the incident to the appropriate law enforcement
   agency.

6. Removal of the charges against the student.

Decisions of the disciplinary board may be appealed to the Vice
President of Educational Support Services. In all cases in which
disciplinary suspension or dismissal from the college has been
determined, a copy of the proceedings of the hearing shall be sent
to the Vice President of Educational and Support Services and
the Provost. Nothing in this procedure shall be so construed as to
prevent the President or any appropriate official of the college
from taking such immediate action as deemed necessary, except
that final action shall be in accordance with the procedure as de-
scribed.

Student Grievance Procedures

1. Students should first attempt to resolve grievances locally and
   informally through discussion with the following campus officials,
in the order listed:
   a. Instructor
   b. Division Director/Associate Dean
   c. Assistant Dean of Student Services/Counselor
   d. Provost

Each official, upon receipt of a grievance, shall investigate the
circumstances to include interviews with the individuals in-
volved where necessary and shall attempt to resolve the prob-
lem. If unable to do so, the official will refer the matter to the
next higher level of responsibility, as indicated above.

2. Should the grievance not be settled at the campus level within
ten working days, it shall be referred to the Vice President of
Educational Support Services who shall attempt to resolve the
matter within ten working days of receipt. If this effort is un-
successful, he/she will recommend to the President the ap-
nointment of a Special Board to conduct a formal administra-
tive hearing as the basis for final action by the President.

3. The basis on which a grade was awarded may not be chal-
   lenged under this grievance procedure. The accuracy of con-
   vening the grade may be questioned, and appropriate correction
   may be sought.

4. The student grievant may request assistance from the Equity
   Officer/Minority Recruiter at any point during the grievance
   process. The Equity Officer/Minority Recruiter is not to re-
   present the grievant, but is only to aid the complainant in defining
   the issue(s) and arranging appointments with campus officials.

   When such assistance is requested, the Equity Officer/Minority
   Recruiter shall monitor progress of the case to its conclusion.

Student Ombudsman

The Vice President of Educational Support Services serves as
the student ombudsman or student advocate for certain specific issues.

These areas are limited to unresolved disputes concerning:

a. transfer or course substitution credit awarded.
b. meeting of graduation requirements
c. access to courses, i.e., College-wide availability of courses
   needed for graduation

This office is NOT involved with entry into limited access pro-
grams such as Nursing and Dental Hygiene except as related to the
three areas listed above. This office is the appropriate contact
after a student has attempted to resolve the problem with the ap-
propriate PHCC personnel and does not feel that proper proce-
dures were followed. Students should contact this office by com-
pleting a Student Ombudsman Form (SCN-24). These forms are
available in the Student Services/Records Office on any campus.

25
Privacy of Student Records/Directory Information

The college shall maintain such information in its file for each student as is considered essential and appropriate to college operations and student welfare. These records are considered confidential, and certain security procedures will be followed by the college regarding the release of student information.

Students, or their parents in certain cases, have the right to review and to obtain copies of their official records, to seek correction of information contained in these records, and to limit the release of information from the records.

In the absence of written notice by a student to withhold any or all information classified as "directory," the college reserves the right to disclose this material. Directory information is defined as the name, address, telephone number, date and place of birth, major field of study, dates of attendance, degrees and awards received, participation in officially recognized activities, and the most recent educational institutions attended by the student.Copies of the complete policy on this subject may be found in the offices of the Student Services Staff and the President on each campus, and in the Office of the President in Board Rule 65b:19-0.11.

Student Use of College Facilities

Students are not permitted to remain in any college building after college hours (see College Operating Hours) without faculty supervision. Loozing on college property or in teaching locations is not permitted.

Student Government Association (SGA)

Each campus has a Student Government Association (SGA). Membership is composed of all students at each location. The purpose of these associations is to promote active, responsible, and cooperative citizenship through participation and self-government and to participate in the planning and conduct of extra-curricular activities in harmony with student interests.

Student Activities

Participation in extra-curricular student activities is encouraged. Students having common interests may form clubs, groups, or organizations as approved by the Campus Student Government Association and the college administration. Such activities may be reflected in courses, athletics, service to the college and the community, publications, religion, and social life. Some examples of extra-curricular activities are debates, musical and drama productions, games, concerts, and films. A recognized club or organization may lose its official recognition and be suspended for violation of college policy as described in Board Rule 65b:19-0.12, "Suspension of a Student Organization."

College Brain Bowl/Math Team

Brain Bowl is a game of general knowledge and quick recall. It is often called "the variety sport of the mind" and is often compared to the TV game show Jeopardy®. Students compete as a team against other community college teams. Students who have an interest exclusively in mathematics can compete on the PHCC Math Team.

Delta Epsilon Chi (DECA)

Delta Epsilon Chi (DECA) is the junior college affiliate club under National DECA which offers opportunities for students to participate in activities to help build successful careers in Marketing, Merchandising, Sales, and Management. Competition is held on a state level with the winners competing at a yearly National Career Development Conference.

Drama Club

The Drama Club produces plays and other artistic performances on campus. Students who participate in the Drama Club will gain experience working on productions from the preproduction planning stage to the final performance and strike.

Human Services Club

The Human Services Club provides a medium for cooperation and communication among area Human Services/Mental Health Professionals, faculty, and students. It also serves student members in their career development and career placement.

National Student Nurse Association (NSNA)

National Student Nurse Association (NSNA) is a national organization for students enrolled in state-approved programs leading to licensure as a registered nurse. Members learn to assume responsibility for contributing to nursing education in order to provide for the highest quality health care; to provide programs representative of fundamental and current professional interest and concerns, and to aid in the development of the whole person, and further professional role, and their professional responsibility for the health care of people in all walks of life.

PHCC CARES

PHCC CARES was created in 1995 to meet the increasing interest of students to serve the community in which they live. PHCC CARES is a community service program providing volunteer opportunities for students, faculty and staff. PHCC CARES works with a variety of social services agencies to offer projects ranging from two to six hours in length.

People Accepting Challenges Together (PACT)

People Accepting Challenges Together (PACT) was created specifically to serve as a support network for persons with disabilities. Any student may join the club, and those interested in working with disabled persons after graduation are especially encouraged to participate. The students in PACT meet regularly, advocate collectively for the needs of disabled students, sponsor the Disabilities Awareness Day each spring, assist with the Special Olympics, and engage in other social and community-based activities.
Phi Beta Lambda (PBL)

Phi Beta Lambda (PBL) is a national, state, and local organization for students interested in business. Members learn the value of competition at the district, state, and national levels. In the PBL program, members participate in leadership training, service, social, and fund-raising activities.

The PHCC East Campus has been designated as the Beta Omega Omega Chapter, the North Campus as the Mu Alpha Mu Chapter, and the West Campus as the Gamma Alpha Nu Chapter.

Phi Theta Kappa

Phi Theta Kappa is an honorary society first organized during the summer of 1978 at the North Campus of PHCC. The purposes of Phi Theta Kappa are: 1) the promotion of scholarship, 2) the development of leadership and service, and 3) the cultivation of fellowship among students of community colleges throughout the world.

To be eligible for membership, a student must have completed at least 13 semester hours of college credit at PHCC with a grade-point average of 3.25 or higher as specified by the respective Chapters. Only courses taken at PHCC and numbered 1000 or 2000 will be considered when calculating the GPA.

The PHCC North Campus Chapter has been designated as Alpha Delta Epsilon, the West Campus Chapter as Alpha Epsilon Upsilon, and the East Campus Chapter as Alpha Zeta Epsilon.

Students Against Driving Drunk

Students Against Driving Drunk (SADD) is an organization with a mission to help eliminate drunk drivers, promote responsible behavior by college students, and reduce the number of alcohol-related deaths and injuries.

Vocational Industrial Clubs of America (VICA)

Vocational Industrial Clubs of America (VICA) is a national and state organization for students interested in industrial-technical fields. It fosters respect for the dignity of work, promotes high standards in ethics, craftsmanship, scholarship, and safety; and offers activities that complement occupational skill development. VICA programs include local, state, and national contests in which students demonstrate the occupational and leadership skills they have learned in the shop and in the classroom.

UHURU Club

UHURU, the Swahili word meaning "freedom," is an organization that was established to develop an awareness of and solutions to the problems of the educational, economic, and cultural dilemmas experienced by minority people. The members of this club assist with planning the Martin Luther King Jr. Celebration, held each January, and Black History Month, observed each February.

Other Student Clubs/Organizations

Chess Club
Computer Club
Dental Hygiene Organization
Fellowship of Christian Athletes
Fellowship of Christian Students
Gospel Choir
Horticulture Club
Legal Eagles
Veterans Club
Writers’ Club

Student Ambassadors Program

Student Ambassadors serve as marketing representatives for PHCC. They represent the college throughout the community and serve as role models for other college students. They assist Student Services during registration periods, visit local high schools to help recruit new students to PHCC, give campus tours, and assist with fund-raising events, graduation ceremonies, and other special activities conducted by the college.

Student Publications

The Student Government Association of each campus may sponsor a student newsletter as a student activity. The newsletter is a means of distributing information of interest to students and the public. A staff or faculty member on each campus will serve as advisor to the newsletter staff.

Bookstore Services

Bookstore services include the sale of supplies and textbooks for college courses, as well as various other items of interest to students. Books needed for courses at each campus will be available for purchase at that location. Refunds for unmarked textbooks are made only during the regular final refund period. Sales slips are required for all refunds. Each College Bookstore is open from 8:00 a.m. to 7:30 p.m., Monday through Thursday, and Friday until 4:30 p.m. Students wishing to pay tuition, fees, and/or other obligations may do so at each Bookstore until 7:30 p.m.

Athletics and Recreation

PHCC has a successful intercollegiate athletic program. PHCC is a member of the National Junior College Athletic Association (NJCAA) and the Florida Community College Activities Association (FCCAA). The PHCC Companions compete in the FCCAA Regionals Conference in four sports: women's volleyball, softball, and tennis, and men's basketball and baseball. Equal opportunities are provided to women and men. PHCC recently added women's intercollegiate tennis and began competition in the spring of 1998.

A limited number of athletic scholarships are available for those selected for intercollegiate sports. Perspective students, as well as current students, who are interested in intercollegiate opportunities should contact the Athletic Director at the West Campus.

Other intramural and recreational activities are available at each campus for all students. Students who are interested in these types of activities should contact the Student Activities Office at any campus.
ACADEMIC POLICIES

Program Selection

Each degree- or certificate-seeking student who enrolls in the college must select a program from the Associate in Arts, Associate in Science, or one of the Certificate programs offered. Students in the Associate in Arts (AA) program or any student who intends to be admitted to upper-division status in a state university in Florida must pass the College Level Academic Skills Test (CLAST) or receive an approved CLAST alternative prior to transferring. Advisors are available to help with program selections. Program changes may be made by submitting a Program Declaration change to your advisor for approval.

Common Placement Testing

Associate Degree-Seeking Students

Students who intend to enter degree programs shall be tested prior to the completion of registration with the Florida College Entry Level Placement Test (FCEPLT), which consists of tests covering Reading, English, and Mathematics including Elementary Algebra. Minimum cut-off scores have been established by State Board of Education Rule 6A-10.0313, and any student falling below these minimum scores will be placed in a proper level of College Preparatory English, Mathematics, or Reading courses.

The College will accept MAPS, FCEPLT, CPT, SAT, ACT, and ASSET scores, provided that it is no more than two years old, and will place students accordingly. Test modifications may be made available to students who qualify under the guidelines of the Americans with Disabilities Act (ADA) of 1974. Students should contact a PHCC advisor in the Student Services Office for more information on placement testing.

Technical Credit Certificate Students

To comply with FAC 6A-10.040, the Test of Adult Basic Education (TABE) will be used by the College to assess basic skill levels for students entering technical credit certificate programs. Students who are enrolled in a postsecondary adult vocational program of four hundred fifty (450) clock hours or more shall complete a basic skills examination within the first six (6) weeks after admission into the program. The College will accept previous TABE scores provided that the scores are no more than two years old and students have taken the prescribed level (A, D, O, M) for the program they are pursuing. Test scores submitted from an agency other than PHCC should be mailed directly from that agency to the Records office at the student’s home campus. Students who fall below the minimum basic skill levels will be offered remediation in the Learning Laboratory. After remediation, the students will be given another opportunity to achieve the required TABE score. Students who do not reach the required TABE level by the end of the term following completion of the program (excluding summer) will not be issued a certificate. For additional information, students should contact an advisor.

Withdrawal/Forgiveness Rule

Withdrawal

1. A student may withdraw without academic penalty from any course by the midpoint in the semester.Withdrawals must be completed by the withdrawal date.

2. A student will be permitted a maximum of two (2) withdrawals per course. Upon the third attempt, the student will NOT be permitted to withdraw and WILL receive a grade for that course.

Forgiveness

1. A student may only repeat courses in which a grade of D or F was earned to be forgiven.

2. A student may only have a course grade forgiven two (2) times.

3. A student may have only three (3) attempts per course including the original grade, forgiven grades, and withdrawals at any point in the semester. Further attempts may be made only through a written academic appeal to the Vice President of Instructional Services based upon documentation of major extenuating circumstances. All grades from the third and subsequent attempts WILL be calculated in the grade-point average.

4. A student’s grade-point average (GPA) calculation may include grades on all work attempted and total hours attempted when transferring to other institutions.

5. Course may be repeated if they are designated as repeatable, such as electives, general education, or in individualized courses of study, or if they are required to be repeated by a regulatory agency; or are being repeated as part of a regulatory requirement for continuing education to stay current in a field, such as teacher certification.

6. Audit enrollment shall not count as attempted unless such enrollment is allowed after the drop/add period. College preparatory students who are required to be certified as completing competency-based college preparatory instruction shall not be enrolled as audits.

Standards of Academic Progress

1. All students will be evaluated for academic progress at the end of each term. In determining academic progress, college credit, vocational credit, and preparatory credit will be combined. "Attempted" means all credit hours for which a student is enrolled after the drop/add date for course enrollment. Transfer courses and grades taken for audit will be used to determine academic progress.

2. All students* will be required to complete at least one half of their total hours attempted. The following scale will be used to determine academic progress:

<table>
<thead>
<tr>
<th>Attempted Hours</th>
<th>Completion Requirement</th>
<th>Minimum GPA*</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-18</td>
<td>50% of total hours attempted</td>
<td>1.50</td>
</tr>
<tr>
<td>19-32</td>
<td>50% of total hours attempted</td>
<td>1.75</td>
</tr>
<tr>
<td>33+</td>
<td>50% of total hours attempted</td>
<td>2.00</td>
</tr>
</tbody>
</table>

*Students receiving Federal Financial Aid must complete 67% of their total hours attempted with a 2.00 GPA.

Good Standing: A student is in good academic standing when the requirements listed above are met.

Academic Warning: A student will be placed on academic warning at the end of the first term in which the standards outlined above have not been met.

Academic Probation: A student will be placed on academic probation at the end of a term if, after being placed on academic warning, the standards outlined above have not been met.

Academic Suspension: A student will be placed on academic suspension at the end of a term if, after being placed on academic probation, the standards outlined above have not been met.

Suspension Waiver: A student may appeal an academic suspension by filing a formal appeal to the Academic Appeals Committee. If the appeal is approved, the student will be al-
allowed to re-enroll in a status of Suspension Waiver. The Appeals Committee will establish re-enrollment conditions and will monitor the progress of any student in a status of Suspension Waiver. If the appeal is denied, the student may appeal the committee’s decision in writing to the Vice President of Instructional Services.

4. Academic Dismissal: If, after being placed in a status of Suspension Waiver, a student does not meet the re-enrollment conditions established by the Academic Appeals Committee, the student may be dismissed from the college for one major term (fall or spring). A student is eligible to reapply for admission after the dismissal period by filing a formal appeal to the Vice President of Instructional Services. If approved, the student will be allowed to re-enroll in the status of Suspension Waiver (see above).

Students who are currently enrolled and are on suspension will not be permitted to register using federal funds until their Standards of Academic Progress have been evaluated. Once evaluated, students placed on suspension will no longer be eligible to participate in federal, state, or institutionally-funded aid programs unless approved on appeal by the campus Financial Aid Appeals Committee or until such time that they are in good academic standing. Eligibility for state and institutionally-funded aid programs will be determined by those programs’ specific criteria.

### Standards of Financial Aid Progress

1. All financial aid students will be evaluated for academic progress at the end of each term. In determining academic progress, college credit, vocational credit, and preparatory credit will be combined. “Attempted” means all credit hours, including withdrawals or audits, for which a student is enrolled after the drop/add date for course enrollment. Transfer course will also be used to determine academic progress.

2. All students will be required to complete at least 67% of all hours attempted and to maintain a cumulative 2.00 GPA for all courses attempted.

A financial aid student may be academically classified in the following manner:

**Good Standing:** A student is in good financial aid standing when the requirements listed above are met.

**Financial Aid Warning:** A student will be placed on financial aid warning at the end of the first term in which the standards outlined above have not been met. Students in this status will be notified, in writing, of the consequences of such academic action.

**Financial Aid Probation:** A student will be placed on financial aid probation at the end of a term if, after being placed on financial aid warning, the standards outlined above have not been met. Students in this status will be notified, in writing, of the possible consequences of remaining in non-satisfactory academic progress.

**Financial Aid Suspension:** A student will be placed on financial aid suspension at the end of a term if, after being placed on financial aid probation, the standards outlined above have not been met. Students in this status will be notified, in writing, that they have been terminated from participation in financial aid and will be informed of all appeals mechanisms available to them.

3. **Suspension Waiver:** Students who are denied financial aid due to unsatisfactory progress or an inadequate completion rate may submit a written appeal to the campus Financial Aid Office. Annually, the Financial Aid Office will establish procedures to review student appeals. The Financial Aid Advisor (FAA) will review each appeal and make a recommendation for approval or disapproval.

   a. **Approval:**
   If the appeal is granted, the FAA will notify the student, in writing, of the approval and/or of any conditions upon which the approval is contingent. The FAA will then reinitiate the student’s financial aid award on the College Financial Aid records system.

   b. **Disapproval:**
   If the appeal is not granted, the FAA will forward the request to the Director of Financial Aid/Veteran’s Affairs for review.
   (1) If the director concurs with the recommendation, the FAA notifies the student of the determination.
   (2) If the director disagrees, he or she will notify the FAA, who in turn will notify the student of the decision.

4. Students whose appeals are denied by the Director of Financial Aid/Veteran’s Affairs may appeal, in writing, to the Districtwide Financial Aid Appeals Committee for reconsideration. The decision of the Financial Aid Appeals Committee is final.

5. Students on suspension or probation who do not maintain satisfactory financial aid progress will be suspended from financial aid. These students may appeal using the appeals process outlined above so long as they present evidence of mitigating circumstances that would have prohibited them from maintaining satisfactory financial aid progress.

### Veteran Progress

The U.S. Department of Veterans’ Affairs (VA) requires the college to measure the progress of students receiving veterans’ benefits. Accordingly, the veteran student’s (any student receiving VA benefits) standard of academic progress (SAP) will be evaluated with all students. In addition, veterans enrolled in programs of less than 45 semester hours will be required to have a minimum grade-point average (GPA) of 2.00 after completion of one half of the required semester hours in their program of study.

Veterans are expected to progress at a rate that will permit graduation within the approved length of the program based upon the training paid by the VA. Failure to comply with these provisions will result in the suspension of educational benefits.

Veteran students failing to maintain the minimum SAP will be placed on academic warning and counseled. Veteran students placed on academic warning must see their campus Veterans’ advisor and be counseled early in the semester following this determination. Veteran students who fail again to achieve SAP requirements will be placed on academic probation. While on academic probation, each veteran will be certified for veterans’ benefits and will be informed that if they fail once again to meet SAP standards, they will be suspended from receiving VA benefits.

While on academic suspension, suspension waiver, or academic dismissal, no certification will be sent to the VA. Such veterans will not be considered for a deferral, and the VA will be notified of their academic status. Veteran students will be reinstated for benefits when they have been returned to good standing by achieving the required institutional standards of academic progress.

In all approved certificate programs, attendance will be kept for each class meeting. The attendance will be reported to the VA as required. Students who are enrolled in certificate programs and who accumulate more than 10% of unexcused absences in any course will be reported to the VA for suspension of benefits.

Students should report, in writing, any unusual or extenuating circumstances concerning their suspension of benefits to the Department of Veterans’ Affairs. The VA always retains the right to make the final determination for receipt of any VA benefits.

### Classification of Students

Students will be classified in accordance with the following criteria:

**Degree- or Certificate-Seeking**

A student enrolled in credit courses who has provided the District
Records Office with all the required admission credentials and has been accepted into his or her declared program.

A degree-seeking student is further classified as:

Freshman - A student regularly enrolled in college credit courses who has completed 0-22 credit hours of college work at the time of registration.

Sophomore - A student regularly enrolled in college credit courses who has completed 24 or more credit hours of college work at the time of registration.

Unclassified

The unclassified designation applies to a student who has enrolled but is undecided as to program, as a dual enrollment or transcript student, or one who has enrolled for purposes of teacher recertification or personal enrichment. This student is classified as neither freshman nor sophomore.

Full-Time

A student enrolled for 12 or more credit hours in Terms I, II, or IIIIV.

It should be noted that these classifications are for internal use by the college. A student who is receiving benefits from another agency (such as the Veterans Administration) is subject to that agency's definition of these terms. It should also be noted that for those students receiving federal or state financial aid, a minimum of 12 credit hours per term is considered full-time.

Part-Time

A student enrolled for fewer than 12 credit hours in Terms I, II, or IIIIV.

It should be noted that these classifications are for internal use by the college. A student who is receiving benefits from another agency (such as the Veterans Administration) is subject to that agency's definition of these terms.

Attendance At More Than One Campus/Home Campus

Students may attend classes at more than one campus. However, for record purposes a student must select one campus as a "home campus." It is recommended that registration, withdrawal, or change of status be done at its campus. Students may change their home campus at the end of any term.

Regional Linkage System

The Linkage System is a cooperative agreement among the five community colleges in the Tampa Bay area - Hillsborough Community College (HCC), St. Petersburg Junior College (SPJC), Pasco-Hernando Community College (PHCC), Manatee Community College (MCC), and Polk Community College (PCC). The system offers students the opportunity to enter certain programs on a quota-based system. Students applying for admission to a Linkage Program will be required to conform to all program requirements and to institutional policies and procedures of the linkage college.

Additional information on Linkage Programs may be obtained by contacting a PHCC advisor. See also "Admission to Linkage Programs," for a list of these programs.

External Credit

PHCC offers the following external credit mechanisms that allow students to earn credit in nontraditional ways: Advanced Placement (AP); Armed Services Educational Credit, Certified Professional Secretary Credit, College Level Examination Program (CLEP); Credit By Examination; Fire Science Credit, International Baccalaureate Credit; Law Enforcement Credit and Nursing Credit.

Advanced Placement (AP)

College credit may be granted to a student who presents a minimum qualifying score on one or more of the Advanced Placement (AP) program examinations of the College Entrance Examination Board as outlined in District Board of Trustees Rule GEA-3.24 and Internal Management Memorandum (IMM) 43-23. These examinations must be taken prior to enrolling in the college, except for Dual Enrollment High School students.

Armed Services Educational Experiences

Credits may be awarded for advanced academic and technical military educational experiences that have been evaluated and recommended as suitable for post-secondary credit by the American Council on Education (ACE) in their Guide to the Evaluation of Educational Experiences in the Armed Services. Students may initiate the request for such credit once they have met all admission requirements to an applicable program of study. In order for an evaluation to take place, students must provide appropriate documentation as determined by the college. Credit will be awarded only for courses which can be used to meet specific program requirements and which are offered at PHCC. Recommendations in the ACE guide are advisory in nature and are not binding upon the college.

Certified Professional Secretary

PHCC recognizes the achievement of the secretary awarded the Certified Professional Secretary (CPS) designation by granting college credits for this certification. Credit will be awarded for the following courses:

MNA 1300 Personal Relationships in Business
ACG 2021 Principles of Financial Accounting
OST 2401 Office Technology
OST 2335 Business Communications
GSI 1100 College Keyboarding I
GSI 1110 College Keyboarding II
QMB 1001 Business Mathematics
CIS 1100 Microcomputer Applications

Students must still fulfill the 35% of the program residency requirement and present official verification of the CPS certificate to an advisor. The advisor will complete the course substitution form and attach a copy of the CPS certificate. The form will be forwarded to the Dean of Career/Technical Programs. The credit will appear on the student's permanent record as earned credit only, without any indication of grade.

College Level Examination Program (CLEP)

Students may earn a maximum of 30 semester hours of college credit by substituting scores at the 50th percentile or above under the General Examination of the College Level Examination Program (CLEP). A maximum of six semester hours of credit may be granted in each of the following areas: English, Humanities, Mathematics, Natural Sciences, History and Social Sciences. These credits are awarded on the basis of knowledge gained prior to college or university study in the subject area. CLEP credit, based upon the General Examination, is applied only to certain designated courses (as designated in Internal Management Memorandum (IMM) 43-23) and will be denied in whole or in part in instances in which courses in the general area have already been completed or are being taken in the time of the CLEP General Examination. Students seeking this credit are strongly advised to discuss their academic plans with an advisor before registering.
If a student has earned six semester credits in an area covered by
the CLEP General Examinations, he/she shall not be awarded any
CLEP credit in that area on the basis of the CLEP General Examina-
tions. If a student has earned fewer than six semester credits in
another, he/she shall be awarded only the difference between the
number earned and the six semester credits through the CLEP
General Examinations.

Additional semester hours of credit may be awarded for CLEP
Subject Examinations if individual scores are at or above the per-
centile specified in Rules of the State Board of Education. Evalu-
ation of CLEP credit is made after the application fee is paid and
the student is admitted to the college. CLEP credit will appear on
the student's permanent record without indication of a grade.
Credit earned through CLEP do NOT satisfy the residency
requirement. Students seeking this credit are strongly advised to dis-
cover their academic potential with an advance in registration.

Under the provisions of Board Rule 64Sa 19-3.28, a student who
receives credit for ENC 1101 (English Composition I) and ENC
1102 (English Composition II) and/or HUM 2211 (Humanities I)
and HUM 2230 (Humanities II) under CLEP will be required to
produce documentation of written material totaling 6,000 words
per course for which credit was awarded, as a condition for grad-
uation with the AA Degree. The student must obtain a grade of
"C" or higher on written work associated with each of those
courses. The quality of this written work must meet the require-
ments as stated above for the corresponding course.

A student fulfilling the writing requirement for any of these design-
ated English and Humanities courses must pay a fee of $30 for each
such requirement. The instructor shall establish a prescriptive sys-
tem for the student that describes the topic, content, standards, and
schedule for submission of written work and shall certify a grade.

A writing requirement may be completed on an unscheduled
schedule. In no case, however, shall a single requirement extend for more
than one regular 16-week term. Failure to complete agreed work
within the 16-week period shall require the payment of another fee
and a new prescriptive requirement, unless the delay was caused by illness
or other emergency situation.

Credit-by-Examination
Students may earn credit in designated courses by making a satis-
factory score (equivalent to at least a grade of "C") on tests pre-
pared by PHCC instruction. A nonrefundable charge will be
made for each examination.

An examination must be completed within the session for which
the student first applied for credit-by-examination. Credit by-ex-
amination cannot be granted in any course for which a grade has
already been awarded. Credit earned through tests prepared by
PHCC will appear on the student's permanent record. A student
may attempt credit-by-examination in a course no more than one
time. Certain courses are NOT eligible for credit-by-examination.
Credits earned through credit-by-examination do NOT satisfy
the residency requirement.

International Baccalaureate (IB) Credit
Up to 30 semester hours of transfer credit shall be awarded on the
basis of IB examinations, with no grades or grade points assigned.
The cutoff scores used in granting postsecondary credits shall be es-
blished by the State Board of Education.

Law Enforcement Credit
Upon recommendation of the Director of Law Enforcement Pro-
grams and the Dean of Career/Technical Programs, a maximum of
six hours of credit may be awarded based on successful comple-
tion of a PHCC Law Enforcement/Basic Recruit or Correctional
Officer program. To be awarded credit, students must be both de-
declared and enrolled in the PHCC A.S. degree program in Criminal
Justice Technology. Students who have completed the Basic Rec-
ruit or Correctional Officer program at another institution may
also be eligible for credit if they have passed the appropriate State
Officer Certification examination. Under this provision, eligible
students who have completed the Law Enforcement/Basic Recruit
program will be awarded three hours credit for both CCI 2220,
Criminal Law, and CJT 1100, Criminal Investigation. Eligible
students who have completed the Correctional Officer program
will be awarded three hours credit for both CCI 2220, Criminal Law,
and CCI 1300, Introduction to Corrections. An additional three
credit hours may be granted for CCI 2940, Field Studies. Students who meet
provisions will take part only upon submission of a petition for the
Award of Law Enforcement Credit and the appropriate documen-
tation to the Director of Law Enforcement Programs.

Nursing Credit
Based on prior health services education, nursing credit will be
awarded for students admitted and enrolled in PHCC's Associate
in Science degree program in Nursing, Licensed Practical Nurse
(LPN) and Paramedic (RN) Tracks. Please review the program de-
scriptions for further details.

Television Courses
In addition to traditional teaching methods, PHCC offers courses
via WEDU-TV, Channel 3. Videotapes of these programs are
available in each PHCC library. Credit earned for TV courses may
be applied toward an associate degree. Courses that are offered by
television are marked with a "TV" designation in the PHCC
Course Schedule, published each term.

Students enrolled in television courses are required to meet with
the PHCC instructor who coordinates the course at least five times
during the term (first meeting, mid-term review, final term exam,
and final exam) at the West Campus, New Port Richey.

Students should inform hospital personnel when they have regis-
tered for a "TV" course, since different texts and other materials
are often used. Veterans Services students should check with their advisors before enrolling in television courses. For information about TV courses, contact either the Assistant Dean of Student Services for the student's "home" campus or the Associate Dean of Health, Science, and Mathematics, located on
the West Campus, who coordinates the TV courses.

Directed Individual Study
A student who needs a course that is required for current gra-
duation at PHCC, and who has not had an opportunity to enroll in
that course previously, may take the course under Directed In-
dividual Study by making arrangements with the Campus Provost.
Generally, Directed Individual Study is defined as a class of four
or fewer students that is not required to meet the total number of
instructional hours established for the course and where there are
provisions for:
A. Making with the instructor at least once a week for a course
lasting a full session for a proportionate time for courses of
shorter duration.
B. Instructor's option of more frequent meetings for those stu-
dents needing additional work.
C. An option for the student to complete the course earlier than
the prescribed length upon mutual agreement between student
and instructor.
D. Standards and content in the opinion of the instructor and the
Provost (East and North campuses) or the appropriate Associate
Dean (West Campus) to be comparable to a regularly
scheduled class in the subject.

Courses containing laboratory experiences, for which student par-
icipation is a particularly important element, are not eligible for
Directed Individual Study.
Grading System

PHCC uses the grading system shown below. These grade definitions are used by Florida community colleges.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Number of Grade Points</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>

</tbody>
</table>

*Used only in non-credit courses after May 1994.

Grade-Point Average (GPA)

The grade-point average (GPA) is determined by dividing the total grade points earned by the total credits attempted. Only the last grade in a repeated course is used in computing the GPA. Courses which use "S" or "U" grades are not counted in computing the GPA.

Example:

<table>

A student must have at least a 2.0 grade-point average to complete the degree or certificate requirements for any program.

Teacher Certification and Recency of Credit

Courses at the college may apply toward certification or renewal of credit for Florida teachers. It is the responsibility of the teacher to ensure that the courses meet all requirements. Degree-holding teachers with Florida Teaching Certificates are not required to furnish transcripts for admission.

Class Attendance

All students, both credit and audit, are expected to attend all their classes unless illness or other emergencies arise. The effect of absence upon an individual's grade is determined by the instructor. When absences are such that a student cannot make normal progress, the student may be administratively withdrawn with a grade of "W," subject to course withdrawal dates.

Class attendance is restricted to those students registered for the course and to guests invited by the instructor. Persons not properly registered for a course will not be permitted to attend class. Students shall not bring any children to class. Children shall not be left unattended on campus.

Observance of Religious Holidays

In compliance with Federal, State, and District Board of Trustees Rules which provide that there shall be no discrimination in the treatment of students on the basis of religion, the College shall make reasonable accommodation for religious observance, practice, and belief. Such accommodation shall apply to admissions, class attendance, scheduling of examinations, and work assignments. Any adverse or prejudicial effects shall result to any student who avails himself or herself of the provisions of this Rule. Students who believe they have been unreasonably denied a benefit due to their religious belief or practice shall follow the appropriate grievance procedures.

Maximum Student Load

The maximum student load for Terms I or Term II is 14 semester hours and 14 semester hours for Terms III/IV. Any student who desires to take more hours must obtain the permission of an advisor. The permission form (SAR-38) will be forwarded to the Records Office for placement in the student's folders.

Audit

A student will be permitted to register for a course on an audit status during the normal registration period, and the drop/add period, to and including the last day to withdraw for a semester as published in the college calendar. Audit fees are the same as those for credit. Technical trades courses are not available for audit except with permission of the appropriate dean. Students who must complete a college preparatory course are not permitted to register on an audit status. College Prep classes cannot be audited.

Audit students participate in class activities, but are not required to prepare papers or take examinations. Regular class attendance is expected, and a non-credit grade of "W" is issued.
Practicums

Practicums are required in several Career/Technical Programs and are elective in other. Practicum may consist of on-the-job training, special projects, research, or a combination of these activities. The instructor will develop specific assignments and the method(s) of evaluation to best fit the academic and work needs of the student. Each participant will complete a minimum of 96 hours in a planned learning situation, together with at least three scheduled conferences with the instructor. If the course description specifies otherwise, a letter grade of "A," "B," "C," "D," "F," "I," or "W" will be assigned.

Admission to the Internship in Business Program

Admission to the Internship in Business Program (MBA 2941) is restricted to students who have met the minimum requirements and have followed all administrative procedures. Students who have completed the following prerequisites are eligible to request MBA 2941:

- any required preparatory classes in English, reading, and math based on the CPT/ACT/SAT test scores
- a minimum of 15 college credits at PHCC
- a minimum of 12 college credits in business courses
- a minimum of 2.0 GPA in college business courses

If you have met all requirements for participation, you will be notified by mail and instructed on how to complete the following steps:

- attend a Student Intern Workshop
- meet with the Faculty Supervisor
- interview with business site supervisors
- set up an internship learning agreement with the instructor and business site supervisor
- register for the specific internship course.

Information about the procedures for accessing this program can be obtained from an advisor in any Student Services Office on any PHCC campus.

Incomplete Grades

Instructors may assign "I," incomplete grade, in the rare circumstance in which a student has not completed requirements for a course as a result of accident or illness. Incomplete grades should be made up and have a grade assigned before the end of the next session. Incomplete grades that are not made up do not have a grade assigned before the end of the next session will be changed to "W" unless otherwise provided for by or approved by the President or his/her designee. Session I is considered the next session following Sessions II and III (to include IV) of the previous academic year. Incomplete grades are not available for non-credit courses.

"P," "F," "S," and "U" Grades

If a letter grade is assigned by an instructor in a course for which credit is awarded on the basis of "P" or "F," any letter grade from "A" through "C" will be officially changed in a "P" by the Records Office. Other grades will be recorded as "F." Since May 1994, "S" and "U" grades are assigned only in non-credit courses.

Grade Dissemination

Final grades are mailed immediately after the end of the session to those students who do not have a financial obligation to the college or outstanding college obligations (i.e., outstanding loans or unreturned library books).

President's Honors List

A student is placed on the President's Honors List when a 3.5 of a possible 4.0 grade-point average (GPA) has been earned while attending at least 12 semester hours of college credit. Part-time students may be placed on the President's Honors List each time 12 semester hours of college credits have been accumulated with a GPA of 3.5 on the 4.0 scale.

Any student graduating with an overall, cumulative (i.e., includes transfer hours) grade-point average of 3.5 or above in all college credit courses shall be graduated with honors. The student with the highest academic average in any graduating class during the academic year shall be designated as the "Honor Graduate with Highest Honors."

Honors Program

General Description

The Honors Program offers challenge, opportunity, recognition, and a sense of community to highly motivated, exceptionally talented students pursuing the AA or an AS degree. Through specially designated Honors classes, students develop critical thinking and leadership skills required for success at the university level and in the workplace.

The goal of the Honors Program is to build character and conscience as well as intellect and competence. The program seeks to develop well-rounded individuals who can serve and lead, who value teamwork and cooperation as much as creativity and competition. Graduates of the Honors Program will have acquired a broad, conceptual understanding of the fundamental ideas of human civilization from a variety of academic disciplines. They will also have gained practical experience in applying their knowledge and skills to solve problems, foster goodwill, and improve the quality of life within the communities served by PHCC.

Honors classes, typically smaller than "regular" classes, are taught seminar-style, allowing students greater flexibility and autonomy in the learning process. Honors classes are not simply more work, but rather, a different kind of classroom experience that provides students with enhanced opportunities for individual and group creativity. The Honors Program also offers out-of-class or "experiential" learning through field trips and participation in a wide range of cultural activities in the Greater Tampa Bay area. Honors students are recognized in focus articles in the college-wide PHCC News. They enjoy publishing opportunities in Nova Bonum, the Florida Collegiate Honors Council statewide newsletter.

Honors students enjoy other privileges such as priority registration, faculty mentoring, and preferred consideration for scholarships at PHCC and universities seeking to recruit graduates of community college Honors Programs. Honor students are prime candidates for PHCC's intercollegiate Brain Bowl Team and the local chapter of Phi Theta Kappa (PTK), a National College Honor Society. In addition, Honors students receive special recognition at graduation and other college events. An "Honors Program Graduate" commendation appears on the degree and all transcripts.

Application Procedures

To be eligible for admission to the Honors Program, a student must meet at least one of the following criteria:

- An SAT score of at least 1100 or an ACT composite score of 25
- A high school GPA of 3.5 or a 4.0 scale
- Completion of 12 credits of PHCC dual enrollment courses with a minimum 3.3 GPA
Completion of 12 college credits with a minimum 3.3 GPA. Besides providing evidence of fulfillment of at least one of the above criteria, candidates for admission must write an essay of approximately 500 words explaining the connection between the Honors Program and the student's own personal, academic, and/or occupational goals. Candidates may be asked to meet with the Honors Program Director or a representative prior to acceptance.

Program Completion Requirements

To graduate from the Honors Program, a student must fulfill all of the following requirements:

- Complete at least six Honors courses in General Education core areas such as Communications, Humanities, Mathematics, and Social and Behavioral Sciences. Students may also take PHI 1600, Applied Ethics; SLS 1261, Leadership Development Studies; and MAC 2311, 2312, and 2313, Calculus and Analytic Geometry I, II, and III, for Honors credit. See Curriculum below.

- Maintain a minimum overall 3.25 GPA. Students whose GPA's fall below 3.25 become "inactive" in the Honors Program until such time as they regain the minimum GPA. Honors students must enroll in only college-level courses; College Preparatory courses are not options. There are also specific limitations on the number of times an Honors student may withdraw from one class or all classes.

- Participate actively in a PHCC club or activity, preferably as an officer, for at least two regular term semesters (Term I and Term II, fall and spring).

- Perform at least 20 hours of community service, preferably through PHCC Cares.

Curriculum

To complete the Honors Program course work requirement (minimum six courses), Honor students may choose from the following menu. Full course descriptions are given in the "Listing of College Credit & College Preparatory Courses" section.

- Biological Science
  - BSC 1030H, Introduction to Environmental Science

- Communications
  - EMC 1121H, English Composition I
  - EMC 1122H, English Composition II
  - SPC 2600H, Introduction to Public Speaking

- Humanities
  - HUM 2211H, Humanities I
  - HUM 2230H, Humanities II
  - HUM 2700, Overseas Study in the Humanities (Note: This is an elective course that does not satisfy the humanities requirement for an associate degree.)

- Interdisciplinary
  - IDS 2290H, Introduction to Asian Arts and Letters
  - SLS 1261, Leadership Development Studies

- Mathematics
  - MAC 2311, Calculus and Analytic Geometry I
  - MAC 2312, Calculus and Analytic Geometry II
  - MAC 2313, Calculus and Analytic Geometry III

- Philosophy
  - PHI 1600, Applied Ethics

- Social and Behavioral Sciences
  - PSY 1012H, Introduction to Psychology
  - SYG 2000H, Introduction to Sociology

Computer Assisted Advising Check

Degree- and certificate-seeking students are strongly encouraged to apply to their advisor or to the Records Office for a Computer Assisted Advising Check to help monitor their progress toward meeting program requirements. To request this report, students should submit a completed "Request for a Computer Assisted Advising Check" form indicating their program of study and the catalog year they wish to use to meet requirements. The report they will receive will summarize their program requirements, will detail the courses they have taken which satisfy requirements, and will indicate the courses they will need to complete to meet any remaining requirements. There is no charge for a Computer Assisted Advising Check.

Graduation Application

Application for graduation with a degree must be made no later than the date shown in the College Calendar for the term in which the student plans to complete the requirements for a degree program. Students who do not meet graduation requirements during the academic year for which they applied are required to resubmit without fee, the application for graduation for any succeeding academic year in which they plan to graduate. The AA Degree requires students to pass the CLAST or an approved CLAST alternative be granted prior to graduation. The testing requirement shall be included as an item on all graduation checks, and positive controls shall be established to assure that each applicant for an AA Degree has completed before the degree is awarded (see CLAST).

There is no fee to apply for a degree. However, separate non-refundable fees will be charged for students who wish to purchase a diploma and/or cap and gown. Although PHCC will endeavor to certify program completion even if a graduation application has not been filed, any delay in the application process will affect the determined program completion date.

Certificate Application

A student who desires to complete a degree-associated certificate program or a technical credit certificate program must submit an Application to Complete a Degree/Certificate Program no later than the date shown in the College Calendar. Students who do not meet completion requirements for the award of a certificate during the academic year for which they applied are required to resubmit without fee, the application for completion of a certificate form for any succeeding academic year in which they plan to complete the certificate.

There is no fee to apply for a certificate. However, separate non-refundable fees will be charged for students who wish to purchase a certificate and/or cap and gown. Although PHCC will endeavor to certify program completion even if a graduation application has not been filed, any delay in the application process will affect the determined program completion date.

Graduation Ceremony

A graduation ceremony is held each year at the end of Term II. All students who have completed requirements for degrees or certificates during the academic year and those who expect to complete requirements during the summer session are encouraged to participate in the graduation ceremony. There is a $10 diploma/certificate fee and a $20 cap and gown fee.

Additional Degrees/Certificates

Normally, a student will be awarded only one degree or certificate. To be eligible for a second degree, a student must fulfill all the requirements of the additional degree, make application for the second degree, and pay an additional diploma fee. To be eligible for a second certificate, a student must fulfill all of the requirements of the additional certificate, make application for the award of the second certificate, and pay an additional certificate fee.
Library Services

A library containing 19,000 square feet is located on each campus. The combined holdings of all three libraries are approximately 58,000 volumes. In addition to books, each library hosts a collection of periodicals, newspapers, microfiche, computer data bases, and audiovisual materials. The Library Information Network for Community Colleges (LINCC) on-line public access catalog allows students and faculty to locate materials at any community college or public university in the state.

The libraries provide full inter-campus and intra-library loan services. Copies of library materials may also be “faxed” between libraries and centers.

The library staff on each campus is trained to assist students and faculty make full use of all the library’s facilities and materials. Bibliographic instruction is provided to any class that requests it.

Additionally, the libraries house exhibits areas and learning laboratories. In the exhibit areas, monthly shows on a variety of themes are scheduled for the benefit of students, faculty, and the community.

Learning Laboratory

The Learning Laboratory on each campus assists the student by providing various testing services and individualized materials for instruction. It fulfills both as supplementary assistance in regular programs and to remedy educational deficiencies.

Individualized materials in the laboratory include English, reading, mathematics, spelling, career development, and college survival skills. There are materials that relate to the CLAST examination, self-instructional materials, programmed texts, and peer-tutorial assistance for students are available.

The Learning Laboratory also has microcomputers available for student use. Many of the materials in the laboratory are computer-based.

COLLEGE-LEVEL ACADEMIC SKILLS TEST (CLAST) REQUIREMENT

The State of Florida has developed a test of college-level communication and computation skills called the College-Level Academic Skills Test (CLAST). The test is designed to measure communication and computation skills that are judged by state university and community college faculty to be generally associated with successful performance and progression through the baccalaureate level.

Successful completion of the test or an approved CLAST alternative as described in the “Alternative to CLAST” section is required by Florida Statutes and Rules of the State Board of Education for community college students who are completing Associate in Arts (AA) degree programs and for community college students who are completing Associate in Science degree programs and are seeking admission as upper-division students in state universities in Florida. The test is also required of university students. Students who do not pass all sections of the test will not be awarded the Associate in Arts degree and will be admitted to upper-division status in state universities in Florida.

The minimum passing scores in effect at various times are shown in the “CLAST Passing Scores” section (next two pages). Students’ minimum passing scores are those in effect on the date they took the test for the first time.

A passing score on the CLAST or satisfaction of an approved CLAST alternative is required for the award of the Associate in Arts degree and for admission to upper-division status in state universities in Florida. Students cannot take CLAST until they have completed 24 hours of college-level courses (1000 and higher). Students are encouraged to wait to take the CLAST until after they have completed any necessary high school preparatory courses.

Students must register in the Student Services Office before the State-mandated registration deadline, listed in the College Calendar. All students who register for CLAST must be advised by a counselor/ advisior.

Modifications of the test, e.g., large print, audio tapes, readers, and CLAST waivers, are available for students with documented disabilities. Contact the Disabilities Services Specialist at extension 1236 for information.

CLAST-preparation workshops for PHCC students are provided at least three times a year on each campus at no charge. There are CLAST review materials in each library and learning laboratory and available for purchase in the campus bookstores.

Communication and Computation Skills Tested on the CLAST

State Board Rule 6A-10.031 cites the communication and computation skills identified below that are associated with successful performance of students in college courses through the baccalaureate level. EXCEPT FOR THE SPEAKING AND LISTENING SKILLS, ALL OF THESE SKILLS ARE TESTED ON THE CLAST.

CLAST skills are taught in the following courses required for the AA Degree:

   - English and English Language
   - Math
   - Speaking and Listening

Communication and Computation Skills Tested on the CLAST:

- Speaking and Listening
- Reading and Writing
- Mathematics
- Science
- Social Sciences

CLAST skills are also included in the college preparatory courses and in SAT 1033. Students who need reading improvement may wish to take REA 1105.
The following skills, by designated category, are defined as college-level communication skills:

(a) Reading with literal comprehension includes all of the following skills:
1. Recognizing main ideas in a given passage.
2. Identifying supporting details.
3. Determining meanings of words on the basis of context.

(b) Reading with critical comprehension includes all of the following skills:
1. Recognizing the author’s purpose.
2. Identifying the author’s overall organizational pattern.
3. Distinguishing between statement of fact and statement of opinion.
4. Detecting bias.
5. Recognizing author’s tone.
6. Recognizing explicit and implicit relationships within sentences.
7. Recognizing explicit and implicit relationships between sentences.
8. Recognizing valid arguments.
9. Drawing logical inferences and conclusions.

(c) Listening with literal comprehension includes all of the following skills:
1. Recognizing main ideas.
2. Identifying supporting details.
3. Recognizing explicit relationships among ideas.
4. Recalling basic ideas, details, or arguments.

(d) Listening with critical comprehension includes all of the following skills:
1. Perceiving the speaker’s purpose.
2. Perceiving the speaker’s organization of ideas and information.
3. Discriminating between statements of fact and statements of opinion.
4. Distinguishing between emotional and logical arguments.
5. Detecting bias.
6. Recognizing the speaker’s attitude.
7. Synthesizing by drawing logical inferences and conclusions.

(e) Composing units of discourse providing ideas and information suitable for purpose and audience includes all of the following skills:
1. Selecting a subject which lends itself to development.
2. Determining the purpose and the audience for writing.
3. Limiting the subject to a topic which can be developed within the requirements of time, purpose, and audience.
4. Formulating a thesis or statement of main idea which focuses the essay.
5. Developing the thesis or main idea statement by all of the following:
   a. Providing adequate support which reflects the ability to distinguish between generalized and specific evidence.
   b. Arranging the main ideas and supporting details in a logical pattern appropriate to the purpose and the focus.
   c. Writing unified prose in which all supporting material is relevant to the thesis or main idea statement.
   d. Writing coherent prose and providing effective transitional devices which clearly reflect the organizational pattern and the relationships of the parts.

(f) Transmitting ideas and information in effective written language which conforms to the conventions of standard American English includes all of the following skills:
1. Demonstrating effective word choice by all of the following:
   a. Using words which convey the denotative and connotative meanings required by context.
   b. Avoiding inappropriate use of slang, jargon, cliches, and pretentious expressions.
   c. Avoiding wordiness.
2. Employing conventional sentence structure by all of the following:
   a. Placing modifiers correctly.
   b. Coordinating and subordinating sentence elements according to their relative importance.
   c. Using parallel expressions for parallel ideas.
   d. Avoiding fragments, comma splices, and fused sentences.
3. Employing effective sentence structure by all of the following:
   a. Using a variety of sentence patterns.
   b. Avoiding overuse of passive construction.
4. Observing the conventions of standard American English grammar and usage by all of the following:
   a. Using standard verb forms.
   b. Maintaining agreement between subject and verb, pronoun and antecedent.
   c. Using proper case forms.
   d. Maintaining a consistent point of view.
   e. Using adjectives and adverbs correctly.
   f. Avoiding inappropriate shifts in verb tenses.
   g. Making logical comparisons.
5. Using standard practice for spelling, punctuation, and capitalization.
6. Revising, editing, and proofreading units of written discourse to assure clarity, consistency, and conformity to the conventions of standard American English.

(g) Speaking involves composing the message, providing ideas and information suitable to topic, purpose and audience which includes all of the following skills:
1. Determining the purpose of the oral discourse.
2. Choosing a topic and restricting it according to purpose and audience.
3. Fulfiling the purpose by the following:
   a. Formulating a thesis or main idea statement.
   b. Providing adequate support material.
   c. Organizing suitably.
   d. Using appropriate words.
   e. Using effective transitions.

(h) Speaking involves transmitting the message, using oral delivery skills suitable to the audience and the occasion by all of the following skills:
1. Employing vocal variety in rate, pitch, and intensity.
2. Articulating clearly.
3. Employing the level of American English appropriate to the designated audience.
4. Demonstrating nonverbal behavior which supports the verbal message with eye contact and appropriate posture, gestures, facial expressions, and body movements.

The following skills, by designated category, are defined as college-level computation skills:

(a) Demonstrating mastery of all of the following arithmetic algorithms:
1. Adding, subtracting, multiplying, and dividing rational numbers.
2. Adding, subtracting, multiplying, and dividing rational numbers in decimal form.
3. Calculating percent increase and percent decrease.
4. Solving the sentence—a percent of b is c—where values for two of the variables are given.

(b) Demonstrating mastery of all of the following geometric and measurement algorithms:
1. Rounding measurements to the nearest given unit of the measuring device used.
2. Calculating distances, areas, and volumes.

(c) Demonstrating mastery of all of the following algebraic algorithms:
1. Adding, subtracting, multiplying, and dividing real numbers.
2. Applying the order-of-operations agreement to computations involving numbers and variables.
3. Using scientific notation in calculations involving very large or very small measurements.
5. Solving linear inequalities.
6. Using given formulas to compute results, when geometric measurements are not involved.
7. Finding particular values of a function.
8. Factoring a quadratic expression.
10. Solving a system of two linear equations in two unknowns.

(d) Demonstrating mastery of all of the following statistical algorithms, including some from probability:
1. Identifying information contained in bar, line, and circle graphs.
2. Determining the mean, median, and mode of a set of numbers.
3. Using the fundamental counting principle.

(e) Demonstrating mastery of logical-reasoning algorithms by deducing facts of set inclusion or set non-inclusion from a diagram.

(f) Demonstrating understanding of arithmetic concepts by all of the following skills:
1. Recognizing the meaning of exponents.
2. Recognizing the role of the base number in determining place value in the base-ten numeration system.
3. Identifying equivalent forms of positive rational numbers involving decimals, percents, and fractions.
4. Determining the order relation between real numbers.
5. Identifying a reasonable estimate of a sum, average, or product of numbers.

(g) Demonstrating understanding of geometric and measurement concepts by all of the following skills:
1. Identifying relationships between angle measures.
2. Classifying simple plane figures by recognizing their properties.
3. Recognizing similar triangles and their properties.
4. Identifying appropriate units of measurement for geometric objects.

(h) Demonstrating understanding of algebraic concepts by all of the following skills:
1. Using properties of operations correctly.
2. Determining whether a particular number is among the solutions of a given equation or inequality.
3. Recognizing statements and conditions of proportionality and variation.
4. Identifying regions of the coordinate plane which correspond to specified conditions and vice versa.

(i) Demonstrating understanding of statistical concepts, including probability, by all of the following skills:
1. Recognizing properties and interrelationships among the mean, median, and mode in a variety of distributions.
2. Choosing the most appropriate procedure for selecting an unbiased sample from a target population.
3. Identifying the probability of a specified outcome in an experiment.

(j) Demonstrating understanding of logical-reasoning concepts by all of the following skills:
1. Identifying statements equivalent to the negations of simple and compound statements.
2. Determining equivalence or non-equivalence of statements.
3. Drawing logical conclusions from data.
4. Recognizing that an argument may not be valid even though its conclusion is true.

(k) Inferring relations between numbers in general by examining particular number pairs.

(l) Generalizing and selecting applicable generalizations in geometry and measurement by both of the following skills:
1. Inferring formulas for measuring geometric figures.
2. Selecting applicable formulas for computing measures of geometric figures.

(m) Generalizing and selecting applicable generalizations in algebra by using applicable properties to select equivalent equations and inequalities.

(n) Generalizing and selecting applicable generalizations in statistics, including probability, by inferring relations and making accurate predictions from studying statistical data.

(o) Generalizing and selecting applicable generalizations in logical reasoning by both of the following skills:
1. Recognizing valid reasoning patterns as illustrated by valid arguments in everyday language.
2. Selecting applicable rules for transforming statements without affecting their meaning.

(p) Demonstrating proficiency for solving problems in the area of arithmetic by the following skills:
1. Solving real-world problems which do not require the use of variables and which do not require the use of percent.
2. Solving real-world problems which do not require the use of variables and which do require the use of percent.
3. Solving problems that involve the structure and logic of arithmetic.

(q) Demonstrating proficiency for solving problems in the area of geometry and measurement by both of the following skills:
1. Solving real-world problems involving perimeters, areas, or volumes of geometric figures.
2. Solving real-world problems involving the Pythagorean property.

(r) Demonstrating proficiency for solving problems in the area of algebra by both of the following skills:
1. Solving real-world problems involving the use of variables, aside from commonly used geometric formulas.
2. Solving problems that involve the structure and logic of algebra.

(s) Demonstrating proficiency for solving problems in the area of statistics, including probability for both of the following skills:
1. Interpreting real-world data involving frequency and cumulative frequency tables.
2. Solving real-world problems involving probabilities.

(f) Demonstrating awareness of the ways in which logical reasoning is used to solve problems by drawing logical conclusions when facts warrant them.

Alternatives to CLAST

Students declared into the Associate in Arts (AA) Degree who fulfill one of the following alternatives to the College Level Academic Skills Test (CLAST) are exempt from the testing requirements of CLAST, which is a prerequisite for the awarding of the AA Degree. However, in order to apply for this exemption, students must complete form ICL-8 available in the Student Services/Records Office on any campus. The completed form must be returned to the Student Services/Records Office on any campus. The two types of alternatives are described below.

I. Scores on Certain Placement Tests and Grades in Certain College Courses

Students who have earned a grade-point average (GPA) of 2.5 or above in the English courses listed below may be exempt from one or more sections of the CLAST, as specified below. Courses transferred to PHCC from other public Florida community colleges and from the State University System will be allowed if they have the same common course number. Courses transferred in from other locations may be used if course transfer credit as evaluated by the PHCC Records Office is deemed equivalent to these courses.

To exempt the reading, English language, and essay sections of the CLAST, the student must have earned a 2.5 GPA in two courses for a minimum of six semester hours of credit from:

- ENC 1101, English Composition I or other equivalent college-level English courses (including ENC 1112H—English I Honors)
- ENC 1102, English Composition II or other equivalent college-level English courses (including ENC 1122H—English II Honors)

Likewise, students who have earned a GPA of 2.5 or above in the mathematics courses listed below may be exempt from the computation section of the CLAST, as described below. Courses transferred to PHCC from other public Florida community colleges and from the State University System will be allowed if they have the same common course number. Courses transferred in from other locations may be used if course transfer credit as evaluated by the PHCC Records Office is deemed equivalent to these courses.

To be exempt from the computation section of the CLAST, the student must have earned a 2.5 GPA in two courses for a minimum of six semester hours of credit from one of the options that follow:

Option 1:
- MAC 1102 College Algebra or any other MAC course with the last three digits being higher than 102
- MGF 1202 Finite Mathematics or any other MGF course with the last three digits being higher than 102
- STA 2014 Applied Statistics or any other STA course

Option 2:
- MGF 1113 Topics in College Mathematics I
- MGF 1114 Topics in College Mathematics II
- MGF 1118 CLAST Review in Mathematics

II. Presentation of Certain Scores on Specific Standardized Tests

Students who earn and can document certain scores on specific standardized tests may be exempt from one or more sections of the CLAST as described below.

1. Scholastic Achievement Test (SAT-I), as follows:
   a. Quantitative—Students who have earned a quantitative score of 500 or above on the centeraled score scale of the SAT-I, or its equivalent on the original score scale, shall be exempt from the computation section of the CLAST.
   b. Verbal—Students who have earned a verbal score of 500 or above on the centeraled score scale of the SAT-I, or its equivalent on the original score scale, shall be exempt from the reading, English language skills, and essay sections of the CLAST.

2. American College Testing (ACT) Program, as follows:
   a. Mathematics—Students who have earned a score of 21 or higher on the Enhanced ACT Program in mathematics, or its equivalent on the original ACT, shall be exempt from the computation section of the CLAST.
   b. Reading—Students who have earned a score of 22 or higher on the Enhanced ACT Program in reading, or its equivalent on the original ACT, shall be exempt from the reading section of the CLAST.
   c. English—Students who have earned a score of 21 or higher on the Enhanced ACT Program in English, or its equivalent on the original ACT, shall be exempt from the English language skills, and essay sections of the CLAST.

Students who do not initially earn passing scores on the SAT-I or the ACT Program may submit scores earned on other administrations of the tests as long as subsequent scores are not earned within 30 days of the preceding score.

Pursuant to Section 240.107(9), Florida Statutes, students denied a degree based on the failure of at least one subtest of the CLAST may use any of the alternatives specified above for the receipt of a degree, if the students meet all program requirements for their degree at the time of application for the degree under the alternative provisions of this rule. Students are not required to take the CLAST before being given the opportunity to use any of the specified alternatives.
ACADEMIC PROGRAMS

Pasco-Hernando Community College (PHCC) is authorized to award the associate degree for satisfactory completion of a planned program of post-high school studies consisting of not less than 60 semester hours and so award certificates as are appropriate upon completion of other courses and programs. Students must apply for degrees and certificates as scheduled in the college calendar and must pay the required fee.

The college offers the Associate in Arts Degree, the Associate in Science Degree in a number of career and technical fields, and certificates in many career and technical areas. STUDENTS ARE CAUTIONED THAT ALL COURSES AND ALL PROGRAMS ARE NOT NECESSARILY OFFERED ON ALL CAMPUSES.

A student must earn at least 25% of the hours in his/her program at PHCC other than by CLEP, Advanced Placement, and Credit-by-Examination in order to obtain a degree or a certificate from PHCC. The additional hours may be earned by regular class attendance or by any of the methods described under Programs of Acceleration.

Course Transferability

Courses designated as required under the Associate in Arts Degree Program are fully transferable to a Florida senior public institution in meeting the general education requirements. All other catalog courses listed as 1000- or 2000-level are credited for purposes of graduation from PHCC, but may not be accepted by the institution to which a student transfers. A counselor/advisor will assist in providing information on courses normally accepted for transfer at a particular university or four-year college.

Courses identified as part of the General Education core program in an Associate in Science Degree may be transferable to a senior Florida institution. However, the core courses do not complete the general education requirements for transfer at the junior level, and they may not prepare a student to take the CLAST examination. Selection of courses other than those required is the responsibility of the student and should be related to his/her goals.

CONTINUING EDUCATION

PHCC will provide such Continuing Education non-credit courses as are needed to serve the residents of the college district. These courses are designed to meet specific needs and may vary in content, length, and time scheduled. For information about such courses, contact the Coordinator of Continuing Education at the nearest campus.

Continuing Education courses may be listed in one of the following two categories:

Lifelong Learning Courses

These courses are designed to improve someone's competencies in areas other than work or to enhance someone's quality of life. Fees shall be charged for lifelong learning courses in accordance with the fee structure established by the District Board of Trustees.

Supplemental Courses

These courses are organized and designed to develop or enhance an individual's occupational skills. Records of such courses are maintained by the College. Fees shall be charged for Supplemental Courses in accordance with the fee structure established by the District Board of Trustees.

Guidelines of the State Board of Community Colleges will be used in appropriately identifying these courses.

TRANSFER PROGRAM

The Associate in Arts (AA) Degree Program is the preparatory program for advanced studies at other colleges and universities. Students seeking this degree or intending to transfer to the upper division of a state university must complete the College Level Academic Skills Testing (CLAST) or CLAST alternative requirements.

Satisfactory completion of the AA Degree Program, to include the CLAST examination, will allow a student to enter a Florida public university at the junior level. Flexibility is allowed in the AA Degree Program to permit a student to prepare for almost any bachelor's degree program. However, the satisfactory completion of the program neither implies nor guarantees that all lower level requirements in a program of the student's choice at a higher level institution have been met. For this reason, any student who expects to transfer to a senior institution is advised to CONTACT THE SPECIFIC DEPARTMENT OF THAT INSTITUTION AS EARLY AS POSSIBLE FOR INFORMATION ABOUT COURSES TO BE TAKEN WHILE AT PHCC. FINAL RESPONSIBILITY FOR CHOICE OF PROGRAM AND COURSES IS AT PHCC, HOWEVER, RESTS WITH THE STUDENT.

College catalogs and counseling manuals from all state universities identifying required prerequisites and catalogs from other senior colleges are available in the Student Services Office at any PHCC campus. Advisors are available, by appointment, to assist the student in planning a program.

GORDON RULE

State Board of Education Rule 6A-10.030, hereafter referred to as the Gordon Rule, applies to students who entered college for the first time after Term II of the 1982-83 academic year. The rule stipulates the requirements of student performance in both the communications and mathematics areas. Satisfactory completion of this rule requires that a student earn a grade of "C" or higher in each applicable course.

Within the communications area, the student is required to write a total of 24,000 words in English and Humanities. Within the mathematics area, completion of specific mathematical courses is required. The intent of the Gordon Rule is met at PHCC in the
communications area by the following distribution of writing requirements:
1. English Composition I (ENC 1101) 6,000 words
2. English Composition I—Honors (ENC 1121H) 6,000 words
3. English Composition II (ENC 1102) 6,000 words
4. English Composition II—Honors (ENC 1122H) 6,000 words
5. Humanities I (HUM 2211) 6,000 words
6. Humanities I—Honors (HUM 2211H) 6,000 words
7. Humanities II (HUM 2230) 6,000 words
8. Humanities II—Honors (HUM 2230H) 6,000 words

FOREIGN LANGUAGE REQUIREMENT

Based on Florida Statute 240.233, all undergraduate students who are admitted to a state university shall have earned two credits of sequential foreign language or American sign language at the secondary level or the equivalent of such instruction (eight to ten semester hours) at the postsecondary level.

An alternate method for students to demonstrate equivalent foreign language competence is by means of credit awarded on the basis of scores on the foreign language subject matter examinations in the College Level Examination Program (CLEP) as indicated in FAC Rule 6A-10.0245(b), which shall count toward the eight to ten semester hours. The examination, minimum scores for awarding credit, and maximum credit to be awarded are:

<table>
<thead>
<tr>
<th>Examination</th>
<th>Minimum Score</th>
<th>Maximum Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>French</td>
<td>50</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>46</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>42</td>
<td>6</td>
</tr>
<tr>
<td>German</td>
<td>55</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>52</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>43</td>
<td>6</td>
</tr>
<tr>
<td>Spanish</td>
<td>55</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>48</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>45</td>
<td>6</td>
</tr>
</tbody>
</table>

Likewise, students may demonstrate equivalent foreign language competence in Latin by means of a minimum score of 443 on the Latin examination, published under the title of MAPS by the College Board, which represents the 1985 national mean of college-bound seniors minus one standard deviation.

Students who received Associate in Arts Degrees prior to September 1, 1989, or who enrolled in a program of studies leading to an Associate’s Degree from a Florida community college prior to August 1, 1989, and have maintained continuous enrollment shall be exempt from this admissions requirement. Any lower division student admitted without meeting the foreign language requirement must earn such credits prior to admission to the upper division of a state university. Any AA Degree graduate from a public community college admitted without meeting the foreign language requirement must earn such credits prior to graduation from a state university.

COLLEGE PREPARATORY COURSES

PHCC offers College Preparatory (Prep) Courses which are below college level for students in need of remedial work in skills necessary for college-level academic courses. Individually prescribed study is also available in the Learning Laboratories. See “Common Placement Testing,” and consult a PHCC advisor for further information. Credits earned in College Preparatory Courses do not apply toward degrees or certificates.

POLICE STANDARDS PROGRAM (LAW ENFORCEMENT/BASIC RECRUIT)

PHCC offers the Basic Recruit, Police Standards Program. This technical credit program fulfills the requirements set forth by the Florida Police Standards and Training Commission Basic Recruit Curriculum.

Six hours of credit may be granted for the successful completion of a PHCC Law Enforcement/Basic Recruit Program. Under this provision, three hours each will be awarded for CCI 2220, Criminal Law, and for CIT 1100, Criminal Investigation.

In order to be awarded the credit, a student must:
1. Complete the application form and pay the required fee.
2. Supply to the Records Office a copy of the Certificate awarded at the completion of the Basic Recruit Program.

This program is located at the Gowers Corner Center. This facility offers training programs for all law enforcement agencies throughout Pasco County.

Military Science Program—Reserve Officers’ Training Corps (ROTC)

A dual enrollment program with the University of South Florida (USF) is offered by PHCC. Students interested in enrolling in the program are required to make application with USF. Please consult a PHCC advisor for details.
ASSOCIATE IN ARTS DEGREE PROGRAM

(For admission requirements to the Associate in Arts Degree Program, see index)

The Associate in Arts (AA) Degree will be awarded upon completion of 60 credit hours and upon passing the state-prescribed College-Level Academic Skills Test (see CLAST) or demonstrating satisfaction of an approved CLAST alternative. Thirty-six credit hours must be earned in General Education requirements as provided in the statewide Articulation Agreement. The remaining 24 hours may consist of any course(s) in the catalog section under “Courses” that are 1000 or 2000 level. Required Communication, Computation, and Humanities courses must each be completed with a grade of “C” or above. At least 15 hours of credit, other than Credit-by-Examination, CLEP, or Advanced Placement, must be earned in residence at PHCC. A cumulative, degree-level grade-point average of not less than 2.0 or “C” must be achieved by graduation. A cumulative, degree-level grade-point average of not less than 2.0 or “C” must be achieved in courses taken at PHCC.

OBJECTIVES OF THE AA DEGREE

The purpose of the AA Degree Program is to prepare the student for transfer at the junior level, especially to the State University System (SUS) of Florida, by providing academic courses which are parallel in both content and quality to those taught within the SUS.

OBJECTIVES

1. To enhance the ability of students to communicate ideas and meaning in writing with competency in form and substance

   MEASUREMENT
   All AA graduates will have completed successfully (with a “C” or higher) English Composition I (ENC 1101 or ENC 1121H).
   All AA graduates will have completed successfully the English language skills and the essay portions of the College Level Academic Skills Test (CLAST) or an approved CLAST alternative.

2. To develop in students the skills necessary to prepare research papers

   MEASUREMENT
   All AA graduates will have completed successfully (with a “C” or higher) English Composition II (ENC 1102 or ENC 1122H). These skills are reinforced in Humanities I (HUM 2211 or HUM 2211H) and Humanities II (HUM 2230 or HUM 2230H).

3. To strengthen speaking and listening skills in students

   MEASUREMENT
   All AA graduates will have completed successfully (with a “C” or higher) Introduction to Public Speaking (SPC 2600 or SPC 2600H).

4. To ensure that all students are provided with a broad spectrum of mathematical skills

   MEASUREMENT
   All AA graduates will have completed successfully (with a “C” or higher) Finite Mathematics (MGF 1202), and
   All AA graduates will have completed successfully the mathematics skills portion of the CLAST or an approved CLAST alternative.

5. To develop in students mathematical competency, accuracy, and understanding consistent with university requirements/recommendations

   MEASUREMENT
   All AA graduates will have completed successfully (with a “C” or higher) at least three hours of mathematics at the level of college-level algebra (MAC 1102 or MAC 1104) or above and successfully completed the mathematics skills portion of the CLAST or an approved CLAST alternative.

6. To nurture in students an understanding of the structure, function, and basic components of the biological and physical worlds

   MEASUREMENT
   All AA graduates will have completed successfully at least three science courses – one biological science course from a prescribed list, one physical science course from a prescribed list, and a third science course either from these prescribed lists or any course with a GLY or OCE prefix.

7. To foster in students an understanding of individual and/or group behavior.

   MEASUREMENT
   All AA graduates will be encouraged to complete successfully Introduction to Psychology (PSY 1012 or PSY 1012H), or Introduction to Sociology (SYG 2000 or SYG 2000H), or Introduction to Cultural Anthropology (ANT 2410).

8. To develop in students an appreciation of the arts and humanities, including the critical awareness of cultures and cultural diversity

   MEASUREMENT
   All AA graduates will have completed successfully (with a “C” or higher) Humanities I (HUM 2211 or HUM 2211H) and Humanities II (HUM 2230 or HUM 2230H).

9. To develop in students knowledge and understanding of the structure and function of government

   MEASUREMENT
   All AA graduates will be encouraged to complete successfully American Federal Government (POS 2041).

10. To prepare students for successful academic performance upon transfer to the upper-division institutions in the State University System (SUS)

     MEASUREMENT
     The mean grade-point average (GPA) of PHCC graduates who transfer to the SUS will be at least equal to the mean GPA of other transfer students in the SUS.
11. To develop computer literacy skills in students

**MEASUREMENT**
All AA students will have completed introductory computer skills within their general education communication course, ENC 1101 or ENC 1121H.

12. To provide students with a varied educational experience

**MEASUREMENT**
All AA graduates will have completed successfully up to 24 elective credits in addition to the 36 credits in the general education core program.

**Additional Assistance**
Students are provided assistance to enhance the probability of successful performance at the college level. For example, entering students are administered the Florida College Entry-level Placement Test (FCELPT) so that they can be advised and placed in the proper communication and computation courses.

**Passing Scores on the College-Level Academic Skills Test (CLAST)**
The scale scores on the CLAST that must be achieved in order for a student to be awarded the AA Degree are shown below. A student’s passing scores are those that are in effect on the date a student first takes the test. Note that the essay was reported on a four (4) point scale through September 1991. Since October 1991, scores on the essay test have been reported on a six (6) point scale. For students taking the essay portion of the examination, a total score of four on a four-point scale is considered equivalent to a total score of five on a six-point scale. See the section, “CLAST Alternatives,” for other ways students may meet this requirement.

- **Effective August 1, 1986 through July 31, 1988:**
  - Reading: 270
  - Writing: 295
  - Computation: 275
  - Essay: 4

- **Effective August 1, 1988 through September 30, 1991:**
  - Reading: 295
  - Writing: 295
  - Computation: 285
  - Essay: 4

- **Effective October 1, 1991 through September 30, 1992:**
  - Reading: 295
  - Writing: 295
  - Computation: 290
  - Essay: 5

- **Effective October 1, 1992:**
  - Reading: 295
  - Writing: 295
  - Computation: 295
  - Essay: 6
# GENERAL EDUCATION REQUIREMENTS FOR THE AA PROGRAM

**I. Communications**
- ENC 1101 English Composition I (includes 6,000-word writing requirement) OR
- ENC 1211H English Composition I – Honors (includes 6,000-word writing requirement)
- ENC 1102 English Composition II (includes 6,000-word writing requirement) OR
- ENC 1122H English Composition II – Honors (includes 6,000-word writing requirement)
- SPC 2606 Introduction to Public Speaking

**II. Mathematics**
- MGF 1202 Finite Mathematics (required)
- Any MAC course (MAC 1102 or higher) or STA 2023

*(NOTE: Successful completion of both MAC 1102 and MAC 1104 does NOT satisfy the mathematics requirement for the AA Degree. Students who have passed the mathematics portion of the CLAST or who satisfy these requirements through CLAST alternatives may substitute any course with an MAC or STA prefix for MGF 1202.)*

**III. Natural Sciences**
- Biological Science (one course – BOT, BSC [except BSC 1030 or BSC 1030H], MCB)
- Physical Science (one course – CHM, PHY, PSC)
- Biological or Physical Science (one course – any of the above Science prefixes plus BSC 1050 or BSC 1050H, GLY, or OCE)

*(NOTE: It is recommended that either Introduction to the Physical Sciences [PSC 1341] or a Survey of the Physical Sciences [PSC 1311] be taken as a FIRST science course for ALL students not planning to major in the sciences. These courses serve as the foundation for all other science courses.)*

**IV. Social and Behavioral Sciences**
Any course with the prefix: AMH, ANT, CLP, DEP, ECO, EUH, GEA, INR, PHI, POS, SYG

**V. Humanities**
- HUM 2211 Humanities I (includes 6,000-word writing requirement) OR
- HUM 2211H Humanities I – Honors (includes 6,000-word writing requirement)
- HUM 2230 Humanities II (includes 6,000-word writing requirement) OR
- HUM 2230H Humanities II – Honors (includes 6,000-word writing requirement)

**Total** 36

*These courses must be completed with a grade of “C” or higher.

ENC 1101, ENC 1102, HUM 2211, AND HUM 2230 MUST BE TAKEN IN SEQUENCE. MGF 1202 MUST BE TAKEN WITHIN THE FIRST 36 HOURS OF COURSE WORK.

**Electives**
Sixty (60) hours of college-level work is required in the AA program. Beyond the 36 hours of general education requirements, the remaining 24 hours may be completed from courses at the 1000 or 2000 level listed in the catalog/handbook.

The student is urged to select electives relevant to his/her proposed major. If the major is undecided, advisors are prepared to provide assistance in the selection process. Common course prerequisites for students transferring to the State University System of Florida have been established for all degree programs. Students should consult an advisor to determine the required prerequisites for transfer to a specific degree program within the State University System.

Students will satisfy basic computer literacy requirements in ENC 1101 or ENC 1121H in addition to any required common prerequisite computer courses for transfer to the state university system.

*Note: All students who receive an AA Degree must pass all sections of the CLAST or satisfy an approved CLAST alternative.*

THE STUDENT WHO DOES NOT MEET THE FOREIGN LANGUAGE REQUIREMENT SET BY THE STATE UNIVERSITY SYSTEM OF FLORIDA (SEE "FOREIGN LANGUAGE REQUIREMENT") IS URGED TO TAKE THESE COURSES. SEE AN ADVISOR FOR DETAILS.
ASSOCIATE IN SCIENCE DEGREE PROGRAMS

The Associate in Science (AS) Programs prepare students for employment in selected fields upon completion of a minimum of two years, or four semesters, of preparation. A certificate may be awarded in some programs after one year of prescribed work. These programs are intended to prepare the student for employment after graduation—not for university transfer. Students who wish to transfer should pursue the Associate in Arts (AA) Degree.

Listing of AS and Certificate Programs

PHCC is authorized to award the Associate in Science Degree and certificates in career/technical fields upon satisfactory completion of the established standard number of credit hours required for each specific AS program as approved by the State Board of Community Colleges. The individual must complete the 15-hour core program for the AS Degree and the remaining hours from an approved program. Only courses designated at the 1000 and 2000 levels are applicable to this degree. At least 25% of the credits toward the degree must be earned in a classroom experience at PHCC. A cumulative grade-point average (GPA) of not less than 2.0 or "C" must be achieved by graduation. However, in all certificate programs except Small Business Management, Business Data Processing, Paramedic, Emergency Medical Technician, and Office Systems Specialist (which are college credit programs), only those courses that are part of the specific program are to be included in computing the program GPA. After completing the specified number of hours in an AS Degree Associated Certificate or a Technical Credit Program, a student may transfer to an associated Associate in Science Degree. Students who wish to transfer credits from any AS Program to another institution must accept the responsibility for securing approval in advance from that institution.

PHCC is authorized to award Certificates in occupational fields upon completion of prescribed courses of study. A minimum of 25% of the program, other than credit-by-examination, must be earned in residence at PHCC. A cumulative GPA of 2.0 or "C" must be achieved in coursework in the program; however, in all certificate programs except Business Data Processing, Small Business Management, Emergency Medical Technician, Paramedic, and Office Systems Specialist (which are Postsecondary Vocational [PSV] Programs), only those courses that are part of the specific program are to be included in computing the program GPA. After completing the specified number of hours in an AS Degree Associated Certificate, a student may transfer to an associated Associate in Science Degree.

The Associate in Science Degrees and Associated Certificate Programs offered at PHCC are as follows:

Associate in Science Degree in: Associated Certificate Program in:
Business Administration and Management Small Business Management
Computer Programming and Applications Business Data Processing
Criminal Justice Technology Dental Hygiene
Drafting and Design Technology Emergency Medical Services Paramedic
Emergency Medical Services Emergency Medical Technician
Human Services Legal Assisting (Paralegal)
Marketing Management Nursing, with the:
Genetic Track Licensed Practical Nurse Track
Paramedic Track
Office Systems Technology Office Systems Specialist
Business Administration - Technical Track
Physical Therapist Assistant (This is a joint program offered by St. Petersburg Junior College and PHCC.) Radiography (planned for January 1999)

ALL PROGRAMS AND COURSES ARE NOT AVAILABLE ON ALL CAMPUSES. CONTACT THE CAMPUS STUDENT SERVICES OFFICE TO DETERMINE WHETHER THE PROGRAM DESIRED IS OFFERED ON A PARTICULAR CAMPUS.
ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS

An Associate in Science (AS) Degree will be awarded upon completion of the hours specified in the program. The individual must complete 15 hours in General Education courses with the remaining courses listed in the program. Courses designated for Technical Certificates, except where specific articulation agreements exist, or those below the 1000 or 2000 level, are not applicable to this degree. At least 25% of the hours in a student's program, other than by Credit-By-Examination, CLEP, or Advanced Placement, must be earned in residence at PHCC. A cumulative grade-point average of not less than 2.0 or "C" must be achieved prior to graduation.

The General Education requirement for the Associate in Science Degree is:

I. Communications
   * ENC 1101 English Composition I
   * ENC 1101H English Composition I-Honors

II. Social Sciences
   Courses with the following prefixes will meet this requirement:
   POS, PSY, or SYG

III. Mathematics or Natural Sciences
   Any one of the following courses:
   Mathematics (MAC 1102, MAC 1114, MGF 1202, STA 2023, or any higher level mathematics course)
   OR
   Biological Science (any course with BSC or OCE prefix)
   OR
   Physical Science (any three-hour course with CHM or PHY or PSC prefix)

IV. Humanities**
   Any of the following courses:
   Applied Ethics (PHI 1600)
   Art Appreciation (ARH 1000)
   * English Composition II (ENC 1102)
   * English Composition II-Honors (ENC 1122H)

V. Core Elective
   Any course not used to satisfy Areas I, II, III, IV above OR any course from the following list:
   Geography (any course with a GEO prefix)
   History (any course with AMH or HUM prefix)
   Humanities I (HUM 2211) (prerequisite: ENC 1102) or Humanities I (HUM 2211H) (prerequisite:
   ENC 1102 or ENC 1122H)
   Introduction to Asian Arts and Letters–Honors (IDS 2250)
   Introduction to Cultural Anthropology (ANT 2410)
   Psychology (any course with PSY, DEP, or CLP prefix)
   Reading (REA 1105)
   Sociology (any course with SYG prefix)

   *Grade of "C" or above required
   **Students may meet the Area IV requirement by taking a foreign language.

Each program will also include computer competencies, general computational skills, oral communication skills, and human relations skills taught in a specific course or courses, based on the curricular needs. Some programs may also require particular courses to meet the requirements in II, III, IV, and V above. See the individual program listings.

It is strongly recommended that the first of any required English and mathematics courses be taken within the first 15 hours of course work. If the need for college preparatory courses is indicated by pre-test scores, they should be taken within the first six hours of course work. The first of any required English and mathematics courses, as applicable, should be taken as soon thereafter as the student demonstrates the necessary skills for these courses.
 ASSOCIATE IN SCIENCE IN BUSINESS ADMINISTRATION & MANAGEMENT

The purpose of this program is to prepare students for employment in a variety of business environments as managers or to provide supplemental training for persons previously or currently employed in management occupations. Students who wish to transfer credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

CERTIFICATE PROGRAM - SMALL BUSINESS MANAGEMENT

This 30-credit hour program is designed to prepare students for the operation of a small business and to become small business owners and entrepreneurs. It also provides supplemental training for persons previously or currently operating or owning a small business. Upon successful completion of this certificate program, a student may transfer into the Associate in Science (AS) in Business Administration and Management or the AS in Marketing Management programs.

An official high school transcript indicating graduation or official GED scores indicating successful completion and an official transcript sent directly from each college and university previously attended are required for admission.

MKA 2511 Principles of Advertising

*Prerequisite required.
ASSOCIATE IN SCIENCE IN COMPUTER PROGRAMMING & APPLICATIONS

The purpose of this program is to prepare students for employment as business programmers, information systems programmers, process control programmers, information systems managers, and programmers/analysts or to provide supplemental training for persons previously employed in these occupations. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

- STA 2023 Elementary Statistics

NOTE: Effective Fall 1996, three hours of credit will be granted toward an Associate in Science degree in Computer Programming and Applications for the successful completion with a “C” average or better (E206400) Business Applications I and Business Applications II at the Merchman Vocational Technical Center. Credit will be awarded for:

CST 1000 Computer Concepts

Students must receive a high school diploma and successfully complete 15 hours of college level credit at FHCC before credit will be given. To be awarded credit, a student must submit a copy of a completed Request for Credit for Articulated Programs from Merchman Vocational Center (Form MVR-502) to the Director of Admissions and Student Records after the student has completed the 15 hours. These forms are available at the Student Services Office on each campus.

Total Hours: 63
CERTIFICATE PROGRAM - BUSINESS DATA PROCESSING

This certificate program is designed to prepare the students for employment as computer programmer trainees and software application technicians. The program prepares students to use methods and procedures to automate business applications, to utilize business software applications, and to incorporate the review of system and programming specifications to yield solutions to business applications' problems.

A high school transcript indicating graduation or GED scores indicating successful completion and an official transcript sent directly from each college and university previously attended are required for admission.

ASSOCIATE IN SCIENCE IN CRIMINAL JUSTICE TECHNOLOGY

This program provides a professional background to those preparing for careers in law enforcement, corrections, and private security. The program should be followed by those intending to pursue a two-year degree program in law enforcement. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

¹See Associate in Science General Education Requirements

*PHCC offers the Basic Recruit, Police Standards Program and the Correctional Officer Program. This technical credit program fulfills the requirements set forth by the Florida Police Standards and Training Commission Basic Recruit Curriculum. Six hours of credit may be granted for the successful completion of the Florida Police Standards Basic Recruit Program or the Correctional Officer Program offered at PHCC. Students who have completed the Florida Police Program elsewhere, but who have passed the appropriate Florida State examination, are also eligible to receive six hours of credit at PHCC. Under this provision, after completing 15 hours of credit at PHCC and declaring into the Criminal Justice Technology Program, three hours each will be awarded for CCJ 2220 Criminal Law and CCJ 1100 Criminal Investigation for Law Enforcement Basic Recruit; three hours each for CCJ 2220 Criminal Law and CCJ 1300 Introduction to Corrections for Correctional Officer. An additional three credit hours may be granted for course CCJ 2940 Field Studies for those people currently employed with one year of experience as a law enforcement or correctional officer (not auxiliary).

*PSY 1012 is waived as a prerequisite for students enrolled in this program.

Criminal Justice Electives:

- CCJ 1000 Crime and Delinquency
- CCJ 2122 Police Community Relations
- CCJ 2250 Rules of Evidence
- CCJ 1110 Introduction to Criminalistics
- CCJ 1800 Introduction to Principles of Security
- CCJ 2814 Security of Cultural Institutions
ASSOCIATE IN SCIENCE IN DENTAL HYGIENE

(The program in dental hygiene is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education.)

Application Deadline: June 15. A limited access program with requirements for admission listed in the application materials.

This program is designed to prepare a person for employment as a dental hygienist. Upon successful completion of the program, the graduate receives an Associate in Science Degree in Dental Hygiene. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

General Education: 37 Semester Hours
Dental Hygiene Education: 51 Semester Hours
Total Hours: 88 Semester Hours

**These courses are six or eight weeks in length.

Special Program Requirements

An academic average of “C” or higher and/or a grade of “Pass” must be earned in each dental science and dental health course in order to continue in the program. Satisfactory completion of 88 semester hours of approved credit with a grade of “C” or better in required general science, dental science, and dental hygiene courses is necessary for graduation. Dental Hygiene courses may be repeated only with the recommendation of faculty and the Chair of the Admissions Committee for Special Programs, approval of the Vice President of Instructional Services, and if class space is available.

A minimum of 15 hours of credit in dental hygiene must be completed in residence at PHCC in 2000-level courses.
ASSOCIATE IN SCIENCE IN DRAFTING AND DESIGN TECHNOLOGY

This program is designed to prepare individuals for employment in the drafting and computer drafting field. The program emphasizes the theoretical knowledge required for a variety of drafting positions in the building and manufacturing industries.

ASSOCIATE IN SCIENCE IN EMERGENCY MEDICAL SERVICES

This program is designed to prepare men and women to provide advanced pre-hospital emergency care as a paramedic. Instruction includes the knowledge and skills required to function under the direction of a physician, either directly or by written procedures. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval from that institution.

General Education 26 Semester Hours
EMS Education 47 Semester Hours
Total Hours 73 Semester Hours

Upon successful completion of the Sophomore year (Certificate Paramedic Program) and successful completion of a final comprehensive written and practical skills examination, the graduate is eligible to apply to take the State of Florida Paramedic certification exam or the National Registry exam.

Paramedic courses may only be repeated upon recommendation of the faculty and the Chair of the Admissions Committee for Special Programs, approval of the Vice President of Instructional Services, and if class space is available.

*Courses include computer competencies
CERTIFICATE PROGRAM – EMERGENCY MEDICAL TECHNICIAN

This eight-credit-hour program prepares students for employment as emergency medical technicians to function at the basic pre-hospital level and treat various medical/trauma conditions using appropriate equipment and materials. The program prepares students for certification as EMTs in accordance with Chapter 10D-66 of the Florida Administrative Code. The program is approved by the Department of Health and Rehabilitative Services, Office of Emergency Medical Services, and the curriculum adheres to the U.S. Department of Transportation Emergency Medical Technician-Basic National Standard Curriculum. This is the initial level for a career in emergency medical services and the prerequisite for paramedic training and certification.

An official high school transcript indicating graduation or official GED scores indicating a successful completion and an official transcript sent directly from each college and university previously attended are required for admission.

**Total Hours:** 8

*CPR certification is a prerequisite of this course. Students must take the American Heart Association BLS for Healthcare Providers or the American Red Cross Professional Rescuer-CPR Course. Students must submit proof of current CPR certification by the drop/add date for the term in which enrolled or they will be dropped from the course.

An academic average of "C" or higher in EMS 1119C and a grade of "Pass" in EMS 1431 must be earned in order to receive a Certificate of Completion. The student is then eligible to apply to take the Florida EMT Certification exam.

**Special note:** Effective fall 1999, HSC 2531 Medical Terminology will be a prerequisite for admission to the Emergency Medical Technician program.

CERTIFICATE PROGRAM – PARAMEDIC

Application Deadline: June 1 – A limited access program. Admission requirements are explained in an application packet available from the Admissions Office.

This 30-credit-hour program provides theoretical base to understand and implement life-saving techniques in an emergency situation. College laboratory experience is provided for learning skills; and a supervised clinical rotation enables the trainee to gain confidence and expertise in order to implement the life-saving and supportive measures necessary at the emergency scene and during transportation to a medical facility. Upon successful completion of the program and successful completion of a final comprehensive written and skills examination, the graduate is eligible to apply to take the State of Florida Paramedic certification exam or the National Registry exam. A two-year Associate in Science Degree in Emergency Medical Services is also available.

Prerequisites: Admission into the Paramedic Certificate Program, completion of HSC 2531 Medical Terminology with a grade of "C" or higher, and a current CPR card (AHA or Red Cross) valid until October of the admitting year.

Total Hours: 65

Students who desire the Associate in Arts (AA) Degree should consult an advisor regarding the additional courses required.

Students who intend to transfer to a university should consult an advisor about the transfer options available. PHCC and St. Leo College have developed an articulation agreement for students who earn an AS Degree in Human Services at PHCC and wish to pursue a Bachelor of Social Work Degree at St. Leo College. For information, contact an advisor or the Human Services instructor.

*Students pursuing the AS Degree in Human Services should complete this course during their first semester of attendance.
ASSOCIATE IN SCIENCE IN LEGAL ASSISTING

The purpose of this program is to prepare students for employment as paralegal assistants in law offices, government agencies, corporations, financial institutions, and title insurance companies. This program is also designed to provide supplemental training for persons already employed as paralegal assistants. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

Suggested Additional Courses:

- CGS 1100 Microcomputer Applications
- OST 1100 College Keyboarding I
- OST 2401 Administrative Office Procedures
- PLA 2949 Cooperative Legal Practicum

Students pursuing the AS degree in Legal Assisting should complete PLA 1003 Introduction to Legal Assisting and Legal Ethics during their first semester of attendance. PLA 1204 Civil Procedure is a prerequisite to PLA 1263 Evidence and Trial Practice.

Please see course descriptions for other prerequisites and corequisites.
ASSOCIATE IN SCIENCE IN MARKETING MANAGEMENT

This program provides learning opportunities for a student to acquire the necessary skills for a career in the multifaceted field. Career areas include marketing, merchandise, retailing, advertising, buying and many support areas such as management, communications, and personnel management. Specific job areas include sales clerk, sales representative, manager, assistant buyer, floor manager, and food services. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

**NOTE:** Effective fall 1995, three hours of credit toward an Associate in Science degree in Marketing Management will be granted for the successful completion with a "C" average or higher in 811100 Academy of Fashion Marketing or 812100 Academy of Entrepreneurship taken at Manasseh Vocational Center.

Students must receive a high school diploma and successfully complete 15 hours of college-level courses at PHCC before credit will be given. To be awarded credit, a student must send a copy of a completed Request for Credit for Attended Programs from Manasseh Vocational Center (Form EAR-50) to the Director of Admissions and Student Services after the student has completed the 15 hours. These forms are available in the Student Services Office on each campus.
ASSOCIATE IN SCIENCE IN NURSING (R.N.) (Generic Track)

(The Associate in Science in Nursing (R.N.) is accredited by the National League for Nursing (NLN), a specialized accrediting body recognized by the United States Department of Education.)

Application Deadline: June 15 - A limited access program with documents required for admission listed in the application materials.

This program is designed to prepare individuals to provide direct nursing care to patients in hospitals and other comparable health agencies. Upon successful completion, the graduate receives an Associate in Science Degree in Nursing and is eligible to sit for the National Council Licensure Examination for Registered Nurses in accordance with the regulations set forth in the Nurse Practice Act, Chapter 464.008 and 464.018. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

General Education: 25 Semester Hours
Nursing Education: 47 Semester Hours
Total Hours: 72 Semester Hours

*These 10 hours of prerequisites must be completed before admission to the program and are included in the 25 hours of General Education requirements.

Special Program Requirements

An academic average of "C" or higher and a grade of "Pass" in the clinical portion must be earned in each nursing course and in MTB 2370 in order to continue in the Nursing Program. Nursing courses may only be repeated on the recommendation of the nursing faculty and the Chair of the Admissions Committee for Special Programs, approval of the Vice President of Instructional Services, and if class space is available. (See Academic Averages and Repeated Courses.)

Satisfactory completion of the 72 semester hours of approved credit with a grade of "C" or higher in required science and nursing courses is necessary to graduate.

A minimum of 15 hours of credit in nursing must be completed in residence at PHCC in 2000-level courses.

**Computer literacy is REQUIRED** for students enrolled in this program. Students who lack computer skills are required to complete a computer course.

ASSOCIATE IN SCIENCE IN NURSING (R.N.)
Licensed Practical Nurse Track – (Limited Access)

(The Associate in Science in Nursing (RN) is accredited by the National League for Nursing (NLN), a specialized accrediting body recognized by the United States Department of Education.)

Application Deadline: May 10 – A limited access program with documents required for admission listed in the application materials.

This program track is designed to allow an entry point into the Associate Degree in Nursing Program for the Licensed Practical Nurse. Entry into this program is limited to 24 students plus the number of spaces available in the freshman class during the summer. Upon successful completion of this program, the graduate receives an Associate in Science Degree in Nursing and is eligible to sit for the National Council Licensure Examination for Registered Nurses in accordance with the regulations set forth in the Nurse Practice Act, Chapter 464.018. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

Upon acceptance and enrollment into this program, students will receive a N.R.N. advanced semester hours credit, based on practical nursing education.

**Elective:**

General Education: 25 Semester Hours
Nursing Education: 47 Semester Hours
Total Hours: 72 Semester Hours

*These 20 hours of prerequisites must be completed before admission to the program and are included in the 25 hours of General Education requirements.

**This Program Track begins with Session IIIB.

Special Program Requirements

An academic average of "C" or higher and a grade of "Pass" in the clinical portion must be earned in each nursing course in order to continue in the Nursing Program. Nursing courses may be repeated only on the recommendation of the nursing faculty and the Chair of the Admissions Committee for Special Programs, approval of the Vice President of Instructional Services, and if space is available. Satisfactory completion of the 72 semester hours of approved credit with a grade of "C" or higher in required science and nursing courses is necessary for graduation.

A minimum of 15 hours of credit in nursing in 2000-level courses must be completed in residence at PHCC.

**Computer Literacy is REQUIRED for students enrolled in this program. Students who lack computer skills are required to complete a computer course.**
ASSOCIATE IN SCIENCE IN NURSING (R.N.) Paramedic Track

(The Associate in Science in Nursing (R.N.) is accredited by the National League for Nursing (NLN), a specialized accrediting body recognized by the United States Department of Education.)

Application Deadline: October 1. A limited access program with documents required for admission listed in the application materials. The next program offering is tentatively planned for January 2000.

This program track is designed to allow an entry point into the Associate Degree in Nursing Program for the licensed paramedic. Upon successful completion of this program, the graduate receives an Associate in Science Degree in Nursing and is eligible to sit for the National Council Licensure Examination for Registered Nurses in accordance with the regulations set forth in the Nurse Practice Act, Chapter 464.008 and 464.018. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

Upon acceptance into this program, students will receive 9 advanced semester hours credit, based on paramedic education.

CERTIFICATE PROGRAM - OFFICE SYSTEMS SPECIALIST

This 30-credit-hour program is designed to provide the necessary skills for students who plan to seek employment in a clerical position such as file clerk, clerk typist, general office clerk, receptionist, or transcribing machine operator. Upon successful completion of this program, an individual may transfer into the two-year Associate in Science in Office Systems Technology Program. A high school transcript indicating graduation or GED scores indicating successful completion and an official transcript sent directly from each college and university previously attended are required for admission.

Total Hours: 74

* Students taking ENC 1101-1102 must also take one of the following Speech courses: SPC 1015, SPC 1025, SPC 1062, or SPC 1413 (SPC 2600 must be taken at PHCC).

† See the list of appropriate course options under General Education Requirements for the A.S. Degree in the SPJC College Catalog or the PHCC College Catalog.

‡ See the list of computer competency course options under General Educational Requirements for the A.S. Degree in the SPJC College Catalog (ENC 1101 taken at PHCC will satisfy this requirement).

§ Completion of BSC 1085, 1085L, 1086, and 1086L satisfies the Personal Wellness requirement.

¶ PHI 1600 Applied Ethics taken at PHCC will satisfy this requirement.

†† HSC 2531 Medical Terminology taken at PHCC will satisfy this requirement.
ASSOCIATE IN SCIENCE IN RADIOGRAPHY

PHCC expects its first radiography class to start January 1999. Upon successful completion, the graduate will receive an Associate in Science Degree in Radiography and will be eligible to apply to take the State of Florida examination for the General Radiographer and the national examination given by the American Registry of Radiologic Technologists (A.R.R.T.).

The radiographer is a skilled member of the health care team. The primary responsibility of the radiographer is to provide the patient care and technical expertise necessary to create an x-ray image on film to be read by the physician. Most radiographers are employed in hospitals and diagnostic clinics.

TECHNICAL CREDIT PROGRAMS

The Technical Credit Certificate will be awarded upon satisfactory completion of a planned technical credit certificate program of post-secondary studies in a specialized area. A minimum of 25% of the program, other than credit-by-examination, must be earned in residence at Pasco-Hernando Community College. A grade-point average of not less than 2.0 or "C" must be achieved to receive a certificate. Only those courses that are part of the program are included in computing the program GPA for technical certificate programs.

Courses in these programs are not considered as college credit and will not transfer to a university. Technical Credit Programs are designed to prepare the student for an entry-level job. (See Listing of Technical Courses for instructional hours.)

NOTE: STUDENTS WHO COMPLETE A TECHNICAL CREDIT CERTIFICATE PROGRAM MUST HAVE ACHIEVED THE STATE DESIGNATED SCORE ON THE APPROPRIATE LEVEL OF THE TEST FOR ADULT BASIC EDUCATION (TABE) BEFORE A CERTIFICATE CAN BE ISSUED.

The Technical Credit Certificate Programs offered at PHCC are:

- Applied Welding Technologies
- Child Care Supervision
- Coder Specialist
- Correctional Officer
- Cosmetology
- Dental Assisting
- Fire Fighting
- Health Unit Coordinator
- Landscape Operations
- Law Enforcement/Auxiliary Officer
- Law Enforcement/Basic Recruit
- Medical Record Transcribing
- Medical Secretarial/Examining Room Assistant
- Patient Care Assistant/Home Health Aide
- Practical Nursing

TECHNICAL CERTIFICATE PROGRAM – CHILD CARE SUPERVISION

The purpose of this 29-technical-credit-hour program is to prepare students for initial employment as child care supervisors, child care attendants, child care aides, child care workers, family day care home operators, clinic day care center workers, or to provide supplemental training for persons previously or currently employed in these occupations. This program is recognized by the State of Florida as an equivalent to the Child Development Associate (CDA) credential.

**Total: 29 technical credits**

Special Program Requirements:

An academic average of "C" or higher in the program and a grade of "Satisfactory/Pass" (P) in the practicums and clinical must be earned in order to receive a Child Care Supervision technical certificate.

*CPR certification and First Aid are prerequisites of this course. Students need to take either the American Heart Association Course Pediatric BLS "D" or the American Red Cross Infant/Toddler - CPR course. Also, students need to take an American Red Cross Child Care First Aid or National Safety Council Child First Aid course.
TECHNICAL CERTIFICATE PROGRAM - APPLIED WELDING TECHNOLOGIES

This specialized program is designed to enable persons to acquire skills and knowledge necessary for initial employment as a welder. Emphasis is placed on care and safe use of welding equipment, tools, and materials. Employability skills are included. This program is open-entry. A cumulative grade-point average (GPA) of not less than 2.0 or "C" must be achieved. Only those courses that are part of the program are included in computing the program GPA. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

Total: 19 technical credits

Special Program Requirements:

An academic average of "C" or higher must be earned in the program in order to receive a Coder Specialist technical certificate.

+An approved 4-hour AIDS Seminar and CPR certification are prerequisites of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer - CPR course.
TECHNICAL CERTIFICATE PROGRAM - CORRECTIONAL OFFICER

The purpose of this 18.5-technical-credit-hour program is to prepare students for entry-level employment as correctional officers. The program is prescribed by the Florida Department of Law Enforcement, Criminal Justice Standards and Training Commission in accordance with Florida Statutes.

Prerequisites

Two months prior to an Academy start date, candidates must make application for admission to the Basic Recruit Program. Candidates may be sponsored by a local law enforcement agency. All candidates must meet entry requirements which include physical fitness and psychological testing. Additional entry requirements are outlined in the application packet. Application packets are available at the Academy at the time of orientation.

Total: 18.5 technical credits

Special Program Requirements:

Criminal Justice Standards and Training Commission Regulations must be met. The attendance policy required by the Commission is 90%; however, some courses require 100% attendance. This program is both physically and mentally demanding. Academy-designated uniforms must be purchased and worn by Academy Cadets. College policies and the Academy Rules and Regulations Manual will be strictly followed. A list of required supplies will be given at orientation. An academic average of "C" or higher is required for all academic tests administered during each course. The grade of "pass" is required in all courses requiring the demonstration of proficiency. Upon completion of the program, the cadet will be eligible to take the state exam to receive provisional certification as a correctional officer.

Concurrent Certification:

Students who want dual certification in Law Enforcement and in Correctional Officer must also take the following courses:

</tbody>
</table>

Total: 27.5 technical credits

Upon completion of all courses listed above, the cadet will be eligible to take the state exam for Corrections and Law Enforcement Officer.

Periodically, a combined academy may be offered. Students completing the combined academy will be able to take the certification exam for Corrections and for Law Enforcement.

Note: Completing this program and passing the Criminal Justice State Exam is required before the cadet can receive provisional certification. After successful completion of a one-year employment probationary period, the officer will receive permanent certification by the Florida Criminal Justice Standards and Training Commission.
TECHNICAL CERTIFICATE PROGRAM – COSMETOLOGY

This specialized 40-technical-credit-hour program is designed to prepare persons for initial employment in the field of cosmetology. Upon satisfactory completion of this program, a graduate receives a certificate in Cosmetology and is eligible to sit for the Florida Board of Cosmetology Licensure Examination. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution. Professional liability insurance fee is required. The period of coverage is from August through July.

Total: 40 technical credits

*A student transferring from an accredited Cosmetology Training Program who has successfully completed a minimum of 450 hours of instruction may receive credit for these three courses: COS 0590, Laboratory Practices, Hair, and Scalp Care; COS 0301, Hair Shaping; and COS 0400, Hairstyling. A student must complete at least 10 technical credits at PHCC to be eligible to receive a certificate.

Special Program Requirements:

A student must earn an average of "C" or higher in each program course in order to receive a Cosmetology Technical Certificate. Remedial education may be required for students who score below the state-required minimums on the Test of Adult Basic Education (TABE).

TECHNICAL CERTIFICATE PROGRAM – DENTAL ASSISTING

A limited access program with documents required for admission listed in the application materials.

This 20-technical-credit-hour program is designed to prepare students for employment as dental assistants and dental auxiliaries. The program meets the standards of the Florida Board of Dentistry. Graduates of the program are eligible for employment as dental assistants with expanded functions and radiography skills. Professional liability fee is required.

Total: 20 technical credits

+CPR certification is a prerequisite of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer - CPR course.

Special Program Requirements:

A grade of "C" or higher and a grade of "P" or "Pass" in the clinical portion, if applicable, must be earned in each course in order to continue in the program. Courses may be repeated only on the recommendation of the dental faculty and the Chair of the Admissions Committee for Special Programs, approval of the Vice President of Instructional Services, and if class space is available.

Completion of college preparatory courses may be required for students scoring below the state minimums on the Test of Adult Basic Education (TABE).
## TECHNICAL CERTIFICATE PROGRAM - FIRE FIGHTING

The purpose of this program is to prepare students for employment as fire fighters. The 13-vocational-credit-hour-program prepares students for certification as a fire fighter in accordance with Florida Statutes.

### Prerequisites:
Physical examination. Candidates must take a physical agility test. Entry requirements of the Bureau of Fire Standards and Training (BFST) must be met. Students must be physically fit to perform all tasks assigned to them.

Total: 13 technical credits

### Special Program Requirements:
A student must earn an academic average of "C" or higher in each fire fighting course in the program to be eligible to receive a certificate. To be eligible for the state exam, a student must complete all requirements set forth by the college and the B.F.S.T. Students must attend a minimum of 360 hours of the 390-hour program. Some class experiences, however, have a mandatory attendance requirement. Uniforms must be worn by fire fighting students. The Fire Fighting program elimination policy will be strictly enforced. Roll call will be held at each class meeting, and attendance is considered an essential requirement of fire fighting students. All college policies will be enforced.

## TECHNICAL CERTIFICATE PROGRAM - HEALTH UNIT COORDINATOR

This 20-vocational-credit-hour program is designed to prepare students for employment as health unit coordinators. Some of the topics included in the program are: interpreting medical terminology; performing clerical duties; reading, interpreting, and coordinating physicians' orders; legal and ethical responsibilities; and performing supervised clinical duties. Professional liability insurance fee is required.

Total: 20 technical credits

### Special Program Requirements:
A grade of "Pass" in WCL 0200 and an academic average of "C" or higher must be earned in the program in order to receive a Health Unit Coordinator technical certificate.

* A completed Physical Examination Report (SAR-40-A) is a prerequisite for this course.

* An approved 4-hour AIDS seminar and CPR certification are prerequisites of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer CPR course.
TECHNICAL CERTIFICATE PROGRAM - LANDSCAPE OPERATIONS

This specialized program is designed to enable persons to acquire skills and knowledge necessary for initial and supervisory employment in the ornamental horticulture/landscaping operations industry. Skill job titles include: nursery worker, nursery plant salesperson/buyer, landscaper, greenhouse operator, landscape maintainer, groundskeeper, and supervisor in each area. Gardens and yard care are also covered. A cumulative grade-point average (GPA) of not less than 2.0 or "C" must be achieved. Only those courses that are part of the program are included in computing the program GPA. Employability skills are included. Students who wish to transfer any credits from this program to another institution must accept the responsibility for securing approval in advance from that institution.

Total: 7 technical credits

Upon completion of all courses listed above, the cadet will be eligible to take the state exam for Law Enforcement and Corrections Officer.

Periodically, a combined academy may be offered. Students completing the combined academy will be able to take the certification exam for Corrections and for Law Enforcement.

Note: Completing this program and passing the Criminal Justice state exam is required before the cadet can receive provisional certification. After successful completion of a one-year employment probationary period, the officer will receive permanent certification by Florida Criminal Justice Standards and Training Commission.
TECHNICAL CERTIFICATE PROGRAM - MEDICAL RECORD TRANSCRIBING

This program is designed to prepare students for employment as medical record transcriptionists in hospitals, for private physicians, and as independent contractors. The program includes instruction in advanced keyboarding skills, medical terminology, health care delivery systems, basics of medical records services, legal and ethical responsibilities, and employability and professional skills.

An academic average of “C” or higher must be earned in the program in order to receive a Medical Record Transcribing technical certificate.

+An approved 4-hour AIDS seminar and CPR certification are prerequisites of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer - CPR course.

TECHNICAL CERTIFICATE PROGRAM - MEDICAL SECRETARIAL/EXAMINING ROOM ASSISTANT

The purpose of this program is to prepare students for employment as office clerks in medical facilities and as examining room assistants in physicians’ offices. This program will include instruction in both general office and medical record skills and includes a clinical component. Professional liability insurance fee is required.

A grade of “Pass” in OFT 0627 and an academic average of “C” or higher must be earned in the program in order to receive a Medical Secretarial/Examining Room Assistant technical certificate.

+A completed Physical Examination Report (SAR 40-A), an approved 4-hour AIDS seminar, and CPR certification are prerequisites of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer - CPR course.
TECHNICAL CERTIFICATE PROGRAM – PATIENT CARE ASSISTANT/HOME HEALTH AIDE

This program is designed to fulfill the requirements for Home Health Aide and Certified Nursing Assistant. Professional liability insurance fee is required. Students completing this program fulfill the skills competency required of the Certified Nursing Assistant (CNA). When students also successfully complete the CNA written exam, they will be issued a Florida Nursing Assistant certificate by the State.

*Special Program Requirements

A grade of "Pass" in the clinical portion and an academic average of "C" or higher must be earned in the program in order to receive a Patient Care Assistant/Home Health Aide technical certificate.

*A completed Physical Examination Report (SAR-40-A) is a prerequisite for this course.

+An approved 4-hour AIDS seminar and CPR certification are prerequisites of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer - CPR course.

TECHNICAL CERTIFICATE PROGRAM – PRACTICAL NURSING

Application Deadline: June 1 for August admission, October 1 for January admission.

A limited access program with documents required for admission listed in the application materials.

This 40-technical-credit-hour program is designed to prepare individuals to provide nursing care to clients in hospitals and other comparable health agencies as practical nurses, and is approved by the Florida State Board of Nursing. Upon satisfactory completion of the prescribed course work, a graduate is eligible to sit for the National Council Licensure Examination for Practical Nurses in accordance with regulations set forth in the Nurse Practice Act, Chapter 464.008 and 464.108. A graduate is also eligible to apply for admission to the Associate Degree in Nursing Program at the ADN-LPN entry point.

Total: 40 technical credits

Computer literacy is required for students enrolled in this program. Students lacking computer skills must take a computer course. Computer-assisted instructional materials may be used in this program.

*Special Program Requirements

A grade of "C" or higher and a grade of "Pass" in the clinical portion, if applicable, must be earned in each course in order to continue in the program. Courses may be repeated only with the recommendation of faculty and the Chair of the Admissions Committee for Special Programs, approval of the Vice President of Instructional Services, and if class space is available.

+CPR certification is a prerequisite of this course. Students must take either the American Heart Association course Basic Life Support for Health Care Providers or the American Red Cross Professional Rescuer - CPR course.

Completion of college preparatory courses may be required for students scoring below the state minimums on the Test of Adult Basic Education (TABE).
Required core courses in the Associate in Arts Degree and the Associate in Science Degree are completely transferable to a senior Florida public institution. All other catalog courses, except those below the 1000 or 2000 levels, are creditable for purposes of graduation from PHCC, but may not be accepted by the institution to which a student transfers. An advisor will assist in providing information about courses normally accepted for transfer to a bachelor's degree program at a specific university or four-year college.

College-preparatory courses are NOT creditable as part of the basic 60-hour requirement for degrees. Technical Certificate courses are NOT creditable toward the AA Degree.

Students may register for any course for which they have the necessary prerequisites (see below). A student who feels that he or she has sufficient training or experience to warrant an exception to a prerequisite should consult a PHCC advisor.

Students should not expect that all courses will be offered at each campus or in any given session. To determine when and where courses are to be offered, see a PHCC advisor.

Prerequisite and Corequisite Courses

A prerequisite is a requirement and/or course that MUST be completed SUCCESSFULLY before a student can enroll in another particular course. A corequisite is a particular course in which a student enrolls in conjunction with, i.e., in the same term as, another closely related course. Any prerequisite(s) and/or corequisite(s) for a course are noted in the "Listing of Courses" sections.

Florida’s Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System. This common numbering system is used by all public postsecondary institutions in Florida and by two participating private institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of the faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have meaning in the Statewide Course Numbering System (SCNS). The list of course prefixes and numbers, along with their generic titles, is referred to as the "SCNS Taxonomy." Descriptions of the content of courses are referred to as "course equivalency profiles."

Example of Course Identifier

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and last three digits of the course number and are guaranteed to be transferable between the participating institutions that offer the course, with a few exceptions. (Exceptions are listed below.)

For example, a survey course in social problems is offered by 31 different postsecondary institutions. Each institution uses "SYG_010" to identify its social problems course. The level code is the first digit and represents the year in which students normally take this course at a specific institution. In the SCNS taxonomy, "SYG" means "Sociology, General," the century digit "0" represents "Entry-Level General Sociology," the decade digit "1" represents "Survey Course," and the unit digit "0" represents "Social Problems."

In science and other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is offered by the receiving institution and is identified by the same prefix and last three digits at both institutions. For example, SYG 1010 is offered at a community college. The same course is offered at a state university as SYG 2010. A student who has successfully completed SYG 1010 at the community college is guaranteed to receive credit for SYG 2010 at the state university if the student transfers. The student cannot be required to take SYG 2010 again since SYG 1010 is equivalent to SYG 2010. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed which have not been designated as equivalent.

Sometimes, as in Chemistry, a sequence of one or more courses must be completed at the same institution in order for the courses to be transferable to another institution, even if the course prefix and numbers are the same. This information is contained in the individual SCNS course equivalency profiles for each course in the sequence.

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix used to identify the course.

Authority for Acceptance of Equivalent Courses

State Board of Education Rule 6A-10.024(19), Florida Administrative Code, reads:

When a student transfers among regionally accredited institutions that participate in the common course designation and numbering system, the receiving institution shall award credit for courses satisfactorily completed at the previous participating institutions when the courses are judged by the appropriate common course designation and numbering system faculty task forces to be equivalent to courses offered at the receiving institution and are entered in the course numbering system. Credit so awarded can be used by transfer students to satisfy requirements in these institutions on the same basis as native students.

Exceptions to the General Rule for Equivalency

The following are exceptions to the general rule for course equivalencies and may not be transferable. Transferability is at the discretion of the receiving institution:

A. Courses in the _900-999 series (e.g., ART 905)
B. Internships, practica, clinical experiences, and study abroad courses
C. Performance or studio courses in Art, Dance, Theatre, and Music
D. Skills courses in Criminal Justice
E. Graduate courses

College preparatory and vocational preparatory courses may not be used to meet degree requirements and are not transferable.

Questions about the Statewide Course Numbering System and appeals regarding course credit transfer decisions should be directed to the Associate Dean of Educational Services on the West Campus or the Florida Department of Education, Office of Postsecondary Education Coordination, 110 West 2nd Street, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling telephone number (850) 488-6402 or Suncom 278-6402.
Animal Science

ASG 1002 Introduction to Animal Science 3 cr.
Students in this course will study the principles of animal science. Topics include the reproduction, raising, and production of farm animals. Primary emphasis is on beef and milk cattle, sheep, horses, and swine. Other animals are discussed. Students will learn the various breeds in each category of farm animal discussed as well as feed issues, diseases, and slaughtering processes. 48 class hours.

Anthropology

ANT 2410 Introduction to Cultural Anthropology 3 cr.
A study of the nature of culture, personality, and social organization of humans. Emphasis is placed on the customs of preliterate people. 48 class hours.

ANT 2511 Introduction to Physical Anthropology 3 cr.
The study of humans as a biological unit in the animal kingdom. The human fossil record, living primates, the criteria of race and races of humans, principles of biological evolution, and human genetics are topics of emphasis. 48 class hours.

Art

ARH 1000 Art Appreciation 3 cr.
A course designed to supply the non-art major with a foundation for understanding the visual arts through introduction to different media of art expression. 48 class hours.

ART 1300C Drawing I 3 cr.
Introduction to the basic discipline of drawing through the use of still life, landscape, and the figure. Lab fee required. 32 lecture hours and 32 laboratory hours.

ART 1301C Drawing II 3 cr.
Prerequisite: ART 1300C. A continuation of ART 1300C. Lab fee required. 32 lecture hours and 32 laboratory hours.

ART 2510 Painting I 3 cr.
Studio problems in painting involving contemporary styles, techniques, and materials of painting. Lab fee required. 32 lecture hours and 32 laboratory hours.

ART 2520 Painting II 3 cr.
Prerequisite: ART 2510. A continuation of Painting I on an advanced level of proficiency. Emphasis is placed on individual experimentation. Lab fee required. 32 lecture hours and 32 laboratory hours.

PGY 1401C Photography I 3 cr.
A course designed to give the student an introduction to the camera, its mechanics, and use. Initial instruction is given on the photographic process, lighting scenes, exposure, development, and printing of photographs. Lab fee required. 32 lecture hours and 32 laboratory hours.

PGY 1410C Photography II 3 cr.
Prerequisite: PGY 1401C or consent of instructor. A continuation of PGY 1401C, including more in-depth involvement with cameras, film, paper, lenses, photographic accessories, and darkroom techniques. Lab fee required. 32 lecture hours and 32 laboratory hours.

Biological Science

BGT 1010C Botany 4 cr.
A survey of the plant kingdom. This lecture/laboratory course is designed to acquaint the student with the basic scientific principles as they apply to the various aspects of the plant kingdom. Prerequisites: Math 0060 or appropriate placement test scores. 48 lecture hours and 32 laboratory hours.

BSC 1005 Introduction to Biology 3 cr.
Prerequisites: Math 0060 and appropriate placement test scores. 48 lecture hours and 32 laboratory hours.

BSC 1010 Biology I 3 cr.
Prerequisites: Math 0060 and appropriate placement test scores. Recommended prerequisite: BSC 1005. Corequisite: BSC 1010L. An introduction to the biology of plants and animals. Topics include chemical foundations, cell biology, genetics and evolution. Evidence of proficiency in NextGen Basic Science is required. 48 lecture hours.

BSC 1010L Biology I Laboratory 1 cr.
Prerequisite: Math 0060 and appropriate placement test scores. Required prerequisite: BSC 1010. A laboratory investigation into the biology of plants and animals. Topics include prokaryotes, fungi, the evolution of animal diversity, animal form and function, and ecology. This course is primarily intended for those students planning to major in the sciences or for those who need a laboratory course in biology. 48 lecture hours.

BSC 1011 Biology II 3 cr.
Prerequisites: BSC 1010 and BSC 1010L (both completed with a grade of “C” or higher). Corequisite: BSC 1011L. Topics include structural biology, the evolution of animal diversity, vertebrate anatomy and physiology. This course is primarily intended for those students planning to major in the sciences or for those who need a laboratory course in biology. 48 lecture hours.

BSC 1011L Biology II Laboratory 1 cr.
Prerequisites: BSC 1010 and BSC 1010L (both completed with a grade of “C” or higher). Corequisite: BSC 1011. A continuation of BSC 1010L. Topics include plant biology, animal diversity, vertebrate anatomy and physiology. This course is primarily intended for those students planning to major in the sciences or for those who need a laboratory course in biology. 48 lecture hours.

BSC 1030 Introduction to Environmental Science 3 cr.
Prerequisites: Math 0060 or appropriate placement test scores. Recommended prerequisite: PSC 1311 or PSC 1341. Corequisite: BSC 1030L. The student is introduced to the process of maintaining patterns of interrelationships of plants and animals with their environments and biological communities, enabling students to make intelligent environmental decisions. The topics include energy, ecosystems, communities, and populations; soil; pollution; energy sources; climate change; and land use planning. 48 lecture hours.

Environmental Science
BSC 1030 Introduction to Environmental Science (Honor's Course) 3 cr.
Prerequisites: Acceptance into PHCC's Honor's Program or permission of instructor. This course may include substantial reading and writing components. Learning activities may include collaborative learning, field experiences, debates, projects, interviews, and research presentations. If used to meet the requirements of the AS degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honor's Program, a grade of "B" or higher must be earned. Credit cannot be earned for both BSC 1030 and BSC 1030H. 48 class hours.

BSC 1085 Human Anatomy and Physiology I 3 cr.
Prerequisites: REA 0002 and MAT 0024 (both completed with a grade of "C" or higher) or equivalent placement test scores. Corequisite: BSC 1085L. An introduction to the study of the human body, to include: biology and chemical foundations, cellular structure and function, tissues and the integumentary, skeletal, muscular, and nervous systems. 48 class hours.

BSC 1085L Human Anatomy and Physiology I Laboratory 1 cr.
Corequisite: BSC 1085. This course provides laboratory support for the concepts taught in BSC 1085. Laboratory fee required. 32 laboratory hours.

BSC 1086 Human Anatomy and Physiology II 3 cr.
Prerequisites: BSC 1085 and BSC 1085L (both completed with a grade of "C" or higher). Corequisite: BSC 1086. This course provides laboratory support for the concepts taught in BSC 1085. 48 class hours.

BSC 1086L Human Anatomy and Physiology II Laboratory 1 cr.
Prerequisites: BSC 1085 and BSC 1085L (both completed with a grade of "C" or higher). Corequisite: BSC 1086. This course provides laboratory support for the concepts taught in BSC 1086. 32 laboratory hours.

BSC 1092 Human Biology 3 cr.
Prerequisites: REA 0002 (completed with a grade of "C" or higher) or equivalent placement test scores. A non-laboratory course for students not planning to major in biology. Topics include the cellular and molecular foundations of life, metabolism, genetics, and body systems. 48 class hours.

MCB 2010 Microbiology 3 cr.
Prerequisites: BSC 1010 and BSC 1010L, or BSC 1085 and BSC 1085L (both completed with grades of "C" or higher). Corequisite: MCB 2010L. A survey of microbial forms with emphasis on bacteria, their morphology, physiology, genetic mechanisms, and their relationships to other organisms. Lab fee required. 48 lecture hours.

MCB 2010L Microbiology Laboratory 1 cr.
Prerequisites: BSC 1010 and BSC 1010L, or BSC 1085 and BSC 1085L. Corequisite: MCB 2010. A laboratory investigation into the biology of microbial organisms. Topics include microbial morphology, physiology and genetics. Lab fee required. 32 laboratory hours.

OCE 2001 Introduction to Oceanography 3 cr.
Prerequisites: REA 0002 (completed with a grade of "C" or higher) or equivalent placement test scores. Recommended prerequisites: PSC 1311 or PSC 1341. An introduction to the physical, chemical, and biological nature of the oceans. Topics include: the history and shape of the oceans; the physical and chemical properties of seawater, tides, and ocean currents; and the biology and ecology of marine life. Credit can be earned as a science elective only. 48 class hours.

Building Construction Technology

BCN 1220 Structures I 3 cr.
This course covers the principles and practices of residential building construction with emphasis on regional construction. 48 class hours.

BCN 2610 Construction Estimating 3 cr.
Prerequisites: BCN 1220. This course teaches the principles associated with construction projects in the construction industry, including labor, materials, and their relationship to final estimate. 48 class hours.

BCN 2721 Construction Planning 3 cr.
Prerequisites: BCN 1220, BCN 2610, and BCN 2765, or consent of instructor. This course provides an advanced course in construction planning. 48 class hours.

Business Administration and Management

This course provides an introduction to accounting concepts and principles followed by preparation of external reports. Emphasis will be placed on the principles and procedures of accounting, including asset valuation, income determination, liability measurement, and equity. 48 class hours.

ACG 2071 Principles of Managerial Accounting 3 cr.
Prerequisite: ACG 2001. This course provides an introduction to managerial accounting concepts and systems. Topics include planning and control, decentralized operations, analysis for decision-making, and financial analysis for management. 48 class hours.

BUL 2241 Business Law I 3 cr.
Business law considers the nature and source of laws, laws courts, and courtroom procedures. Legal principles regarding crime, torts, and contracts, and personal property and bailments and sales, along with relevant portions of the Uniform Commercial Code, are discussed. 48 class hours.

BUL 2242 Business Law II 3 cr.
Prerequisite: BUL 2241. Business law with emphasis on commercial paper, creditors' rights, and secured transactions, agency and employment, partnerships, corporations, and real property. 48 class hours.

ECO 2013 Principles of Economics I 3 cr.
An introductory course in macroeconomic principles and analysis. Areas covered include: basic concepts of society; consumption; production and business organization; national income accounting; national income theory; the twin problems of recession and inflation; money, credit, and the banking system; public finance; and the principles and problems of full employment without inflation. 48 class hours.

ECO 2023 Principles of Economics II 3 cr.
This course is a study of microeconomics that deals with markets and prices; supply and demand; competition, and market structures; distribution of income among factors of production; and economic growth and development, and other economic systems. 48 class hours.

GEB 1001 Introduction to Business 3 cr.
This course covers the functional areas of business. Emphasis is placed on perspectives of business, management, marketing, finance, and quantitative tools. 48 class hours.
GEB 2350 Business in an International Environment
This course explores the globalization of world business. Emphasis will be placed on gaining insight as to how business is conducted in different world markets and the form of competition as we progress to an international economy. Special care will be taken to give students the tools to analyze rapid change in the world business scene. The need to adapt to opportunities in business and to manage threats to plans and techniques will be covered. 48 class hours

MAN 1800 Small Business Management
3 cr.
A study of the principles of small business management. This course presents the principles and problems in planning, organizing, operating, and controlling a small business. The course includes procedures for tracking the financial progress of the business, budgeting, forecasting, profit analysis, recordkeeping, insurance management, cost control, and credit. Areas of marketing, research, promotion, and advertising are presented as vital foundations of business. 48 class hours

MNA 1300 Personnel Relationships in Business
3 cr.
This course provides a study of personnel relationships as individuals and as group members. It will include practical application of effective work relationship skills needed in business and industry, to include: group dynamics; motivation; interpersonal perception; oral and written communications; leadership; management; decision making; problem solving; and employability skills. Designed for students in business and technical fields. 48 class hours

MNA 1345 Principles of Supervision
3 cr.
This course is a study of the basic concepts and major functions of modern supervision. Students receive introductory instruction in concepts and practices that define supervision, the role of the supervisor within the organization, personnel management, and relationships with special groups of employees. 48 class hours

MNA 2941 Internship in Business
3 cr.
Prerequisite: 15 college-level credits at PHCC; and a minimum of 12 credits in college-level business courses with a 2.0 minimum GPA in all college-level business courses. This course provides a practical work-based experience that will provide students with an opportunity to enhance workplace skills through a supervised practical experience related to their career objective. An internship agreement will be developed which includes academic supervision and work assignments. A minimum of 96 worksite hours are required in this course. Regular meetings are held with the instructor/Workplace learning coordinator. Student performance in this course is graded as "Pass/Fail."

QMB 1001 Business Mathematics
3 cr.
This course develops computational skills necessary for successful business management. In addition to a review of basic functions, topics include payroll and taxes, inventory, depreciation, simple and compound interest, and statistics. Emphasis is on developing computational ability. 48 class hours

MKA 1302 Marketing Practicum I
3 cr.
Prerequisite: MAR 1011 or consent of instructor. Marketing theory is applied through the development of individual practicum plans, which involve on-the-job training and special job-related assignments, with local businesses. Employability skills, including writing a resume and letter of application, are taught. This course is designed for students pursuing the AS Degree in Marketing Management.

MKA 1312 Marketing Practicum II
3 cr.
Continuation of MAR 1302.

MKA 2041 Principles of Retailing
3 cr.
A study of the principles, procedures, and techniques of retailing, buying, pricing merchandise, and of determining consumer demand. Attention will be given to how and when to buy and to sources of supply. The organization and function of major divisions in retail establishments will be addressed. Field trips, where practical, will supplement regular class activities. 48 class hours

MKA 2511 Principles of Advertising
3 cr.
This course presents a study of advertising principles and practical application of advertising in the media. Areas covered include the history of advertising, designing and developing advertisements, media selection, sales promotional strategies, and social aspects. 48 class hours

Business – Office Systems Technology

OST 1100 College Keyboarding I
3 cr.
This course is designed for students with little or no keyboarding experience. This course will include the correct techniques and basic skills in keyboarding, mastery of the computer keyboard, operation and care of the equipment, and the preparation of business letters, reports, and tabulated problems. Lab fee required. 48 class hours

OST 1110 College Keyboarding II
3 cr.
Prerequisite: OST 1100 or consent of instructor. This course is a continuation of OST 1100. Students will use WordPerfect software for advanced practice in business document production and skills-building applications. Lab fee required. 48 class hours

OST 1271 Speedwriting
3 cr.
Prerequisite: OST 1100 or consent of instructor. This is a beginning course in the principles of Speedwriting shorthand, with dictation and transcription techniques. This course is designed for students who have had no previous shorthand or less than one year of high school shorthand. 48 class hours

OST 1711 Word Processing – WordPerfect
3 cr.
This course develops the skills necessary to use WordPerfect software. Students will create, edit, format, and print various business documents. Students are expected to achieve 85% accuracy in typing 80 words per minute. 48 class hours

OST 1722 Word Processing – Word for Windows
3 cr.
This course develops the skills necessary to use Word for Windows software. Students will create, edit, format, and print single- and multi-page documents. Simple, complex, and practical applications are included. Students are expected to achieve 85% accuracy in typing 80 words per minute. 48 class hours

OST 1743 Electronic Writing
1 cr.
This course develops the skills necessary to use the microcomputer keyboard and word processing software to facilitate the writing of term papers, essays, reports, etc. Students will learn the correct keyboarding techniques and the appropriate formatting of reports. Lab fee required. 16 class hours

OST 1811 Desktop Publishing
3 cr.
Prerequisite: OST 1110 or consent of instructor. This course introduces the students to the desktop publishing features of WordPerfect software. Emphasis in the course will be on publications that office support personnel would produce such as flyers, newsletters, bul-
Chemistry

CHM 1025 Introductory Chemistry 3 cr.
Prerequisites: REA 0002 and MAT 1033 (completed with a grade of "C" or higher) or appropriate placement test scores. Corequisite: CHM 1025L. An introduction to fundamental concepts in chemistry. Topics include measurement, matter, energy, atomic structure, nomenclature, chemical equations and calculations, periodicity, chemical bonding, gases, solutions, acid-base reactions, and an introduction to organic chemistry. Lab fee required. 48 lecture hours

CHM 1025L Introductory Chemistry Laboratory 1 cr.
Prerequisite: MAT 1033 (completed with a grade of "C" or higher) or appropriate score on the math placement test. Corequisite: CHM 1025. A laboratory investigation into fundamental concepts of chemistry. Topics include measurement, matter and energy, atomic structure, nomenclature, chemical reactions, periodicity, chemical bonding, gases, solutions, acid-base reactions and an introduction to organic chemistry. Lab fee required. 32 laboratory hours

CHM 2045 General Chemistry and Qualitative Analysis I 3 cr.
Prerequisite: CHM 1025 and CHM 1025L or one year of high school chemistry; MAT 1033 (completed with a grade of "C" or higher) or appropriate placement test score. Corequisite: CHM 2045L. An introduction to fundamental concepts in chemistry. Topics include measurement, nomenclature, atomic theory, chemical equations and calculations, periodicity, gases, thermochemistry and chemical bonding. 48 lecture hours

CHM 2045L General Chemistry and Qualitative Analysis I Laboratory 1 cr.
Prerequisite: CHM 1025 or one year of high school chemistry, MAT 1033 (completed with a grade of "C" or higher) or appropriate score on the math placement test. Corequisite: CHM 2045. A laboratory investigation into concepts, periodicity, thermochemistry, chemical bonding and gases. Lab fee required. 32 laboratory hours

CHM 2046 General Chemistry and Qualitative Analysis II 3 cr.
Prerequisite: CHM 2045 and CHM 2045L (both completed with a grade of "C" or higher). Corequisite: CHM 2046L. This course continues with fundamental concepts of chemistry begun in CHM 2045. Topics include states of matter, solutions, redox reactions, kinetics, chemical equilibrium, acid-base concepts, solubility, thermodynamics, and selected topics in organic chemistry. Lab fee required. 48 lecture hours

CHM 2046L General Chemistry and Qualitative Analysis II Laboratory 1 cr.
Prerequisite: CHM 2045 and CHM 2045L (both completed with a grade of "C" or higher). Corequisite: CHM 2046. A continuation of concepts in the general chemistry laboratory. Topics include states of matter, solutions, redox reactions, kinetics, chemical equilibrium, acid-base concepts, solubility, thermodynamics, and selected topics in organic chemistry. Lab fee required. 32 laboratory hours

CHM 2210C Organic Chemistry I 5 cr.
Prerequisite: CHM 2046 and CHM 2046L (both completed with a grade of "C" or higher). A study of carbon compounds with emphasis on alkenes, cycloalkanes, and their reaction mechanisms, nucleophile substitution, and elimination reactions of alcohols, aldehydes, and ketones. Their adduct reactions, stereoschemistry, and conjugated unsaturated systems. Lab fee required. 48 lecture hours and 64 laboratory hours

CHM 2211C Organic Chemistry II 5 cr.
Prerequisite: CHM 2210C. A continuation of CHM 2210C, giving consideration to aromatic compounds and their reactivity with electrophiles, structure determinations through spectroscopy, organic halides, organometallic compounds, nomenclature and reaction mechanisms of hydrocarbon derivatives, amines, carbohydrates, lipids, and amino acids. Lab fee required. 48 lecture hours and 64 laboratory hours

College Preparatory

ENC 0010 Fundamentals of Writing 4 cr.
Prerequisite: Appropriate placement test score. This college preparatory course is designed to improve the student's ability to write sentences and paragraphs. Grammar skills will be reviewed briefly, but emphasis is placed on writing exercises. A student entering this class is expected to have a knowledge of sentence structure, grammar, and punctuation. This course and the exit test must be completed with a grade of "C" (70%) or higher. This credit does not apply toward a degree. Testing fee: 64 class hours

ENC 0080 Basic Grammar 4 cr.
Prerequisite: Appropriate placement test score. This college preparatory course provides a review of grammar skills. Emphasis is placed on sentence structure, word usage and form, capitalization and punctuation. Laboratory work and spelling practice will be prescribed by the instructor. Upon successful completion of this course, the grade of "C" (70%) or higher, four (4) compensatory credits will be earned. This credit does not apply toward a degree. 64 class hours

MAT 0012 Prealgebra 4 cr.
This college preparatory course is designed to build basic skills in mathematics to prepare students for elementary algebra. Topics include basic operations, fractions, decimals, ratios/proportions, percent usage, integers, rational numbers and an introduction to variable
expressions and equations. Laboratory work will be prescribed by the instructor. This course must be completed with a grade of "C" or higher. This course does not apply toward a degree. 64 class hours

MAT 0024 Elementary Algebra 4 cr.
Prerequisite: Appropriate placement test score. This college preparatory course provides an introduction to algebraic expressions, first degree equations and inequalities, rational expressions, exponents, polynomials, factoring and radical expressions. This course must be completed with a grade of "C" or higher. This credit does not apply toward a degree. Testing fee. 64 class hours

REA 0001 Basic Reading 4 cr.
Prerequisite: Appropriate placement test score. This college preparatory course is designed to improve a student's reading skills in the four areas of vocabulary, flexibility, comprehension, and study skills. This course must be completed with a grade of "C" or higher and a reading grade level of 10.0. This credit does not apply toward a degree. 64 class hours

REA 0002 Fundamentals of Reading 4 cr.
Prerequisite: Appropriate placement test score. This college preparatory course is designed to improve the student's critical reading skills. The course will help refine the student's literal comprehension skills and, in addition, develop critical reading skills that are needed in college course work. This course must be completed with a 10.5 grade level on a final reading test and with a grade of "C" or higher. This credit does not apply toward a degree. 64 class hours

Computer Programming and Applications

CGS 1000 Computer Concepts 3 cr.
This course will provide the student with an overview of the field of data processing. Upon satisfactory completion of the course, the student will have a basic understanding of systems and their applications. Lab fee required. 48 class hours

CGS 1100 Microcomputer Applications 3 cr.
This is an introductory personal computer application course. No previous experience with a computer is assumed. This course will cover all essential aspects of the Windows environment, word processing, electronic spreadsheets, database activities, presentation graphics, and the Internet. Lab fee required. 48 class hours

CGS 2108 Advanced Microcomputer Applications 3 cr.
Prerequisite: CGS 1100. An advanced personal computer applications course. This course will cover more complex aspects of the Windows environment, word processing, electronic spreadsheets, database activities, presentation graphics, and contemporary issues. Lab fee required. 48 class hours

CGS 2263 Introduction to Networking 3 cr.
Prerequisite: CGS 1000 or consent of instructor. This is an introductory networking course. This course will cover the basic concepts and techniques of developing a microcomputer network system. Hands-on experiences will be designed to real-world situations. Lab fee required. 48 class hours

COP 1000 Introduction to Computer Programming 3 cr.
The purpose of this course is to provide the student with an opportunity to solve problems with the help of a computer. This course is an introduction to software design using structured programming concepts. Emphasis will be placed on the construction of language-free algorithms as a logic foundation for future study of programming languages. 48 class hours

COP 1332 Visual Basic Programming 3 cr.
Prerequisite: CGS 1000 and COP 1000 or consent of instructor. The student will learn to plan and create interactive applications using Visual Basic, the object-oriented/event-driven language for the Windows environment. Topics will include structure, file and array handling, creating executable files, and the use of multiple forms. Lab fee required. 48 class hours

COP 1800 Java Programming 3 cr.
Prerequisite: CGS 1100. This course introduces the fundamentals of good object-oriented programming and design using Java. Students will learn the basic concepts of graphical user interface programming, event handling, threads, debugging, networking, and security capabilities, and the core Java classes. Lab fee required. 48 class hours

COP 2120 COBOL Programming 3 cr.
Prerequisites: CGS 1000 and COP 1000, or consent of instructor. A study of the organization and concepts of the COBOL programming language, structured and application techniques, and its application as a programming tool in business and industry. Using microcomputers, students will compare, debug, and test programs they have written. Lab fee required. 48 class hours

COP 2220 "C" Language Programming 3 cr.
Prerequisites: COP 1532 or COP 1120. The student will learn to design, document, and implement "C" programs of moderate sophistication. Major topics include: program development, structured programming; data types, data structures; and input/output. Lab fee required. 48 class hours

COP 2333 Advanced Database Programming 3 cr.
Prerequisite: COP 1332. This course will cover the more advanced aspects of creating interactive applications using Visual Basic. The focus will be on accessing different database formats using the open database connectivity (ODBC) standard, and an SQL. Lab fee required. 48 class hours

Criminal Justice

CJ 1000 Crime and Delinquency 3 cr.
This course presents a general review of the juvenile delinquency problem, to include current theories of crime and delinquency, causal factors, and treatment. 48 class hours

CJ 1100 Introduction to Law Enforcement 3 cr.
Introduction to the philosophical and historical backgrounds of law enforcement. This course covers the organization, purpose, and functions of law enforcement and other agencies involved in the administration of criminal justice in the United States. It includes career orientation. 48 class hours

CJ 1300 Introduction to Corrections 3 cr.
This course will focus on the theory and practice of correctional institutions and their functions, the prison as a total institution, characteristics of various types of corrections methods, analysis of the prison community, adjustment to prison life, impact of institutionalization, corrections in the community, and historical development. In addition, several role-play exercises are planned to correctional institutions. 48 class hours

CJ 1400 Police Organization and Administration 3 cr.
This course covers the principles of organization and administration in law enforcement, to include functions and activities, planning and research, public relations, personnel, and training, inspection and control, and police formulation. 48 class hours

CJ 1401 Police Operations 3 cr.
Principles of organization and administration as applied to operational services. It covers patrol, criminal investigation, intelligence and vice units, juvenile units, and traffic administration. 48 class hours

CJ 2012 Police Role in Crime 3 cr.
A general orientation into the primary theories and types of crime in American society. The focus is on crimes against the person and con-
ventional property crimes. Other topics include organized crime, white-collar crime, and antisocial (psychopathic) offenders. The role of the police officer is emphasized in all aspects of the legal system. 48 class hours

CCJ 2122 Police Community Relations  
3 cr.
The course provides an understanding of the complex factors involved in human relations between the community and law enforcement officers. The police role and the nature, meaning, and implications of professionalism in policing are explored in order to provide a better understanding of the necessity for a successful police-citizen partnership. 48 class hours

CCJ 2220 Criminal Law  
3 cr.
This course covers the nature, sources, and types of criminal law. It examines the classification and analysis of crimes and criminal acts in general and examines selected criminal offenses. 48 class hours

CCJ 2250 Rules of Evidence for Police  
3 cr.
An overview of rules of evidence and their application to the criminal justice system. Traditional rules of evidence are studied and the degree of proof and admissibility are stressed. The history, development, relevancy, competency, and materiality of real, direct, and circumstantial evidence are discussed. Opinion testimony and hearsay rules are covered. 48 class hours

CCJ 2940 Field Studies  
3 cr.
This course will provide an opportunity for the student to observe the criminal justice system in operation. Student placements are within agencies whose activities comprise the professional construction of criminal justice. Assignments and number of hours in each agency will be agreed upon by the student, the agency, and the instructor/coordinator. Students will be expected to keep a daily log of activities. 48 class hours

CJD 2009 Criminal Justice Career  
1 cr.
This course will address basic human relations as applied to the job search process and to successful and professional job performance in the law enforcement field. Topics will include preparing and updating a resume, responding to oral board interviews, setting career goals, stress management, and government practices and hiring procedures. 16 class hours

CJT 1100 Criminal Investigation  
3 cr.
This course provides an introduction to criminal investigation procedures. It includes the topics of theory of an investigation, case preparation, specific techniques for selecting offenses, questioning witnesses and suspects, and problems in criminal investigation. 48 class hours

CJT 1110 Introduction to Criminalistics  
3 cr.
This is a general course in the scientific aspects of criminal investigation with the emphasis upon recording at the crime scene, collection and preservation of evidence, and the examination of evidence employing techniques available to the criminal investigator or crime technician. Advanced criminalistics are discussed to the extent necessary to familiarize the student with the capabilities and limitations of advanced police science laboratory. 48 class hours

CJT 1800 Introduction to the Principles of Security  
3 cr.
This course will focus on the history and philosophy of the security industry and on a discussion of current issues with relationship to legal aspects and management. The student's attention and research will be directed toward the professional ethics of security along with the managerial aspects and technological advancements of the industry. 48 class hours

CJT 2814 Security of Cultural Institutions  
3 cr.
This course will focus on and provide an overview of the security phenomenon as it applies to management of security in special institutions, such as theme parks, museums and performing art centers. Security awareness and the daily function of management and their role in security has become a necessity in every industry. The student's attention and research will be directed toward managerial policy of security in the cultural setting. When possible, students will tour certain cultural facilities. 48 class hours

Dental Hygiene

DEH 1001 Dental Hygiene I  
4 cr.
Prerequisite: Admission to the Dental Hygiene Program. Corequisites: DEH 1001L, DES 1020, DES 1020L, and DES 1200C. This is a preclinical course designed to provide the foundation for the clinical practice of dental hygiene. The role of the dental hygienist, professional relationships, and communication skills are emphasized. The student is provided with the concept of principles of asepsis, sterilization techniques, obtaining medical/dental histories, and pathology of plaque and stains. 64 lecture hours

DEH 1001L Dental Hygiene I Clinical  
2.5 cr.
Prerequisite: Admission to the Dental Hygiene Program. Corequisite: DEH 1001. Instruction and supervised practice of instrumentation skills, oral examination, and other clinical procedures performed on student partners and manikins will be emphasized. Student achievement in this course is graded as “Pass/Fail.” Laboratory fee and professional liability insurance fee are required. Purchase of a clinic instrument kit is required. 120 campus laboratory hours. Additional laboratory hours may be required.

DEH 1800 Dental Hygiene II  
2 cr.
Prerequisites: DEH 1001 and DEH 1001L. Corequisites: DEH 1800L, DES 1100C, and DES 1200C. This course is a continuation of DEH 1001. Topics include dental office emergencies, plaque control, polishing techniques, treatment planning, recall, and desensitization of root surfaces. 32 lecture hours

DEH 1800L Dental Hygiene II Clinical  
2.5 cr.
Prerequisites: DEH 1001 and DEH 1001L. Corequisite: DEH 1800. In this second clinical course, students begin patient care in the dental clinic. Emphasis is placed on patient assessment, instrumentation, radiography, polishing clinical crowns, fluoride application, and root desensitization. Student achievement in this course is graded as “Pass/Fail.” Laboratory fee is required. 120 clinical hours. Additional campus/laboratory hours may be required.

DEH 2005 Dental Hygiene III  
1 cr.
Prerequisites: DEH 1800 and DEH 1800L. Corequisites: DEH 2602, DEH 2802L, and DES 2044. This course introduces the use of topical anesthetics, pit and fissure sealants, and rubber dam placement. Nutritional needs in surgical and non-surgical conditions and patient counseling techniques are included. The effects of smoking and eating disorders on oral health are also included. 16 lecture hours

DEH 2602 Periodontics  
2 cr.
Prerequisites: DEH 1800, DEH 1800L, and DES 2044. Corequisites: DEH 2005 and DEH 2802L. This course presents the principles of general pathiology in relationship to the diseases of the teeth, soft tissues, and supporting structures of the oral cavity. Particular emphasis is given to the pathologic conditions of the mouth, teeth, and their supporting structures, and the relationship to systemic disturbances. Content related to implantology is included. 32 lecture hours

DEH 2702 Community Dental Health  
3 cr.
Prerequisites: DEH 2005 and DEH 2802L. Corequisites: DEH 2810 and DEH 2804L. This course is designed to provide knowledge of attitudes, skills, and behaviors necessary to promote dental health and prevent dental disease through organized community-based programs. Students will be responsible for assessing, planning, implementing, and evaluating procedures in a community oral health program. 48 lecture hours

DEH 2702L Community Dental Health Clinical  
1.5 cr.
Prerequisite: DEH 2702. Corequisites: DEH 2830 and DEH 2806L. This clinical provides the student with the opportunity to apply the
principles of public and community dental health. Program implementation and evaluation will be included. Lab fee required. 72 clinical hours.

DEH 2802L Dental Hygiene III Clinical 3.5 cr.
Prerequisites: DEH 1800 and DEH 1800L. Co-requisite: DEH 2605. This course will provide ongoing clinical experience in total patient care. In addition to those in previous clinical courses, the following techniques will be introduced and incorporated into clinical practice: local anesthetics, pit and fissure sealants, periodontal dressings, recognition and treatment of acute gingival conditions, and techniques in dietary counseling for the prevention of oral diseases. Proficiency in skills already acquired will be emphasized. Student achievement in this course is graded as “Pass/Fail.” Lab fee required. 168 clinical hours.

DEH 2804L Dental Hygiene IV Clinical 4.5 cr.
Prerequisites: DEH 2005, DEH 2802L, and DEH 2805. Corequisites: DEH 2702 and DEH 2810. This course provides an ongoing and expanded clinical experience including proficiency in oral prophylaxis, radiographic techniques, expanded functions, root planing, dietary analysis, and pharmacologic agents. The care of patients with special dental needs is addressed. Students participate in patient care at off-campus clinical sites. Lab fee and professional liability insurance fee required. 261 clinical and laboratory hours.

DEH 2806L Dental Hygiene V Clinical 5.5 cr.
Prerequisites: DEH 2810 and DEH 2804L. Corequisite: DEH 2830. This course will enable the student to incorporate all the techniques and treatment modalities previously learned. Emphasis will be placed on quality improvement, speed, and professional decision-making in rendering dental hygiene services. Lab fee required. 264 clinical and laboratory hours.

DEH 2810 Dental Hygiene IV 2 cr.
Prerequisites: DEH 2005 and DEH 2802L. Corequisites: DEH 2702 and DEH 2804L. This course expands concepts from previous dental hygiene courses in the development, assessment, and evaluation of patient care. In addition, emphasis will be placed on the identification, care, and management of patients with special needs; concepts of pain and pain control; administration techniques and precautions in the use of local anesthesia; and ultrasonic instrumentation. Continuation of medical emergency management and procedures is also incorporated in discussions. 32 lecture hours.

DEH 2830 Dental Hygiene V 2 cr.
Prerequisites: DEH 2810 and DEH 2804L. Corequisites: DEH 2806L and DEH 2702L. This course is designed to provide knowledge of professional ethics and legal responsibilities, professional organizations, state and dental practice acts, and continuing education regulations and requirements. Dental office management will be introduced to provide dental hygiene students with the business and professional skills necessary to practice in an office and/or alternate practice setting. Emphasis will be placed on the student’s ethical and legal roles as a dental hygienist and on the business aspects of the profession. In addition, preparation for the National Dental Hygiene Board Examination and test-taking skills will be covered. 32 lecture hours.

DES 1020 Oral, Head, and Neck Anatomy 4 cr.
Prerequisite: Admission to the Dental Hygiene Program. Corequisites: DES 1020L, DES 1100C, DEH 1800, and DEH 1800L. This course is the study of gross anatomy, structure, and morphology of the hard and soft tissues of the oral cavity and includes the study of the skeletal, muscular, circulatory, nervous, and glandular systems of the head and neck. Special emphasis is placed on the hard and soft structures associated with the oral cavity. Tooth morphology is included. 64 lecture hours.

DES 1020L Oral, Head, and Neck Anatomy Laboratory 0.5 cr.
Prerequisite: Admission to the Dental Hygiene Program. Corequisite: DES 1020. This course provides an opportunity to use anatomical models and teeth to apply didactic information in a laboratory setting and begin to apply knowledge of anatomy to clinical dental hygiene. Lab fee required. 24 laboratory hours.

DES 1030 Oral Histology and Embryology 2 cr.
Prerequisites: DES 1020, DES 1020L, DEH 1001, and DEH 1001L. Corequisites: DEH 1800 and DEH 1800L. This course provides a study of the embryonic development of the face and oral cavity and the process of tooth development. Included is a study of the microscopic anatomy of the teeth and supporting structures. 32 lecture hours.

DES 1100C Dental Materials 1.5 cr.
Prerequisites: DEH 1001, DEH 1001L, DEH 1020, DES 1020L, and DES 1200C. Corequisites: DEH 1800, DEH 1800L, and DES 1030. This course provides theoretical knowledge of the composition, presentation, and application of materials commonly used in dentistry. Hands-on experience with equipment and materials is provided in the campus laboratory. Lab fee required. 16 lecture hours and 24 laboratory hours.

DES 1200C Dental Radiography 3 cr.
Prerequisite: Admission to the Dental Hygiene Program. Corequisites: DEH 1001 and DEH 1001L. This course provides the fundamental knowledge of the nature, physical behavior, biological effects, methods of control, safety precautions, and the techniques for exposing, processing, and mounting radiographs. Laboratory experience in exposing, processing, and interpreting radiographs is provided. Lab fee required. 32 lecture hours and 48 laboratory hours.

DES 2044 General and Oral Pathology 2 cr.
Prerequisites: DEH 1800, DEH 1800L, and DES 1030. Corequisite: DEH 2002, DEH 2005, and DES 2802L. This course provides the principles of general pathology in relationship to the diseases of the teeth, soft tissue and supporting structures of the oral cavity. Particular emphasis is given to the pathological conditions of the mouth, teeth, and their supporting structures, and the relationship to systemic disturbances. Content specific to implantology is included. 32 lecture hours.

DES 2050 Pharmacology 2 cr.
Prerequisites: DEH 2005 and DEH 2802L. Corequisites: DEH 2810 and DEH 2804L. This course introduces the use of drugs and anesthesia in dentistry. Drug classes, actions, interactions, side effects, and contraindications are discussed. The use of topical and local anesthesia is addressed. A unit in medical mathematics is also included. Age-specific pharmacologic needs are discussed. Legal aspects are addressed also. 32 lecture hours.

Drama and Theatre

Students are advised that course selections in the area of performing arts are not automatically transferable; they will, therefore, need to consult the receiving institution to determine the transferability of performing arts credits.

ORI 1000 Performance of Literature 3 cr.
This course focuses on developing a better understanding of literature through performance. Performance allows students to engage actively with a variety of literary forms. This course will combine lecture, discussion, and performance exercises in addition to individual and group performance. 48 class hours.

TRE 2010 Survey of Drama I 3 cr.
Prerequisite: ENC 1101. This course is an historical survey of Western Drama from the Golden Age of Greece to the High Renaissance in England. Students read well-known plays of each period. Through group readings and discussions of the plays, oral interpretation, and writing, students explore theme, plot, character, and other dramatic elements. Field trips to area theaters may be scheduled. 48 class hours.
THE 2011 Survey of Drama II 3 cr.
Prerequisite: ENC 1101. This course is an historical survey of Western Drama from the High Renaissance in England to the Modern Period in America. Students read well-known plays of each period, including popular contemporary pieces. Through group readings and discussions of the plays, oral interpretation, and writing, students explore theme, plot, character, and other dramatic entities. Field trips to area theaters may be scheduled. 48 class hours

THE 2020 Fundamentals of Theatre 3 cr.
This course is an introductory theatre course that encompasses theatre history, theatre as a form of art, and script analysis. It also deals with the various and separate aspects that come together to form a theatrical production. The student may be required to attend theatrical productions. 48 class hours

THE 2925A Play Production I 3 cr.
Corequisite: TPP 1111. This course is designed to give the students the experience of working on a production from the pre-production planning stage through to the final performance and strike (the dismantling of sets and clean-up after the production). Students will be involved in all aspects of production in both the performance and technical areas as well as in the areas of box office and house management. In addition to working on an actual production, students will be required to attend class lectures and turn in written assignments. Students may also be asked to attend productions of plays off campus. Lab fee required. 32 lecture hours and 32 laboratory hours

THE 2925B Play Production II 3 cr.
Prerequisite: THE 2925A. This course is a continuation of THE 2925A Play Production I. Lab fee required. 32 lecture hours and 32 laboratory hours

TPP 1110 Beginning Acting 3 cr.
This course focuses primarily on developing the individual's awareness of the body and voice as tools with which the actor conveys feelings, attitudes, thoughts, and ideas. This will be accomplished by means of physical and vocal exercises, drills, games, and improvisations. Students may be required to attend several performances off campus. 32 lecture hours and 32 laboratory hours

TPP 1111 Intermediate Acting 3 cr.
Prerequisite: TPP 1110 or consent of instructor. This course is a continuation of TPP 1110 Beginning Acting with special emphasis on the various processes of developing characterization. The course will stress techniques of textual and script analysis as it is related to characterization and performance. Students will be required to read plays as well as work on monologues and scene study. Students may be required to attend several performances off campus. 32 lecture hours and 32 laboratory hours

TPP 2700 Voice Preparation for the Actor 3 cr.
Prerequisite: TPP 1110 or consent of the instructor. This course is designed to liberate the natural voice rather than to develop a vocal technique. A clear view of the voice in the general context of human communication will be presented and the students will perform a series of exercises to free, develop, and strengthen the voice, first as a human instrument and then as the human actor's instrument. An emphasis is placed on the removal of the physical as well as the emotional blocks that inhibit the human instrument. 32 lecture hours and 32 laboratory hours

Drafting & Design Technology

BCN 1001 Building Construction 3 cr.
This course is planned to acquaint the student with the terminology, methods, procedures, materials, sequences, operations, and types of construction. The course is intended as an introductory course for Drafting and Design Technology majors. 48 class hours

ETD 1100C Technical Drawing I 4 cr.
This is designed as an introductory course to manual drafting. The student uses drawing instruments, orthographic and pictorial drawings, sketching, sections, dimensioning, and auxiliary views as applied to manufacturing, building construction, civil engineering, and electronics. Lab fee required. 32 lecture hours and 64 lab hours

BCN 2708 Construction Documents 3 cr.
This course is a study of the documents used in the construction industry. These documents involve the study, use, and legal aspects of advertisement for bids, contracts, change orders, extra specifications, insurance, and bid bonds. 48 class hours

ETC 1250 Properties of Materials 3 cr.
This is an introductory course involving classification, physical properties, application, and use of materials used in the construction industry. The materials covered include stone, brick, concrete, wood, and other general building products. 48 class hours

ETD 1200C Architectural Drafting 4 cr.
Prerequisite: ETD 2350C or consent of instructor. This course prepares the student to both read and prepare construction drawings using computer-aided drafting software. The student works with plans, elevations, sections, and details as applied to wood, masonry, and concrete structures in accordance with building codes. Lab fee required. 32 lecture hours and 64 lab hours

ETD 2200C Technical Drawing II 4 cr.
Prerequisite: ETD 1100C. This course provides continued study and practice in the understanding and application of engineering graphics using AutoCAD software. Lab fee required. 32 lecture hours and 64 lab hours

ETD 2300C Computer Aided Drafting I 4 cr.
Prerequisite: ETD 1100C. This course is intended as an introductory course using AutoCAD software. Students should come to this course with a good understanding of drafting principles and practices. Lab fee required. 32 lecture hours and 64 lab hours

ETD 2350C Computer Aided Drafting II 4 cr.
Prerequisite: ETD 2350C. This course provides a study of the use of blocks, attributes, customizing of AutoCAD, the generation of 3-D drawings and models, as well as other selected advanced techniques. Lab fee required. 32 lecture hours and 64 lab hours

ETD 2351C Advanced Computer Aided Drafting 3 cr.
Prerequisite: ETD 2350C. This is a computer drafting course dealing with advanced topics. The major concentration of the course is in 3-D and technical illustrations. Topics include minor customization, surface and soil modeling, and rendering. A primary purpose of this course is to present three-dimensional designs that are understandable to lay people. Lab fee required. 32 lecture hours and 64 lab hours

ETD 2540C Civil Engineering Drafting 4 cr.
Prerequisite: ETD 2350C and BCN 1001. This course covers fundamentals of civil engineering computer drafting, including measuring errors, error of closure, coordinate conversion, curve data, contour lines, cut and fill, and profile work. Because computer drafting solutions are so accurate that they can be measured, material will be dealt with both mathematically and graphically. Lab fee required. 32 lecture hours and 64 lab hours

ETD 2941 Internship in Drafting and Design 3 cr.
Prerequisite: ETD 2351C. The purpose of this course is to provide the student with 96 hours of an internship experience that will enhance and reinforce the classroom and lab training received. Students may be placed in an architectural or manufacturing setting. 48 class hours
PMT 2551 Manufacturing Processes and Materials  3 cr.
This course provides a comprehensive survey of manufacturing materials and processes used worldwide. Manufacturing processes are studied from the perspective of working and shaping metallic, woods, plastics, ceramics, and composites. Emphasis is also placed on design for manufacturing, productivity, computer-integrated manufacturing, and competing in a global marketplace. 48 class hours

Education

EDF 1005 Introduction to Education with Field Experience  3 cr.
Prerequisite: REA 0002 or appropriate placement score. This course is a survey of the historical, sociological, and philosophical foundations of education and an orientation to professional education which includes the Code of Ethics of the teaching profession. Field experience: 15 hours of observations are required in a classroom setting, 48 class hours

EDG 1310 Classroom Management  3 cr.
The study of classroom management principles and applications, including individual behavior management and group dynamics techniques. 48 class hours

EDG 2701 Teaching Diverse Populations with Field Experience  3 cr.
Prerequisite: REA 0002 or appropriate placement test score. An introduction to the value of diversity in American society and the manifestations of diversity in the educational system. The course focuses on providing prospective teachers with knowledge about students in American schools who are from different ethnic, racial, cultural, and/or linguistic backgrounds or who represent other categories of diversity and the elimination of barriers to cultural understanding. Field experience: 15 hours of observation required in appropriately diverse settings, 48 class hours

EME 2040 Introduction to Educational Technology  3 cr.
Prerequisites: REA 0002 (completed with a grade of "C" or higher) or appropriate placement test score and ENC 1101 (completed with a grade of "C" or higher). The purpose of this course is to introduce the student to appropriate applications of technology to the educational setting. Topics include hardware, productivity tools, graphics applications, presentation, and multimedia software and electronic communication. 48 class hours

Emergency Medical Services

EMS 119C Emergency Medical Technology  6.5 cr.
Corequisite: EMS 1431. This course offers an introduction to the knowledge, skills, and attitudes required in emergency medical care situations. Theory and skills are taught in conjunction with the Department of Transportation/Emergency Medical Technician course guidelines. Emergency procedures for life-threatening problems are taught, practiced, and supervised in the simulated clinical laboratory setting. Comprehensive written and skills examinations must be successfully completed at the end of the course. Lab fee required. 72 lecture hours and 96 laboratory hours

EMS 1431 Emergency Medical Technology Clinical  1.5 cr.
Prerequisite: CPR certification. Corequisite: EMS 119C. This course provides clinical experiences in hospital emergency rooms and on Emergency Medical Services Rescue Units. Prior to participating in the clinical experiences, students must be Basic Life Support Certified, must meet the age requirements of local EMS agencies, and must submit the health record as required by the program. Student performance in this course is graded as "Pass/Fail." Professional liability insurance fee required. 72 clinical hours to include a minimum of 24 hours of experiences in the hospital emergency room and 5 emergency vehicle responses resulting in emergency transport.

EMS 2274C Paramedics I  10 cr.
Prerequisite: Admission to the Paramedics Certificate Program and HSC 2531. Corequisites: EMS 2444. This course presents advanced theory and simulated clinical laboratory experience in conjunction with the Department of Transportation Advanced Training Course/Paramedic Curriculum. This course includes computer competencies. The American Heart Association Advanced Cardiac Life Support training component is presented. Successful completion of the training activity is required. Lab fee and professional liability insurance fee required. 128 lecture hours and 96 simulated clinical laboratory hours. Additional laboratory hours may be required

EMS 2275C Paramedics II  7 cr.
Prerequisites: EMS 2274C and EMS 2444. Corequisite: EMS 2465. This course continues advanced theory and simulated clinical laboratory experiences in conjunction with the Department of Transportation Advanced Training Course/Paramedic Curriculum. This course includes computer competencies. The National Association of EMT Pre-hospital Trauma Life Support (EPTLTS) Certification Course is presented. Lab fee required. 88 lecture hours and 72 simulated clinical laboratory hours. Additional laboratory hours may be required

EMS 2444 Paramedics Clinical I  1.5 cr.
Corequisite: EMS 2274C. Supervised clinical experiences are provided in a variety of settings, including prehospital, emergency medical services, critical care, and trauma environments. Clinicals are supervised by an emergency medical services clinical instructor and the medical director. Student performance in this course is graded as "Pass/Fail." This course includes computer competencies and must be taken concurrently with EMS 2274C. 72 clinical hours

EMS 2458 Paramedics Internship  8 cr.
Prerequisites: EMS 2275C, EMS 2465, and American Heart Association Advanced Cardiac Life Support Certification. The internship provides supervised practice on intensive care rescue vehicles, during which a minimum of 20 ALS contacts and specific skills must be satisfied. Paramedic preceptors, faculty, and the Medical Director participate in the supervision of the student. This course includes computer competencies. A final comprehensive written and skills examination must be successfully completed at the end of the course. Additional internship hours may be required to satisfy minimum ALS contacts and skills requirements. Student performance in this course is graded as "Pass/Fail." Laboratory fee required. 40 lecture hours, 216 clinical internship hours, and 48 laboratory hours

EMS 2465 Paramedics Clinical II  3.5 cr.
Prerequisites: EMS 2444 and HSC 2531. Corequisite: EMS 2275C. Supervised clinical experiences are broadened and extended to include Advanced Life Support Rescue Units. Hospital experiences are extended to include the operating room and labor and delivery rooms, and the trauma unit. Pediatric experiences are provided. Supervised experiences are provided with the medical director in the emergency room. Student achievement in this course is graded as "Pass/Fail." This course includes computer competencies and must be taken concurrently with EMS 2275C. 168 clinical hours

ESC 2531 Medical Terminology  3 cr.
This course is directed toward the learning of medical language including word structures, prefixes, and suffixes. The learning of the medical language is organized according to body systems, providing an overview of the anatomy, physiology, and disease processes of those systems to facilitate student understanding of specific terminology. Body systems addressed are the urinary, nervous, digestive, cardiovascular, respiratory, musculoskeletal, and reproductive. 48 class hours

English

AML 2010 American Literature I  3 cr.
Prerequisite: ENC 1101 completed with a grade of "C" or higher or consent of instructor. American Literature I provides a survey of culturally significant literary texts from the colonial period to the late 19th century. By reading selections from an updated and expanded
canon, including works by women and minorities, students gain awareness of the multicultural origins and development of American literature. 48 class hours

AML 2020 American Literature II 3 cr.
Prerequisite: ENC 1101 (completed with a grade of “C” or higher). A survey of the major movements and representative authors in American literature: 1865 through the Twentieth Century, including the study of such authors as Dickinson, Mark Twain, Crane, Frost, Fitzgerald, Hemingway, and Faulkner. 48 class hours

CRW 2000 Creative Writing I 3 cr.
Students have the opportunity to experiment with various forms of writing, such as the short story, poetry, essays, and magazine articles. Discussion of the student’s work and analysis of contemporary fiction are included. 48 class hours

CRW 2002 Creative Writing II 3 cr.
Prerequisite: CRW 2000. Students will focus on the genre(s) of their choice, which may be specified by the instructor and by fellow students. Marketing techniques will be emphasized. 48 class hours

*ENC 0010 Fundamentals of Writing
See College Preparatory Courses.

*ENC 0080 Basic Grammar
See College Preparatory Courses.

ENC 1101 English Composition I 3 cr.
Prerequisite: Appropriate placement test score or ENC 0010 (completed with a grade of “C” or higher). This course is designed to develop effective writing communication skills for academic and professional use. It includes practice in the selection, restriction, organization, and development of topics and reinforces the student’s facility with sentence structure, diction, and mechanics. Selected writing samples are examined as models of form and as sources of ideas for the student’s own writing. Conferences provide individual instruction. Students will be required to use a computer to compose essays in this class. This course requires written compositions totaling at least 6,000 words. If used to meet the requirements of the AA Degree or an AS Degree, a grade of “C” or higher must be attained. 48 class hours

ENC 1121H English Composition I (Honors Course) 3 cr.
Prerequisite: Acceptance into PCC’s Honors Program or permission of instructor. This course, designed for the academically gifted student, provides intensive study in the critical analysis of texts and the development of written arguments. It emphasizes the application of higher order thinking skills such as analysis, synthesis, and evaluation to examining texts on debatable issues of current and enduring interest. Students learn strategies for evaluating the validity of arguments, supporting claims with evidence and logical reasoning, documenting sources, and writing clear, graceful, cogent, persuasive essays. Students will be required to read supplementary materials, participate in relevant out-of-class learning experiences, and use a computer to compose essays. This course requires written compositions totaling at least 6,000 words. If used to meet the requirements of the AA Degree or an AS Degree, a grade of “C” or higher must be attained. 48 class hours

ENC 1102 English Composition II 3 cr.
Prerequisite: ENC 1101 (completed with a grade of “C” or higher). Students will become familiar with the principles and practices of research and will demonstrate proficiency in following prescribed methods of library research and MLA documentation in the research paper. The student will also gain through literature an appreciation of the interrelatedness of culture and art. Through exposure to at least two of the four genres (novel, poetry, drama, short story), students will be able to articulate their critiques and analyses of the literature. This course requires written compositions totaling at least 6,000 words. If used to meet the requirements of the AA Degree or an AS Degree, a grade of “C” or higher must be attained. 48 class hours

ENC 1122H English Composition II (Honors Course) 3 cr.
Prerequisite: Acceptance into PCC’s Honors Program or permission of instructor and completion of ENC 1101 or ENC 1121H with a grade of “B” or higher. This course provides an intensive course of study in composition and literary criticism for academically gifted students. It emphasizes extensive library research and the expanded use of primary resources in the preparation of formal written assignments. Supplementary readings and individual faculty conferences are required. This course requires compositions totaling at least 6,000 words. If used to meet the requirements of the AA degree, a grade of “C” or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of “B” or higher must be earned. Credit cannot be earned for both ENC 1102 and ENC 1122H. 48 class hours

ENC 2151 Technical Writing 3 cr.
Prerequisite: ENC 1101 (completed with a grade of “C” or higher). This course prepares students to write effectively for careers in the technological community. Students will write memoranda, resumes, proposals, feasibility, and progress reports. The course is directly applicable to the student in business administration, health, hospitality, law enforcement, and many other business and technical fields. Assignments are related to the individual interests of the student. 48 class hours

ENL 2102 British Literature I 3 cr.
Prerequisite: ENC 1101 (completed with a grade of “C” or higher). An introduction to the main literary traditions from Beowulf through the Restoration and Eighteenth Century. A study of the best and most characteristic writing of these periods, including such authors as Chaucer, Shakespeare, Donne, Johnson, Milton, Pepys, Defoe, Swift, and Goldsmith. 48 class hours

ENL 2102 British Literature II 3 cr.
Prerequisite: ENC 1101 (completed with a grade of “C” or higher). A continuation of the study of British Literature covering the Nineteenth and Twentieth centuries in the context of the history and society of the times. 48 class hours

JOU 2100 Journalistic Writing and Reporting 3 cr.
Prerequisite: ENC 1101 (completed with a grade of “C” or higher). An introduction to the profession of journalism and to the theory and practice of writing news. Students are given practical experience in gathering news and writing and copyreading both news and feature stories. 48 class hours

LIT 2110 World Literature I 3 cr.
Prerequisite: ENC 1101. This course is designed to study the major poetry, fiction, drama, and essays of world literature from the Ancients through the Renaissance. Emphasized are the intellectual and moral issues in literature that unite humankind despite diversity in time, place, and language. This course also stresses conducting library research, writing the research paper, and writing the paper of literary interpretation. This course will emphasize diversity issues in world literature. 48 class hours

LIT 2120 World Literature II 3 cr.
Prerequisite: ENC 1101. This course is designed to study the major poetry, fiction, drama, and essays of world literature from the Renaissance to the Modern. Emphasized are the intellectual and moral issues in literature that unite humankind despite diversity in time, place, and language. This course also stresses conducting library research, writing the research paper, and writing the paper of literary interpretation. This course will emphasize diversity issues in world literature. 48 class hours

OST 2335 Business Communications 3 cr.
See Business-Office Systems Technology Courses.

*REA 0001 Basic Reading
See College Preparatory Courses.
*REA 0002 Fundamentals of Reading
See College Preparatory Courses.

REA 1105 College Reading Techniques
See Reading Courses.

Environmental Science

BSC 1030 Introduction to Environmental Science 3 cr.
See Biological Science Courses.

BSC 1030H Introduction to Environmental Science (Honors Course) 3 cr.
See Biological Science Courses.

GLV 2151 Geology and Environment of Florida 3 cr.
A course designed to investigate the geologic history and development of rocks, structures, physiography, and mineral resources of Florida. 48 class hours

Fire Science Technology

FFP 1130 Fire Company Leadership 3 cr.
This course will cover the basic concepts of fire company leadership as they pertain to fire science. Emphasis will be placed on leadership as it pertains to discipline, human relations, order giving, supervision, problem solving, and goal achievement of a fire company officer. 48 class hours

FFP 1150 Methods and Techniques of Fire Science Instruction 3 cr.
This course will cover the modern methods and techniques of instruction for fire science. Various methods of teaching will be discussed and demonstrated with emphasis placed on objective writing, lesson planning, evaluation techniques, use of instructional aids, and oral communication. 48 class hours

FFP 1200 Introduction to Fire Inspection and Prevention 3 cr.
This course will cover the various aspects of prevention and inspection as they relate to fire science and the fire inspector. The purpose and scope of the fire inspector will be outlined and discussed along with the fire prevention bureau, inspecting agencies, fire hazards, inspection techniques, and special purpose inspections. 48 class hours

FFP 1410 Fire Fighting Tactics and Strategy I 3 cr.
This course will teach the basic concepts involved in fire fighting. The topics will include: fire behavior, fire fighting fundamentals, and principles of extinguishment, along with the utilization of proper size-up and the beneficial use of fire fighters and fire fighting equipment. Pre-planning and its benefits will also be discussed. 48 class hours

FFP 1620 Private Fire Protection Systems 3 cr.
This course will explore the various privately-owned devices and equipment installed in buildings or on property to deal with the outbreak of fire before the arrival of the fire department. The course will outline and discuss sprinkler systems, standpipe systems, and special agent fixed extinguishing systems, along with fire detection and alarm systems. 48 class hours

FFP 2500 Hazardous Materials I 3 cr.
This course will cover the characteristics, transportation, and storage hazards of flammable and combustible solids, liquids, and gases. Emphasis will be placed on the Department of Transportation and National Fire Protection Association Systems for marking, control, and extinguishment of hazardous materials during thermal destruction. Additionally, the course will explore the National Chemical Registry Point and Information Center System. 48 class hours

FFP 2501 Hazardous Materials II 3 cr.
Prerequisite: FFP 2500 or permission of instructor. This course is an in-depth look at the materials considered to be hazardous while in transportation and storage. Emphasis will be placed on the chemical make-up of such materials as well as the possible reaction of such materials with other substances. 48 class hours

French

FRE 1120 Beginning French I 4 cr.
The purposes of this course are to introduce students to the four skills (listening, speaking, reading, and writing) of the target language and to encourage students to appreciate the cultural contributions of the countries in which the language is spoken. 64 class hours

FRE 1121 Beginning French II 4 cr.
Prerequisite: FRE 1120 or consent of instructor. The purpose of this course is to reinforce the basic skills previously acquired. This course develops increased listening, speaking, reading, and writing skills, as well as grammar knowledge and cultural awareness. 64 class hours

FRE 2200 Intermediate French I 4 cr.
Prerequisites: FRE 1121, two years of high school French, or the equivalent. This course will cover advanced levels of communication skills for students who have successfully completed FRE 1121 or its equivalent. Reading, writing, speaking, and listening skills on an advanced level will be stressed. 64 class hours

FRE 2201 Intermediate French II 4 cr.
Prerequisite: FRE 2200. A further development of communication skills with continued emphasis on oral communication through speaking and listening exercises. Reading in contemporary French prose, including authors from Andre Gide to Alain Robbe-Grillet will be included. 64 class hours

Geography

GEA 2000 World Regional Geography 3 cr.
A regional study of the relationship between human and their natural environment, with particular emphasis on the economic development of the countries of the world. Topics to be explored include population characteristics, natural resources, culture, and history as they relate to the economic state of the nations of the world today. 48 class hours

GEA 2200 Geography of North America 3 cr.
A regional study of the physical and natural environment of North America, with particular emphasis on human activities from an ecological perspective. 48 class hours

German

GER 1120 Beginning German I 4 cr.
This course will introduce beginning students in German to the four communication skills (listening, speaking, reading, and writing); emphasize the correct usage of grammar; develop skills using basic vocabulary, and sensitizes students to the cultural contributions of the countries in which German is spoken. 64 class hours

GER 1121 Beginning German II 4 cr.
Prerequisite: GER 1120 or consent of instructor. This course will reinforce, expand, and review the basic German skills previously acquired; develop increased listening, speaking, reading, and writing skills; extend knowledge of grammar; and increase cultural awareness. Content will include more advanced language structures and idiomatic expressions, with a particular emphasis on vocabulary and conversational skills. 64 class hours
GER 2200 Intermediate German I 4 cr.
Prerequisite: GER 1211, two years of high school German, or the equivalent. The content should include, but not be limited to, more advanced language structures and idiomatic expressions, with emphasis on conversational skills. There should be additional growth in vocabulary for practical purposes, including writing. Reading selections should be varied. 64 class hours

GER 2201 Intermediate German II 4 cr.
Prerequisite: GER 2200. This course will reinforce, expand, and review the intermediate German skills previously acquired. The content should include, but not be limited to, more advanced conversational language structures and idiomatic expressions, with emphasis on conversational skills. There should be additional growth in vocabulary for practical purposes, including writing. Reading selections should be varied. 64 class hours

Health

HSA 2113 Issues & Trends in Health Care Delivery 1 cr.
The course examines issues and their developing trends. Content may differ each time in order to be relevant to current events and issues of varying importance such as health care systems change, team building, and ethical leadership in health care.

HSC 1100 Personal and Community Health 3 cr.
See Physical Education Courses.

HSC 1101 Perspectives of Health and Wellness 3 cr.
See Physical Education Courses.

HSC 119C General Pharmacology for Health Programs 2 cr.
The course will provide the student with general pharmacology concepts and principles in the management of patient care. The knowledge and skills required for safe, effective administration of therapeutic drugs across the lifespan are emphasized. Indications, contraindications, and dosage computations associated with drug therapy are integral parts of this course. 16 lecture hours, 32 laboratory hours

HSC 2531 Medical Terminology 3 cr.
See Emergency Medical Services Courses.

HUN 1001 Nutrition 3 cr.
See Hospitality Management Courses.

History

AMH 2010 History of the United States I 3 cr.
The study of United States history to 1865 emphasizing the European background, the Revolution, the Articles of the Confederation, the Constitution, the problems of the new republic, sectionalism, Manifest Destiny, slavery, and the Civil War. 48 class hours

AMH 2020 History of the United States II 3 cr.
The study of United States history from 1865 to the present. This study includes the Reconstruction, growth of big business, the agrarian revolt, Latin American affairs, the Progressive Movement, the First World War, and political, economic, and world affairs since World War II. 48 class hours

AMH 2070 History of Florida 3 cr.
This course begins with the influence of geography on early Native American cultures of the region. The economic, social, and political background of Florida is developed chronologically, from discovery, settlement, and colonization to the United States acquisition and the Territorial Experience concluding with statehood. 48 class hours

AMH 2091 Black American History 3 cr.
A survey of the social and cultural development of Black Americans in the United States. Consideration is given in this course to the African background, slavery, reconstruction, and Twentieth Century developments to the present. 48 class hours

EUH 1000 Western Civilization I 3 cr.
The origins and development of western civilization, beginning with the classical civilizations of the ancient world and dealing with the contributions of each major historical group until the emergence of modern Europe in the commercial revolution of the sixteenth century. The emphases are upon the social, economic, and cultural trends of each period. 48 class hours

EUH 1001 Western Civilization II 3 cr.
The evolution of modern western civilization since the commercial revolution of the sixteenth century. This course covers the period of colonization, the Industrial Revolution, and the emergence of modern national states extending to the present. The emphases are upon the social, economic, and cultural developments. 48 class hours

**Horticulture**

OREI 1010 Introduction to Horticulture 3 cr.
Students in this course will study the principles of horticulture. Topics include plant, flower, and tree identification and propagation. Students will also study procedures for producing healthy lawns and indoor plants. This course is intended for students who are planning to continue their education in the agriculture field or for any other students who are interested in learning more about plants and lawns. 48 class hours

**Hospitality Management**

FOS 2201 Food Service Sanitation and Safety 3 cr.
A study of the agents that cause foodborne illness and the ways foods become contaminated with them. The principles of sanitary food handling and the necessity of maintaining safe and sanitary facilities for the well being of the consumer and the employee are emphasized. 48 class hours

FSS 2120 Food Purchasing and Storage 3 cr.
A study of purchasing principles, procedures, and policies in quantity food service operations; includes proper procedures for receiving, storing, and issuing food, beverages, and other supplies. 48 class hours

FSS 2300 Food Service Supervision and Management 3 cr.
A study of the principles of management, particularly as they apply to the food service industry. Students will explore the role of the supervisor or manager in operating and directing the work of employees and the responsibility for planning and coordinating their activities. Students will find it helpful if they have completed MNA 1300 and ENC 1102 prior to taking this course. 48 class hours

HUN 1001 Nutrition 3 cr.
This course presents the concepts of nutrition, including the six major classes of nutrients, their digestion, and utilization by the body. Investigation of controversies in nutrition and guidelines for planning nutritionally adequate meals are included. 48 class hours

**Human Services**

GEY 2000 Introduction to Gerontology 3 cr.
This course offers an overview of the effects of aging and the aged on our society. It is designed for students with a personal or professional interest in acquiring broad-based knowledge and understanding of the aging process and the aged both as individuals and as a group. Topics include: physical and psychological aspects of aging; health and mental health issues; institutionalization; retirement; finances; recreation and leisure; death, dying, and bereavement; and personal adaptations of aging. Practical information on services available to the aged through social agencies, government programs, and national organizations will be presented, along with information regarding employment possibilities in the field of gerontology. 48 class hours

HUS 1001 Introduction to Human Services 3 cr.
This course provides an overview of agency resources, functions, methods, and activities related to human services, theory, and methods of intervention with individuals, groups, and the family. The course stresses the development of individual skills and practices in human services. Extensive use will be made of guest speakers who represent community agencies. 48 class hours

HUS 1110 Basic Counseling Skills 3 cr.
Prerequisite: HUS 1001, PSY 1012 or consent of instructor. This course involves developing skills in oral communication, active listening, and counseling. These skills are presented in the context of the human relations counseling model and other general theories of counseling. 48 class hours

HUS 2403 The Disabled Experience 3 cr.
This course traces the history of the disabled experience in the United States through implementation of the Americans with Disabilities Act (ADA) of 1992. The nature of various disabling conditions to include developmental disorders, mental disorders, sensory disabilities, motor disabilities, and chronic, temporary, and progressive conditions are explored. The course emphasizes the obstacles faced by disabled persons and the steps that must be taken to increase opportunities for participation in all aspects of society. 48 class hours

HUS 2525 Issues in Mental Health 3 cr.
Prerequisite: HUS 1110 or PSY 1012 or consent of instructor. This course offers an overview of major mental disorders with emphasis on their attendant behaviors. The course emphasizes appropriate interaction between the health worker and the client as well as effects of mental disorders on the family and community. Issues involving institutionalization and case management are included. 48 class hours

HUS 2531 Substance Abuse Counseling 3 cr.
Prerequisite: HUS 1110 or PSY 1012 or consent of instructor. This course is designed to prepare the human service worker to function in a variety of settings in which substance use/abuse is an issue. Content emphasized includes causes of abuse, nature of dependency, pharmacology, and effects of abuse on the individual, family, and community. Techniques of detection and intervention are presented and practiced in the classroom. Treatment modalities are discussed. 48 class hours

HUS 2940 Human Services Practicum I 4 cr.
Prerequisites: HUS 1001 and HUS 1110 or consent of instructor. This is a practicum course which requires a minimum of 128 hours. Students will be under supervision as human service workers in community agencies in the field. Regular meetings are held with the instructor. Student performance in this course is graded as "Pass/Fail." Professional liability insurance fee is required.

HUS 2941 Human Services Practicum II 4 cr.
Prerequisites: HUS 2940 or consent of instructor. This course is a continuation of HUS 2940. This is a practicum course which requires a minimum of 128 hours. Students will be under the supervision of human service workers in community agencies. Regular meetings are held with the instructor. Student performance in this course is graded as "Pass/Fail." Professional liability insurance fee is required.

**Humanities**

HUM 2211 Humanities I 3 cr.
Prerequisite: ENC 1102 (completed with a grade of "C" or higher). A study of the ideas and ideals which characterize the moral, intellectual, and aesthetic activities of the early Western Civilization: Ancient Greece and Rome, the formative period of the Judeo-Christian Tradition, and the European Middle Ages. Emphasis is placed upon speculative and creative nature as it is reflected in literature, art, music, philosophy, religion, and drama. This course requires written compositions totaling at least 6,000 words. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be attained. 48 class hours

HUM 2211H Humanities I (Honors Course) 3 cr.
Prerequisite: Acceptance into PHCC's Honors Program or permission of instructor and completion of ENC 1102 or ENC 1124H with a grade of "B" or higher. This course is an in-depth integrated examination of the ideals and ideas that characterize the intellectual and aesthetic activities of early Western civilization from prehistory to the European Middle Ages. Emphasis is placed upon humanity's
speculative and creative nature as reflected in its arts, literature, music, philosophy, religion, and drama. This course requires original nonfiction writing totaling at least 6,000 words. If used to fulfill the requirements of the AA or an AS degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. Credit cannot be earned for both HUM 2230 and HUM 2231H. 48 class hours

HUM 2230 Humanities II 3 cr.
Prerequisite: HUM 2211 (completed with a grade of "C" or higher). A study of Western Culture from the Renaissance to the present. This course requires written compositions totaling at least 6,000 words. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be attained. 48 class hours

HUM 2230H Humanities II (Honors Course) 3 cr.
Prerequisite: Acceptance into PHCC's Honors Program or permission of instructor and completion of HUM 2211 or HUM 2211H with a grade of "B" or higher. This course is an in-depth examination of the ideals and ideas that characterize the intellectual and aesthetic activities of early Western civilization from the Renaissance to the 20th century. Emphasis is placed upon humanity's speculative and creative nature as reflected in its arts, literature, music, philosophy, and drama. This course requires original nonfiction writing totaling 6,000 words. If used to fulfill the requirements of the AA or an AS degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. Credit cannot be earned for both HUM 2230 and HUM 2230H. 48 class hours

HUM 2700 Overseas Study in the Humanities 3 cr.
This course offers students a study/travel program centered around the countries and cities of the tour. The course will provide lectures and discussions in the humanities area before, during, and after the tour, and field experiences in the humanities area during the tour. The student will gain an understanding and appreciation of the ideals and ideas that shaped the cultural heritage of Western Civilization through on-site study of great works of art, architecture, music, drama, religion, and philosophy. This credit applies toward electives for the AA Degree. This course does not satisfy the humanities requirement for a degree. Special fees: registration fees plus cost of trip. This course may be taken as part of the Honors Program. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 48 hours of formal instruction

Interdisciplinary

IDS 2290H Introduction to Asian Arts and Letters (Honors Course) 3 cr.
Prerequisite: Acceptance into PHCC's Honors Program or permission of instructor and ENC 1101 or ENC 1121H with a grade of "B" or higher. An introduction to the aesthetic, intellectual, cultural, and literary traditions of three great Asian civilizations-China, India, and Japan. This course will examine Oriental ideas and ideals of human nature, the universe, social and spiritual reality, and individual existence as reflected in thought systems such as Buddhism and Taoism. Western images of contemporary Asian culture represented in popular American and British literature will augment a critical analysis of translated selections from the literature of each civilization. If used to fulfill the requirements of the AA or an AS degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 48 class hours

SLS 2211 Individual Discovery 3 cr.
This course assists students to learn more about themselves and their relationships with other people. This is accomplished through experiences that deal with personal growth and group developmental activities that place emphasis on the defining of individual goals and interests. 48 class hours

SLS 2261 Leadership Development Studies 3 cr.
This course has as its focus the development of leadership ability. The course provides a basic understanding of leadership and group dynamics theory, assists students in developing personal philosophies of leadership, an awareness of the moral and ethical responsibilities of leadership, and an awareness of their own abilities and styles of leadership. It provides the opportunity to develop essential leadership skills through study and observation of the application of these skills. This course may be taken as part of the Honors Program. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 48 class hours

SLS 1501 College Survival Skills 3 cr.
This course is designed to help the student develop more effective and efficient study skills and attitudes necessary to be successful in college. Emphasis is placed on major study aids, lecture listening skills, note-taking, reading techniques, test-taking strategies, and report preparation. 48 class hours

SLS 2420 Career Enhancement 1 cr.
See Business-Office Systems Technology

Legal Assisting

PLA 1003 Introduction to Legal Assisting and Legal Ethics 3 cr.
An overview of the training, functions, and career opportunities for legal assistants. This course examines the roles of the lawyer and legal assistant in modern society, the ethical standards applicable to the law profession, and surveys the various fields of law that will be covered by the student in the program. 48 class hours

PLA 1204 Civil Procedure 3 cr.
A study of the structure of state and federal civil judicial systems, including the rules of procedure and practices applied to civil cases. This course includes an examination and drafting of basic civil litigation documents. 48 class hours

PLA 1263 Evidence and Trial Practice 3 cr.
Prerequisite: PLA 1204 or consent of instructor. A study of the law and rules of admissibility of evidence. The course includes interviewing and investigative techniques, preparing and organizing courtroom materials, compiling documentary and demonstrative evidence, and effective courtroom assistance. 48 class hours

PLA 1303 Criminal Law for Legal Assistants 3 cr.
An intensive study of the law of crimes, the elements of various crimes, and defenses to criminal prosecution. This course includes basic criminal court practice and procedure in state and federal courts, and basic prosecution and defensive strategies. 48 class hours
PLA 1763 Law Office Management 2 cr.
A study of the fundamental concepts of law office management, including client record-keeping and retrieval systems, timekeeping, billing and accounting practices, personnel management and business relationships, and law office equipment, technology and supervision. 32 class hours

PLA 2104 Legal Research and Writing I 3 cr.
An intensive study of the fundamentals of legal research and the sources and materials used in legal research. This course introduces the student to legal writing and the format for memoranda of law. 48 class hours

PLA 2114 Legal Research and Writing II 3 cr.
Prerequisite: PLA 2104 or consent of instructor. An advanced study of legal research and writing techniques, including proper citation form and the presentation of logically sound and convincing legal argument. The student will prepare various types of legal memoranda and an appellate brief. 48 class hours

PLA 2273 Torts 3 cr.
An intensive study of the law of intentional torts, negligence, and strict liability, including the elements of each and their related defenses. Principles of insurance will also be covered. The student will apply tort concepts to hypothetical factual scenarios. 48 class hours

PLA 2445 Commercial Transactions 2 cr.
Corequisite: PLA 2540 or consent of instructor. A practical skills course where students review and prepare transactional documents associated with real estate and business transactions, and prepare basic tax returns. 32 class hours

PLA 2465 Debtor, Creditor, and Bankruptcy 3 cr.
A study of debtor and creditor rights and remedies, and the law and procedure of federal bankruptcy. The student will examine and prepare basic bankruptcy forms. 48 class hours

PLA 2540 Real Property Law 3 cr.
Corequisite: PLA 2445 or consent of instructor. A study of the law of real property, including types of ownership, future interests, concurrent estates, and liens and encumbrances. The course includes an examination of real property transaction documents including leases, deeds, mortgages, and transfer and closing documents. 48 class hours

PLA 2603 Wills, Estates, and Trusts 3 cr.
A survey of common forms of wills and trusts, and a study of the law applicable to wills, trusts, and the probate of estates. This course includes examination of and drafting of basic wills and probate documents. 48 class hours

PLA 2803 Domestic Relations 3 cr.
A study of the law of dissolution of marriage, separation, custody, legitimacy, adoption, change of name, and guardianship. The student will examine and draft basic documents related to the topics covered. 48 class hours

PLA 2949 Cooperative Legal Practicum 3 cr.
A coordinated practicum course which reinforces the educational and professional growth of the student through parallel involvement in classroom studies and field experience. The student and instructor will determine the objectives for the course assignment. The student will be evaluated by the instructor and the field supervisor according to those objectives, and performance will be graded as "Pass/Fail." This course will include a minimum of 96 hours of field experience together with at least three conferences with the instructor.

Mathematics

MAC 1102 Essentials of College Algebra 3 cr.
Prerequisite: Appropriate placement score or MAT 1033 (completed with a grade of "C" or higher). An introduction to college algebra. Topics include: polynomials, rational expressions, radicals, exponents, linear and quadratic equations and inequalities, functions, systems of equations and exponential and logarithmic functions. This course does not meet the prerequisites for either calculus course (MAC 2233 or MAC 2311). If used to meet the requirements of the AA Degree, a grade of "C" or higher must be obtained. Students cannot use both MAC 1102 and MAC 1104 to satisfy AA Degree mathematics requirements. 48 class hours

MAC 1104 College Algebra for Calculus 4 cr.
Prerequisite: MAT 1033 (completed with a grade of "C" or higher) or required score on placement test. A study of the techniques of algebra. Topics include solution of equations, systems of equations, inequalities and systems of inequalities, polynomial and rational functions, exponential and logarithmic functions, graphing techniques, matrices and determinants, conic sections. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be obtained. Students cannot use both MAC 1102 and MAC 1104 to satisfy AA Degree mathematics requirements. 48 class hours

MAC 1114 Trigonometry 3 cr.
Prerequisite: MAC 1102 or MAC 1104 (completed with a grade of "C" or higher). This course offers a study of trigonometry with emphasis on the definitions and properties of the trigonometric functions as functions of a real variable. Topics include: circular functions, inverse functions, identities, trigonometric equations, applications of the functions, and solutions of triangles. If used to meet requirements of the AA Degree, a grade of "C" or higher must be obtained. 48 class hours

MAC 2233 Applied Calculus 4 cr.
Prerequisite: MAC 1064 (completed with a grade of "C" or higher). This course provides applications of calculus to business, economics, and the social sciences. Topics include: limits, rate of change, differentiation and integration of algebraic, logarithmic and exponential functions with particular emphasis on applications. MAC 2233 is not designed for those students who plan to major in mathematics, engineering or the natural sciences. Credit is not given for both MAC 2233 and MAC 2311. If used to meet the requirement of the AA Degree, a grade of "C" or higher must be obtained. 48 class hours

MAC 2311 Calculus and Analytic Geometry I 4 cr.
Prerequisite: MAC 1104 and MAC 1114 (both completed with a grade of "C" or higher). This course is designed for students who plan to major in mathematics, computer science, engineering, or other sciences. Topics include: limits and continuity, derivatives of polynomial, trigonometric, logarithmic, exponential, hyperbolic, inverse trigonometric and inverse hyperbolic functions; L'Hopital's Rule, applications of derivatives; and integration. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be obtained. This course may be taken as part of the Honors Program. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 64 class hours

MAC 2312 Calculus and Analytic Geometry II 4 cr.
Prerequisite: MAC 2311 (completed with a grade of "C" or higher). This course is designed for students who plan to major in mathematics, computer science, engineering, or other sciences. Topics include: applications of integration, techniques of integration such as integration by parts, trigonometric substitutions, partial fractions and rationalizing substitutions, improper integrals; Taylor's Formula; sequences and series; conics; and polar coordinates. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be obtained. This course may be taken as part of the Honors Program. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 64 class hours

MAC 2313 Calculus and Analytic Geometry III 4 cr.
Prerequisite: MAC 2312 (completed with a grade of "C" or higher). This course is designed for students who plan to major in mathematics, computer science, engineering, or other sciences. Topics include: plane curves, vectors and motion; vector geometry, dot products and cross products; curves in space; quadric surfaces, cylindrical and spherical coordinates; partial derivatives; tangent planes; multiple
integrals; line integrals; and Green's Theorem. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be obtained. This course may be taken as part of the Honors Program. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 46 class hours

*MAT 0012 Prealgebra 4 cr.
See College Preparatory Courses.

*MAT 0024 Elementary Algebra 4 cr.
See College Preparatory Courses.

MAT 1033 Intermediate Algebra 4 cr.
Prerequisite: Satisfactory placement score or MAT 0024 (completed with a grade of "C" or higher). This course is designed to prepare students for entry into MAC 1102 or MAC 1104. Topics include sets, linear and quadratic equations and inequalities, polynomials, rational expressions and equations, graphing, first-degree equations and inequalities, exponents and radical expressions. 64 class hours

MGF 1113 College Mathematics I 3 cr.
Prerequisite: Two years of high school mathematics. This course has an emphasis on general concepts. Among the topics included are sets, logic, mathematical systems, sets of numbers, and systems of numeration. 48 class hours

MGF 1114 College Mathematics II 3 cr.
Prerequisite: MGF 1113 or MGF 1111. This is an extension of MGF 1113. Among the topics included are: introductory algebra, probability, statistics, and geometry. 48 class hours

MGF 1202 Finite Mathematics 3 cr.
Prerequisite: Appropriate placement score or MAT 1033 (completed with a grade of "C" or higher). Topics include set theory, logic, mathematical systems, systems of numeration, probability, statistics, and geometry. If used to meet the requirements of the AA Degree, a grade of "C" or higher must be obtained. 48 class hours

MTB 2370 Applied Mathematics for Allied Health 1 cr.
Prerequisite: Appropriate placement test score or MAT 0012 (completed with a grade of "C" or higher). This course introduces fundamental mathematics of drug therapy. Topics include systems of drug measure, reading medication labels and syringe calibrations, calculating drug dosages, pediatric medication administration and IV drug therapy. 16 class hours

QMB 1001 Business Mathematics 3 cr.
See Business Administration and Management Courses.

STA 2023 Elementary Statistics 3 cr.
Prerequisite: MGF 1202 (completed with a grade of "C" or higher), satisfactory placement score, or MAT 1033 (completed with a grade of "C" or higher). A study of fundamental statistical methods, including the basic concepts of probability, the basic statistical distributions, measures of central tendency and dispersion, sampling techniques, and Student's "t" distribution. If used to meet requirements of the AA Degree, a grade of "C" or higher must be obtained. 48 class hours

MIS 1110 War and Peace 3 cr.
An historical survey course covering the period from the ancient to the modern world. Primary attention will be focused on American military history; however, Roman military strategy, warfare in the Middle Ages, and the Napoleonic Wars will be included. 48 class hours

MIS 1400 Fundamentals of Leadership 3 cr.
An examination of the dual role of the military officer as a leader and manager, including an in-depth consideration of the problems of military leadership in the modern volunteer Army. Leadership seminars on the problems of small-unit leaders give students an opportunity to demonstrate their understanding of leadership traits and principles. The importance of individual research and effective oral and written communication are stressed. Students are given the opportunity to prepare and present classes on the role of officers in the various branches of the Army. 48 class hours

MIS 1405 Requirements of Military Leadership 3 cr.
Prerequisites: MIS 1010 and MIS 1400. Basic knowledge of the demands placed on commissioned officers in the United States Army, including a review of the basic military skills essential to success at R.O.T.C. Advanced Camp. 48 class hours

MIS 1410 Seminar in Leadership and Management 3 cr.
A thorough consideration of the obligations and responsibilities of a commissioned officer, to include: management of personal affairs and responsibility for the numerous facets of management and administration essential to mission accomplishments; continued emphasis on the techniques of applying sound leadership to all situations; the Uniform Code of Military Justice as it relates to civil practice, with emphasis on those aspects most likely to be encountered by newly-commissioned officers; fundamentals of both offensive and defensive tactics and the roles played in tactical operations by the various branches of the Army; and the present role of the United States in world affairs. 48 class hours

Music

Students are advised that course selections in the area of performing arts are not automatically transferable; students will, therefore, need to consult the receiving institution to determine the transferability of performing arts credits.

Students must supply their own musical instruments. However, pianos are supplied for instruction only and are NOT available for practice.

MUL 1110 Music Appreciation 3 cr.
A general survey of music and its composers, with extensive listening in order to develop an intelligent understanding and appreciation of the world’s great music. This course is open to all students. 48 class hours

MUN 1310 College Chorus 1 cr.
This course will offer a wide variety of types and periods of choral literature. It is open to all students of the college and the members of the community. No auditions are given. This group will represent the college in school and community functions. 32 laboratory hours

MUN 1340 Chamber Singers 1 cr.
This course is for experienced singers with some musical training. Students will be expected to study and perform assigned literature from the 14th century to the present with an emphasis on 16th and 17th century chamber works. An audition is required. This course may be repeated for credit up to four times with consent of instructor. (MUN 1340A, MUN 1340B, MUN 1340D, and MUN 1340E). 32 laboratory hours

Military Science

MIS 1010 Introduction to Military Science 3 cr.
This course covers the history and organization of the Reserve Officers' Training Corps (ROTC) and its mission in support of U.S. national defense policies. Strong emphasis is placed on the relation of the U.S. defense establishment to the federal government, and extensive discussion of contemporary military/political issues is conducted. The course also focuses on understanding of individual and group motivation and behavior, human relations, and the role of the leader in influencing subordinates. 48 class hours
MUN 1450 Piano Ensemble 1 cr.
Prerequisite: Consent of instructor. This course is designed to assist the pianist in learning how to perform in ensemble with other musicians. Repertoire will include piano duets and piano trio works from the standard repertoire as well as piano accompaniments for vocal and instrumental solos. Audition required. Special fee required. 32 laboratory hours

MUT 1001 Fundamentals of Music 3 cr.
This course will include basic skills in reading and writing music. A fundamental knowledge of pitch, rhythm, melody, and harmonic organization will be presented with an emphasis on its application to a variety of activities. No prior knowledge of music is necessary to enroll in this course. 48 class hours

MUT 1121 Music Theory I 4 cr.
Prerequisite: MUT 1001. The purpose of Music Theory I is to provide the fundamentals of music, including an introduction to music, rhythm, harmony, and counterpoint. It also includes the study of simple composition, 48 lecture hours and 32 laboratory hours

MUT 1122 Music Theory II 4 cr.
Prerequisite: MUT 1121. The purpose of Music Theory II is to provide a continuation of Music Theory I with emphasis on further development of musical skills. 48 lecture hours and 32 laboratory hours

MUT 2126 Music Theory III 4 cr.
Prerequisite: MUT 1122. The purpose of Music Theory III is to provide a study of advanced harmony, counterpoint, analysis, and writing. It also includes the study of advanced composition, 48 lecture hours and 32 laboratory hours

MUT 2127 Music Theory IV 4 cr.
Prerequisite: MUT 2126. The purpose of Music Theory IV is to provide the final sequence of Music Theory with emphasis on continued development of theoretical music skills, 48 lecture hours and 32 laboratory hours

NOTE: Applied Music courses are designed for those students who plan to major in music and may NOT be transferable to a four-year college/university. Music students, both major and non-major, are urged to check with the college/university of their choice for transferability of these courses.

Applied Music I - Preparatory 1 cr.
Prerequisite: Audition and consent of instructor prior to enrollment. Corequisite: Voice students must enroll in Voice Repertoire Class in the same semester as Applied Music (Voice Repertoire Class MVV 1510A). Private instruction in voice, piano, guitar, organ, woodwind, string, brass, and percussion instruments designed to cultivate in the student the ability to perform representative solo repertoire. Preparatory students are students who seek to raise their performance level in their major major level or to develop a secondary instrument while studying as an intended major on another instrument. Non-music major students may be permitted to study only if space is available and if they have previous music background. Credit for this course will not count toward principal instrument requirements for those students who will be transferring to a four-year college/university. Special fee $90.00. Students receive one-half hour of private lessons per week. Attendance and/or performance in a recital each semester may be required. 8 laboratory hours

MVK 1111A Class Piano I 1 cr.  
This class is for beginning piano students meeting in groups of six or more. Open to all students. Emphasis is placed on music reading and elementary techniques. Special fee $20.00. 32 laboratory hours

MVK 1111B Class Piano II 1 cr.  
Prerequisite: MVK 1111A. This class is a continuation of MVK 1111A. Special fee $20.00. 32 laboratory hours

MVK 1111A Class Voice I 1 cr.  
For singers with no previous vocal study and instrumentalists wishing a fundamental vocal knowledge. Emphasis on tone production and correct diction. Open to all students. 32 laboratory hours

MVK 1111B Class Voice II 1 cr.  
A continuation of MVK 1111A. Open to all students. 32 laboratory hours

MVV 1510A Vocal Repertoire Class 1 cr.  
Corequisite: MVV 1011A. Vocal Repertoire is a corequisite of all Applied Music courses. Students will discuss and perform their solo repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage movement. 16 laboratory hours

MVV 1510B Vocal Repertoire Class 1 cr.  
Corequisite: MVV 1011B. Vocal Repertoire is a corequisite of all Applied Music courses. Students will discuss and perform their solo repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage movement. 16 laboratory hours

MVV 1510D Vocal Repertoire Class 1 cr.  
Corequisite: MVV 2021A. Vocal Repertoire is a corequisite of all Applied Music courses. Students will discuss and perform their solo repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage movement. 16 laboratory hours

105
reertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage appropriate. 16 laboratory hours

**MVV 1510B Vocal Repertoire Class** 1 cr.
Corequisite: MVV 2021B. Vocal Repertoire is a corequisite of all Applied Voice courses. Students will discuss and perform their repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage appropriate. 16 laboratory hours

**MVV 2520A Vocal Repertoire Class** 1 cr.
Corequisite: MVV 1511A. Vocal Repertoire is a corequisite of all Applied Voice courses. Students will discuss and perform their repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage appropriate. 16 laboratory hours

**MVV 2520B Vocal Repertoire Class** 1 cr.
Corequisite: MVV 1511B. Vocal Repertoire is a corequisite of all Applied Voice courses. Students will discuss and perform their repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage appropriate. 16 laboratory hours

**MVV 2520D Vocal Repertoire Class** 1 cr.
Corequisite: MVV 2321A. Vocal Repertoire is a corequisite of all Applied Voice courses. Students will discuss and perform their repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage appropriate. 16 laboratory hours

**MVV 2520E Vocal Repertoire Class** 1 cr.
Corequisite: MVV 2321B. Vocal Repertoire is a corequisite of all Applied Voice courses. Students will discuss and perform their repertoire in a class environment. Emphasis will be placed on performance skills including vocal dynamics, interpretation of literature, and stage appropriate. 16 laboratory hours

---

**Nursing**

**NUR 1001C Adult Nursing I/LPN Track** 4 cr.
Prerequisites: PSY 1012, ENC 1161, BSC 1085, BSC 1085L, BSC 1086, BSC 1066L, MCB 2010, MCB 2010L, and HSC 1149C, and admission to the Nursing Program. ADN/LPN Track. This course is offered for students entering the ADN/LPN Track of the Nursing Program and facilitates student growth through validation and expansion of knowledge and skills achieved in previous nursing and general education courses. The nursing process is introduced and used as an approach to nursing care. Emphasis is placed on assisting all adult clients with more commonly occurring health problems in meeting basic human needs related to oxygenation, nutrition, elimination, comfort and safety, security, and mobility. The roles of the registered nurse as a provider of care, communicator, teacher, manager, and member of a profession are introduced and provide the framework for clinical application and evaluation in acute care settings. Lab fee and professional liability fee required. 32 lecture hours, 60 clinical hours, and 36 laboratory hours. Additional laboratory hours may be required

**NUR 1020C Fundamentals of Nursing** 9 cr.
Prerequisites: ENC 1101, PSY 1012, BSC 1085, and BSC 1085L (must be completed satisfactorily prior to being considered for admission to the Nursing Program). Pre or corequisites: BSC 1086, BSC 1066L, and HSC 1149C. This course introduces concepts and skills basic to nursing care for clients and their families. The nursing process is introduced and used as an approach to nursing care with emphasis on assessment of basic human needs related to oxygenation, nutrition, elimination, comfort and safety, security, and mobility. The roles of the nurse as provider of care, communicator, teacher, manager, and member of a profession are introduced and provide the framework for clinical application and evaluation. Lab fee and professional liability insurance fee required. 72 lecture hours, 172 clinical, 64 laboratory hours, and 44 laboratory hours. Additional campus laboratory hours may be required

**NUR 1520C Mental Health Nursing** 5 cr.
Prerequisite: NUR 1001C or NUR 1001C. This course emphasizes use of the nursing process as an approach to nursing care of clients and their families with varying degrees of mental health and illness. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee required. 48 lecture hours, 64 clinical hours, and 32 laboratory hours. Additional laboratory hours may be required

**NUR 1710C Adult Nursing I/ Generic Track** 9.5 cr.
Prerequisites: NUR 1020C, BSC 1086, BSC 1085L, and HSC 1149C. Pre or corequisite: MCB 2010 and MCB 2010L. This course emphasizes use of the nursing process as an approach in assisting ill adults and their families to meet their basic needs. Emphasis is placed on the more commonly occurring health needs of clients in various settings. The roles of the nurse as provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Lab fee required. 72 lecture hours, 208 clinical hours, and 32 laboratory hours. Additional laboratory hours may be required.

**NUR 1991C Adult Nursing I/Paramedic Track** 4 cr.
Prerequisites: NUR 1020C, BSC 1086, BSC 1085L, and HSC 1149C. Pre or corequisite: MCB 2010 and MCB 2010L. This course introduces the application of the nursing process to nursing care in assisting ill adults and their families to meet their basic needs. Emphasis is placed on the more commonly occurring health needs. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee required. 48 lecture hours, 40 clinical hours, and 8 laboratory hours. Additional laboratory hours may be required.

**NUR 2412C Maternal-Child Nursing/ LPN Track** 6 cr.
Prerequisites: NUR 1001C and NUR 1520C. This course is offered for students enrolled in the ADN/LPN Track of the Nursing Program and focuses on continuing the LPN-to-RN transition, building on previous knowledge and skills. This course emphasizes a broad, in-depth application of the nursing process as an approach in assisting women, children, and families in meeting their basic needs in a variety of settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee and professional liability insurance fee required. 48 lecture hours, 122 clinical hours, and 22 laboratory hours. Additional campus laboratory hours may be required.

**NUR 2460C Maternal-Child Nursing/ General Track** 10 cr.
Prerequisites: NUR 1520C and NUR 1710C. This course emphasizes a broad, in-depth application of the nursing process as an approach in assisting women, children, and families in meeting their basic needs in a variety of settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee and professional liability insurance fee required. 80 lecture hours, 184 clinical hours, and 56 laboratory hours. Additional campus laboratory hours may be required.

**NUR 2711C Adult Nursing II/Generic Track** 9.5 cr.
Prerequisites: NUR 1520C and NUR 1710C. This course emphasizes a broad, in-depth application of the nursing process in assisting ill adults and their families to meet their basic needs. Emphasis is placed on the more complex and/or more commonly occurring health needs of clients in various settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee and professional liability insurance fee required. 72
NUR 2720C Adult Nursing II/LPN Track  9.5 cr.
Prerequisite: NUR 1001C. Corequisite: NUR 2820. This course is offered for students enrolled in the ADN/LPN Track of the Nursing Program and focuses on continuing the LPN-to-RN transition, building on previous knowledge and skills. This course emphasizes a broad, in-depth application of the nursing process in assisting ill adults and their families to meet their basic needs. Emphasis is placed on the more complex and/or less commonly occurring health needs of clients in various settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee and professional liability insurance fee required. 72 lecture hours, 208 clinical hours, and 32 laboratory hours. Additional campus laboratory hours may be required.

NUR 2820 Nursing Role & Scope  1 cr.
Prerequisite: NUR 1520C or NUR 1001C. Corequisite: HSA 2113. This course is offered during the final year of the nursing curriculum and is designed to assist the graduating student in the transition to the role of the Registered Nurse. Patient care management concepts and the legal, ethical, and professional responsibilities of the Registered Nurse are stressed. Clinical application of theoretical content is accomplished in the clinical nursing courses taken in the final year of the nursing curriculum. 16 lecture hours.

NUR 2994C Maternal-Child Nursing/Paramedic Track  6 cr.
Prerequisite: NUR 1991C. This course is offered for students enrolled in the ADN/Paramedic Track. This course emphasizes a broad, in-depth application of the nursing process as an approach in assisting women, children, and families in meeting their basic needs in a variety of settings. Emphasis is on non-emergency care. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee required. 48 lecture hours, 122 clinical hours, and 22 laboratory hours. Additional laboratory hours may be required.

NUR 2995C Adult Nursing U/Paramedic Track  6 cr.
Prerequisite: NUR 1520C and NUR 1991C. Corequisite: NUR 2820. This course utilizes the application of the nursing process as an approach in assisting ill adults and their families to meet their basic needs. Emphasis is placed on both commonly and less commonly occurring health needs of clients in various settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee and professional liability insurance fee required. 64 lecture hours and 80 clinical hours and 16 laboratory hours. Additional laboratory hours may be required.

NUR 2996C Adult Nursing III/Paramedic Track  4 cr.
Prerequisite: NUR 2995C. Corequisite: NUR 2820. This course is a continuation of NUR 2995C. The course emphasizes a broad, in-depth application of the nursing process in assisting ill adults and their families to meet their basic health needs. Emphasis is placed on the more complex and/or more commonly occurring health needs of clients in various settings. The roles of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for clinical application and evaluation. Lab fee required. 16 lecture hours, 136 clinical hours, and 8 laboratory hours. Additional campus laboratory hours may be required.

Paralegal
See Legal Assisting Courses.

Paramedics
See Emergency Medical Services Courses.

Philosophy

PHI 1600 Applied Ethics  3 cr.
Prerequisite: ENC 1101. This course is designed to provide an introductory background to ethics and an in-depth study of the ethical skills necessary to an intelligent analysis of contemporary issues. Emphasis will be placed on the systematic generation of options in order to determine choices for resolving dilemmas. This course may be taken as a part of the Honors Program. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. 48 class hours.

Physical Education

HSC 1100 Personal and Community Health  3 cr.
This course is a study of health problems that are of major importance to society. Topics include stress management, emotional health, physical fitness, nutrition, intimacy and sexuality, communicable disease, cardiovascular disease, cancer, substance abuse, injury prevention, consequences of aging and other current topics in public health. 48 class hours.

HSC 1101 Perspectives of Health and Wellness  3 cr.
This course incorporates theory and practical applications in the area of health and wellness. Emphasis is placed upon self-assessment of the health-related components of fitness, nutrition, stress management, substance abuse, principles and benefits of exercise, prevention of disease and other current topics related to health, physical fitness and wellness. Physical activity may be a required component of this course. 48 class hours.

PEL 1111 Beginning Bowling  1 cr.
The course is designed to introduce the student to the sport of bowling. Fundamental skills, history, rules, scoring, and etiquette will be stressed. Lab fee required. 8 lecture hours and 24 laboratory hours.

PEL 1121 Beginning Golf  1 cr.
This course is an introduction to the history, rules, and social and physical values of golf. The basic fundamentals pertaining to grip, stance, posture, and swing are stressed. Primary emphasis is to provide the student with the proper knowledge and skills necessary to enjoy recreational golf. Lab fee required. 8 lecture hours and 24 laboratory hours.

PEL 1122 Intermediate Golf  1 cr.
Prerequisite: PEL 1121 or consent of instructor. This course is a continuation of PEL 1121. It is designed to enhance the student's unter-
standing and application of golf strategies; the proper grip, stance, and swing; and golf etiquette and rules. Lab fee required. 8 lecture hours and 24 lab hours.

PEL 1321 Volleyball I 1 cr.
This course emphasizes fundamental skills, techniques, offensive and defensive strategies, and understanding volleyball as a competitive sport. 8 lecture hours and 24 laboratory hours

PEL 1322 Volleyball II 1 cr.
Prerequisite: PEL 1321 or consent of instructor. This course emphasizes more advanced skills, techniques, and strategy of volleyball. 8 lecture hours and 24 laboratory hours

PEL 1341 Beginning Tennis 1 cr.
This is a course for beginners, designed primarily to provide the student with the knowledge and skills necessary to enjoy recreational tennis. Lab fee required. 8 lecture hours and 24 laboratory hours

PEL 1342 Intermediate Tennis 1 cr.
Prerequisite: PEL 1341 or consent of instructor. A continuation of tennis skill practice, with an emphasis on strategy. Singles or doubles team play. Lab fee required. 8 lecture hours and 24 laboratory hours

PEL 1441 Racquetball 1 cr.
This course is designed to teach the fundamentals of racquetball and to develop skills necessary for successful singles and doubles play. Lab fee required. 8 lecture hours and 24 laboratory hours

PEL 1621 Basketball I 1 cr.
Instruction in basketball skills, history, and rules. Emphasis will be placed on developing individual skills. 8 lecture hours and 24 laboratory hours

PEL 1622 Basketball II 1 cr.
Prerequisite: PEL 1621 or permission of instructor. This course is a continuation of PEL 1621 with added emphasis on techniques and methods and understanding play. Team strategy that accentuates both offense and defense will be developed. 8 lecture hours and 24 laboratory hours

PEN 1131 Weight Training I 1 cr.
Instruction in the principles of weight training. The primary emphasis is skeletal muscular strength increases. General fitness improvement is also involved. 8 lecture hours and 24 laboratory hours

PEN 1132 Weight Training II 1 cr.
Prerequisite: PEN 1131. A continuation of PEN 1131. Emphasis is placed on muscular strength development, nutrition, and diet. 8 lecture and 24 laboratory hours

PEN 1171 Aerobic/Step Training I 1 cr.
A fitness activity course that combines step training, strengthening, and cardiovascular conditioning. This activity is based on the principles of aerobic activity. Lab fee required. 8 lecture hours and 24 laboratory hours

PEN 1172 Aerobic/Step Training II 1 cr.
Prerequisite: PEN 1171. Step training experience, or consent of instructor. A combination of creative power/step training and cardiovascular movements for the improvement of cardiorespiratory endurance. Lab fee required. 8 lecture hours and 24 laboratory hours

Physical Science

PSC 1311 Survey of the Physical Sciences 3 cr.
Prerequisite: RSA 0002 (completed with a grade of "C" or higher). A non-laboratory course intended for non-science majors. It provides an introduction to the atomic nucleus and nuclear power, the periodic table, chemical bonding, and basic organic chemistry; meteorology and earth science; and astronomy. It is recommended that students complete this course prior to enrolling in BSC 1005, BSC 1030, or CHE 2001. (Students cannot receive credit in both this course and the former Introduction to the Physical Universe I course.) 48 class hours

PSC 1341 Introduction to the Physical Sciences 3 cr.
Prerequisite: RSA 0002 (completed with a grade of "C" or higher) or appropriate placement test score. A non-laboratory course intended for non-science majors. The course provides an introduction to physics and chemistry. A working knowledge of simple algebra is assumed. (Students cannot receive credit in both this course and the former Introduction to the Physical Universe I course.) 48 class hours

Physics

PHY 1053 General Physics I 3 cr.
Prerequisite: MAC 1114 or 1114A Corequisite: PHY 1053L. This is a non-calculus general physics course intended for those students not majoring in engineering or the physical sciences. Topics include mechanics, heat and sound. 48 lecture hours

PHY 1053L General Physics I Laboratory 1 cr.
Prerequisite: MAC 1114 or 1114A Corequisite: PHY 1053L. A laboratory investigation into fundamental concepts of physics. Topics include mechanics, heat and sound. Lab fee required. 32 laboratory hours

PHY 1054 General Physics II 3 cr.
Prerequisite: MAC 1114, PHY 1053, and PHY 1053L (all completed with grades of "C" or higher). Corequisite: PHY 1054L. This is a non-calculus general physics course intended for those students not majoring in engineering or the physical sciences. Subject matter includes electricity, magnetism, light, and selected topics in modern physics. 48 lecture hours

PHY 1054L General Physics II Laboratory 1 cr.
Prerequisite: MAC 1114, PHY 1053 and PHY 1053L (all completed with grades of "C" or higher). Corequisite: PHY 1054L. A laboratory investigation into fundamental concepts of physics. Topics include electricity, magnetism, optics and modern physics. Lab fee required. 32 laboratory hours

Political Science

INR 2002 World Perspectives: An Introduction to International Relations 3 cr.
Prerequisite: POS 2041 or consent of instructor. A study of the basic principles and actors of the international system with emphasis on the past, present, and possible future roles of the United States in world affairs. 48 class hours

POS 2041 American Federal Government 3 cr.
A study of the theory, organization, principles, and functioning of the Federal Government, emphasizing the relationship of the individual to the government and an study of the U.S. Constitution. 48 class hours

POS 2112 State and Local Government 3 cr.
A study of state, county, and municipal government with emphasis on the newer trends in local government. 48 class hours

Psychology

CLP 2140 Abnormal Psychology 3 cr.
Prerequisite: PSY 1012. An examination of the major categories of mental disorders. Diagnostic criteria, treatment methods, and legislation applicable to the emotionally disturbed are studied. Local agencies which provide services to the mentally disordered are reviewed. 48 class hours
DEP 2002 Child Psychology 3 cr.
Prerequisite: PSY 1012. This course is a study of the evolving child from birth to adolescence. Included in the course are selections on genetics, environment, learning, motivation, and a description of the several stages of childhood including prenatal, infancy, preschool, and the elementary school. 48 class hours.

DEP 2004 Life-Span Development 3 cr.
Prerequisite: PSY 1012. This course is designed to acquaint the student with the theories and perspectives of the human organism's growth from birth to death. The biological, cognitive, language, social, emotional, and personality foundation and development for all age spans will also be studied. 48 class hours.

DEP 2302 Adolescent Psychology 3 cr.
Prerequisite: PSY 1012. This course is a study of the child from the onset of puberty to adulthood. Emphasis is placed on the unique problems encountered during these years pertaining to the physical, emotional, social, familial, and educational growth of the adolescent. 48 class hours.

DEP 2401 Psychology of Adulthood 3 cr.
Prerequisite: PSY 1012. This course focuses on the predictable cases of life encountered between the ages of 18 and 50. 48 class hours.

EXP 1600 Creative Thinking and Imagination 3 cr.
Idea-centered sources of creativity; nature and utilization of imagination; theories and application of creative thought and problem solving. Emphasis is on the importance of imagination in all walks of life and work. "Brainstorming" and case method approaches are stressed. Methods of screening and implementing ideas are studied. The objectives of the course include instilling an awareness of the importance of creative effort and stimulating the student's ability to utilize the creative approach to his/her life and work. 48 class hours.

PSY 1012 Introduction to Psychology 3 cr.
An introduction to the field of psychology in which the student becomes better acquainted with the human being as a biopsychosocial organism. Topics include: scientific method in psychology, interaction of heredity and environment, receptor mechanisms, perception, basic principles of intelligence, motivation, emotion, learning, normal and abnormal reactions to frustration, psychotherapy, and personality structure. 48 class hours.

PSY 1012H Introduction to Psychology (Honors Course) 3 cr.
Prerequisite: Acceptance into PHCC's Honors Program or permission of instructor. This course, designed for academically gifted students, provides more intensive study of psychology thorough critical analysis of primary texts of such thinkers as Freud, Jung, William James, Wilhelm Wundt, John Watson, B.F. Skinner, and others as well as current journal articles. Emphasis will be placed on the application of higher order thinking skills such as analysis, synthesis, and evaluation to understanding the human being as a biopsychosocial organism. Students will be required to read supplementary materials and engage in research. If this course is used to meet the requirements of the AA or AS degree, a grade of "C" or higher must be earned. If this course is used to fulfill the requirements for the Honors Program, a grade of "B" or higher must be earned. Credit cannot be earned for both PSY 1012 and PSY 1012H. 42 class hours.

SOP 2772 Human Sexuality 3 cr.
Prerequisite: PSY 1012 or SYG 2000 or consent of instructor. This course is designed to promote the development of a sound background of factual information about human sexuality that is appropriate for a variety of educational contexts. This course surveys current research, historical, sociological, psychological, cultural, and biological perspectives on the diversity of human sexual experience. 48 class hours.

Reading

EDG 1317 Current Approaches and Tutoring Techniques for Reinforcing Reading Instruction 3 cr.
See Education Courses.

*REA 0001 Basic Reading 4 cr.
See College Preparatory Courses.

*REA 0002 Fundamentals of Reading 4 cr.
See College Preparatory Courses.

REA 1105 College Reading Techniques 3 cr.
A college-level reading course designed to develop and improve college reading skills. The course emphasizes the importance of reading in college courses, and provides practice in reading with specialized equipment and materials. 48 class hours.

REA 1125 Essential Reading Skills (CLAST Review) 1 cr.
This course is designed to prepare students for the College Level Academic Skills Test (CLAST). Classroom activities, assignments, and tests will enable students to measure their reading rates in words per minute (WPM), increase the rates significantly, master the literal and critical comprehension skills necessary to pass the CLAST Reading Comprehension section, and reduce test anxiety by practicing with simulated CLAST reading materials. 16 class hours.

RED 2310 Current Approaches in Teaching Reading 3 cr.
See Education Courses.

Real Estate

REE 1040 Real Estate Principles and Practices I 4 cr.
A study of the legal and economic aspects of real estate. This course involves ownership and transfer of real property, the real estate market, titles, deeds, mortgages, liens, taxation, and property management. It will familiarize the student with real estate laws and principles under which the real estate agent operates. 64 class hours.

REE 2041 Real Estate Principles and Practices II 4 cr.
Prerequisite: 6 months registration as real estate agent. Designed to help prepare the real estate salesperson for the broker's examination. Major topics include contracts, sales, purchase, negotiation, and closing. 72 class hours.

REE 2100 Residential Appraisal 4 cr.
Prerequisite: Must have a current real estate salesperson's license. This course provides the student with a broad understanding of the appraisal process and the technical skills involved in applying these concepts to residential property. Credit may be earned toward fulfillment of professional designation requirements of the Society of Real Estate Appraisers. This course may also be included in the requirements for the B.A. in Real Estate. 64 class hours.

REE 2500 Property Management 3 cr.
Prerequisite: Must have a current real estate salesperson's license. This course acquaints students with efficient property management types, organization, methods, functions, and services. The scope includes property management from single-family to income protection and income producing properties of various sizes and types. 48 class hours.
Sociology

SYG 1361 Death in America  
This course probes mortality, its psychological and social consequences, and the problems it poses for modern Americans. Combining history and recent research findings, the course illuminates such little-discussed issues as grief, euthanasia, suicide, life after death, the dying patient, widowhood, and the impact of the threat of world holocaust. 48 class hours

SYG 1420 Families in Transition  
This course explores the history of the family in America. It includes recent past events and movements that have affected family life; the functioning of the family through various life stages with variations in ethnic, racial, and social class subgroups in American society; and the prospects for the family in the future. 48 class hours

SYG 2000 Introduction to Sociology  
The study of human behavior as a product of group membership and social interaction. Basic concepts include: culture, social organization, social change, social control, social power, power, social movements, role and status, crowd behavior, race and ethnic relations, community, population, social class, and social mobility. 48 class hours

SYG 2000H Introduction to Sociology (Honors Course)  
Prerequisite: Acceptance into PHCC’s Honors Program or permission of instructor. This course deals with human behavior as a product of group membership and social interaction with the goals of familiarizing the student with the vocabulary and methodology of the discipline of sociology and enabling the student to better understand society. Topics of study include group structure, social institutions, socialization, culture, deviance, collective behavior, age and gender roles, racial and ethnic issues, and social change. If used to meet the requirements of the AA or AS degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. Credit cannot be earned for both SYG 2000 and SYG 2000H. 48 class hours

SYG 2100 Social Problems  
American society is viewed as a social system whose ideology and values produce conditions defined by its members as social problems. Emphasis is given to the nature and cause of, and solutions to, these problems. 48 class hours

SYG 2221 Women in American Society  
This course will examine the changing status and roles of women in American society since the turn of the century. Traditional and contemporary sources of gender identity and roles will be explored. 48 class hours

SYG 2430 Marriage and The Family  
A sociological analysis of preparation for marriage and adjustment to family life. Topics such as dating, mate selection, interpersonal relationships, sexual adjustment, financial management, child rearing, and family problems may be covered in the course. 48 class hours

Spanish

SPN 1120 Beginning Spanish I  
This course will introduce beginning students in Spanish to the four communication skills (listening, speaking, reading, and writing), emphasize the correct usage of grammar, and sensitize students to the cultural contributions of the countries in which Spanish is spoken. 64 class hours

SPN 1121 Beginning Spanish II  
Prerequisite: SPN 1120 or consent of instructor. This course will reinforce, expand, and review the basic skills previously acquired; develop increased listening, speaking, reading, and writing skills; and extend knowledge of grammar and the awareness of culture. Content will include more advanced language structures and idiomatic expressions, with a practical emphasis on vocabulary and conversational skills. 64 class hours

SPN 2200 Intermediate Spanish I  
Prerequisite: SPN 1121, two years of high school Spanish, or the equivalent. The content will include, but not be limited to, more advanced language structures and idiomatic expressions, with emphasis on conversational skills. There should be additional growth in vocabulary for practical purposes, including writing. Reading selections will be varied. 64 class hours

SPN 2201 Intermediate Spanish II  
Prerequisite: SPN 2200. The content will include, but not be limited to, more advanced conversation language structures and idiomatic expressions, with emphasis on conversational skills. There should be additional growth in vocabulary for practical purposes, including writing. Reading selections will be varied. 64 class hours

Speech

JOU 2100 Journalistic Writing and Reporting  
See English Courses.

SPC 2600 Introduction to Public Speaking  
This course provides practice in the preparation and delivery of various professional public address forms such as narration, demonstration, inquiry, reporting, invocation, and oral interpretation. Listening and analytic skills will be stressed through student appraisals of both professional and class speeches, including both audio and video taped. If used to meet the requirements of the AA degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. Credit cannot be earned for both SPC 2600 and SPC 2600H. 48 class hours

SPC 2600H Introduction to Public Speaking (Honors Course)  
Prerequisite: Acceptance into PHCC’s Honors Program or permission of instructor. This course provides practice in the preparation and delivery of various forms of public address, emphasizing the skills in informative and persuasive speaking, required by academic, community, and career pursuits in society. Listening and critical thinking will be stressed through student evaluations of both professional and class speeches for the application of sound argumentation and effective delivery. If used to meet the requirements of the AA degree, a grade of "C" or higher must be earned. If used to fulfill the requirements of the Honors Program, a grade of "B" or higher must be earned. Credit cannot be earned for both SPC 2600 and SPC 2600H. 48 class hours

<tbody>
<tr>
<td>PMT 0106</td>
<td>Introduction and Oxyacetylene Welding</td>
<td>3 cr.</td>
<td>This introductory course covers the safe use of equipment and tools. Students learn to identify metals as well as perform oxyacetylene welding and torch cutting. Students are also required to use a computer for research in the development of a written project. This project is presented orally. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0112</td>
<td>Advanced Specialty Oxyacetylene Welding</td>
<td>3 cr.</td>
<td>Prerequisite: PMT 0106 or consent of instructor. A continuation of oxyacetylene welding, specializing in the techniques of mild steel pipe welding and the art of brazing and silver soldering. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0121</td>
<td>Shielded Metal Arc Welding</td>
<td>3 cr.</td>
<td>Emphasizes principles in those types of welding that require the use of shielded metal arc welding (SMAW). A beginning course in welding principles for SMAW. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0122</td>
<td>S.M.A.W. High Technology Skills</td>
<td>3 cr.</td>
<td>Prerequisite: PMT 0121. This course includes shielded metal arc welding of open butt joints welded in the flat, upright, and horizontal positions. The art of pipe welding is stressed. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0131</td>
<td>TIG Welding</td>
<td>3 cr.</td>
<td>An introduction to Tungsten Inert Gas Welding (TIG). The course emphasizes the principles involved in the operating of TIG equipment. A beginning course in welding principles of TIG. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0134</td>
<td>MIG Welding</td>
<td>2 cr.</td>
<td>An introduction to Metallic Inert Gas Welding (MIG). This course includes the principles involved in the operating of MIG equipment. A beginning course in welding principles of MIG. Lab fee required. 60 hours of instruction</td>
</tr>
<tr>
<td>PMT 0135</td>
<td>Advanced Shielded Metal Arc Welding</td>
<td>3 cr.</td>
<td>Prerequisite: PMT 0121 or consent of instructor. A continuation of PMT 0121. An advanced course in welding principles of SMAW. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0138</td>
<td>Advanced MIG/TIG Welding</td>
<td>2 cr.</td>
<td>Prerequisites: PMT 0134, PMT 0131, or consent of instructor. A continuation of PMT 0134 and PMT 0131. An advanced course in welding principles of MIG/TIG welding. Blueprint reading for MIG/TIG welding is included. Lab fee required. 60 hours of instruction</td>
</tr>
<tr>
<td>PMT 0158</td>
<td>Specialty Shielded Metal Arc Welding</td>
<td>3 cr.</td>
<td>Prerequisite: PMT 0135 or consent of instructor. Welding carbon steel, plug, or slot welding, welding of pipe joints, stainless steel, cast iron, hard surfacing, cutting, and blueprint reading are included. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0164</td>
<td>Fabrication of Metal Products Using SMAW</td>
<td>3 cr.</td>
<td>Prerequisite: PMT 0158 or consent of instructor. Fabrication of tubing systems and metal framing is emphasized. Sketches, drawings, and blueprints are included. Math competencies are used extensively in this course. Lab fee required. 90 hours of instruction</td>
</tr>
<tr>
<td>PMT 0175</td>
<td>Fabrication of Metal Products Using MIG/TIG Welding</td>
<td>2 cr.</td>
<td>Prerequisite: PMT 0138 or consent of instructor. Fabrication of tubing systems and metal framing is emphasized. Sketches, drawings, and blueprints are included. Math competencies are used extensively in this course. Lab fee required. 60 hours of instruction</td>

</table>
| HEV 0111    | Child Growth and Development                     | 2.5 cr. | This course will introduce the student to child care services occupations, career options in the industry, the Florida state rules (HRS 10M.12.0313), and legislation which govern child care. In addition, the course is directed toward providing a safe learning environment; promoting good health and nutrition; identifying the physical, social, emotional, and intellectual characteristics of a child from birth through age twelve years, detection of and intervention into child abuse and neglect, and understanding how nutrition, environment, heredity, and disorders may influence the development of a child. In-
HEV 0116 Teaching Young Children 2.5 tech. cr.
Pre- or corequisite: HEV 011. This course will provide opportunities to use a variety of individual and group activities to promote physical, social, emotional, and intellectual development of children. These activities are designed to encourage curiosity, exploration, and problem-solving skills appropriate to the developmental level and learning style of the child. Included in this course is the Child Development Associate (CDA) content area of steps to advance children's physical and intellectual development, positive ways to support children's social and emotional development, and observing and recording children's behavior. Lab fee required. 75 hours of instruction

HEV 0137 Creating a Positive Classroom 2 tech. cr.
Pre- or corequisite: HEV 011. This course presents techniques in providing a positive and supportive classroom environment in which children learn and demonstrate acceptable and inappropriate behaviors as individuals and in groups. Students will have the opportunity to practice in role-playing settings. Emphasis is on cooperative relationships with each child, family, and staff member. Included in this course is the Child Development Associate (CDA) content area of strategies to establish productive relationships with families. Lab fee required. 60 hours of instruction

HEV 0162 Child Care Center Operation Practicum 3 tech. cr.
Pre- or corequisite: HEV 0104. The student will be assigned to a child care facility where decision making and organizational skills, maintenance of records and reports, planning and implementing program activities, and a positive and professional attitude will be demonstrated. This course will apply toward the Child Development Associate (CDA) requirement for direct work with children. A student who is employed in a child care center can use that center as the course site. Student achievement in this course is graded as "Pass/Fail." Professional liability insurance fee required. 90 hours of clinical instruction

HEV 0173 Child Care Supervision Clinical 4 tech. cr.
Prerequisites: Successful completion of all other courses in the program or consent of instructor. This course provides the child care supervision student clinical experiences in a child care day care center. A student who is employed in a child care center can use that center as the course site. Completion of a case study including participation in parent/teacher conference will be required. This course will apply toward the Child Development Associate (CDA) content area of observing and recording children's behavior and the requirement for direct work with children. Students must earn a grade of "Pass" (P) in the clinical to receive a certificate. Professional liability insurance fee required. 120 hours of clinical instruction

HEV 0182 Creating a Positive Classroom Practicum 3 tech. cr.
Pre- or corequisite: HEV 0137. The student will be assigned to a child care facility where techniques in providing a positive and supportive classroom environment will be demonstrated. Emphasis is on cooperative relationships with each child, family, and staff member. This course will apply toward the Child Development Associate (CDA) requirement for direct work with children. A student who is employed in a child care center can use that center as the course site. Student achievement in this course is graded as "Pass/Fail." Professional liability insurance fee required. 90 hours of clinical instruction

HEV 0183 Child Growth and Development Practicum 3 tech. cr.
Pre- or corequisite: HEV 0111. The student will be assigned to a child care facility where the opportunity to develop skills and techniques in planning a safe, healthy, and positive learning environment for children will be provided. This course will apply toward the Child Development Associate (CDA) requirement for direct work with children. A student who is employed in a child care center can use that center as the course site. Student achievement in this course is graded as "Pass/Fail." Professional liability insurance fee required. 90 hours of clinical instruction

HEV 0187 Teaching Young Children Practicum 3 tech. cr.
Pre- or corequisite: HEV 0116. The student will be assigned to a child care facility where group activities to promote physical, social, emotional, and intellectual development of children and techniques in observing and recording children's behavior will be practiced. This course will apply toward the Child Development Associate (CDA) requirement for direct work with children. A student who is employed in a child care center can use that center as the course site. Student achievement in this course is graded as "Pass/Fail." Professional liability insurance fee required. 90 hours of clinical instruction

MRE 0203 Coding for Medical Records 6 tech. cr.
Prerequisites: HSC 0532, a valid CPR card, and an approved 4-hour AIDS seminar. This course includes the history, coding and coding principles, using the Physicians' Current Procedure Terminology (CPT) and the International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) statistical classification systems as used in physicians' offices, hospitals, and other medical facilities. Emphasis will be on the application of coding skills and will include visits to local coding offices. Lab fee required. 180 hours of instruction

COS 0070 Employment Skills/State Board and Florida Cosmetology Law 5 tech. cr.
Prerequisite: COS 0370. This course is designed to provide the student with instruction in professional development (employability skills), and also with an overview of competencies and the process required by the Florida State Board of Cosmetology for licensure and license renewal. This instruction includes composing written reports, giving oral reports, computer skills, and the study of cosmetology law, rules, and regulations. Lab experiences are included in this course. Lab fee required. 150 hours of instruction

COS 0301 Hair Shaping 5 tech. cr.
Prerequisite: COS 0900 or consent of instructor. This course is designed to provide instruction in hairdressing and in the selection of proper hair cutting implements and proper style selection. Lab experiences are included in this course. Lab fee required. 150 hours of instruction

COS 0490 Hairstyling 5 tech. cr.
Prerequisite: COS 0301 or consent of instructor. This course is designed to provide instruction in hairstyling, preparation and principles of design, and fitting of wigs and hair pieces. Lab experiences are included in this course. Lab fee required. 150 hours of instruction

COS 0590 Laboratory Practices, Hair, and Scalp Care 5 tech. cr.
This course is designed to provide instruction in safety and sanitation rules/procedures applicable to the classroom and laboratory environment. A component is included about Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency (AIDS). The course provides instruction in hair shampooing and scalp treatments. Lab experiences are included in this course. Lab fee and professional liability insurance fee required. 150 hours of instruction

COS 0644 Permanent Waving Restructuring 5 tech. cr.
Prerequisite: COS 0400 or consent of instructor. This course is de-
signed to provide instruction in permanent waving and chemical hair restructuring (relaxing). Instruction in analyzing the hair, selection of appropriate solutions, and implements is provided. Lab experiences are included in this course. Lab fee required. 150 hours of instruction.

COS 0700 Hair Coloring 5 tech. cr.
Prerequisite: COS 0644. This course is designed to provide instruction in school, classroom, and laboratory safety rules and procedures. The student will also have an opportunity to develop competencies in all types of hair coloring and bleaching. This instruction includes the use of math skills, analysis of hair and scalp, and selection of correct supplies and equipment. Lab experiences are included in this course. Lab fee required. 150 hours of instruction

COS 0870 Skin Care/Entrepreneurship 5 tech. cr.
Prerequisite: CSP 0006. This course is designed to provide instruction in school, classroom, and laboratory safety rules and procedures. The student is required to participate in the student with an opportunity to develop competencies in facials and makeup. This instruction includes selection of supplies and equipment, sanitation procedures, and performing designated procedures. The student will briefly review entrepreneurship competency and computer skills. Lab experiences are included in this course. Lab fee required. 150 hours of instruction

COS 0920 Cosmetology Review 1 tech. cr.
Prerequisite: Consent of instructor. This course is designed for the student who needs additional hours as required by the State Board of Cosmetology or for the student who needs additional preparation for the State Board examination. It is recommended for the licensed cosmetologist who desires to update knowledge and skills. (May be taken for credit up to five times.) Lab fee required. 30 hours of instruction

CSP 0006 Nail Care 5 tech. cr.
Prerequisite: COS 0700 or consent of instructor. This course is designed to provide the student with instruction in performing manicures, pedicures, artificial nails, and nail wraps. Lab experiences are included in this course. Lab fee required. 150 hours of instruction

CSP 0920 Cosmetology Review - Manicuring, Pedicuring/Nail Extension Specialist 8 tech. cr.
Pre or corequisite: NCH 0001. This course will provide instruction on safety and sanitary measures relative to manicuring and pedicuring; nail structures; nail irregularities and diseases; artificial and sculptured nails and extensions; manicuring and pedicuring; manipulation of the hands and feet; and Florida Cosmetology law and rules. Lab fee and professional liability insurance fee required. 240 hours of instruction

CSP 0921 Cosmetology Review - Facial Specialist 9 tech. cr.
This course will provide instruction on the safety and disinfecting measures relative to faciala; a study of the skin and its structure, functions, and abnormalities; the basic massage movements in performing a facial; how to select appropriate cosmetics, and the techniques used in applying make-up, how to apply false eyelashes, how to tint lashes and brows; and Florida Cosmetology law and rules. Lab fee and professional liability insurance fee required. 270 hours of instruction

DEA 0740 Introduction to Dental Assisting .5 tech. cr.
Prerequisite: Admission to the Dental Assisting Program. Corequisites: DEA 0743, DEA 0745C, and DEA 0741. This course is designed to introduce the dental assisting student to the role and function of the dental assistant as a member of the dental health team. Concepts of the dental health care worker are covered and include history and development of dentistry, legal and ethical responsibilities, communication, and interpersonal relationships. 15 hours classroom instruction

DEA 0741 Anatomy and Physiology
Dental Assisting 1 tech. cr.
Prerequisite: Admission to the Dental Assisting Program. Corequisites: DEA 0742, DEA 0745C, and DEA 0740. This course introduces the dental assisting student to the basic concepts of human anatomy (structure) and physiology (function) on both the gross and cellular level. This course is divided into body systems and emphasizes the relationships between body systems. 30 hours classroom instruction

DEA 0742 Dental Anatomy 1 tech. cr.
Prerequisites: DEA 0741 and DEA 0740. Corequisites: DEA 0743, DEA 0745C, and DEA 0751C. This course is a study of the anatomy and structures in the oral cavity. Topics include primary and permanent dentition, nomenclature and tooth morphology. 30 hours classroom instruction

DEA 0743 Preventive Dentistry for the Dental Assistant .5 tech. cr.
Prerequisite: Admission to the Dental Assisting Program. Corequisites: DEA 0740, DEA 0745C, and DEA 0741. This course is designed to introduce the dental assisting student to the theories and mechanisms of preventive dentistry. Content specific to the role of nutrition in oral health, patient education, disease processes and disease prevention is included. 15 hours classroom instruction

DEA 0744C Dental Materials/Dental Assisting 1.5 tech. cr.
Prerequisites: DEA 0741, DEA 0745C, and DEA 0751C. Corequisites: DEA 0746, DEA 0752C, DEA 0747, and DEA 0750C. This course provides knowledge of composition, properties, reactions, clinical significance, and application of materials commonly used in dentistry. Hands-on experience with equipment and materials is provided in the campus laboratory. Additional laboratory hours may be required. Laboratory fee required. 15 hours classroom instruction and 30 laboratory instruction

DEA 0745C Dental Radiography/Dental Assisting 2 tech. cr.
Prerequisites: Admission to the Dental Assisting Program. Corequisites: DEA 0742, DEA 0741, and DEA 0740. This course covers the history of x-rays, production and uses of x-rays, and background and theory for safe and effective use of radiation in dentistry. Included are the physical behavior and biological effects of radiation. The laboratory component of this course provides the opportunity for the student to develop proficiency in exposing diagnostically acceptable x-rays. Laboratory sessions provide experience in the use of x-ray machines, various exposure techniques, processing, mounting, and evaluating radiographs. Additional laboratory hours may be required. Laboratory fee required. 15 hours classroom instruction and 45 laboratory instruction

DEA 0746 Dental Office Emergencies .5 tech. cr.
Prerequisites: American Heart Association CPR Certification Course C and DEA 0751C. Corequisites: DEA 0744C, DEA 0750C, DEA 0752C, and DEA 0747. This course prepares the dental assisting student to recognize and manage medical emergencies in the dental office. 15 hours classroom instruction
DEA 0747 Dental Office Management/Dental Assisting  
Prerequisite: DEA 0751C. Corequisites: DEA 0752C, DEA 0756C, DEA 0754, and DEA 0745C. This course includes elements of efficient time management, scheduling, personal interactions, recall systems, filing, insurance forms and procedures, resume and letter writing, and interviewing and employment opportunities. 15 hours classroom instruction.

DEA 0750C Expanded Functions/Dental Assisting  
Prerequisite: DEA 0751C. Corequisites: DEA 0744C, DEA 0747, and DEA 0746. This course is designed to provide the dental assisting student with knowledge and clinical skills needed to satisfy requirements for certification in expanded functions as defined in the Florida State Dental Practice Act. Student achievement in this course is graded as "Pass/Fail." Lab fee required. 5 hours classroom instruction, 10 hours laboratory instruction and 15 clinical hours.

DEA 0751C Dental Assisting Clinical Procedures I  
Prerequisite: DEA 0740C. Corequisites: DEA 0745C, and DEA 0742. This course introduces the dental assisting student to clinical skills and procedures through patient care, patient education, instrumentation, and aseptic techniques. Additional laboratory hours may be required. 15 hours classroom instruction, 35 hours laboratory instruction, and 10 clinical hours.

DEA 0752C Dental Assisting Clinical Procedures II  
Prerequisite: DEA 0751C. Corequisites: DEA 0744C, DEA 0746, DEA 0750C, and DEA 0747. This course introduces the dental assisting student to clinical procedures in general dentistry and introduces the student to his or her role in dental specialties. Additional laboratory hours may be required. 25 hours classroom instruction, 25 hours laboratory instruction, and 10 clinical hours.

DEA 0753 Clinical Externship I/  
Dental Assisting  
Prerequisite: DEA 0752C. This course provides the student with clinical experiences in dental offices and clinics under the supervision of faculty and dentists. Experiences include chairside assisting, dental office assistant responsibility, radiography, client instruction, and campus seminars. 120 clinical hours.

DEA 0754L Clinical Externship II/  
Dental Assisting  
Prerequisite: DEA 0753. This course is a continuation of DEA 0753. Experiences in dental offices will provide an opportunity to improve communication skills and to increase manual dexterity, speed and efficiency. The full range of office assisting duties is experienced. Student achievement is graded as "Pass/Fail." 120 clinical hours.

FPP 0065 Fire Physical Fitness, Ventilation & Salvage  
Prerequisite: FPP 0064. This course is the fourth course in a series of six in the Fire Fighting Program. This course will include physical fitness exercises, ventilation, and salvage. 60 hours of instruction.

FPP 0067 Hazardous Material and Fire Review  
Prerequisite: FPP 0065. This course is designed to present to the student the most up-to-date information and requirements on handling hazardous materials. Topics include transportation, regulatory labeling, code requirements, investigation, and identification of hazardous materials. 60 hours of instruction.

FPP 0069 Fire Rescue and Controlled Burns  
Prerequisite: FPP 0065. This is the fifth in a series of six courses in the Fire Fighting Program. This course will include fire, vehicle, ladder, and rope rescue; fundamentals of extinguishing; forcible entry; controlled burning; hazardous materials; and overhaul. Lab fee required. 60 hours of instruction.

FPP 0077 First Responder and Fire Terminology  
Prerequisite: Complete all program entrance requirements. This course will cover the first responder and fire terminology used in the Fire Fighting Program. The course will include the use of terms related to the field of fire fighting, and the ability to understand the basic terms used in the field. 20 hours of instruction.

FPP 0081 Volunteer Fire Fighting  
The purpose of this course is to prepare students for non-paid employment as volunteer fire fighters. This course meets the requirements of the State Bureau of Fire Standards and Training. 60 hours of instruction.

FPP 0082 Fire Behavior, Tools and Equipment  
Prerequisite: FPP 0077. This course is the second in a series of six courses in the Fire Fighting Program. This course will include the following topics: fire behavior, portable extinguishers, protective breathing equipment, apparatus and equipment, tools and equipment, ropes, knots, and ladders. Lab fee required. 60 hours of instruction.

FPP 0084 Fire Hose and Fire Streams  
Prerequisite: FPP 0082. This course is the third in a series of six courses in the Fire Fighting Program. This course will cover the fire hose, fire stream, and fire stream calculations. 20 hours of instruction.

FPP 0083 Fire Fighting Review  
Prerequisite: FPP 0069. This is the final course in a series of six courses in the Fire Fighting Program. It will include review of the major topics covered in the previous courses. 30 hours of instruction.

CVT 0507 Basic Arrhythmias  
Prerequisite: HSC 0531 or consent of instructor. This course introduces the student to the fundamentals of electrocardiography. 10 hours of instruction.

WCL 0200 Health Unit Coordinator Clinical  
Prerequisite: Successful completion of all other courses required in the program or consent of the instructor. This course provides the student with clinical experience in a health care facility. 120 hours of instruction.

WCL 0241 Health Unit Management  
Prerequisite: HSC 0531. This course introduces the student to the work practices and clerical duties required in a health care facility. 120 hours of instruction.
medications for administration by other hospital personnel; maintaining patients records; and organizational skills will be emphasized. 60 hours of instruction.

**HEALTH - TECHNICAL**

**HSC 0531 Medical Language I** 1 tech. cr.
This course is directed toward the learning of medical terminology needs for medical personnel, nursing assistants and other interested in related medical fields. The learning of the medical language is organized according to body systems and includes the fundamental understanding of the anatomy, physiology, and disease process of each system to include basic word structure, terms pertaining to the body, and suffixes and prefixes. The following body systems are discussed: cardiovascular, respiratory, digestive, nervous, and musculoskeletal. 30 hours of instruction.

**HSC 0532 Medical Language II** 1 tech. cr.
Prerequisite: HSC 0531. This course is a continuation of HSC 0531 and includes genitourinary systems, blood and lymphatic systems, integumentary, sense organs, endocrine system, radiology, nuclear medicine, and pharmacology. 30 hours of instruction.

**HSC 0641 Legal & Ethical Aspects in Health Care** 1 tech. cr.
This course introduces students to health care delivery systems, the recognition of safety, security and emergency measures, roles and responsibilities, and patient rights within the system. The student will also evaluate ethical issues as they relate to the health care field. 30 hours of instruction.

**MRE 0430 Fundamentals of Disease Process** 1 tech. cr.
Prerequisite: HSC 0532. This course emphasizes general principles, classifications, causes, and treatments of disease processes. The course will be presented as a system approach to the study of disease. 30 hours of instruction.

**MRE 0440 Pharmacology for Health Professionals** 1 tech. cr.
Prerequisite: HSC 0532. This course is designed for students who will not be administering medications, but need general knowledge of classifications, common usages, and dosages of medications commonly prescribed for patients. This is an introductory course including principles of pharmacology, drug action, and therapy. Correct spelling and format as well as math functions are emphasized. 30 hours of instruction.

**LANDSCAPE OPERATIONS**

**IPM 0631 Ornamental Plant Pest Control** 3 tech. cr.
Identifying and controlling diseases, insects, and other pests of ornamental plants and landscape trees are included. Application and safety precautions of horticultural chemicals and natural controls are emphasized. 90 hours of instruction.

**ORH 0000 Introduction to Ornamental Horticulture** 3 tech. cr.
An overview of the horticulture industry with particular emphasis on the ornamental segment. An introduction to plant parts, their functions, and growth requirements is included. Students will be expected to produce a computer a written report. The report will be presented orally to the class. 90 hours of instruction.

**ORH 0021 Ornamental Plant Propagation** 3 tech. cr.
The methods of plant propagation, including sexual and asexual reproduction, are emphasized. Seedling, transplanting, seeding care, and production of ornamentals, flowers, citrus, and landscape trees are included. 90 hours of instruction.

**ORH 0023 Introduction to Plant Growing Media** 3 tech. cr.
An introduction to plant growing media including types of soils, water, drainage, potting materials, and mixtures in container production. Fertilizer materials and formulas and their relation to plants and soil are included. 90 hours of instruction.

**ORH 0220 Introduction to Lawns and Lawn Care** 3 tech. cr.
An introduction to establishing and caring for lawns and other turf grasses. Selection, establishment methods, and maintenance of grasses are included. 90 hours of instruction.

**ORH 0251 Nursery/Garden Center Design and Operation** 3 tech. cr.
An introduction to the ornamental nursery business. Topics covered include location, layout and design, inventory and control, and merchandising and customer service. The role of the center as a hub of landscaping installations and maintenance is emphasized. 90 hours of instruction.

**ORH 0260 Greenhouse Operations** 2 tech. cr.
Various kinds of greenhouses and shadehouses are included. Plant production in the greenhouses/shadehouses is emphasized. 60 hours of instruction.

**ORH 0510 Identification of Ornamental Plants I** 3 tech. cr.
An introductory to plant classification, selection, and identification. Identification of the interior landscape plants of Florida is emphasized. 90 hours of instruction.

**ORH 0511 Identification of Ornamental Plants II** 3 tech. cr.
A continuation of ORH 0510. Additional plants will be classified and identified. 90 hours of instruction.

**ORH 0800 Landscaping and Design** 3 tech. cr.
An introduction to home and commercial landscaping. The basic principles of landscape designs will be introduced. Basic mathematical skills are used to develop landscape plans. 90 hours of instruction.

**ORH 0806 Landscape Installation and Maintenance** 3 tech. cr.
Prerequisite: Consent of instructor. A continuation of ORH 0800. Concepts of installation and maintenance as they relate to landscape design will be introduced. 90 hours of instruction.

**LAW ENFORCEMENT**

**NOTE:** Courses for Law Enforcement Auxiliary Officer, Law Enforcement Basic Recruit, and Correctional Officer are listed under this heading.

**CJD 0101 Patrol and Investigative Procedures for Auxiliary Law Enforcement Officers** 1 tech. cr.
This course will examine the attitude of the community and law enforcement personnel as they relate to one another. The auxiliary officer's responsibility in patrolling and protecting the community will be covered. Techniques for effective patrol and investigation will be emphasized. Legal techniques for working with juveniles and juvenile offenders will be addressed. 90 hours of instruction.

**CJD 0102 Criminal Law for Auxiliary Law Enforcement Officers** 1 tech. cr.
Prerequisite: Admission to program. This course provides an introductory overview of the criminal justice system. The basic components of law are studied with specific focus on auxiliary officer application and civil and criminal liability. An overview of constitutional
CJD 0103 Auxiliary Law Enforcement Medical
First Responder
The Department of Transportation’s (DOT) first responder techniques needed in emergency medical situations are taught. The major types of communicable diseases among adults, signs and symptoms of each disease, and the methods of transmission are taught. 30 hours of instruction

CJD 0104 Defensive Tactics for Auxiliary Officers
This course introduces the auxiliary officer to the techniques used for an officer's personal safety and those necessary to subdue, search, and transport resisting individuals. The use of restraining devices, impact weapons, and pressure points are covered. Lab fee required. 50 hours of instruction

CJD 0254 Criminal Justice Medical First Responder
The Department of Transportation’s first responder techniques needed in emergency medical situations are taught. The major types of communicable diseases among adults, signs and symptoms of each disease, and the methods of transmission are discussed. The Local Disaster Preparedness Plan will also be addressed in lecture and simulation. Lab fee required. 45 hours of instruction

CJD 0704 Criminal Justice Defensive Tactics
The techniques used for an officer's personal safety and those necessary to subdue, search, and then transport resisting individuals are included. The use of restraining devices, impact weapons, and pressure points are covered. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. Physical fitness training will include running and calisthenics. Lab fee required. 75 hours of instruction

CJD 0705 Criminal Justice Weapons
Instruction is provided in the use of officer firearms, including handguns and shotguns. Safety procedures and ammunition are covered in lecture format. Instruction regarding the use of chemical agents, with practical exercises, is included. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. Lab fee required. 60 hours of instruction

CJD 0710 Criminal Justice Legal I
Prerequisite: Admission to the program. This course provides an introductory overview of the Criminal Justice system. The foundation and basic components of law are studied, with specific focus on officer application. Court procedure and testimony are examined, and civil and criminal liability of officers are studied. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 45 hours of instruction

CJD 0711 Criminal Justice Legal II
This course provides an introduction to constitutional law and its application to the police and to law enforcement officers. Law, including evidence procedures, arrest law, search and seizure, and various statutory laws common to police and correctional officers, is studied. Emphasis is given to elements of various crimes. Various civil law applications are included also. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 45 hours of instruction

CJD 0712 Criminal Justice Communications
The report writing process is emphasized and includes: the interview, statement taking, note-taking, and demonstrating through practical exercise. The difference between interviewing and interrogation is explored. Interpersonal communication skills are covered along with radio and telephone procedures. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 45 hours of instruction

CJD 0713 Criminal Justice Interpersonal Skills I
Community relations techniques and courtesy are addressed, with emphasis given to crime prevention. The needs of various groups within society are addressed, including: juveniles, the elderly, ethnic and cultural groups, the mentally ill and retarded, the physically handicapped, and substance abusers. Intervention techniques for various situations, including: suicide, domestic violence, and other crises are studied. Practical exercises are included. Stress recognition and reduction are included also. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. Employability skills for the Criminal Justice System will also be explored. 60 hours of instruction

CJD 0715 Criminal Justice Physical Fitness & Wellness
The level of fitness and well-being of the law enforcement officer will influence job performance and impact on the officer's state of readiness. Health and disability status of officers will be addressed. The importance of nutrition and exercise will be emphasized. A physical fitness assessment will be completed to evaluate individual levels of fitness. Aerobic fitness will be emphasized. 30 hours of instruction

CJD 0725 Law Enforcement Vehicle Operations
Valid Florida driver’s license. The components of the police driving environment are explored, and practical exercises on the driving range are conducted. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. Lab fee required. 60 hours of instruction

CJD 0730 Law Enforcement Legal III
Various criminal laws and their elements are studied, with emphasis placed upon those laws specific to police application. Traffic and driver’s license laws are included. Legal considerations of officer vehicle operation are also explored. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 30 hours of instruction

CJD 0731 Law Enforcement Patrol
This course addresses the daily skills and techniques needed by officers to perform patrol tactics and respond to different types of calls. Methods of approach to various high-risk situations are explored, with practical exercises included. Unusual occurrence events, including fire
fighting and crowd control, are included. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 45 hours of instruction

CJD 0732 Law Enforcement Traffic 1.5 tech. cr.
The course stresses traffic enforcement and control, including DUI offenses and enforcement. Math calculations as they pertain to traffic accident investigation will be performed. Traffic accident investigation, scene management, and reporting procedures are studied. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 45 hours of instruction

CJD 0734 Law Enforcement Investigations 2 tech. cr.
The course addresses the investigation of various crimes, including property crimes, person crimes, narcotics offenses, vice, organized crime, terrorist activity, bombing incidents, and death investigations. Techniques are developed from the initial observation methods through the processing of the crime scene and case presentation. Florida's computer network is studied as an information source. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 60 hours of instruction

CJD 0741 Criminal Justice Emergency Preparedness 1 tech. cr.
Skills needed for riot and disturbance control and firefighting are studied and practiced. Methods of prevention, handling of unsual occurrences, what to do if hostages are taken, and emergency procedures are discussed. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 30 hours of instruction

CJD 0750 Criminal Justice Interpersonal Skills II 2 tech. cr.
The interpersonal skills needed by officers to understand the incarcerated society are explored, with emphasis upon supervision methods. Inmate adjustment and the various segments of the society are studied. Homosexuality, female inmates, deception, and manipulation by inmates, and institutional criminalities are discussed. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 60 hours of instruction

CJD 0752 Correctional Operations 2 tech. cr.
The operation of correctional facilities is studied, including the intake of new inmates, aspects of their daily care, institutional procedures, and techniques utilized by officers to perform daily tasks. Mathematical calculations will also be taught as they pertain to inmate populations. Objectives are addressed as specified by the Criminal Justice Standards and Training Commission. 60 hours of instruction

CJD 0780 Legal Summary for Law Enforcement 1 tech. cr.
Prerequisite: Law Enforcement Basic Academy. This course provides job-related training at the entry level to candidates seeking certification for Correctional Officer positions and who have completed the Law Enforcement Basic Academy. The curriculum is prescribed by the FDLE, Criminal Justice Standards & Training Commission in accordance with Florida statutes. 30 hours of instruction

CJD 0781 Legal Summary for Corrections 1 tech. cr.
Prerequisites: The student must have completed the Correction Basic Recruit Program. This course provides job-related training at the entry level to candidates seeking certification for law enforcement positions who have already completed the Corrections Basic Recruit Program. The curriculum is prescribed by the Florida Department of Law Enforcement, Criminal Justice Standards and Training Commission in accordance with Florida statutes. 30 hours of instruction

CJD 0796 Legal Summary for Probation and Parole 2 tech. cr.
Prerequisite: The student must have completed the Correctional Probation Academy. This course provides job-related training at the entry level to candidates seeking certification for law enforcement positions who have already completed the Correctional Probation Academy. The curriculum is prescribed by the Florida Department of Law Enforcement, Criminal Justice Standards and Training Commission in accordance with Florida statutes. 60 hours of instruction

CJD 0797 Communication and Interpersonal Skills for Probation and Parole 2 tech. cr.
This course provides job-related training at the entry level to candidates seeking certification for law enforcement positions who have already completed the Correctional Probation Academy. The curriculum is prescribed by the Florida Department of Law Enforcement, Criminal Justice Standards and Training Commission in accordance with Florida statutes. 60 hours of instruction

CIT 0801 Security/Basic "D" 1.5 tech. cr.
This course will allow the participants to meet the requirements of the Florida Department of State Division of Licensing to become a Class "D" Security Officer. 45 hours of instruction

**MEDICAL RECORD TRANSCRIBING**

MTS 0231 Medical Record Transcribing I 2 tech. cr.
Prerequisites: OTA 0101 or equivalency and HSC 0531. This course is designed to teach medical record transcribing techniques and procedures. Topics to be covered include medical reports, medical correspondence, case histories, physicians notes, discharge summaries, and specific rates for medical transcription. Lab fee required. 60 hours of instruction

MTS 0232 Medical Record Transcribing II 4 tech. cr.
Prerequisite: MTS 0231 or consent of instructor and a valid CPR card and an approved 8-hour AIDS seminar. This course is an in-depth study of the types of medical reports and their components. Qualitative and quantitative control standards, phonetic, and language of various medical specialties, including pharmacology, will be included. Students will progress from intermediate to advanced transcription, and the transition from student to professional is emphasized. The course includes visits to local medical record transcribing settings. Lab fee required. 120 hours of instruction

**MEDICAL SECRETARIAL/EXAMINING ROOM ASSISTANT**

MEA 0200 Examining Room Procedures 3 tech. cr.
Prerequisite: HSC 0532. This course is designed to provide the medical secretarial student with instruction in the clinical procedures of a medical office. Emphasis is placed on assisting the physician in patient examination, vital signs; treatment and minor surgery; lab testing; drug administration; and phlebotomy techniques. Lab fee required. 90 hours of instruction

OTA 0609 Medical Office Procedures 3 tech. cr.
Prerequisites: OTA 0101 and HSC 0531. This course includes instruction in medical office procedures, record keeping, appointment scheduling, telephone skills, and financial record management, patient billing, and insurance claims filing. Lab fee required. 90 hours of instruction

OTA 0627 Medical Secretarial Clinical 3 tech. cr.
Prerequisite: Successful completion of all other program courses or consent of instructor; a completed Physical Examination Report (SAR-40-A); and a valid CPR card. This course is designed to provide the medical secretarial student with practice in administrative and basic clinical procedures in a medical office. Emphasis is placed on proficiency in filing, telecommunications, insurance reporting and coding, medical accounting procedures, record processing, assisting the physician in patient examination and minor surgery, basic lab testing, and reporting. Student achievement in this course is based on "Pass/Fail." Professional liability insurance fee required. 60 hours of front office and 30 hours of back office clinical instruction
PATIENT CARE ASSISTANT/ HOME HEALTH AIDE

HCP 0500 Personal Patient Care I 2 tech. cr.
Corequisite: HSC 0531. This course is designed to prepare the patient care assistant student to provide personal patient care, geriatric care, and biological, psychological, and social support. Lab fee required. 60 hours of instruction

HCP 0690 Personal Patient Care II 2 tech. cr.
Prerequisites: HCP 0500. This course is a continuation of HCP 0500 and is designed to prepare the patient care assistant student to provide advanced personal patient care. This care includes home health care services, rehabilitative activities, nutrition principles, and patient care plan. Lab fee required. 60 hours of instruction

HCP 0610L Patient Care Assistant Clinical 3 tech. cr.
Prerequisites: Successful completion of all other courses required in the program or consent of instructor. A completed Physical Examination Report (SEP-40-A), a valid CPR card, and an approved 4-hour AIDS seminar. This course provides the patient care assistant student clinical experiences in a nursing home and a home health agency. The student must receive a grade of "Satisfactory" in the clinical portion in order to take the Florida Nursing Assistant Certification Examination and to receive a certificate. Student achievement in this course is graded as "Pass" or "Fail." Professional liability insurance fee required. 90 hours of clinical instruction

PRACTICAL NURSING

PRN 0001C Fundamentals of Practical Nursing 5 tech. cr.
Prerequisite: Admission to the Practical Nursing Program. Corequisite: PRN 0020. This pre-clinical lecture/laboratory course introduces the student to the role and function of the Licensed Practical Nurse (LPN). The content includes concepts and skills fundamental to the nursing care of people throughout the adult life span. The activities covered include nutrition; individual, family, and community health; medical asepsis; communicable diseases and HIV-AIDS; basic nursing skills and procedures. Additional laboratory practice may be required. Lab fee required. Purchase of a laboratory skills kit is required. 150 hours of classroom and laboratory instruction

PRN 0020 Body Structure and Function 1 tech. cr.
Prerequisite: Admission to the Practical Nursing Program. Corequisite: PRN 0001C. This course is designed to introduce the practical nursing student to basic concepts and principles of human structure (anatomy) and function (physiology). The emphasis is on the interaction of all body systems. 30 hours of classroom instruction

PRN 0030C Pharmacology/Practical Nursing 1 tech. cr.
Prerequisites: PRN 0001C and PRN 0020. Corequisite: PRN 0020C. This course is designed to introduce the practical nursing student to basic pharmacologic principles and concepts. The content includes theoretical and practical aspects of drugs, medications, and procedures related to nursing care of adult patients. 30 hours of classroom and laboratory instruction

PRN 0100C Obstetrical Nursing 3.5 tech. cr.
Prerequisite: PRN 0201C. Corequisite: PRN 0202C. This course is designed to provide the practical nursing student with theory and clinical application of concepts specific to the care of obstetrical clients which includes antepartum, labor and delivery, and postpartum clients; and the care of newborns. Additional laboratory practice may be required. Lab fee required. 45 hours of classroom and laboratory instruction and 60 hours of clinical instruction

PRN 0110C Pediatric Nursing 3.5 tech. cr.
Prerequisites: PRN 0200C and PRN 0030C. This course is designed to provide the practical nursing student with theory and clinical application of concepts specific to developmental norms, health maintenance, and the nursing care and management of children of various age groups. Additional campus laboratory hours may be required. Lab fee required. 45 hours of classroom and laboratory instruction and 60 hours of clinical instruction

PRN 0200C Medical-Surgical Nursing I 9 tech. cr.
Prerequisite: PRN 0001C. Corequisites: PRN 0020, PRN 0030C, and current CPR certification. This course is designed to provide the practical nursing student with theory and clinical application of concepts specific to the care of the adult medical-surgical client. The use of the nursing process is emphasized. Concepts specific to the care of clients with diseases/disorders of the respiratory, cardiovascular, neurological, gastrointestinal, musculoskeletal, and endocrine systems and vision and hearing disorders are included. The care of clients with malignancies is also included. Additional laboratory practice may be required. 165 hours of classroom and laboratory instruction and 210 hours of clinical instruction

PRN 0201C Medical-Surgical Nursing II 12.5 tech. cr.
Prerequisite: PRN 0200C. Corequisite: PRN 0110C. This course is designed to provide the practical nursing student with additional theory and clinical application of nursing care of the adult medical-surgical client. The use of the nursing process is emphasized. Concepts specific to the care of clients with diseases/disorders of the reproductive, urinary and intergumentary systems, and vocational adjustment are included. Additional laboratory practice may be required. 165 hours of classroom and laboratory instruction and 210 hours of clinical instruction

PRN 0202C Medical-Surgical Nursing III 4.5 tech. cr.
Prerequisite: PRN 0201C. Corequisite: PRN 0100C. This course is designed to provide the practical nursing student with additional theory and clinical application of nursing care of the adult medical-surgical client. Use of the nursing process is emphasized. Concepts specific to the care of clients with diseases/disorders of the reproductive, urinary and intergumentary systems, and vocational adjustment are included. Additional laboratory practice may be required. 32 hours of classroom and laboratory instruction and 103 hours of clinical instruction
LISTING OF FACULTY, ADMINISTRATORS & STAFF

Adams, Jean M., Associate Professor, Biology, West Campus; B.S., Auburn University; M.Ed., Georgia State University; M.S., University of South Florida

Adams, Kim C., Adjunct Faculty, Biological Sciences, Dual Enrollment, East Campus; A.A., St. Petersburg Junior College; B.S., University of South Florida; M.A., University of South Florida

Adams, Michael P., Associate Dean, Health, Mathematics, & Science; A.A., St. Petersburg Junior College; B.A., University of South Florida; M.S., Michigan State University; Ph.D., University of South Florida

Akins, Sherilyn R., Case Manager, Wages Coalition, East Campus; A.A., Lake-Sumter Community College; B.A., University of South Florida

Allen, Carol A., Professor, Language Arts, North Campus; B.A., West Virginia Wesleyan College; M.A., Wayne State University

Allleyne, Liza, Adjunct Faculty, College Prep., Mathematics, West Campus; B.A., The City College of New York; M.S., Brooklyn College

Allison, Ronald R., Adjunct Faculty, Business Administration, West Campus; B.S., Indiana University; M.B.A., Loyola University; M.A., Notre Dame Seminary; M.Div., The Jesuit School of Theology at Berkeley

Ambrosey, Deborah G., Professor, Language Arts, East Campus; B.A., University of South Florida; M.A., University of South Florida

Amman, Nancy M., Adjunct Faculty, Dental Programs, West Campus; B.S., University of Louisville

Anderson, Sandra E., Advisor, Financial Aid, North Campus; B.A., SUNY College at Fredonia; M.S., Florida State University

Asikala, Imani D., Equity Officer/Majority Recruiter; B.A., Morris Brown College; M.P.A., Clark Atlanta University

Anstine, Marcia M., Adjunct Faculty, College Prep., Mathematics, North Campus; B.S., St. Francis College; M.S., Fordham University

Avery, Marvin A., Technical Support Specialist

Awe, Michael K., Adjunct Faculty, Electronic Engineering, West Campus; B.S., Texas A&M University

Bade, Robert E., Coordinator of Student Activities; B.A., Eckerd College; M.A., John F. Kennedy University

Baker, Daniel L., Computer/Network Support Specialist, East Campus; A.S., Tampa College

Baker, Joyce, Associate Professor, Business Administration/Computer Programming & Applications, North Campus, B.A., Eastern Illinois University; M.B.A., University of South Florida

Balloul, Mourad S., Associate Professor, Mathematics, East Campus; B.S., University of Houston; M.S., University of Houston

Balon, Michelle J., Assistant Dean of Student Services/Counselor, East Campus; B.A., State University of New York at Fredonia; M.S., State University of New York at Buffalo

Barker, Felisha R., Advisor, East Campus; A.A., Pasco-Hernando Community College; B.A., University of Central Florida

Bartels, David L., Network Manager; B.S., Mississippi State University

Bartos, Mary E., Adjunct Faculty, Business-Technical, North Campus; B.A. Western Illinois University

Baumbach, Catherine M., Executive Director of the Foundation; B.A., Northern Illinois University; M.A., University of Michigan

Beagle, H. Denn, Adjunct Faculty, Social Sciences, North Campus; B.A., University of North Dakota; M.A., East Texas State University

Bell, Carmine J., Professor, Language Arts, West Campus; B.S., Xavier University; M.A., John Carroll University; Ph.D., University of Virginia

Bermender, Carl L., Adjunct Faculty, Business Administration, West Campus; A.S., Pasco-Hernando Community College

Beyer, Hans J., Adjunct Faculty, Mathematics, West Campus; B.S., Purdue University; M.S., Purdue University

Billodeau-McKay, Nicole A., Disabilities Services Specialist; B.A., University of Central Florida

Bjorklund, Kimberly L., Staff Accountant; A.S., Pasco-Hernando Community College; A.A., Pasco-Hernando Community College; B.S., University of South Florida

Blevins, Norman W., Adjunct Faculty, Biology, North Campus; B.A., Pacific Union College; M.A., Andrews University; M.D., Cetec University

Blue, Leon D., Adjunct Faculty, Computer Programming & Applications, North Campus; B.S., Arkansas State University; M.S., Florida Institute of Technology

Browman, Robert J., Jr., Athletic Director/Instructor, West Campus; B.S., Florida Southern College; M.Ed., Rollins College; Ed.D., University of Southwest Louisiana

Brannan, Gary E., Assistant Professor, Biology, West Campus; B.A., University of South Florida; M.A., University of South Florida

Briggs, Bridgette A., Assistant Coordinator of Student Activities, East Campus; A.A., Pasco-Hernando Community College; B.S., Florida State University; M.Ed., Florida Atlantic University

Brinkley, Carol L., Assistant Professor, Dental Programs, West Campus; B.S., West Virginia University; M.B.A., Nova Southeastern University

Brooks, Gayle W., Dean of Career & Technical Programs and Director, Division of Business; B.S., University of Tampa; M.A., University of South Florida

Brown, Merry P., Assistant Professor, Nursing, North Campus; B.N., Ellis Hospital School of Nursing; B.S., University of Minnesota; M.S.N., University of Minnesota

Bryan, Tammarra L., Adjunct Faculty, Psychology, East Campus; B.S., Ohio State University; M.A., Boston University

Bullock, Marlon D., Associate Dean, Arts, Letters, and Social Sciences; B.S., Old Dominion University; M.A., University of Georgia; Ph.D., University of Georgia

Bunting, Ann, Instructor, Language Arts, West Campus; B.A., Queens College; M.A., Queens College; J.D., Brooklyn Law School, Ph.D., University of South Florida

Burcham, Juan R., Professor, Mathematics, East Campus; B.A., St. Leo College; M.A., University of South Florida; Ed.D., Nova University

Burdzinski, Donna R., Case Manager, Wages Coalition, North Campus; B.A., Purdue University; M.S., Purdue University

Burdzinski, Kenneth R., Vice President of Business Services; B.B.A., Eastern Michigan University; M.B.A., Baldwin-Wallace College

Butler, Douglas A., Associate Director of Libraries, West Campus; B.A., University of South Florida; M.A., University of South Florida
Hardecker, Karen C., Instructor, Nursing, East Campus; B.S., University of South Florida
Harres, Burton H., Jr., Provost, North Campus/Legislative Liaison; B.S., Southeast Missouri State University; M.S., Indiana University; Ph.D., University of Florida
Harrison, Patricia A., Adjunct Faculty, Computer Programming & Applications, North Campus; A.A., Lake-Sumter Community College; B.A., University of South Florida
Hatchett, Donna D., Adjunct Faculty, Business-Vocational, East Campus
Haymon, Martha J., Instructor, PN, West Campus; B.S., Ball State University
Haywood, Bertha E., Adjunct Faculty, Mathematics, Dual Enrollment, West Campus; B.S.Ed., Ohio University; M.Ed., Miami University
Hend, Cynthia L., Associate Professor, Mathematics, West Campus; B.S., Southwest Missouri State College; M.A., University of Arkansas
Helfrich, David C., Professor Emeritus, Psychology, West Campus; B.M., University of Rochester; M.Ed., University of Florida; Ph.D., University of Georgia
Hentz, M. Lois, Professor, Language Arts, North Campus; A.A., Housatonic Community College; B.S., Southern Connecticut State College; M.A., University of South Florida
Hillen, Matthew T., Advisor, Financial Aid, East Campus; B.S., University of Dayton; M.A., University of Pittsburgh
Hinkle, Ronald L., Advisor, West Campus; B.A., West Liberty State College; M.B.A., Nova Southeastern University
Hlad, Gregory M., Assessment Coordinator, Career Center, West Campus; B.Ed., University of Miami
Holland, Leland N., Instructor, Biological Science, West Campus; B.S., Augusta State University; Ph.D., Medical College of Georgia
Hollingsworth, James L., Professor, Social Science, West Campus; B.A., University of Texas; M.A., Texas Christian University; Ph.D., Texas Christian University
Hoover, Katherine D., Health Laboratory Assistant, North/East Campus; B.A., Western Michigan University; M.A., Western Michigan University
Hopkins, Edward, Financial Services Manager/Foundation; B.B.A., Iona College
Horner, Lind J., Grant and Curriculum Coordinator, West Campus; B.A., Glassboro State College; M.S., Wheelock College
House, Paul L., Jr., Supervisor of Physical Facilities; B.A., Washington State University; M.S., University of Illinois
Howe, Robert J., Adjunct Faculty, College Prep., Mathematics, West Campus; A.A., Evergreen Valley College; B.A., San Jose State University
Hunt, Frankie L., Adjunct Faculty, Health, North Campus; B.S., Delta State College; M.E., The University of Mississippi; Ed.D., The University of Mississippi
Hykes, Lisa M., Adjunct Faculty, Physical Education, North Campus; B.S., University of South Florida
Imperatore, Jean M., Adjunct Faculty, Mathematics, West Campus; B.S.Ed., Ohio University; M.Ed., University of South Florida
Jaap, Charles O., IV, Associate Professor, Human Services, West Campus; B.A., Thomas Edison College; B.A., Trenton State College; M.S., Jacksonville State University
Jackson, Constance L., Adjunct Faculty, Child Care Supervision, West Campus; B.A., Clayton State College
Jameson, Barbara E., Associate Director of Libraries, North Campus; A.S., Brigham Young University; B.S., University of South Florida; M.A., University of South Florida
Johns, Charlotte D., Director of Financial Aid/Veteran Services, West Campus; B.A., Eckerd College
Jones, Milton O., President Emeritus; B.M., Stetson University; M.R.E., New Orleans Baptist Theological Seminary; M.S.M., New Orleans Baptist Theological Seminary; Ph.D., Florida State University; Post-Doctoral Fellow, American Council of Education
Jordan, Jocelyn T., Adjunct Faculty, College Prep., Reading, East Campus; B.S., Florida Southern College
Jordan, Robert K., Adjunct Faculty, Language Arts, West Campus; B.A., University of South Florida; M.A., University of South Florida
Jorgensen, Carol B., Adjunct Faculty, Medical Records Transcribing, West Campus
Judson, Robert W., Jr., President, B.S., Florida A&M University; M.Ed., Florida A&M University; E.D.D., University of Florida
Kaas, Gordon A., Adjunct Program Consultant, Building Construction Technology, West Campus; A.S., Pasco-Hernando Community College; B.S., Ferris State College
Kalinowski, Catherine A., Adjunct Faculty, History, Dual Enrollment, East Campus; B.A., University of South Florida; M.A., University of South Florida
Kanavan, Patricia E., Adjunct Faculty, College Prep., Mathematics, West Campus; B.A., SUNY College at Potsdam
Kasen, David A., Purchasing Agent; B.A., University of South Florida
Kelly, David L., Computer Operator
Kendig, Harlow E., Jr., Director, Management Information Services
Ken, Lisa A., Instructor, PN, West Campus; B.S., Fordham University; B.S.N., The College of New Rochelle
Kingsbury, Denise N., Adjunct Faculty, Medical Terminology, North Campus
Kirkley, Donald W., Adjunct Faculty, Photography, East Campus
Kirst, Charles R., Adjunct Faculty, Mathematics, East Campus; B.S., Concordia Teachers College; M.S., University of Notre Dame
Knight, Jean E., Adjunct Faculty, Biological Science, West Campus; B.A., University of South Florida; M.A., University of South Florida
Kochis, Patrice M., Adjunct Faculty, Medical Records, North Campus
Kranz, Carla M., Professor, Humanities, West Campus; B.A., Slippery Rock State College; M.M., University of South Florida
LaMarca-Franke, Constance A., Associate Professor, Humanities, East Campus; B.A., Hofstra University; M.F.A., University of Wisconsin
Lamond, Kathleen, Adjunct Faculty, Hospitality Management, West Campus; B.A., New York University; M.A., New York University
Lane, Rosemarie, Case Manager, Wages Coalition, West Campus; B.A., St. Leo College
Larkin-Dobberly, Susan, Coordinator of Continuing Education, East Campus; B.A., Florida Atlantic University
Larsen, Milton K., Assistant Supervisor, Grounds
Lederer, Karen, Adjunct Faculty, Computer Programming & Applications, West Campus; B.A., Eckerd College; M.S., University of Southern Mississippi
LeMay, Gloria J., Adjunct Faculty, Language Arts, West Campus; B.A., St. Petersburg Junior College; B.A., University of South Florida; M.L.A., University of South Florida
Leonard, James K., Adjunct Faculty, Language Arts, West Campus; A.A., St. Petersburg Junior College; B.A. University of South Florida; M.A., University of South Florida
Lewandowski, Leonard S., Programmer/Analyst II; B.A., Canisius College; M.S., Canisius College; M.S., University of North Carolina
Lewis, Carol A., Personnel Specialist, A.A.; Pasco-Hernando Community College
Liola, Eugene A., Assistant Director of Admissions & Student Records; B.A., Rutgers University
Maciocha, Thomas W., Case Manager, Wages Coalition, West Campus; B.B.A., North Texas State University; M.S., Canisius College
Mackley, Paul A., I, Industrial Technician, Science, West Campus; A.A., Pasco-Hernando Community College; B.S., University of South Florida
Maday, John M., Programmer/Analyst II; Certificate, Saginaw Business Institute
Magonis, Bill, Professor, Business Administration, West Campus; B.S., Fairleigh Dickinson University; M.B.A., Fairleigh Dickinson University; Ed.D., University of Northern Colorado; C.P.A.
Malka, Michael, Director, Admissions and Student Records; A.B., The University of Michigan; M.F.A., University of California
Manning, Darrell W., Adjunct Faculty, Law Enforcement, East Campus; A.S., St. Petersburg Junior College; B.A., St. Leo College; M.S., Nova University
Marciano, Patricia A., Adjunct Faculty, College Prep, Mathematics, West Campus; B.A., St. Johns University; M.S., St. Johns University
Marsh, Robert G., Adjunct Faculty, Anthropology, North Campus; B.S., University of Tampa; M.A., University of South Florida
Masiunas, Lydia A., Associate Professor, Nursing, East Campus; B.S.N., Barry University; M.S., University of South Florida
Matheny, Susan M., Learning Lab Coordinator, West Campus; B.S., Millersville State College; M.A., Long Island University
May, John L., Professor, Physical Science/Chemistry, North Campus; A.A., St. Petersburg Junior College; B.S., University of Florida; Ph.D., University of South Florida
May, Michael E., Associate Supervisor, Physical Facilities
McCabe, Sharon J., Adjunct Faculty, Humanities, West Campus; A.A., Pasco-Hernando Community College; B.A., University of South Florida; M.A., University of South Florida
McDermott, Caryn G., Adjunct Faculty, English, Dual Enrollment, East Campus; B.A., SUNY at Binghamton; M.A., University of Florida
McGehee, Hugh C., Adjunct Faculty, Real Estate, North Campus; A.B., Seton Hall University
McKendree, Mary M., Adjunct Faculty, Sociology, East Campus; A.A., Hillsborough Community College; B.A., University of South Florida; M.A., University of South Florida
McLay, Gregory W., Monitor/Planner/Administrative Assistant, Career Centers; A.A., Central Florida Community College; B.A., St. Leo College
McLay, Jack E., Director, Law Enforcement and Corrections Programs, East Campus; B.S.C., Ohio University
Mercer, Lorelta L., Adjunct Faculty, Human Services, West Campus; B.S., Radford University; M.S.W., Virginia Commonwealth University
Merrinweather, Larry, Instructor/Coordinator, Law Enforcement Programs, East Campus; A.S., Nassau Community College; B.A., Adelphi University; M.P.A., Long Island University
Miller, Linda A., Coordinator of Internal Budget, Risk Management, and Reports; B.A., Florida State University
Miller, Lucy B., Technical Admissions Specialist; B.A., California State College
Miller, Mary E., Case Manager, Career Center, West Campus
Monsuan, Marie T., Outreach Coordinator; B.A., Cardinal Cushing College; M.A., The Catholic University of America
Moore, Carol, Adjunct Faculty, English, East Campus; A.A., St. Petersburg Junior College; B.A., University of South Florida; M.A., University of South Florida; J.D., Stetson Law School
Morgan, Michael M., Adjunct Faculty, Fire Science, East Campus; A.S., St. Petersburg Junior College
Morrison, John J., Adjunct Faculty, Air Science, East Campus
Moses, William L., Professor, Psychology, West Campus; A.B., Mercer University; M.A., University of South Florida; Ph.D., University of Florida
Mulieri, Patricia A., Professor, Language Arts, West Campus; A.A., State University of New York; B.A., State University of New York; M.S., Hofstra University; Ed.D., Nova University
Mundinger, Wilma D., Adjunct Faculty, Office Systems Technology, West Campus; B.A., Wheaton College
Nall, Kenneth R., Professor, Marketing Management/Business Administration, West Campus; A.A., St. Petersburg Junior College; B.A., University of South Florida; M.S., Nova University
Nave, Patience C., Adjunct Faculty, Language Arts, North Campus; B.A., Western Kentucky University; M.A., Western Kentucky University
Nelson, Richard E., Adjunct Faculty, College Prep, Reading, West Campus; B.A., Westminster College; M.Ed., Temple University
Newhouse, Dwight H., Professor, Mathematics, West Campus; B.A., University of South Florida; M.A., University of South Florida; Ph.D., University of South Florida
Nickels, Frank L., Professor, Business Administration/Office Systems Technology, West Campus; B.A., University of South Florida; M.B.E., University of Mississippi; M.B.A., Nova University; Ed.D., Nova University
Nigrelli, Vito S., Adjunct Faculty, Business Administration & Marketing, West Campus; B.S., University of Notre Dame; M.B.A., University of Chicago
Novak, Leroy E., Associate Professor, College Prep, Mathematics, West Campus; B.S., Mankato State University; M.S., Mankato State University
O'Berry, Cheryl W., Professor, Business Administration/Office Systems Technology, East Campus; A.A., Pasco-Hernando Community College; B.A., St. Leo College; M.A., University of South Florida
Oesch, Gary R., Adjunct Faculty, Psychology, East Campus; A.A., Pasco-Hernando Community College; B.A., University of South Florida; M.A., University of West Florida
Oles, Patricia E., Associate Professor, Nursing, West Campus; B.S.N., Rutgers University; M.S.N., Seton Hall University
O'Neal, Derryl B., Adjunct Faculty, Fire Science Technology, East Campus; A.S., Pasco-Hernando Community College; A.A., Pasco-Hernando Community College
O'Neill, Paula R., Adjunct Faculty, Business/Computer Programming, East Campus; B.S., Southwest Missouri State University; M.S., National-Louis University
O’Reilly, Carol L., Case Manager, Career Center, West Campus; B.A., St. Francis College; M.A., University of South Florida
